DIVISION D—FINANCIAL SERVICES AND GENERAL GOVERNMENT APPROPRIATIONS ACT, 2009

Following is an explanation of the effects of division D, relating to the Financial Services and General Government Appropriations Act, 2009.

REPROGRAMMING GUIDELINES

The bill includes a provision (section 608) establishing the authority of agencies to reprogram funds and the limitations on that authority. The provision specifically requires the advance approval of the House and Senate Committees on Appropriations of any proposal to reprogram funds that meets specified criteria.

Each agency is required to submit an operating plan to the House and Senate Committees on Appropriations not later than 60 days after the enactment of this Act. This operating plan establishes the baseline for application of reprogramming and transfer authorities provided in this Act. Specifically, each agency should provide a table for each appropriation with columns displaying the budget request; adjustments made by Congress; adjustments for rescissions, if appropriate; and the fiscal year enacted level. The table shall delineate the appropriation both by object class and by program, project, and activity. The report must also identify items of special congressional interest.

Agencies should submit reprogramming requests in a timely manner and provide a thorough explanation of the proposed reallocations, including a detailed justification of increases and reductions and the specific impact the proposed changes will have on the budget request for the following fiscal year. Except in emergency situations, reprogramming requests should be submitted no later than June 30. When an agency submits a reprogramming or transfer request to the Committees on Appropriations and does not receive identical responses from the House and the Senate Committees, it is the responsibility of the agency to reconcile the House and the Senate differences before proceeding, and if reconciliation is not possible, to consider the request to reprogram funds denied.

AGENCY REPORTS

As a measure to reduce costs and conserve paper, agencies funded by this Act that currently provide separate copies of periodic reports (such as Performance and Accountability Reports) to the Chairs of the House and Senate Appropriations Committees and Subcommittees on Financial Services and General Government, and also to the Ranking Members of the Committees and Subcommittees, should send only one copy jointly addressed to the Chairs of the Committee and Subcommittee and one copy jointly addressed to the Ranking Members of the Committee and Subcommittee (separate copies should be sent to the House and the Senate). This will reduce by half (from eight to four) the copies of periodic reports agencies send to the Committees.

COMPARISONS

Comparisons between amounts provided by this Act, amounts enacted for fiscal year 2008, and amounts requested by the President may be found in the table at the end of this division.

TITLE I

DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$278,870,000 for departmental offices salaries and expenses.

For the activities under this heading, the bill provides the following funding levels:

Executive Direction	\$21,619,000
Economic Policies and Programs	45,910,000
Financial Policies and Pro- grams	36,039,000
Terrorism and Financial Intelligence	62,098,000
Treasury-wide Manage- ment	21,600,000
Administration	91,604,000

Within the Financial Policies and Programs budget activity, the bill provides an increase of \$500,000 above the amount assumed in the budget request for the Department's Office of Financial Education. The Department is directed to target this increase toward financial education efforts aimed at elementary and high schools, as well as efforts aimed at combating predatory lending.

Within the funds provided for the Office of Foreign Assets Control (OFAC), not less than \$300,000 is provided to increase, above fiscal year 2008 levels, efforts to reduce the backlog of OFAC Freedom of Information Act requests.

The bill includes a provision allowing the Department to transfer up to 4 percent of funds available between budget activities upon notification of the House and Senate Committees on Appropriations. Transfers in excess of 4 percent may be made upon approval of the Committees on Appropriations.

The Department is directed to submit to the House and Senate Committees on Appropriations an operating plan for the fiscal year 2009 resources provided to the Department, including all offices and bureaus, not more than 60 days after enactment of this Act. This requirement is further addressed by section 608 of this Act. The plan must include information on program increases and major procurements at the Department. The operating plan should incorporate input from all senior level managers of the Department, and once submitted, the final plan should be made available to those managers.

The bill includes funding for the Department's Office of General Counsel within the Executive Direction budget activity, rather than as a separate budget activity. The Department is directed to include, in its budget submission for fiscal year 2010, information on actual fiscal year 2008 costs, estimated fiscal year 2009 costs, and estimated fiscal year 2010 costs associated with the Office of General Counsel.

As a result of the Emergency Economic Stabilization Act of 2008 (EESA) and other actions to stabilize the financial markets, the Department's responsibilities and activities have substantially and rapidly increased. The Department is expected to properly account for spending between amounts appropriated in the bill for specified activities and activities funded by direct spending authority under EESA.

The Department is also expected to address the recommendations provided by the Government Accountability Office (GAO) in the report titled "Troubled Asset Relief Program: Additional Actions Needed to Better Insure Integrity, Accountability, and Transparency" (GAO-09-161). Specifically, the Department is directed to implement reporting requirements to link the use of funds with the specified goals of EESA, to improve communications with Congress and the public, to monitor compliance with limitations on executive compensation, and to establish procedures for comprehensive oversight of contracts. The Committees on Appropriations

are particularly concerned with the reliance on "time and materials" contracts, as the GAO has cited that these types of contracts present a high risk for the government because they provide no positive incentive to control for costs. The Department is directed to brief the Committees on Appropriations regularly on activities relating to EESA.

The Department is directed to fully exercise its authority under EESA and its other authorities to reduce the amount of mortgage defaults and foreclosures. Preventing foreclosure is not only a key step to providing stability to domestic and global financial markets, it also will help keep American families in their homes during the economic crisis.

The Committees on Appropriations are greatly concerned by the resource allocation decisions being made by OFAC, as noted in a November 2007 report from GAO. OFAC's resource allocation decisions should be made on the basis of the most pressing national security threats facing the United States. OFAC is responsible for administering and enforcing more than 20 economic and trade sanctions programs, based on U.S. foreign policy and national security goals, against targeted foreign countries, terrorists, international narcotics traffickers, and proliferators of weapons of mass destruction. Yet, as the GAO report points out, Cuba embargo-related cases comprised 61 percent of OFAC's investigatory caseload from 2000 through 2006. In contrast, Cuba embargo-related cases comprise a minor part of the investigation caseloads of the Commerce Department's Bureau of Industry and Security (BIS)/Office of Export Enforcement and the Department of Homeland Security's Bureau of Immigration and Customs Enforcement (3 percent and 0.2 percent, respectively).

In addition, OFAC penalties for Cuba embargo violations represented more than 70 percent of OFAC's total penalties between 2000 and 2005. The report notes that most of these penalties were for infractions such as purchasing Cuban cigars. By contrast, Cuba embargo penalties comprised just 0.16 percent of the total penalties of BIS during the period of 2002–2006. The Commerce Department, the Department of Homeland Security's Bureau of Immigration and Customs Enforcement, and the Justice Department reported undertaking relatively few investigations, penalties, and prosecutions of Cuba embargo violations.

The Committees on Appropriations strongly concur with GAO's recommendation that the Secretary of the Treasury direct OFAC to assess its allocation of resources for investigating and penalizing violations of the Cuba embargo with respect to the numerous other sanctions programs OFAC administers. The Department is directed to report to the House and Senate Appropriations Committees, within 90 days of enactment of this Act, as to the steps it is taking to assess OFAC's allocation of resources, along with any plans to reallocate OFAC resources. As part of such report, the Department is additionally directed to provide the following information:

(1) for each fiscal year from 2001 to 2008, the following information related to OFAC's Cuba-related licensing:

- the number of family travel licenses issued, as well as the number denied;
- the number of religious travel licenses issued, as well as the number denied;
- the number of academic travel licenses issued, as well as the number denied;
- the number of licenses issued for the various categories of permissible travel;

- the number of licenses denied for the various categories of permissible travel;
- the number of fines issued;
- the average amount of fines;
- the total amount (in dollars) of fines issued per violation category;
- the number of Cuba travel service providers receiving licenses;
- the names of Cuba travel service providers receiving licenses;
- the number of Full-time Equivalents (FTE) used for issuing Cuba licenses; and
- the number of FTE used for issuing licenses for Cuba travel service providers;

(2) for each fiscal year from 2001 to 2008, the following information related to OFAC enforcement of the Cuba embargo:

- the number of FTE used for Cuba embargo enforcement;
- the number of fines issued;
- the average amount of fines;
- the total amount (in dollars) of fines issued, per violation category;

- the number of cases heard by OFAC Administrative Law Judges, along with information on whether these judges were OFAC's own, or whether they were borrowed from other Government agencies;

- the average fine in these cases; and
- the total amount (in dollars) of fines issued by these judges;

(3) for each fiscal year from 1990 to 2008, the following information related to OFAC enforcement of the Cuba embargo:

- the total amount of fines collected in each year;
- the number of travelers engaged in illegal travel to Cuba and apprehended, as reported to OFAC, along with statistics as to the points-of-entry where travelers were apprehended;

- the number of cases against travelers that were/are disputed by the traveler;

- the number of these cases that are settled;

- the average settlement amount; and
- the average time from the first notice sent to the traveler until final settlement was reached;

(4) for fiscal years 2007 and 2008, the number of FTE devoted to OFAC enforcement in the area of Foreign Terrorist Organizations.

The Department is directed to fully implement the sanctions and divestment measures specified in the Sudan Accountability and Divestment Act of 2007 as well as all other sanctions and divestment measures applicable to Sudan, Burma, Iran, and Zimbabwe. The Department is further directed to promptly notify the Appropriations Committees of any resource constraints that adversely impact the implementation of these sanctions programs.

Given Iran's failure to fully cooperate with International Atomic Energy Agency inspections and various resolutions passed by the United Nations Security Council, as well as continuing deficiencies in Iran's anti-money laundering and counter-terrorist financing procedures, the Department is urged to continue working with other cognizant Federal agencies and international organizations, including the Financial Action Task Force, to help deter Iran's support for weapons proliferation.

A July 2007 GAO report found that while the Department has established many of the capabilities needed to select, control, and evaluate its information technology (IT) investments, the Department has significant weaknesses that hamper its ability to effectively manage its investments. The Department has since initiated efforts to improve its IT investment management process and

recognizes the need to take proactive steps to strengthen its investment board operations and oversight. The Department is directed to continue improving the management of its capital investments, specifically focusing on integrating all of the Department's bureaus into improvement efforts and institutionalizing improvements so that taxpayers will benefit from better management of future capital projects. The Department is further directed to report to the House and Senate Committees on Appropriations on a quarterly basis, beginning not later than 90 days after the date of enactment of this Act, on any planned or implemented improvements in the area of Treasury's IT investments, including progress in addressing GAO's recommendations. The Department is further directed to ensure that adequate resources are devoted both to projects in the capital phase and to proper maintenance and modernization of existing systems.

DEPARTMENT-WIDE SYSTEMS AND CAPITAL INVESTMENTS PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$26,975,000 for systems and capital investments.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The bill provides \$26,125,000 for the Office of Inspector General. The bill provides additional funds above the budget request for the increased workload associated with Material Loss Reviews.

The Inspector General of the Treasury, with respect to the Office of Thrift Supervision and the Comptroller of the Currency; the Inspector General of the Federal Deposit Insurance Corporation, with respect to the Corporation; and the Inspector General of the Securities and Exchange Commission, with respect to the Commission, are encouraged to fully investigate how any policies, actions, or supervisory roles of such agencies might have contributed to the mortgage foreclosure crisis.

TREASURY INSPECTOR GENERAL FOR TAX ADMINISTRATION

SALARIES AND EXPENSES

The bill provides \$146,083,000 for salaries and expenses of the Treasury Inspector General for Tax Administration (TIGTA).

FINANCIAL CRIMES ENFORCEMENT NETWORK

SALARIES AND EXPENSES

The bill provides \$91,465,000 for salaries and expenses of the Financial Crimes Enforcement Network.

The Department is directed to focus management, regulatory, and enforcement efforts on the consistency of Suspicious Activity Reports.

TREASURY FORFEITURE FUND

(RESCISSION)

The bill includes a rescission of \$30,000,000 of unobligated balances in the Treasury Forfeiture Fund.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The bill provides \$239,785,000 for salaries and expenses of the Financial Management Service.

ALCOHOL AND TOBACCO TAX AND TRADE

BUREAU

SALARIES AND EXPENSES

The bill provides \$99,065,000 for salaries and expenses of the Alcohol and Tobacco Tax and Trade Bureau. Within this amount, \$2,000,000, available until September 30, 2010, is provided to enable the bureau to begin imple-

mentation of comprehensive lifecycle planning for information technology equipment.

UNITED STATES MINT

UNITED STATES MINT PUBLIC ENTERPRISE FUND

The bill provides that not more than \$42,150,000 in new liabilities and obligations may be incurred during fiscal year 2009 for circulating coinage and protective service capital investments of the U.S. Mint.

BUREAU OF THE PUBLIC DEBT ADMINISTERING THE PUBLIC DEBT

The bill provides \$187,352,000 for costs associated with administering the public debt. The bill directs that \$10,000,000 in user fees be used to offset the appropriated amounts.

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS FUND PROGRAM ACCOUNT

The bill provides \$107,000,000 for the Community Development Financial Institutions (CDFI) Fund program. Within this amount, \$8,500,000 is for technical assistance and other purposes for Native American, Native Hawaiian, and Alaskan Native communities.

In addition, of the funds provided, \$2,000,000 is included for a new competitive grants pilot program at the Department, aimed at providing financial counseling services to prospective homebuyers, as authorized by the Housing and Economic Recovery Act of 2008 (Public Law 110-289). In developing the competitive grants process, the Department is directed to consult with other Federal agencies and public and private organizations with expertise in community-based financial counseling programs.

The Department is directed to fund the Bank Enterprise Award program at a level not less than \$22,000,000.

Poverty, lack of economic opportunity, and lack of low-cost financial services continue to be problems across much of the Nation, particularly in many Hispanic-American, African-American, Native American, Asian American, Pacific Islander, Alaskan Native, and other minority communities. The House and Senate Committees on Appropriations appreciate the ongoing efforts of the CDFI Fund to work to remedy the particular problems in these communities and strongly encourage the CDFI Fund to continue to place a heavy emphasis on these efforts.

INTERNAL REVENUE SERVICE

TAXPAYER SERVICES

The bill includes \$2,293,000,000 for Taxpayer Services, an increase of \$143,000,000 above both the request and the amount provided in fiscal year 2008. The increase above the budget request is in addition to, and not a substitute for, the \$127,000,000 in user fee collections that the Internal Revenue Service (IRS) estimated in its fiscal year 2009 budget request would be available to supplement the Taxpayer Services account. Within the overall amount, not less than \$9,500,000 is for low-income taxpayer clinic grants, and not less than \$5,100,000 is for the Tax Counseling for the Elderly Program. Not less than \$193,000,000 is provided for operating expenses of the IRS Taxpayer Advocate Service (TAS).

In addition, within the overall amount provided, \$8,000,000, available until September 30, 2010, is included to continue the Community Volunteer Income Tax Assistance matching grants program. In administering this program, the IRS is not permitted to treat any in-kind contributions from the IRS as counting toward the \$8,000,000 appropriation, nor shall the IRS reduce any current contributions toward tax return preparation services.

Within the overall funds provided, the IRS is expected to devote funding to maintaining

its processing of essential pension plan return information while transitioning to a new mandated electronic filing system in 2010.

Of the increase above the budget request, \$38,000,000 is directed to be targeted toward the following activities within the Pre-filing Taxpayer Assistance and Education budget activity: (1) increasing IRS outreach and education activities, for individuals, businesses, and tax-exempt entities, above the levels assumed in the fiscal year 2009 budget request, (2) enhancements to IRS face-to-face service, and (3) enhancements to the IRS 1-800 help line service. The Department is directed to include, in its fiscal year 2009 operating plan, a specific plan for increasing these activities above the levels assumed in the budget request. For purposes of comparison, the plan should include: (1) details on the funding levels and full-time equivalents (FTEs) assumed in the fiscal year 2009 budget request for these activities, and (2) funding levels and FTEs for these activities as funded by this Act. The IRS is directed to add this funding to the IRS base budget and include it in future budget requests. To the maximum extent possible, these funds should go toward increasing the numbers of IRS personnel devoted to these activities.

The IRS is directed to strengthen, improve, and expand taxpayer service overall. If the IRS proposes further reductions in specific taxpayer services, such reductions must be consistent with the budget justification, operating plan, and Taxpayer Assistance Blueprint, and the IRS must demonstrate that such reductions will not result in a decline in voluntary compliance. Where such reductions involve a reduction in face-to-face service, the IRS must demonstrate that the proposed reductions do not adversely impact compliance by taxpayers who are dependent on such services, by showing, through such means as a successful pilot program, survey, or other empirical means, that there is an effective and viable service alternative available.

The IRS, the IRS Oversight Board and the National Taxpayer Advocate are directed to submit annually to the House and Senate Committees on Appropriations an update to the Taxpayer Assistance Blueprint, detailing its implementation status and identifying any changes to the strategic plan for taxpayer service, including the results of any new research and relevant findings, and any open issues requiring additional research. The first update shall be submitted 120 days after enactment of this Act.

The IRS is directed to continue to report to the House and Senate Committees on Appropriations on a quarterly basis, beginning not later than 60 days after the date of enactment of this Act, with updated projections on user fee collections.

The IRS is directed to provide an assessment of lessons learned from the administration of the 2008 economic stimulus program, including recommendations for managing similar programs in the future and minimizing declines in level of core services, to the House and Senate Committees on Appropriations no later than 120 days after enactment of this Act. As part of such report, the IRS should include an analysis of the feasibility, including cost savings, of converting taxpayers who receive paper checks to electronic or debit card payment systems.

Given the remote distance of Alaska and Hawaii from the U.S. mainland and the difficulty experienced by Alaska and Hawaii taxpayers in receiving needed tax assistance by the national toll free line, it is imperative

that the TAS in each of these states is fully staffed and capable of resolving taxpayer problems of the most complex nature. The IRS is directed to continue to staff each TAS Center in each of these states with a Collection Technical Advisor and an Examination Technical Advisor in addition to the current complement of office staff.

There continues to be a steady increase in the number of tax returns filed electronically. Eighty million tax returns were e-filed in 2007. While the IRS did not meet the congressionally-mandated goal of having 80 percent of tax returns filed electronically by 2007, it achieved an overall e-file rate of 65 percent, up over 9 percent. The IRS is directed, in consultation with stakeholders, including the National Taxpayer Advocate, to implement a strategy to achieve the 80 percent e-file goal. This plan should address alternate electronic filing strategies, including Telefile and 2-D Bar Coding and methods of e-filing directly with the IRS for free.

The Department's fiscal year 2009 budget request for the IRS assumes more than \$80,000,000 in efficiency savings. While it is important for the IRS, like all Federal agencies, to explore ways to achieve cost savings, these budget assumptions also carry risks, as the IRS would need to reduce program funding if savings fail to materialize as projected. An August 2007 report from TIGTA noted that savings estimates could not be validated for more than \$146,000,000 in taxpayer service reengineering and program efficiencies initiatives over fiscal years 2006 and 2007. The IRS is directed to report to the House and Senate Committees on Appropriations, within 30 days of enactment of this Act, on the steps it is taking to improve its processes for measuring savings and efficiencies, including steps to address TIGTA's recommendations in this area.

In recent years, the IRS has made progress expanding the availability of IRS services available in languages other than English, including the establishment of a Spanish-language version of "Where's My Refund?" in 2008. However, the IRS Taxpayer Advocate has also expressed concerns in recent years about the lack of availability of certain IRS services, forms, and publications in languages other than English, even though six percent of taxpayers do not speak English at home. The IRS is urged to continue to work to translate a broad range of documents, not just education and outreach materials, but also forms and examination and collection notices.

In addition, an August 2007 TIGTA report showed that for the 2007 filing season, the quality and level of customer service for Spanish-speaking taxpayers was lower than that provided for English-speaking taxpayers. Furthermore, the accuracy rate for tax answers provided by the IRS to Spanish-speaking taxpayers was lower than that for English-speaking taxpayers. The IRS is directed to report to the House and Senate Committees on Appropriations, within 30 days of enactment of this Act, on the status of the quality and level of customer service for Spanish language applications on the IRS 1-800 help line, along with any IRS corrective actions planned or implemented to improve performance.

Many low-income taxpayers and their families are having their Earned Income Tax Credit (EITC) benefits unnecessarily diminished through high-cost, short-term products such as refund anticipation loans (RALs). The IRS is directed, in consultation with the National Taxpayer Advocate, to educate consumers about the costs associated with these

products and expand access to alternative methods of obtaining timely tax refunds.

The IRS, in consultation with the IRS Taxpayer Advocate, is directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on improvements being made in the process for making decisions about Taxpayer Assistance Center services and locations, including progress in addressing the recent recommendations of TIGTA in this area.

The IRS has stated that it would achieve millions of dollars in cost savings as a result of the consolidation of IRS processing centers for paper tax returns. However, an August 2007 TIGTA report showed that the IRS had not provided adequate information about the actual results from the first two processing center closures. In addition, the IRS business decision to consolidate the processing centers did not include a cost-benefit analysis. Consequently, the IRS did not set financial goals for the consolidation, and thus has not had an incentive to determine how efficient its decisions have been. While the IRS has continued to successfully process individual income tax returns while implementing the consolidation, the report cited several unanticipated developments at the Fresno, CA processing site due to increased tax return volume, including delays in processing returns and a possible staffing shortfall. Prior to future processing center closures, the IRS is strongly urged to have the IRS Project Management Office complete a cost-benefit analysis, as recommended by TIGTA, to determine if the existing submission processing consolidation plan is optimal in terms of cost savings and operational effectiveness.

ENFORCEMENT (INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,117,267,000 for Enforcement.

The IRS is directed to report to the House and Senate Committees on Appropriations, within 120 days of enactment of this Act, on the status of efforts to improve IRS's system for identifying paid preparers, including addressing the recommendations of the Government Accountability Office (GAO) in this area.

The IRS is urged to continue to work to avoid unnecessary delays in the issuances of Earned Income Tax Credit (EITC) refunds, as such refunds comprise a significant portion of the annual income of eligible taxpayers. In addition, the IRS is directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on steps it is taking to address the recommendations of the IRS Taxpayer Advocate regarding barriers faced by taxpayers when negotiating the EITC audit process.

An understanding of the causes of inadvertent noncompliance and the role of preparers in facilitating both inadvertent and intentional noncompliance will improve tax administration and should inform IRS's allocation of resources. The IRS, in administering its National Research Program (NRP) for fiscal year 2009, is directed to collect information on the causes of noncompliance, including inadvertent noncompliance, the type of return preparation method (self, volunteer, paid preparer, or IRS preparer), whether the taxpayer was represented during the examination, and the extent to which that taxpayer sought and received IRS services. The IRS is further directed to use an independent external survey firm to conduct interviews with NRP taxpayers in order to identify the causes of taxpayer noncompliance. The National Taxpayer Advocate is directed to assist with this effort.

Many types of vehicles, such as fire engines, garbage trucks, utility trucks, farm vehicles, cement trucks, dump trucks, and tow trucks use their main engine to run auxiliary equipment, which is known as "power take-off." However, current IRS regulations prohibit taxpayers from taking a credit or claiming a refund for Federal fuel excise tax paid on fuel used to power the main propulsion engine for power take-off. The IRS is encouraged to consider issuing a rule to address this issue, in order to encourage fuel efficiency and reduce emissions.

OPERATIONS SUPPORT

The bill provides \$3,867,011,000 for Operations Support. Of the funds provided, up to \$75,000,000 is available until September 30, 2010 for information technology support and \$1,000,000 is available until September 30, 2011 for research. In addition, not less than \$2,000,000 is provided for the IRS Oversight Board.

In addition to the normal operating plan requirements detailed in the introduction to this division of the statement, the IRS is directed to include in its fiscal year 2009 operating plan details on any planned reorganization, job reductions or increases to offices or activities within the agency, and modifications to any service or enforcement activity. The IRS is additionally directed to obtain comments on the operating plan from the IRS Oversight Board and to provide a summary of the comments as part of the operating plan submission to the House and Senate Committees on Appropriations. Further, the IRS should promptly notify the Committees on Appropriations and the IRS Oversight Board if there are any substantial changes to these plans.

The Appropriations Committees continue to support adequate staffing levels for effective tax administration and support the staffing plans for the IRS facilities in the communities of Martinsburg and Beckley, West Virginia. The IRS is urged, within the constraints of the fiscal year 2009 funding levels, to make no staffing reductions at the Martinsburg National Computing Center and the programmed level at the Finance Center in Beckley, West Virginia. Further, the IRS is directed to provide an annual report to the House and Senate Committees on Appropriations on its efforts to protect and increase staffing levels at the Martinsburg and Beckley IRS facilities.

Given the strong and legitimate concerns that continue to be raised by Congress, GAO, TIGTA, and others regarding information security vulnerabilities at the IRS and the IRS's handling of cases of identity theft, the IRS is directed to report to the House and Senate Committees on Appropriations within 60 days of enactment of this Act as to the status of its efforts at improvement in these areas.

A September 2007 GAO report noted that there are significant problems in the management of paper case files at the IRS. In particular, the report noted that the IRS does not have an effective process for ensuring that paper case files can be located within the requesters' time frames, frequently causing unnecessary taxpayer burden and hindering the oversight efforts of Congress, GAO, TIGTA, and others. The IRS has agreed it needs to review its paper case file management program and has formed a cross-functional working group to identify improvements and consider GAO's recommendations. The IRS is directed to report to the House and Senate Committees on Appropriations, within 60 days of enactment of this Act, on progress IRS is making in improving its paper case file management.

BUSINESS SYSTEMS MODERNIZATION

The bill provides \$229,914,000 for Business Systems Modernization (BSM). Language is included requiring approval by the House and Senate Committees on Appropriations of a GAO-reviewed expenditure plan for BSM prior to the obligation of the funds, except in the case of funds for IRS labor costs. The Department is directed to notify the House and Senate Committees on Appropriations, within seven days, if BSM management funds are reallocated to the capital asset acquisition program.

As one of the Federal Government's largest, most visible, and sensitive modernization efforts, managing the risks inherent in BSM will continue to require vigilant management attention for several years. To the IRS's credit, the program has made steady progress over the past few years. At the same time, however, GAO has noted that three recent BSM project milestones experienced significant cost or schedule delays. In addition, future releases, especially the Customer Account Data Engine and Accounts Management Services projects, continue to face significant risks and issues that could impact overall cost and schedule estimates. The IRS is urged to work diligently to improve the BSM program, including efforts to address the related concerns highlighted by GAO and TIGTA, and to immediately report to the House and Senate Committees on Appropriations any delays or cost overruns associated with BSM efforts.

HEALTH INSURANCE TAX CREDIT ADMINISTRATION

The bill provides \$15,406,000 for administration of the Health Insurance Tax Credit program.

ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

(INCLUDING TRANSFER OF FUNDS)

The bill includes the following administrative provisions:

- section 101 providing transfer authority;
- section 102 requiring IRS to maintain training in taxpayer rights;
- section 103 requiring IRS to safeguard taxpayer information;

- section 104 permitting funding for 1-800 help line services and directing the Commissioner to make improving phone service a priority;

- section 105 directing that, of the funds made available by this Act to the IRS, not less than \$6,997,000,000 shall be available for tax enforcement, and that an additional \$490,000,000 shall be available for enhanced tax law enforcement; and

- section 106 prohibiting funds made available in this Act from being used to enter into, renew, extend, administer, implement, enforce, or provide oversight of any qualified tax collection contract (as defined in section 6306 of the Internal Revenue Code).

ADMINISTRATIVE PROVISIONS—DEPARTMENT OF THE TREASURY

(INCLUDING TRANSFERS OF FUNDS)

The bill includes the following administrative provisions:

- section 107 allowing Treasury to use funds for certain specified expenses, including uniforms or allowances therefor, motor vehicles, motor vehicle insurance, health insurance for employees serving in foreign countries, and services authorized by 5 U.S.C. 3109;

- section 108 allowing for the transfer of up to 2 percent of funds between Departmental Offices and the various Treasury bureaus, except the IRS;

- section 109 allowing for the transfer of up to 2 percent from the IRS accounts to TIGTA;

- section 110 directing that the purchase of vehicles be consistent with vehicle management principles;

- section 111 prohibiting funding to redesign the \$1 note;

- section 112 allowing for the transfer of funds from 'Financial Management Service, Salaries and Expenses' to the Debt Collection Fund conditional on future reimbursement;

- section 113 extending a pay demonstration program for one year;

- section 114 prohibiting funds to build a United States Mint museum without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction;

- section 115 prohibiting funding for consolidating the functions of the United States Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction;
- section 116 specifying that funds for Treasury intelligence activities are deemed to be specifically authorized until enactment of the fiscal year 2009 intelligence authorization act; and

- section 117 permitting the Bureau of Engraving and Printing to use up to \$5,000 from the Industrial Revolving Fund for reception and representation expenses.

TITLE II

EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

COMPENSATION OF THE PRESIDENT

The bill provides \$450,000 for compensation of the President, including an expense allowance as authorized by 3 U.S.C. 102.

WHITE HOUSE OFFICE

SALARIES AND EXPENSES

The bill provides \$53,899,000 for the White House Office. This amount includes \$1,400,000 for the White House Office of National AIDS Policy. The Administration is urged to develop and implement a National AIDS Strategy that engages multiple sectors in strategy development, is comprehensive across Federal agencies, sets timelines and assigns responsibility for implementing changes, identifies targets for improved prevention and treatment outcomes and reduced racial disparities, and mandates annual reporting on progress.

EXECUTIVE RESIDENT AT THE WHITE HOUSE

OPERATING EXPENSES

The bill provides \$13,363,000 for the operating expenses of the Executive Residence.

WHITE HOUSE REPAIR AND RESTORATION

The bill provides \$1,600,000 for White House repair and restoration.

COUNCIL OF ECONOMIC ADVISERS

SALARIES AND EXPENSES

The bill provides \$4,118,000 for the Council of Economic Advisers.

OFFICE OF POLICY DEVELOPMENT

SALARIES AND EXPENSES

The bill provides \$3,550,000 for the Office of Policy Development.

NATIONAL SECURITY COUNCIL

SALARIES AND EXPENSES

The bill provides \$9,029,000 for the National Security Council.

OFFICE OF ADMINISTRATION

SALARIES AND EXPENSES

The bill provides \$101,333,000 for the Office of Administration. Included in this amount

is \$5,700,000 for e-mail restoration activities and \$11,923,000 for continued modernization of information technology infrastructure.

The Administration should implement comprehensive policies and procedures for the preservation of all records, including electronic records such as e-mails, consistent with the requirements of the Presidential Records Act, the Federal Records Act, and other pertinent laws. The Office of Administration should also work closely with the National Archives and Records Administration (NARA) to ensure the full and complete maintenance and formatting of electronic records that will eventually be turned over to NARA. The Administration is directed to submit a report to the House and Senate Committees on Appropriations no later than June 30, 2009 describing actions it is taking to ensure such policies and procedures are in place, as well as the estimated costs, by program, activity, and fiscal year, of new systems, staff, or other resources needed to ensure the preservation of electronic Presidential records.

OFFICE OF MANAGEMENT AND BUDGET SALARIES AND EXPENSES

The bill provides \$87,972,000 for the Office of Management and Budget (OMB).

Included in this amount is funding to help OMB avoid further reductions in FTE as well as to help OMB meet its responsibilities related to the Emergency Economic Stabilization Act of 2008 and other Federal efforts to stabilize the economy. In addition, the bill provides funding to maintain and modernize the Federal government's core budgeting system, which is nearly 20 years old. Also included is funding, estimated at \$200,000, for the printing of paper copies of the President's annual budget submission so that Congress can properly and thoroughly evaluate the President's budget proposals. For fiscal year 2009, OMB did not provide Congress with printed copies of the budget request resulting in the Government Printing Office assuming these costs.

The value of Federal contracts has increased significantly in recent years to well over \$400 billion. OMB, through its Office of Federal Procurement Policy, should be playing a central role in coordinating contracting oversight government-wide. However, in recent years, OMB appeared to be more focused on promoting questionable workforce conversion practices rather than vigorous contracting oversight. The Administration is strongly encouraged to refocus OMB's efforts toward effective oversight of Federal contracts.

An April 2008 Government Accountability Office (GAO) report on use of purchase cards found that although purchase cards help agencies lower transaction costs for small purchases and provide procurement flexibility, 41 percent of the transactions made with purchase cards between July 2005 and June 2006 did not follow proper procedures. OMB is directed to report to the Committees on Appropriations within 120 days of enactment of this Act on actions taken to implement GAO's recommendations and improve purchase card internal controls.

OMB, working with the Environmental Protection Agency, should aggressively pursue completion of pending Integrated Risk Information System (IRIS) assessments, such as trichloroethylene (TCE), which has been under review by IRIS since 1998. In 2004, OMB initiated an interagency review of all IRIS assessments. The number of completed IRIS assessments has decreased since OMB, and in particular the Office of Information and Regulatory Affairs, became involved in

the process. According to the GAO, 32 draft assessments were sent for external review in fiscal years 2006 and 2007, but only four IRIS assessments were finalized; an unacceptable number.

The President is urged to establish the Task Force on International Cooperation for Clean and Efficient Technologies as required under section 916 of the Energy Independence and Security Act of 2007 (Public Law 110-140).

OMB is reminded of the report due to Congress no later than March 1, 2009, regarding the extent to which executive departments and agencies that administer directed funding allocate the designated amounts to intended recipients at a level less than specified in any enacted bill or accompanying report.

OFFICE OF NATIONAL DRUG CONTROL POLICY SALARIES AND EXPENSES

The bill provides \$27,200,000 for Office of National Drug Control Policy (ONDCP) salaries and expenses. Of this amount, \$1,300,000 is for policy research and evaluation within the Office of Planning and Budget. This funding should be used to inform policy issues relating to formulation of the National Drug Control Strategy, including attention to demand reduction programs and policies.

The findings of a recent study regarding ONDCP, requested by Congress and completed by the National Academy of Public Administration (NAPA), raise serious issues with the agency's organization and management, as well as the agency's national drug control strategy formulation, coordination, and budget. For example, the NAPA study "found ONDCP's current structure to be less than optimally aligned for the work to be done, highly compartmentalized, and out of balance, with an over-abundance of supervisors, managers, and political appointees."

The strength and diversity of ONDCP's workforce is also a serious concern. From fiscal year 2000 to fiscal year 2008, the agency's workforce declined from 123 to 106, and both racial/ethnicity and female representation have declined significantly as a percentage of the total workforce. Political appointments (with the largest portion being Schedule C appointments) constitute almost a quarter of the workforce at this 'non-partisan' organization, a level greater than other EOP components. Among career staff, the level of turnover in some years has raised concerns about continuity of leadership as well as sufficiency of expertise. Management policies and practices, particularly those relating to human capital, have resulted in a highly centralized and non-transparent structure. More than one-half of ONDCP employees report directly or secondarily to the chief of staff (a non-career SES position), while the deputy director of ONDCP, a Senate-confirmed Presidential appointee, has no supervisory responsibilities.

The NAPA study also looked closely at ONDCP's external relationships, including those with Congress. The Committees on Appropriations have had concerns for some time that ONDCP often disregards the intent of Congress. As an example, the Committees have expressed displeasure and frustration with how ONDCP approached a reorganization of its budget and Counterdrug Technology Assessment Center offices and its refusal to reverse the reorganization in spite of statutory law and directives. As the NAPA study noted, "[r]efusing to comply with statutory requirements, while not making the necessary efforts to resolve these issues with Congress, only serves to increase frustrations on both sides." NAPA goes on to recommend that ONDCP be more engaged in ad-

ressing such issues with Congress. Improved communication and cooperation between ONDCP and Congress is possible if such efforts are made.

The NAPA study contains many additional observations and recommendations. The Administration and ONDCP leadership are strongly encouraged to consider these recommendations as they review the goals, organization, and management of the agency.

Methamphetamine production, trafficking and abuse continue to be a serious problem. ONDCP should continue its efforts to work with various agencies, such as the Departments of Justice, State, Homeland Security and Health and Human Services, along with state and local governments, to develop and implement strategies to reduce the demand for and supply of methamphetamine in the U.S.

COUNTERDRUG TECHNOLOGY ASSESSMENT CENTER (INCLUDING TRANSFER OF FUNDS)

The bill provides \$3,000,000 for the Counterdrug Technology Assessment Center (CTAC) for counter-narcotics research and development. The bill requires a detailed spending plan for the use of these funds be submitted no later than 90 days after enactment of the Act.

In fiscal year 2003, the CTAC research and development program was appropriated \$22,000,000 (in addition, the Technology Transfer Program was funded under CTAC at \$26,000,000). Since that time, budget constraints and concerns about the direction and leadership of CTAC have resulted in dramatically reduced funding levels. The Committees on Appropriations are hopeful that new leadership at ONDCP and CTAC will reinvigorate this program so that this once-valuable program will again flourish.

FEDERAL DRUG CONTROL PROGRAMS HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$234,000,000 for the High Intensity Drug Trafficking Areas Program (HIDTA). Of the funds provided, \$2,100,000 is provided for audit activities, including \$250,000 for the continued operation and maintenance of the Performance Management System.

The bill requires that HIDTAs existing in fiscal year 2009 receive funding at least equal to the fiscal year 2008 initial allocation level or \$3,000,000, whichever is greater. The fiscal year 2009 initial allocation level (before the distribution of discretionary funds) may not exceed \$47,457,447.

The total amount provided assumes \$15,939,987 in discretionary funds for the HIDTA program. ONDCP is directed to work closely with the HIDTA Directors to develop a framework for the use of these discretionary funds. Funding is provided within this amount to provide for a program adjustment for HIDTAs that qualify under performance measurement criteria. This program adjustment should be added to the baseline for the initial allocation levels that will be received by HIDTAs in fiscal year 2010.

ONDCP is directed to transfer HIDTA funds to the appropriate drug control agencies expeditiously. On November 14, 2008, ONDCP sent a letter to HIDTAs stating that the distribution of initial allocation funding would be completed within 45 days of enactment of the fiscal year 2009 appropriation. The bill includes a requirement consistent with this timetable. The bill also includes a requirement that ONDCP submit its recommendations on discretionary funding for

approval to the House and Senate Committees on Appropriations within 90 days of enactment of this Act. The timely review and transfer of both initial allocation funding and discretionary funding will significantly improve the ability of HIDTAs to manage these funds.

The HIDTA funds should not be used to supplant existing support for ongoing Federal, state, or local drug control operations normally funded out of the operating budgets of each agency. ONDCP is directed to withhold all HIDTA funds from a state until such time as a state or locality has met its financial obligation for ongoing operations.

As a result of the many new counties established with fiscal year 2007 funds, ONDCP funding no funding for new counties in fiscal year 2008 with the Committees' concurrence. For fiscal year 2009, discretionary funds may be provided for new counties if ONDCP and the HIDTA Directors determine that the need is warranted and the appropriate criteria have been met. As with all discretionary funds, ONDCP should follow the consultation and approval process with the Committees with regard to any new county funding.

OTHER FEDERAL DRUG CONTROL PROGRAMS (INCLUDING TRANSFER OF FUNDS)

The bill provides \$174,700,000 for Other Federal Drug Control Programs. The following allocations are made within the amount provided:

[In thousands of dollars]

National Youth Anti-Drug Media Campaign	\$70,000
Drug-Free Communities Support Program	90,000
National Drug Court Institute	1,250
National Alliance for Model State Drug Laws	1,250
U.S. Anti-Doping Agency	9,800
World Anti-Doping Agency Membership Dues	1,900
Performance Measures Development	500

Of the amount provided for the media campaign, at least \$8,000,000 is available for methamphetamine prevention messages.

The bill maintains funding for non-advertising services for the Media Campaign at no less than the fiscal year 2003 ratio of service funding to total funds. These activities should continue to include special initiatives designed to reach Hispanic audiences and engage private sector participation in the program.

As noted, the bill provides \$1,250,000 to the National Alliance for Model State Drug Laws (NAMSDL). ONDCP is directed to provide the entire amount directly to NAMSDL within 30 days of enactment of this Act.

Performance measures funding is used to conduct evaluation research for assessing the effectiveness of the National Drug Control Strategy. The bill provides \$500,000 for this program and directs ONDCP to outline and submit to the House and Senate Committees on Appropriations a detailed plan for projects that assess the effectiveness of the strategy in achieving its goals and objectives, and develop and improve needed data sources, including specific funding levels, no later than 120 days after enactment of this Act.

UNANTICIPATED NEEDS

The bill provides \$1,000,000 for Unanticipated Needs, to remain available until September 30, 2010. These funds enable the President to meet unanticipated emergencies in support of the national interest, security, or defense.

PRESIDENTIAL TRANSITION ADMINISTRATIVE SUPPORT

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$8,000,000 for the Presidential Transition Administrative Support account, which supplements other administrative resources of the Executive Office of the President in support of the transition to the next Presidential Administration.

SPECIAL ASSISTANCE TO THE PRESIDENT SALARIES AND EXPENSES

The bill provides \$4,496,000 for Special Assistance to the President.

OFFICIAL RESIDENCE OF THE VICE PRESIDENT OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$323,000 for operating expenses of the official residence of the Vice President.

ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

(INCLUDING TRANSFER OF FUNDS)

Section 201 provides transfer authority between "White House Office", "Executive Residence at the White House", "White House Repair and Restoration", "Council of Economic Advisers", "National Security Council", "Office of Administration", "Office of Policy Development", "Special Assistance to the President", and "Official Residence of the Vice President."

Section 202 requires a detailed narrative and financial plan to be submitted by ONDCP to the Committees on Appropriations not later than 60 days after enactment of this Act.

Section 203 specifies that not to exceed 2 percent of ONDCP appropriations may be transferred between appropriated programs upon advance approval of the Committees on Appropriations.

Section 204 specifies that not to exceed \$1,000,000 of ONDCP appropriations may be reprogrammed upon advance approval of the Committees on Appropriations.

TITLE III

THE JUDICIARY

SUPREME COURT OF THE UNITED STATES

SALARIES AND EXPENSES

The bill includes \$69,777,000 for the salaries and expenses of the Supreme Court.

CARE OF THE BUILDING AND GROUNDS

The bill includes \$18,447,000 for care of the Supreme Court building and grounds. The Supreme Court is directed to report to the House and Senate Committees on Appropriations on the construction and modernization project no later than 90 days after enactment of this Act and to continue to update the Committees as the Court becomes aware of any changes in schedule or budgetary needs.

UNITED STATES COURT OF APPEALS FOR THE FEDERAL CIRCUIT

SALARIES AND EXPENSES

The bill includes \$30,384,000 for the United States Court of Appeals for the Federal Circuit. The bill provides one half of the requested funds for rental space for senior judges and one half the requested funding for law clerks for new judges. It is difficult to justify full funding of the Court's requests when these requests are apparently based on the assumption that the maximum amount of space and staff will be necessary at any given time. Historically, these assumptions are then not realized, negating the requirement to provide full funding. In order for the Court's request to be considered in full, the

Court is urged to request that judges who are eligible for senior status declare their intention at the earliest possible opportunity. The Court is further urged to communicate information in a transparent and ongoing manner so that decisions on funding can be made based on the most up-to-date information available.

UNITED STATES COURT OF INTERNATIONAL TRADE

SALARIES AND EXPENSES

The bill includes \$19,605,000 for the United States Court of International Trade.

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

SALARIES AND EXPENSES

The bill provides \$4,801,369,000 for the salaries and expenses of the Courts of Appeals, District Courts, and Other Judicial Services. In addition, the bill includes \$4,253,000 for the Vaccine Injury Compensation Trust Fund.

The Judicial Conference is urged to take into consideration district caseloads when prioritizing Federal courthouse construction, for example in McAllen, Texas in the Southern District of Texas, and other border districts which are experiencing high caseloads.

DEFENDER SERVICES

The bill provides \$849,400,000 for Defender Services. The bill provides a cost of living adjustment from \$100 to \$102 an hour for non-capital panel attorneys and an adjustment from \$170 to \$174 an hour for attorneys associated with capital cases. The bill further includes funding to provide a pay raise from \$102 to \$110 an hour for non-capital panel attorneys.

FEES OF JURORS AND COMMISSIONERS

The bill provides \$62,206,000 for the fees of Jurors and Commissioners.

COURT SECURITY

(INCLUDING TRANSFERS OF FUNDS)

The bill includes \$428,858,000 for Court Security. The Judiciary is directed to report on the execution of the court security pilot program authorized in fiscal year 2008, including a cost comparison, 120 days after enactment of this Act.

ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

SALARIES AND EXPENSES

The bill provides \$79,049,000 for the salaries and expenses of the Administrative Office of the United States Courts.

FEDERAL JUDICIAL CENTER

SALARIES AND EXPENSES

The bill provides \$25,725,000 for salaries and expenses of the Federal Judicial Center. The Federal Judicial Center is directed to keep the House and Senate Committees on Appropriations informed of new staff hires throughout fiscal year 2009.

JUDICIAL RETIREMENT FUNDS

PAYMENT TO JUDICIARY TRUST FUNDS

The bill provides \$76,140,000 for payments for various judicial retirement funds.

UNITED STATES SENTENCING COMMISSION

SALARIES AND EXPENSES

The bill provides \$16,225,000 for the salaries and expenses of the United States Sentencing Commission.

ADMINISTRATIVE PROVISIONS—THE JUDICIARY (INCLUDING TRANSFER OF FUNDS)

Section 301 allows the Judiciary to expend funds for the employment of expert and consultative services.

Section 302 provides transfer authority in compliance with transfer and reprogramming guidelines set forth in section 604 and 608 of this Act.

Section 303 authorizes not to exceed \$11,000 to be available for official receptions and representation.

Section 304 requires a financial plan from the Judiciary allocating the sources and uses of all funds within 90 days of enactment of this Act.

Section 305 extends the authority to contract for repairs of less than \$100,000 to the Judiciary.

Section 306 continues to authorize a pilot program to allow the Administrative Office of the United States Courts to reimburse the United States Marshals Service for some services currently being performed by the Federal Protective Service.

Section 307 includes language intended to provide equal treatment for Federal judges regarding life insurance premiums.

Section 308 extends the sunset provision for certain procurement authorities.

Section 309 extends the term of temporary judgeships in Kansas, Northern Ohio, and Hawaii for one year.

Section 310 authorizes a cost of living adjustment for fiscal year 2009 for Federal judges.

TITLE IV DISTRICT OF COLUMBIA FEDERAL FUNDS

FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

The bill includes \$35,100,000 for a Federal payment for tuition support. The District of Columbia is expected to adhere to the authorizing statute with regard to the administrative expenses associated with operation of this program.

The Mayor of the District of Columbia and the State Education Office are directed to institute cost containment measures and report regularly on these efforts. Additionally, the District of Columbia is directed to explore other funding options to augment the Federal investment for this program. The District of Columbia is expected to address any insufficiency in funding through ratable reductions and other adjustments or prioritizations based on the income and need of eligible students.

FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

The bill provides \$39,177,000 for a Federal payment to the District of Columbia for the costs associated with emergency planning and security. Within the amount provided, \$352,000 is for the District of Columbia National Guard for a tuition assistance program.

Due to estimates of the unprecedented number of people who visited Washington, DC for the Presidential Inauguration, and the stress this event placed on the resources of the nation's capital, the bill provides \$38,825,000 for security and planning for this event. This is \$23,825,000 more than the amount originally requested by the President and the District of Columbia. While all reports indicate that this event was unmatched in size, it may take some time for the actual costs to the District of Columbia to be clear. It is for that reason that the District of Columbia is urged to report to the House and Senate Committees on Appropriations once the actual costs to the city are known. The District of Columbia is expected to include information about the amounts and other sources of Federal funding that

were made available, or are anticipated, as a result of this event being designated a Federal emergency, when reporting to the Committees.

Beginning in fiscal year 2010, the District of Columbia government is directed to submit a detailed budget justification with the funding request for this account. The District of Columbia is also directed to provide a report to the House and Senate Committees on Appropriations, within 60 days of the end of the fiscal year, outlining the purposes and amounts expended using the funds, with attention given to detailing any deviation from the initial justification.

FEDERAL PAYMENT FOR THE DISTRICT OF COLUMBIA COURTS

The bill provides \$248,409,000 as a Federal payment to the District of Columbia Courts. Within this amount, \$12,630,000 is for the District of Columbia Court of Appeals, \$104,277,000 is for the District of Columbia Superior Court, \$55,426,000 is for the District of Columbia Court System and \$76,076,000 is for capital improvements to Court facilities. Increases for capital improvements above the amount requested in the President's budget should be directed to renovations for the Moultrie Courthouse cell block. The Courts are directed to keep the House and Senate Committees on Appropriations informed on the status of the capital renovations, including schedule delays and significant cost increases.

DEFENDER SERVICES IN DISTRICT OF COLUMBIA COURTS

The bill includes \$52,475,000 for Defender Services in the District of Columbia. This amount is intended to provide an increase in the reimbursement rate for attorneys to \$90 per hour.

FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

The bill provides \$203,490,000 for a Federal payment to the Court Services and Offender Supervision Agency for the District of Columbia.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA PUBLIC DEFENDER SERVICE

The bill includes \$35,659,000 for a Federal payment to the District of Columbia Public Defender Service. Of the amounts provided, \$700,000 is available until September 30, 2010 for the moving expenses of the Mental Health Division.

FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA WATER AND SEWER AUTHORITY

The bill provides \$16,000,000 for a Federal payment for the District of Columbia Water and Sewer Authority (WASA). WASA is directed to provide a 100 percent match for these funds.

FEDERAL PAYMENT TO THE CRIMINAL JUSTICE COORDINATING COUNCIL

The bill provides \$1,774,000 to the Criminal Justice Coordinating Council (CJCC). The CJCC is directed to report annually on performance measures and individual initiatives to the House and Senate Committees on Appropriations.

FEDERAL PAYMENT TO THE OFFICE OF THE CHIEF FINANCIAL OFFICER OF THE DISTRICT OF COLUMBIA

The bill provides \$4,887,622 for a Federal payment to the Office of the Chief Financial Officer of the District of Columbia. The funding is for grants to the following organizations with the requirement that the funds be spent primarily in the District of Columbia to benefit District residents:

<i>Project Name</i>	<i>Amount</i>
"I Have A Dream" Foundation of Washington DC, Brent Dream Class of 2006	\$82,536
Boys and Girls Club of Greater Washington for Project Learn	100,000
Capital Area Food Bank Facility Construction	196,514
Children's National Medical Center, pediatric surgical center renovations	2,850,000
DC Campaign for Literacy Education (CYCLE)	82,536
Educational Advancement Alliance for the DC Student Support Services Project	245,643
Everybody Wins!	225,000
Excel—Automotive Workforce Development Training Program	294,772
Georgetown Metro Connection	98,257
National Children's Alliance	245,643
Safe Kids Worldwide, Inc., Child Safety Initiative ...	368,464
The Perry School for an Economic Empowerment Program	98,257

FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

The bill includes \$54,000,000 for a Federal payment for school improvement, an increase of \$13,200,000 over the fiscal year 2008 enacted level. Within this amount, \$20,000,000 is for public schools, \$20,000,000 is for public charter schools, and \$14,000,000 is to provide opportunity scholarships.

Funding provided for the private scholarship program shall be used for currently-enrolled participants rather than new applicants. The Chancellor of the District of Columbia Public Schools should promptly take steps to minimize potential disruption and ensure smooth transition for any students seeking enrollment in the public school system as a result of any changes made to the private scholarship program affecting periods after school year 2009-2010.

The District is directed to submit, no later than 60 days after enactment of this Act, a detailed budget proposal outlining specific activities for use of the funds provided for public charter school facilities, school-level grants to improve academic performance, and the replication of existing high-quality public charter schools in the District.

FEDERAL PAYMENT TO JUMP-START PUBLIC SCHOOL REFORM

The bill includes \$20,000,000 as a one-time Federal payment to jump-start public school reform, as requested by the President.

FEDERAL PAYMENT FOR CONSOLIDATED LABORATORY FACILITY

The bill provides \$21,000,000 for a Federal payment for a consolidated laboratory facility, \$16,000,000 more than both the fiscal year 2008 enacted level and the President's budget request, to expedite construction of the lab.

FEDERAL PAYMENT FOR CENTRAL LIBRARY AND BRANCH LOCATIONS

The bill provides \$7,000,000 for a Federal payment to the District of Columbia for a central library and branch locations.

FEDERAL PAYMENT TO THE EXECUTIVE OFFICE OF THE MAYOR OF THE DISTRICT OF COLUMBIA

The bill provides \$3,387,500 for a Federal payment to the Executive Office of the Mayor of the District of Columbia to enhance the quality of life for District residents. Of this amount \$1,250,000 shall be

available to temporarily continue Federal benefits for low-income couples who decide to marry. Additionally, \$2,137,500 shall be available to continue marriage development accounts in the District of Columbia. These funds shall be distributed to the partnership comprised of the National Center for Fathering, Life STARTS and the Capital Area Asset Building Corporation for continuation of the Marriage Development Accounts/Premarriage Development Accounts and the Together is Better Campaign Demonstration Program in the District of Columbia. The Mayor of the District of Columbia is directed to submit a detailed spending plan to the House and Senate Committees on Appropriations, including performance measures, before these funds may be expended and within 30 days of enactment of this Act. The Mayor is further directed to submit a progress report on these activities no later than June 1, 2009 and a final report describing outcomes achieved no later than February 1, 2010.

DISTRICT OF COLUMBIA FUNDS

The bill provides authority for the District of Columbia to spend \$9,888,095,000 from the General Fund of the District of Columbia. Of the funds provided, \$6,082,474,000 is from local funds, of which \$420,119,000 is from dedicated taxes; \$2,177,382,000 is from the Federal grant funds; \$1,621,929,000 is from other funds; and \$6,310,000 is from private funds. In addition, the District may use \$202,326,130 from funds previously appropriated in this Act.

For capital construction, the bill provides an additional \$1,482,977,000. Of the funds provided, \$1,121,734,000 is from local funds, \$60,708,000 is from the Highway Trust Fund, \$107,794,000 is from the Local Street Maintenance Fund, \$37,500,000 is available from a rescission of Local Street Maintenance Funds, and \$192,741,000 is from Federal grant funds. In addition, \$353,447,000 of prior year local funds are rescinded. In total, \$1,092,030,000 is provided.

Any changes to the financial plan as submitted by the District must follow the reprogramming guidelines.

TITLE V

INDEPENDENT AGENCIES

ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

SALARIES AND EXPENSES

The bill provides \$1,500,000 for the Administrative Conference of the United States (ACUS). The newly reauthorized ACUS is an independent agency and advisory committee which was created to study administrative processes in order to recommend improvements to Congress and agencies.

CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION

SALARIES AND EXPENSES

The bill provides \$1,000,000 for the Christopher Columbus Fellowship Foundation.

COMMODITY FUTURES TRADING COMMISSION

SALARIES AND EXPENSES

The bill includes \$146,000,000 for the Commodity Futures Trading Commission. New authorities added through enactment of the 2008 farm bill (Public Law 110-246), coupled with escalating public concern about record energy and agricultural commodity prices, and compounded by a growing influx of financial funds into the futures markets, make the CFTC's present staffing situation unsustainable.

The CFTC is directed to devote the resources provided above the budget request to hire up to 100 additional staff positions in fiscal year 2009 to conduct aggressive market

surveillance and ensure vigorous enforcement of the laws.

The CFTC is further directed to submit an expenditure plan for the increased appropriations provided in the bill above fiscal year 2008. The plan should include details for how the agency will assign up to 100 new staff positions across its program activities. The plan should also include budget object classification information, as proscribed by OMB Circular A-11, for how the agency will obligate the increased funding provided by the bill.

CONSUMER PRODUCT SAFETY COMMISSION

SALARIES AND EXPENSES

The bill provides \$105,404,000 for the Consumer Product Safety Commission (CPSC). After years of budget cuts and staffing decline, Congress is providing the CPSC the additional resources it needs to substantially improve its product safety activities. CPSC will be expected to use this infusion of resources consistent with recently-enacted legislation to enhance efforts to keep unsafe products out of the marketplace.

Of the amount provided, \$17,098,000 is estimated for new responsibilities and requirements set by the Consumer Product Safety Improvement Act of 2008, including the development of a consumer product safety database; and \$7,138,000 is estimated for activities under the Virginia Graeme Baker Pool and Spa Safety Act. Funds are also available within the amount provided to assign a Regional Product Safety Officer and one locally-employed staff position to the United States embassy in Beijing, China. This will better enable the CPSC to aggressively promote compliance with U.S. product safety standards, requirements, and expectations by Chinese and other Asian governments, manufacturers, and exporters.

Also included is \$412,000 for three additional positions to support the Inspector General of the CPSC. This includes two auditors and one administrative officer.

The CPSC is directed to consider promulgating regulations that require cribs to be durability-tested and contain warning labels against the use of soft bedding.

The CPSC is urged to increase its capacity for screening consumer products for lead content as those products arrive at ports of entry, including through the use of innovative technologies that enable fast and accurate on-site analysis of lead content.

ELECTION ASSISTANCE COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$17,959,000 for salaries and expenses of the Election Assistance Commission (EAC). This amount includes \$750,000 for the Help America Vote College Program and \$300,000 for mock election programs. Both programs are competitive grant programs.

The use of voting machines in student mock elections should be encouraged by the EAC in those jurisdictions that use voting machines. Such use will allow students, the Nation's voters of tomorrow, to become familiar with voting processes and technologies so that when they turn 18, they will be comfortable with their civic duties. Groups involved in student mock elections should work with local election authorities to promote the use of voting machines by students.

Concerns exist regarding voters who face alternative language accessibility challenges, including Latino, Asian American, Pacific Islander and Native American and Alaskan Native voters. Such challenges have been well documented throughout recent

election cycles and include both a failure of applicable jurisdictions to meet requirements of Section 203 of the Voting Rights Act, and general discrimination faced by such voters at polling places. Jurisdictions covered under Section 203 of the Voting Rights Act must commit the financial resources necessary to meet the requirements of the Section and the requirements under Section 301(a)(4) of the Help America Vote Act (HAVA). Funding is essential to ensure that every eligible voter has an equal opportunity to cast a vote and have that vote counted, regardless of English proficiency. States should submit plans under HAVA that are consistent with providing sufficient funding levels for alternative language accessibility, and it is noted that states are obligated by statute to comply with Section 203 irrespective of the availability of HAVA funding. The EAC is directed, in consultation with the Department of Justice, to communicate with states to reiterate the requirements of HAVA and the Voting Rights Act and to direct states to revise their plans if they are not consistent with alternative language accessibility requirements under law. The EAC is also directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on how the EAC would develop a plan for a thorough assessment of state and local jurisdiction funding requirements for alternative language accessibility in jurisdictions covered by Section 203, including (but not limited to): 1) the type and quantity of data EAC would need to collect from the jurisdictions; 2) data quality considerations; 3) resources required by the EAC for this assessment; and 4) statutory changes for Congress to consider that would better enable the EAC to perform the assessment.

The bill includes a provision (section 625) modifying a deadline in HAVA relating to the replacement of punch card or lever voting machines. Any state with unused funds provided under section 102 of HAVA totaling \$2,000,000 or more as of the date of enactment of this Act must submit a report to the Election Assistance Commission, not later than 60 days after enactment of this Act, on the expected use of the funds and a timetable for the use of the funds. This timetable should specifically describe how the state will expend the funds by November 1, 2010. The EAC shall provide a copy of this report to the Committees on Appropriations. Any state receiving funding and failing to expend it within the stated time frame risks permanent loss of funding. States should communicate regularly with EAC if, and as, problems arise.

ELECTION REFORM PROGRAMS

The bill provides \$106,000,000 for election reform programs. Included in this amount is \$100,000,000 for grants to states to help them meet HAVA requirements, \$5,000,000 for grants relating to research on voting technology improvements as authorized by HAVA, and \$1,000,000 for a pilot program to provide grants to states and units of local government to fund pre-election logic and accuracy testing of voting systems, as well as post-election voting system verification.

The EAC is directed to use the \$5,000,000 to fund research into technological solutions for voting systems that ensure accessibility for voters with disabilities so that such voters can vote privately and independently, including through the use of official paper ballots. Technological solutions developed through this Federally-funded research should be non-proprietary and be made available to the public, including to voting system manufacturers. The EAC is also directed

to report to the Committees on Appropriations, within 120 days of enactment of this Act, on a plan for the award of these grants, including criteria used to evaluate grant applications and the expected timing of grant awards. Within the \$5,000,000 provided, the EAC is expected to reimburse the National Institute of Standards and Technology for review and monitoring activities related to this program.

Pre-election logic and accuracy testing will help to ensure that voting system equipment, including tabulation equipment, to be used in an upcoming election is properly prepared to support the election. Post-election voting system verification will assess the adequacy of controls in place prior to and during the election that can detect and correct, or prevent, anomalies from occurring in voting systems. The EAC is directed to report to the Committees on Appropriations, within 90 days of enactment of this Act, on a plan for the award of grants under this pilot program, including criteria used to evaluate grant applications and the expected timing of grant awards. The EAC shall also report to the Committees on Appropriations no later than March 30, 2010 for 2009 grants, and March 30, 2011 for 2010 grants, on the results of the pilot program. These reports shall include recommendations regarding future actions or funding in relation to logic and accuracy testing and post-election audits.

FEDERAL COMMUNICATIONS COMMISSION
SALARIES AND EXPENSES
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$341,875,000 for salaries and expenses of the Federal Communications Commission (FCC), which is to be derived from offsetting collections.

The amount includes \$3,000,000 for a competitive grant program for state broadband data and development. Recipients shall be non-profit entities, contribute non-Federal matching funds of not less than 20 percent, and demonstrate the capability to work with state agencies and private sector partners. Funding shall be used to establish local technology planning teams, create programs to improve computer ownership and Internet access for unserved and underserved populations, and create a geographic inventory map of broadband service to identify gaps in such service at the census block level.

The bill includes a \$25,480,000 transfer from the Universal Service Fund (USF) for additional audits and oversight activities. Audits should focus on all USF programs, including the high cost program, schools and libraries program, and the rural health care program. The FCC's Inspector General (IG) has reported that the schools and libraries program has a payment error rate of 13 percent, the high cost program has a payment error rate of 16.6 percent, and the rural health care program has a payment error rate of 20 percent, far exceeding the government-wide average payment error rate of 3 percent and the 2.5 percent threshold that the Office of Management and Budget sets for a program to be "at-risk." The FCC is directed to follow the recommendations of both the IG and the Government Accountability Office and to assume greater managerial control over these important programs, including improvement of the improper payment rates. In addition, the FCC and the IG are expected to have appropriate auditing standards and plans in place to ensure consistency in USF auditing. This shall include ensuring that auditors are knowledgeable of the USF program rules and industry standard auditing protocols.

The bill includes funding to support the FCC's continued efforts to facilitate the nationwide transition of broadcast television signals from analog to digital. Concerns remain that many viewers may not be adequately prepared for the transition. This is particularly true with respect to disadvantaged and lower-income communities, including Hispanic, African American, disabled, and senior citizen communities. The FCC is directed to continue collaborating with the National Telecommunications and Information Administration, other government agencies, and in particular broadcasters and other private sector entities involved in the effort to ensure a smooth transition.

It is important to provide all persons living under the American flag, including those living in the United States territories, equal access to communications services. The Communications Act of 1934 established the FCC to "make available, so far as possible, to all the people of the United States, without discrimination on the basis of race, color, religion, national origin, or sex, a rapid, efficient, Nation-wide, and world-wide wire and radio communication service with adequate facilities at reasonable charges" (emphasis added). All communication services should be equally available to persons living under the American flag outside of the contiguous 48 states. Satellite radio services, for example, are currently unavailable or have limited availability in Puerto Rico, the U.S. Virgin Islands, Guam, and American Samoa, Alaska, and Hawaii. The FCC is strongly encouraged to consider equal access for persons living in these locations as it undertakes rulemakings and other actions that affect communications access.

The FCC is directed to improve its responsiveness to congressional requests and inquiries, including letters. Responses to letters to the FCC from the Committees on Appropriations have sometimes taken months to receive. For example, the FCC took over four months to respond to a 2007 letter from the Chairman of the House Financial Services Appropriations subcommittee regarding the communications access concerns described above. A letter from the Ranking Republican Member of the Senate Financial Services Appropriations subcommittee sent in April 2008 has not been responded to as of mid-January 2009. Another April 2008 letter from House Members on universal service funding for insular areas had also not been responded to as of mid-January 2009. Such delays are unacceptable.

The 9/11 Commission identified the need to increase the assignment of spectrum for first responders in its July 2004 report, and it is disappointing that the Federal Government has yet to address this critical need. The FCC is directed to work expeditiously to conduct a successful auction of the D Block spectrum so that first responders have an interoperable communications network.

Public, educational, and governmental (PEG) programming serves the public interest by providing outlets for free speech, local information and opinions, and emergency communications. The FCC is urged to ensure that PEG channels remain on the basic service tier of programming and that cable service providers do not place impediments in the way of the public's access to PEG programming.

The FCC is directed to issue a report to the House and Senate Committees on Appropriations, the House Committee on Energy and Commerce, and the Senate Committee on Commerce, Science, and Transportation

within 180 days of enactment of this Act on commercial proposals for broadcasting radio or television programs for reception onboard specially-equipped school buses operated by, or under contract with, local public educational agencies. The study shall examine the nature of the material proposed to be broadcast and whether it is age appropriate for the passengers; the amount and nature of commercial advertising to be broadcast; and whether such broadcasts for reception by public school buses are in the public interest.

Concerns exist that emergency personnel and first responders along the northern border have had difficulty securing licenses for the appropriate communications frequency from the FCC. The FCC is directed to work with Canadian officials and applicants to devise a strategy for ensuring that licensing along the northern border proceeds without delay. The FCC is also directed to issue a report, in coordination with the Department of Homeland Security, to the House and Senate Committees on Appropriations no later than 270 days after enactment of this Act that: 1) evaluates the Federal guidance provided to states working to establish interoperable first responder communications networks, 2) describes the degree to which the guidance is coordinated with the Canadian Government, and 3) identifies methods to avoid future coordination problems.

The Committees on Appropriations applaud the Commission's work with the broadcasting industry to develop family-friendly programming and direct the Commission to pursue these efforts. As a result of the Commission's efforts, many cable and satellite television operators are developing family-friendly packages for consumers. The Committees direct the Commission to continue its endeavors with the broadcast industry to empower parents with the resources and tools to effectively navigate the various broadcast channels.

ADMINISTRATIVE PROVISIONS—FEDERAL
COMMUNICATIONS COMMISSION

Section 501 extends an exemption for the Universal Service Fund.

Section 502 prohibits the Federal Communications Commission from changing rules governing the Universal Service Fund regarding single connection or primary line restrictions.

FEDERAL DEPOSIT INSURANCE CORPORATION

OFFICE OF INSPECTOR GENERAL

The bill includes a transfer of \$27,495,000 to fund the Office of Inspector General (OIG) of the Federal Deposit Insurance Corporation. The OIG's appropriations are derived from the Deposit Insurance Fund; however, if the OIG performed work in connection with the Federal Savings and Loan Insurance Corporation Resolution Fund, the cost of such work would be derived from that Fund.

Enacted October 14, 2008, the Inspector General Reform Act of 2008 contains various requirements affecting the OIG and its operations, including the budgetary process. The requirements of the Act will be implemented as appropriate.

FEDERAL ELECTION COMMISSION
SALARIES AND EXPENSES

The bill provides \$63,618,000 for salaries and expenses of the Federal Election Commission (FEC).

The FEC is directed to report to the House and Senate Committees on Appropriations, no later than 270 days following enactment of this Act, on an assessment of the feasibility, including estimates of cost, time, and personnel required, to gather and make public data regarding the media expenditures of Federal campaigns.

FEDERAL LABOR RELATIONS AUTHORITY
SALARIES AND EXPENSES

The bill provides \$22,674,000 for salaries and expenses of the Federal Labor Relations Authority (FLRA).

The FLRA is directed to issue a report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, on all activities, including cost, that the FLRA has taken in the previous 24-month period regarding the integration and upgrade of information technology systems.

FEDERAL TRADE COMMISSION
SALARIES AND EXPENSES

The bill provides \$259,200,000 for salaries and expenses of the Federal Trade Commission (FTC). The bill also estimates that the amount provided will be partially offset by \$168,000,000 of collections from Hart-Scott-Rodino premerger filing fees and \$21,000,000 of collections from Do-Not-Call list fees.

The appropriation provides the FTC with additional resources for consumer protection activities, including subprime lending and other financial services investigations, as well as activities to fight spam, spyware, and Internet fraud and deception. The FTC can do more to investigate, challenge, and take enforcement actions against mortgage brokers, lenders, and loan servicers who engage in deceptive or unfair marketing practices or fraudulent financial practices directed at subprime borrowers. Such practices have exacerbated the mortgage crisis by taking advantage of the most vulnerable borrowers, and the FTC needs to be aggressive in fighting this serious problem.

The FTC is also encouraged to expand its enforcement and education activities particularly with respect to consumer protections for Hispanic, African American, disabled, and senior citizen populations. For example, the FTC has an aggressive campaign against consumer fraud in the Hispanic community. As recent immigrants, many Hispanics are unaware of the fraudulent practices perpetrated by some businesses and individuals against consumers. Consequently, many fall prey to such predators and suffer great financial losses. They may also be unaware of the remedies that are available to them if they are victimized. The FTC should continue to promote increased awareness through its Hispanic Outreach initiative, and it should work with all at-risk populations to ensure the highest possible level of consumer protection.

The dramatic fluctuations in fuel prices raise serious concerns about market manipulation and anticompetitive behavior in the oil and natural gas industries. The FTC is encouraged to continue its investigations and other activities relating to these concerns. The FTC is directed to keep the House and Senate Committees on Appropriations apprised of findings made regarding fuel prices, as well as other planned activities and investigations regarding the oil and gas industries.

The FTC, together with the Commissioner of the Food and Drug Administration, the Director of the Centers for Disease Control and Prevention, and the Secretary of Agriculture, who have expertise and experience in child nutrition, child health, psychology, education, marketing, and other fields relevant to food and beverage marketing and child nutrition standards shall establish the Interagency Working Group on Food Marketed to Children (Working Group). The Working Group is directed to conduct a study and develop recommendations for standards for the marketing of food when

such marketing targets children who are 17 years old or younger or when such food represents a significant component of the diets of children. In developing such standards, the Working Group is directed to consider (1) positive and negative contributions of nutrients, ingredients, and food (including calories, portion size, saturated fat, trans fat, sodium, added sugars, and the presence of nutrients, fruits, vegetables, and whole grains) to the diets of such children; and (2) evidence concerning the role of consumption of nutrients, ingredients, and foods in preventing or promoting the development of obesity among such children. The Working Group will determine the scope of the media to which such standards should apply. The Working Group shall submit to Congress, not later than July 15, 2010, a report containing the findings and recommendations of the Working Group.

In September of 2000, the FTC released a report entitled: "Marketing Violent Entertainment to Children: A Review of Self-Regulation and Industry Practices in the Motion Picture, Music Recording & Electronic Game Industries." The report was highly critical of the entertainment industry and its persistent and calculated marketing of violent games, movies, and music to children. In response to this report, the entertainment industry has promised to impose tougher regulations on itself and to voluntarily comply with the report's recommendation. The FTC should continue with, and expand upon, its efforts in this area. The FTC is directed to continue to engage in consumer research and workshops, underage shopper-retail compliance surveys, and marketing data collection.

Concerns have been raised regarding reports of explicit content that can be easily accessed by minors on increasingly popular virtual reality web programs. The FTC is directed to issue a consumer alert to educate parents on the content that is available to children on virtual reality web programs. In addition, no later than nine months after enactment of this Act, the FTC shall submit a report to the House and Senate Committees on Appropriations discussing the types of content on virtual reality sites and what steps, if any, these sites take to prevent minors from accessing content.

GENERAL SERVICES ADMINISTRATION

The General Services Administration (GSA) is directed to consider adoption of a formaldehyde standard consistent with the EPA standard in its "green building" certification and indoor air quality program and to specify formaldehyde-free building materials when constructing new or renovating existing Federal buildings.

GSA is directed to promote energy efficiency through the use of revolving doors and report on its program 120 days after enactment of this Act.

GSA is expected to undertake a stronger effort to promote the use of stairs in Federal buildings.

GSA is encouraged to consider deploying re-usable plastic crates widely due to their environmental benefits in order to maximize resource conservation.

The importance of the Ambassador Bridge continues to be recognized as a critical link to commerce between the United States and Canada. GSA is commended for leading the efforts of the Executive Branch in improving direct highway access to the Ambassador Bridge.

GSA shall conduct a study of the measurable benefits and challenges associated with green roofs in GSA's owned and leased inventory, using the National Capital Region as an example.

GSA should consider using historic preservation funding and other resources to ensure that the Custom House in New Orleans can be remodeled and used productively in a timely manner by Federal and non-profit tenants as well as the community.

GSA is urged to reconsider the impact of Federal per diem rates upon the larger recovery efforts of New Orleans and to take steps to maintain or increase the per diem rate for fiscal year 2010, if appropriate.

REAL PROPERTY ACTIVITIES

FEDERAL BUILDINGS FUND

LIMITATIONS ON THE AVAILABILITY OF REVENUE

The bill provides resources from the Federal Buildings Fund in the aggregate of \$8,427,771,000.

CONSTRUCTION AND ACQUISITION

The bill limits funds for construction to \$746,317,000. The bill provides funds for the following projects:

<i>Project Name</i>	<i>Amount</i>
Denver Federal Center Remediation, Colorado	\$10,472,000
DHS Consolidation and development of St. Elizabeths campus, District of Columbia	331,390,000
Federal Office Building 8, District of Columbia	15,000,000
FDA Consolidation, Montgomery County, Maryland	163,530,000
Portal Land Port of Entry, North Dakota	15,204,000
San Diego Courthouse, California	110,362,000
San Ysidro Land Port of Entry, California	58,910,000
St. Elizabeths West Campus Infrastructure, District of Columbia	8,249,000
St. Elizabeths West Campus Site Acquisition, District of Columbia	7,000,000
Tuscaloosa Federal Building, Alabama	25,000,000

GSA is directed to include, in its budget submission, a detailed five-year plan for Federal building construction projects, as well as a five-year plan for land port of entry projects.

GSA is directed to provide a report, within 120 days of enactment of this Act citing three examples for which section 412 authority could be an option.

Concerns remain about the transportation plans for the Department of Homeland Security (DHS) consolidation at the St. Elizabeths campus. GSA and DHS are expected to coordinate with local transportation agencies to minimize the impact on neighboring communities.

GSA is prohibited from using funds previously appropriated for the courthouse in Los Angeles for any other project. The GSA is further prohibited from using any proceeds from the sale of the land for this project, if one were to occur, on any other project.

The United States Post Office and Federal Building in Danville, Virginia is an important component of the downtown Danville community. The GSA should make an effort to maintain the Federal Judiciary's presence in this building and to service the citizens of Danville.

GSA is also urged to request funding for the construction of a courthouse in Chattanooga, Tennessee and in Mobile, Alabama.

REPAIRS AND ALTERATIONS

The bill limits resources for repairs and alterations to \$692,374,000. The bill provides

funding for repairs and alterations of the following projects:

<i>Project Name</i>	<i>Amount</i>
Dirksen Courthouse, Chicago, Illinois	\$152,825,000
Eisenhower Executive Office Building CBR, District of Columbia	14,700,000
Eisenhower Executive Office Building Phase III, District of Columbia	51,075,000
US Post Office and Courthouse, New Bern, North Carolina	10,640,000
West Wing Infrastructure Systems Replacement, District of Columbia	76,487,000

The bill also includes \$36,647,000 for energy and water retrofit and conservation measures and \$350,000,000 for basic repairs and alterations.

INSTALLMENT ACQUISITION PAYMENTS

The bill includes a limitation of \$149,570,000, as requested by the President for installment acquisition payments.

RENTAL OF SPACE

The bill provides a limitation of \$4,642,156,000 for payments of rental of space. The House and Senate Committees on Appropriations continue to be concerned about the allocation of leased GSA office space in the Greater Washington, DC metropolitan area, specifically the lack of space awarded in Prince Georges County, Maryland.

BUILDING OPERATIONS

The bill includes a limitation of \$2,197,354,000 for building operations.

GENERAL ACTIVITIES

GOVERNMENT-WIDE POLICY

The bill provides \$54,578,000 for government-wide policy.

OPERATING EXPENSES

The bill provides \$70,645,000 for operating expenses. This funding is intended to support 9 additional FTE for the Office of Emergency Response and Recovery. The funding level assumes a transfer of \$18,828,000 to the Federal Citizen Services Fund beginning in fiscal year 2009.

OFFICE OF INSPECTOR GENERAL

The bill includes \$54,000,000 for the Office of Inspector General (OIG) at GSA, which includes direct funding of \$2,200,000 which was previously reimbursed to the OIG through internal GSA sources.

ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$2,934,000 for expenses associated with the allowances and office staff of former Presidents, which is \$456,000 more than the fiscal year 2008 level in part to commence benefits for President George W. Bush.

PRESIDENTIAL TRANSITION EXPENSES

The bill includes \$8,520,000 for the expenses associated with carrying out the Presidential transition.

FEDERAL CITIZEN SERVICES FUND

The bill includes \$36,096,000 for the Federal Citizen Services Fund. This includes a transfer of \$18,828,000 from the Operating Expenses account to consolidate GSA's citizen-centric services, beginning in fiscal year 2009.

ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

Section 510 authorizes the use of funds for the hire of motor vehicles.

Section 511 authorizes the transfer of funds within the Federal Buildings Fund to meet certain program requirements.

Section 512 requires that the request for courthouse construction must meet certain capital improvement plan standards.

Section 513 provides that no funds may be used to increase the amount of occupiable square feet, provide cleaning services, security enhancements or other service usually provided, to any agency which does not pay the requested rate.

Section 514 permits GSA to pay small claims made against the government.

Section 515 requires that the Administrator shall ensure that the delineated area of procurement for all lease agreements is identical to the delineated area included in the prospectus unless prior notice is given to the Committees in the form of an explanatory statement.

Section 516 authorizes an account title change from "Federal Consumer Information Center" fund to "Federal Citizen Services" fund.

Section 517 authorizes relief and disaster assistance organizations to use GSA procurement schedules.

Section 518 provides authority for the GSA Working Capital Fund.

HARRY S. TRUMAN SCHOLARSHIP FOUNDATION

SALARIES AND EXPENSES

The bill includes \$500,000 for the Harry S. Truman Scholarship Foundation Trust Fund. The bill also directs the Secretary of the Treasury to invest in par value special securities at the request of the Board of Trustees of the Foundation.

MERIT SYSTEMS PROTECTION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$38,811,000 in direct appropriations and \$2,579,000 from appropriate trust funds, for salaries and expenses of the Merit Systems Protection Board.

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY FOUNDATION

MORRIS K. UDALL SCHOLARSHIP AND EXCELLENCE IN NATIONAL ENVIRONMENTAL POLICY TRUST FUND

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$3,750,000 for the Morris K. Udall Scholarship and Excellence in National Environmental Policy Trust Fund. Up to 60 percent of these funds may be transferred, and \$50,000 shall be used to conduct financial audits.

ENVIRONMENTAL DISPUTE RESOLUTION FUND

The bill includes \$2,100,000 for the Environmental Dispute Resolution Fund to remain available until expended.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

OPERATING EXPENSES

The bill includes \$330,308,000 for operating expenses of the National Archives and Records Administration (NARA). The fiscal year 2008 Appropriations Act included funding for an increase in archivist staff, and these additional staff will continue to be funded in fiscal year 2009 within this appropriation. In addition, this bill includes \$875,000 to provide a further increase in the number of archivist staff, in order to continue to reverse the staffing reductions that had occurred between fiscal year 2002 and fiscal year 2007. NARA is directed to report to the House and Senate Appropriations Committees, within 30 days of enactment of this

Act, as to the specific steps it is taking to continue to restore NARA's archivist workforce levels.

Also included in the amount is \$1,000,000 for NARA's new Office of Government Information Services. The Administration had proposed, in its fiscal year 2009 budget request, to fund this office at the Department of Justice. This bill funds the office at NARA, as authorized by the OPEN Government Act of 2007 (Public Law 110-175).

In addition, of the amount provided, \$650,000, available until September 30, 2010, is directed to be used to complete the review of U.S. Government documents pertaining to the activities of the Nazis and the Japanese Imperial Government. These documents are being declassified pursuant to the Nazi War Crimes Disclosure Act of 1998 (Public Law 105-246) and the Japanese Imperial Government Disclosure Act of 2000 (Public Law 106-567). These laws directed that Government agencies ensure the declassification of files pertaining to the activities of the Nazis and the Japanese Imperial Government. In 2007, following the declassification and review of thousands of files containing newly-disclosed information about the Nazis and the Japanese Imperial Government, NARA issued a report summarizing the new historical insights gained as a result of the NARA-supervised review of these documents. However, a number of additional U.S. Army and CIA/OSS documents were discovered too late in the process to be included in NARA's 2007 report. This funding is directed to be used to report separately on these remaining documents. NARA is directed to report to the House and Senate Committees on Appropriations, within 90 days of enactment of this Act, with a proposed schedule for completing the review and historical analysis of these documents and releasing a supplemental report, to serve as a companion to NARA's 2007 report.

ELECTRONIC RECORDS ARCHIVES

The bill provides \$67,008,000 for the Electronic Records Archives (ERA) project. The bill also retains the directive requiring NARA to submit, and for the Committees on Appropriations to approve, a GAO-reviewed spending plan for ERA prior to the obligation of funds.

Although there is some evidence of improvement in the ERA program, the Appropriations Committees continue to be concerned about the program, NARA's oversight of the program, and the reliability of the work of the ERA contractor, especially given the previous cost overrun, widespread replacement of contractor staff, and nine month delay in achievement of Initial Operating Capability. In order to overcome the schedule delays that occurred in 2007 and 2008, and to prepare NARA to receive the electronic records of the outgoing Administration in time for the January 20, 2009 change in Administrations, NARA and the contractor have had to develop a two-pronged development strategy, focusing on building a base ERA system, plus a second system devoted to receiving the Executive Office of the President electronic records of the outgoing Administration.

NARA is directed to provide quarterly ERA progress reports, beginning no later than 90 days after enactment of this Act, to both GAO and to the House and Senate Committees on Appropriations, and to immediately report to the Committees and to GAO any potential delays, cost overruns, or other problems associated with ERA development. As recommended by GAO, the quarterly progress reports should include summary measures of project performance against ERA cost and schedule estimates.

REPAIRS AND RESTORATION

The bill provides \$50,711,000 for repairs and restoration. This amount includes: (1) \$17,500,000 for necessary expenses related to the repair and renovation of the Franklin D. Roosevelt Presidential Library and Museum in Hyde Park, NY, which NARA has listed as its top capital improvement priority; (2) \$22,000,000 to complete construction of an addition to the John F. Kennedy Presidential Library in Boston, MA; and (3) \$2,000,000 to complete the repair and restoration of the plaza that surrounds the Lyndon Baines Johnson Presidential Library in Austin, TX.

The Appropriations Committees recognize that they have more than adequately provided funding for NARA's portion of the LBJ Presidential Library plaza project; therefore, the Library and the university are on notice not to return to the Committees for any further funding for this project.

NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION GRANTS PROGRAM
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$11,250,000 for NARA's grant program. Of the amount provided, \$2,000,000 is to be transferred to the operating expenses account.

ADMINISTRATIVE PROVISION—NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

The bill includes an administrative provision directing NARA to include in its annual budget submission each year a comprehensive capital needs assessment for its entire infrastructure of presidential libraries and records facilities. Funding should be included in each year's budget to address the highest priorities, including projects already underway.

NATIONAL CREDIT UNION ADMINISTRATION
CENTRAL LIQUIDITY FACILITY

The bill provides the National Credit Union Administration (NCUA)—Central Liquidity Facility (CLF) the ability to lend, during fiscal year 2009, up to the maximum level provided for by section 307(a)(4)(A) of the Federal Credit Union Act. This provision gives the NCUA flexibility to assist with credit unions' financial liquidity during the current economic downturn. The NCUA will be expected to keep the House and Senate Committees on Appropriations fully informed on the activities of the CLF.

The bill also provides a limitation of \$1,250,000 for the administrative expenses of the CLF.

COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The bill provides \$1,000,000 for the Community Development Revolving Loan Fund for technical assistance grants.

OFFICE OF GOVERNMENT ETHICS
SALARIES AND EXPENSES

The bill provides \$13,000,000 for salaries and expenses of the Office of Government Ethics.

OFFICE OF PERSONNEL MANAGEMENT
SALARIES AND EXPENSES
(INCLUDING TRANSFER OF TRUST FUNDS)

The bill provides a general fund appropriation of \$92,829,000 for salaries and expenses of the Office of Personnel Management (OPM). The amount includes, to remain available until expended, \$5,851,000 for the Enterprise Human Resources Integration project and \$1,351,000 for the Human Resources Line of Business project.

The bill also provides \$118,082,000 for administrative expenses to be transferred from the appropriate trust funds. This amount includes \$15,200,000, to remain available until

expended, for retirement systems modernization, or the RetireEZ program. Work on RetireEZ's calculation engine was halted in 2008 due to contract performance issues. Getting this program back on track with appropriate management leadership, controls, and oversight, and with the goal of ensuring accurate and timely computation of annuities for all Federal retirees, is a high priority. The executive leadership of OPM must dedicate the highest level of support possible to ensure the success of the program. While the prompt implementation of this program is also important, the leadership is cautioned not to set an unworkable timetable as a goal to the detriment of system accuracy and performance. The Government Accountability Office should continue to assess the status of OPM's efforts toward developing and implementing RetireEZ, as well as evaluate the effectiveness of the agency's management for the modernization initiative. OPM should continue to provide the House and Senate Committees on Appropriations with quarterly reports on the implementation of RetireEZ. These reports should reflect a detailed, complete, and accurate assessment of the status of the program.

OPM's Federal Human Capital Survey provides important data for independent analyses of Federal employee satisfaction. OPM shall continue to make agencies' survey data publicly available in a consistent and consolidated format, and in a timely manner.

Sixty percent of the Federal workforce will be eligible to retire in the next 10 years, presenting an enormous challenge to the Federal Government and the delivery of services to the public. OPM is encouraged to develop approaches that agencies can use to attract the best and brightest talent; match employee skills and abilities with specific agency missions and goals; ensure that talented employees are engaged and empowered to use their talent; improve leadership development; and ensure high performance from the workforce.

OPM is urged to increase its efforts to encourage Federal agencies to reach out to diverse populations, including ethnic minorities, in their recruitment efforts. A study group relating to the employment of Hispanics in the Federal Government has been formed by the Equal Employment Opportunity Commission and the Social Security Administration, with representation from other agencies. OPM should review the findings of this study group for possible approaches to improve Hispanic recruitment, retention, and advancement government-wide.

Federal agencies should also increase recruitment efforts within the United States territories. The territories are home to thousands of U.S. citizens who may not be fully aware of the employment opportunities that exist within the Federal Government. Some agencies have taken steps to recruit from the territories, but others have not yet. OPM should spearhead the effort to encourage individual agency human resource offices to take advantage of the talent pool that exists in the U.S. territories.

OPM has improved communication with Federal agencies about dependent care programs. Many of OPM's plans to improve communications on employee benefits should be ongoing activities. No later than 45 days after enactment of this Act, OPM shall report to the Committees on Appropriations timelines for activities, and the feasibility of whether some of these activities should be annual activities. Included in the report should be timelines relating to the expansion

of the Open Season marketing campaign; targeting agencies with low enrollment; outreach to affinity groups; tuition assistance advertising; and OPM website improvements.

OPM, as the personnel agency for the Federal Government, should be committed to helping the Federal Government become the model employer Congress and the law mandate that it be, with regard to individuals with disabilities. Disability employment issues have been given inadequate attention at OPM over the past several years, resulting in a need for increased focus and action. This is particularly disappointing given that 60 percent of the Federal workforce will be eligible for retirement within 10 years and the increased hiring of disabled employees could help mitigate this retirement wave. OPM is directed to review outstanding disability concerns brought to OPM's attention, conduct outreach with disability groups about these concerns, take steps to improve matters, and advise the Committees on Appropriations as improvements are achieved.

OPM is directed to carry out the Intergovernmental Personnel Act Mobility Program with special attention provided to Federal agencies employing more than 2,000 nurses. OPM may develop guidelines that provide Federal agencies direction or guidance in using their authority under the Intergovernmental Personnel Act Mobility Program to provide financial or other assistance: (1) to Federal employees holding a degree in nursing to accept an assignment to teach in an accredited school of nursing or to obtain the training necessary to become a nurse faculty member in exchange for a commitment from the individual to serve an additional term of Federal service or a commitment from the school of nursing to take additional steps to increase its number of nursing students that will commit to Federal service upon graduation; and (2) to Federal employees who have served as a nurse in the Federal Government, are eligible for retirement, and are qualified to teach to expedite the transition of such individuals into nurse faculty positions. OPM is directed to report to the Committees on Appropriations no later than 120 days after enactment of this Act on how the Intergovernmental Personnel Act Mobility Program is being used to alleviate the nursing shortage and on the demonstrable steps OPM has taken to encourage government-employed nurses to teach at accredited schools of nursing.

OPM is encouraged to report on employment for the blind, including the opinions of Federal employee labor organizations, by July 15, 2009.

Concerns have been raised with respect to wage pay for Federal employees who work within the New Orleans, Louisiana Appropriated Fund Federal Wage System (FWS) area. OPM has authority to waive the cap on such pay if it determines that an exception is necessary to ensure the recruitment or retention of qualified employees. Existing OPM regulations specify the procedures which should be followed by Federal agencies to request such a waiver. In view of the continuing effects caused by the aftermath of Hurricane Katrina in the New Orleans area, the Department of Defense (DoD), as the lead FWS employer in the region, is strongly urged to promptly submit a consolidated waiver request to OPM consistent with existing regulations, and OPM is likewise urged to act swiftly on any such request, to include promptly notifying the Committees on Appropriations of its determination. DoD is further urged to consult with OPM prior to making such a request to ensure that the approval process does not become overly bureaucratic or complicated by unnecessary

paperwork, thus delaying the ability to promptly address recruitment and retention challenges in the New Orleans area.

Approximately 10,000 private sector employers, including more than half of the Fortune 500 companies, offer benefits to the domestic partners of their employees. OPM should consider taking steps to extend health care benefits to Federal employees' domestic partners.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF TRUST FUNDS)

The bill provides \$1,828,000 as a general fund appropriation for salaries and expenses of the Office of Inspector General. In addition, the bill provides \$18,755,000 from OPM trust funds. Additional funding is provided to augment base resources and permit hiring of additional audit and investigative staff.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH BENEFITS

The bill provides such sums as necessary for health benefits payments.

GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEE LIFE INSURANCE

The bill provides such sums as necessary for life insurance payments.

PAYMENT TO CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The bill provides such sums as necessary for retirement and disability payments.

OFFICE OF SPECIAL COUNSEL

SALARIES AND EXPENSES

The bill provides \$17,468,000 for salaries and expenses for the Office of Special Counsel.

POSTAL REGULATORY COMMISSION

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$14,043,000 for the Postal Regulatory Commission.

PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD

SALARIES AND EXPENSES

The bill provides \$1,500,000 for salaries and expenses of the Privacy and Civil Liberties Oversight Board, to remain available for obligation until September 30, 2010. The Board has not yet been reconstituted as required by Public Law 110-53, and, therefore, the new entity's funding requirements have not been firmly established or justified. Once reconstituted, the Board should present the House and Senate Committees on Appropriations with a detailed budget plan as quickly as possible.

SECURITIES AND EXCHANGE COMMISSION

SALARIES AND EXPENSES

The bill provides \$943,000,000 for salaries and expenses of the Securities and Exchange Commission (SEC).

An increase of \$37,000,000 over the fiscal year 2008 enacted level and \$30,000,000 over the requested level is provided to support the SEC's performance-based pay system, as well as to enhance enforcement, capital market oversight, and investor protection activities, including investigations of accounting fraud, market manipulation, insider trading, and investment scams that target seniors and low-income communities. The SEC should also increase its efforts to improve oversight of investment banking institutions. Additional resources should also be provided to the Office of Investor Education and Advocacy to expand investor education and financial literacy activities.

With this significant increase in funding comes an increased responsibility on the

part of the SEC to aggressively safeguard the investing public. Failures to properly investigate and take appropriate actions in fraud cases will not be tolerated. The SEC must be vigilant in its enforcement of securities laws.

Concerns exist that American investors may be unwittingly investing in companies with ties to countries that sponsor terrorism or are linked to human rights violations. A company's association with sponsors of terrorism and human rights abuses, no matter how large or small, can have a materially adverse result on a public company's operations, financial condition, earnings, and stock prices, all of which can negatively affect the value of an investment. In order to protect American investors' savings and to disclose these business relationships to investors, an Office of Global Security Risk was established within the Division of Corporation Finance. The work of this Office should remain a high priority, and the SEC is directed to continue to submit quarterly reports to the House and Senate Committees on Appropriations on the Office's activities.

Small businesses have raised concerns with the burden that compliance with section 404 of the Sarbanes-Oxley Act of 2002 places on them. The SEC is studying the costs and benefits of section 404 compliance. The SEC shall keep the Committees on Appropriations informed of the progress of the study and the results of the study when completed.

The growth of unregulated hedge funds in recent years has impacted systemic risk in the financial markets and has raised investor protection concerns. The SEC is currently evaluating draft rules that address the issue of the qualifications of accredited investors in hedge funds. The SEC is encouraged to take action on these rules consistent with strong investor protections. The SEC is also urged to maintain the maximum possible effort in combating fraud that may be associated with hedge fund investing.

SELECTIVE SERVICE SYSTEM

SALARIES AND EXPENSES

The bill includes \$22,000,000 for the Selective Service System, equal to the President's budget request and the fiscal year 2008 enacted level. The bill also includes language to allow the President to waive provisions of 31 U.S.C. 1341 when it is necessary for the interest of national defense.

SMALL BUSINESS ADMINISTRATION

SALARIES AND EXPENSES

The bill provides \$386,896,000 for the salaries and expenses account of the Small Business Administration (SBA). An additional amount for initiatives related to small business development and entrepreneurship is provided under SBA administrative provisions.

Of the amounts provided under this heading, \$224,608,000 is for operating expenses of the SBA. In addition, a total of \$147,480,000 from other SBA accounts may be transferred to and merged with the salaries and expenses account, resulting in a total availability for operating expenses of \$372,088,000. The additional amount consists of \$138,480,000 from the Business Loans Program account and \$9,000,000 (provided as part of Public Law 110-329) from the Disaster Loans Program account for the administrative expenses related to those accounts.

Non-Credit Programs.—No less than the following amounts shall be dedicated to these non-credit programs of the SBA:

[In thousands of dollars]

Veterans Programs \$1,200

7(j) Technical Assistance ...	2,380
Small Business Development Centers	110,000
SCORE	5,000
Women's Business Centers	13,750
Women's Business Council	775
Native American Outreach	1,033
Drug-free Workplace Program	1,000
Microloan Technical Assistance	20,000
PRIME	5,000
HUBZone	2,150

Total, non-credit programs	162,288
----------------------------------	---------

The SBA shall not reduce these noncredit programs to fund operating costs. In addition, the National Ombudsman; the Office of Advocacy, including support for the Advocacy Database; international trade programs; and the defense transition program should receive no less than the fiscal year 2008 level of funding.

The bill provides \$1,200,000 for veterans programs to support additional grants to veterans business outreach centers. When determining the allocation of the additional funding, the SBA is encouraged to consider centers with significant experience in conducting outreach to veterans, including those previously receiving Federal funding.

Funds are included within operating expenses to support the modernization of SBA's loan management and accounting systems. Current systems, which are outdated and have limited capabilities, must be replaced with new systems that will enhance the management of SBA's \$85,000,000,000 loan portfolio. However, there are significant risks inherent in such a relatively large acquisition. To mitigate risks, SBA should dedicate in-house staff to quality assurance and contractor oversight, as well as to provide for agency-wide management, coordination, and implementation of the new system. SBA should also continue to consult with other Federal agencies regarding best practices involving design, acquisition, and implementation of new systems and regarding contractor oversight. SBA shall submit a quarterly written report to the House and Senate Committees on Appropriations summarizing the agency's progress regarding the modernization effort, including milestones planned and achieved, and progress on cost and schedule.

Funds are also included, within the amount provided, for 504 loan guarantee program liquidation activities and for additional oversight of lenders participating in the 7(a) loan guarantee program. SBA should address the Inspector General's recommendations on the oversight of SBA Supervised Lenders, including the hiring of additional lender oversight staff as necessary.

Within the funds provided under this heading, SBA is directed to provide \$300,000 to the Office of Advocacy to conduct the study on the impact of broadband speed and price on small businesses as directed under section 105 of Public Law 110-385.

The amount provided also includes \$2,649,000 over the requested amount for the direct funding of SBA's Business Gateway e-gov initiative. Direct funding for the initiative within SBA will improve administrative efficiency by eliminating the need for as many as 80 funding transfers annually from 21 participating agencies. SBA should budget for direct funding for this initiative within its fiscal year 2010 budget request.

The Committees on Appropriations are aware that there are certain rural areas that

are underutilized business areas, but are excluded from HUBZone designation based on the current program authorization. SBA is encouraged to continue to examine ways to incorporate these areas into any future revisions of the Small Business Act.

The SBA is encouraged to consider options for donating, or offering at discounted prices, used equipment, including computers, for appropriate use by small businesses located in the United States. The SBA is directed to report to the House and Senate Committees on Appropriations within 270 days after enactment of this Act on potential plans for such donations.

SBA shall submit a report to the House and Senate Committees on Appropriations within 270 days of enactment of this Act on the Microloan program. The report shall include information regarding the number and dollar amount of lending and potential unmet need in the program. The report shall also address steps SBA has taken to implement recommendations of the 2003 report from the SBA Inspector General, particularly regarding the enforcement of reporting requirements in the Microloan program.

OFFICE OF INSPECTOR GENERAL

The bill provides \$16,750,000 for the Office of Inspector General of the Small Business Administration.

The Inspector General is directed to continue routine analysis and reporting on SBA's modernization of its loan management and accounting systems, including acquisition, contractor oversight, implementation, and progress regarding budget and schedule.

SURETY BOND GUARANTEES REVOLVING FUND

The bill provides \$2,000,000 for the Surety Bond Guarantees Revolving Fund.

BUSINESS LOANS PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$140,980,000 for the Business Loans Program Account. The amount includes \$2,500,000 for subsidies for the Microloan direct loan program.

The bill also includes \$138,480,000, within the total amount appropriated, for administrative expenses related to business loan programs. The amount provided for administrative expenses may be transferred to and merged with the appropriation for SBA salaries and expenses to cover the common overhead expenses associated with business loans.

The bill supports up to \$17,500,000,000 for the 7(a) business loan program, up to \$7,500,000,000 for the 504 certified development company program, up to \$3,000,000,000 for Small Business Investment Company (SBIC) debentures, and up to \$12,000,000,000

for the Secondary Market Guarantee Program.

ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Section 520 of the bill allows transfers between appropriations accounts.

Section 521 requires that all loans issued in Alaska or North Dakota be administered by the Small Business Administration and not be sold during fiscal year 2009.

Section 522 prohibits the Small Business Administration from implementing a rule that would limit the use of sole-source contracts for women-owned small businesses.

Section 523 transfers \$2,953,000 of previously appropriated funds to the Salaries and Expenses account of the Small Business Administration.

Section 524 makes a technical correction to Public Law 110-161.

Section 525 provides additional amounts for small business development and entrepreneurship initiatives, including programmatic and construction activities, to be awarded as follows:

Project Name	Amount
Adelante Development Center, Albuquerque, New Mexico	240,625
Adelante Service Expansion in Sandoval County	122,821
Advantage West Economic Development Group, Certified Entrepreneurial Community Program	196,514
African American Chamber of Commerce of Westchester and Rockland Counties, Entrepreneurial Assistance Program	196,514
AgriBusiness Development Corporation for the Hudson Valley Agribusiness Viability Program	245,643
Alamo Community College for a region energy futures park center	100,000
Alamo WorkSource Center Expansion	147,386
Alaska Manufacturing Extension Partnership, Inc., for a rural Alaska e-commerce training project, Anchorage, AK	285,000
Albuquerque Hispano Chamber of Commerce workforce training, Albuquerque, NM	232,750
Alcorn State University for a Systems Research Institute, Alcorn State, MS	570,000
Appalachian State University to study the effects of economic growth resulting from viticulture and agritourism in western North Carolina, Boone, NC	712,500
Arkansas State University-Newport for the Arkansas Commercial Driver Training Institute	245,643
Asian Pacific Islander Small Business Program	245,643
Asociacion De Provincias Dominicanas (ASOPRODOM) training programs	49,129
Association of Vermont Credit Unions, Student financial literacy, Burlington, VT	137,750
Baltimore City Public School System for the Allied Health Career Program	491,286
BARC/TEDCO Business Innovation Center	98,257
Baruch College/CUNY, The Field Center for Entrepreneurship	68,780
Baylor University workforce development and training	196,514
Beaver Street Enterprise Center, Jacksonville, FL	196,514
Becker College Nurse Training Initiative to address health care workforce shortages	165,072
Bedford-Stuyvesant YMCA Teen Entrepreneurship Program	98,257
Berkshire Enterprises Entrepreneurial Training	78,606

UNITED STATES POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND

The bill includes \$111,831,000 for payment to the Postal Service Fund, including \$29,000,000 for repayment of revenue forgone and \$82,831,000 for an advance appropriation for fiscal year 2010 to continue free mail for the blind and overseas voters.

The Postal Accountability and Enhancement Act of 2006 required the Postal Regulatory Commission (PRC) to submit a report to Congress in December of 2008 on universal postal service and the postal monopoly in the United States. The report will also include any recommended changes to universal service and the postal monopoly, and analyses of the costs and benefits of providing such services under current law. The U.S. Postal Service should keep Congress apprised of any actions the Postal Service plans to take on the PRC recommendations, including actions, if applicable, relating to five-day delivery service and its impact on fuel consumption.

The Postal Service should continue its efforts to upgrade postal operations and improve customer service in Chicago, and to assess service needs, reestablish postal facilities, improve mail delivery, and enhance product and service offerings to customers in New Orleans and other Louisiana communities.

The Postal Service should make every effort to maintain the U.S. Post Office in Danville, Virginia, and provide full postal services to the citizens of Danville.

The bill requires the Postal Service to keep the Appropriations Committees promptly and regularly informed on its mail treatment processes and to consult with the Committees on its future plans for securing mail irradiation services, including costs.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$239,356,000 for salaries and expenses of the Office of Inspector General.

UNITED STATES TAX COURT

SALARIES AND EXPENSES

The bill includes \$48,463,000 for salaries and expenses of the United States Tax Court.

GENERAL PROVISIONS

The following sections describe general provisions for agencies covered by this Act, agencies government-wide, and the District of Columbia. The Financial Services and General Government Appropriations Act, 2008, included several general provisions that were made permanent by inclusion of language indicating futurity. As noted by the United States Government Accountability Office:

“A provision contained in an annual appropriation act is not to be construed to be permanent legislation unless the language used therein or the nature of the provision makes it clear that Congress intended it to be permanent. The presumption can be overcome if the provision uses language indicating futurity or if the provision is of a general character bearing no relation to the object of the appropriation.

In analyzing a particular provision, the starting point in ascertaining Congress's intent is, as it must be, the language of the statute. The question to ask is whether the provision uses “words of futurity.” The most common word of futurity is “hereafter” and provisions using this term have often been construed as permanent.” (Principles of Federal Appropriations Law, Third Edition, Volume I, page 2-34)

Several provisions in the 2008 Act included the word “hereafter” as an indication of permanence. These provisions include sections 701 (concerning funds to pay travel for immediate families of employees serving abroad in cases of death or life threatening illness), 709 (concerning nominees disapproved by the Senate), 716 (concerning workplace discrimination and sexual harassment), and 737(b) and (c) (concerning E-Government). This statement reiterates that these provisions were made permanent.

TITLE VI

GENERAL PROVISIONS—THIS ACT

Section 601 prohibits pay and other expenses for non-Federal parties in regulatory or adjudicatory proceedings funded in this Act.

Section 602 prohibits obligations beyond the current fiscal year and prohibits transfers of funds unless expressly so provided herein.

Section 603 limits consulting service expenditures to contracts where such expenditures are a matter of public record, with exceptions.

Section 604 prohibits funds from being transferred to any department, agency, or instrumentality of the United States without expressed authority.

Section 605 prohibits the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

Section 606 prohibits funds from being expended unless the recipient agrees to comply with the Buy American Act.

Section 607 prohibits funding to a person or entity convicted of violating the Buy American Act.

Section 608 specifies reprogramming procedures for all departments, agencies, and offices funded under this Act unless otherwise specified elsewhere in this Act. Reprogramming requirements apply to transfers in excess of \$5,000,000 or 10 percent, whichever is less. Agencies are expected to follow the reprogramming procedures even if a reprogramming falls below the \$5,000,000 or 10 percent threshold if such reprogramming would significantly change an agency's funding requirements in future years, or if programs or projects specifically cited in this explanatory statement are affected.

Section 609 provides that not to exceed 50 percent of unobligated balances from salaries and expenses may remain available for certain purposes.

Section 610 provides that no funds may be used by the Executive Office of the President to request any official background investigation from the Federal Bureau of Investigation unless the person has given consent or there are national security circumstances.

Section 611 requires that cost accounting standards not apply to a contract under the Federal Employees Health Benefits Program.

Section 612 permits the Office of Personnel Management to accept funds regarding the nonforeign area cost of living allowances.

Section 613 prohibits the expenditure of funds for abortions under the Federal Employees Health Benefits Program.

Section 614 provides an exemption from section 613 if the life of the mother is in danger or the pregnancy is a result of an act of rape or incest.

Section 615 waives restrictions on the purchase of non-domestic articles, materials, and supplies in the case of acquisition by the Federal Government of information technology.

Section 616 makes technical corrections to section 512 of title 31, relating to the design of the quarter dollar.

Section 617 prohibits the acceptance by any regulatory agency or commission funded by this Act, or by their officers or employees, of payment or reimbursement for travel, subsistence, or related expenses from any person or entity (or their representative) that engages in activities regulated by such agency or commission.

Section 618 amends section 7472 of title 26, United States Code, relating to life insurance premiums for United States Tax Court judges.

Section 619 provides authority for the Public Company Accounting Oversight Board (PCAOB) to obligate funds for a scholarship program. PCAOB is urged to give consideration to supporting scholarships opportunities to students from populations, such as ethnic minorities and women, that have been historically underrepresented in the accounting profession.

Section 620 directs the Secretary of the Treasury to promulgate regulations allowing, by general license, travel to, from, or within Cuba related to the marketing and sale of agricultural and medical goods.

Section 621 prohibits funds from being used to administer, implement, or enforce the amendments made to the Code of Federal Regulations, published in the Federal Register on June 16, 2004, relating to travel to visit relatives in Cuba.

Section 622 prohibits funds from being used to enforce the regulations, published in the Federal Register on February 25, 2005, regarding the sales of food and medicine to Cuba.

Section 623 provides authorization for appropriations to the Christopher Columbus Fellowship Foundation.

Section 624 prohibits in fiscal year 2009 and each fiscal year thereafter the use of funds for a proposed rule relating to the determination that real estate brokerage is a financial activity.

Section 625 amends Section 102(a)(3)(B) of the Help America Vote Act of 2002 by changing a date relating to state expenditure of funds.

Section 626 directs the Federal Trade Commission to conduct a rulemaking under the Administrative Procedures Act with respect to mortgage loans.

TITLE VII

GENERAL PROVISIONS—GOVERNMENT-WIDE

DEPARTMENTS, AGENCIES, AND CORPORATIONS

Section 701 requires all agencies have a written policy for ensuring a drug free workplace.

Section 702 sets specific limits on the cost of passenger vehicles with exceptions for police, heavy duty, electric hybrid and clean fuels vehicles.

Section 703 makes appropriations available for quarters/cost of living allowances.

Section 704 prohibits the government from employing non-US citizens (with exceptions) whose posts are in the continental United States.

Section 705 ensures that appropriations made available to any department or agency for space, services and rental charges shall also be available for payment to the GSA.

Section 706 allows the use of receipts from the sale of materials for acquisition, waste reduction and prevention, environmental management programs and other Federal employee programs as appropriate.

Section 707 allows funds for administrative expenses to also be available for rent in the District of Columbia, services under 5 U.S.C. 3109, and the objects specified under this head.

Section 708 prohibits funds for interagency financing boards (with exception), commissions, counsels, committees or similar groups without prior approval to receive multi-agency funding.

Section 709 precludes funds for regulations which have been disapproved by joint resolution.

Section 710 sets ceilings on pay rates for certain Federal employees for fiscal year 2009.

Section 711 limits the amount of funds that can be used for redecoration of offices under certain circumstances to \$5,000, unless advance notice is transmitted to the Committees on Appropriations.

Section 712 allows for interagency funding of national security and emergency preparedness telecommunications initiatives.

Section 713 requires agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House.

Section 714 prohibits the payment of any employee who prohibits, threatens, prevents or otherwise penalizes another employee from communicating with Congress.

Section 715 prohibits Federal employee training not directly related to the performance of official duties.

Section 716 prevents funds from being used to implement or enforce non-disclosure agreement policies unless certain provisions are included.

Section 717 prohibits executive branch agencies from using funds for propaganda or publicity purposes in support or defeat of legislative initiatives.

Section 718 prohibits any Federal agency from disclosing an employee's home address to any labor organization, absent employee authorization or court order.

Section 719 prohibits funds to be used to provide non-public information such as mailing or telephone lists to any person or organization outside the government without the approval of the Committees on Appropriations.

Section 720 prohibits the use of funds for propaganda and publicity purposes not authorized by Congress.

Section 721 directs agency employees to use official time in an honest effort to perform official duties.

Section 722 authorizes the use of funds to finance an appropriate share of the Federal Accounting Standards Advisory Board administrative costs.

Section 723 authorizes the transfer of funds to GSA to finance various government-wide boards and commissions.

Section 724 permits breastfeeding in a Federal building or on Federal property if the woman and child are authorized to be there.

Section 725 permits interagency funding of the National Science and Technology Council and requires OMB to provide a report on the budget and resources of the National Science and Technology Council.

Section 726 requires that the Federal forms that are used in distributing Federal funds must indicate the agency providing the funds, the domestic catalogue information, and the amount provided.

Section 727 prohibits the use of funds to monitor personal information relating to the use of Federal Internet sites to collect, review, or create any aggregate list that includes personally identifiable information relating to access to or use of any Federal Internet site of such agency.

Section 728 requires health plans participating in the Federal Employees Health Benefits Program to provide contraceptive cov-

erage and provides exemptions to certain religious plans.

Section 729 recognizes the U.S. Anti-Doping Agency as the official anti-doping agency for Olympic, Pan American and Paralympic sport in the United States.

Section 730 allows funds for official travel to be used by departments and agencies, if consistent with OMB and Budget Circular A-126, to participate in the fractional aircraft ownership pilot program.

Section 731 prohibits funds for implementation of OPM regulations limiting detailees to the Legislative Branch or implementing limitations on the Coast Guard Congressional Fellowship Program.

Section 732 restricts the use of funds for Federal law enforcement training facilities with an exception for the Federal Law Enforcement Training Center.

Section 733 prohibits funds for E-Government initiatives sponsored by OMB prior to 15 days following submission of a report to the Committees on Appropriations and receipt of Committee approval to transfer funds. The section also prohibits funds for new E-Government initiatives without the explicit approval of the Committees.

Section 734 provides authority to transfer funds between agencies to ensure the uninterrupted, continuous operation of the Midway Atoll Airfield.

Section 735 amends section 739(a)(1) of the Financial Services and General Government Appropriations Act, 2008, relating to public-private competitions.

Section 736 amends section 739 of the Financial Services and General Government Appropriations Act, 2008, relating to guidelines on insourcing new and contracted out functions.

Section 737 prohibits funds to begin or announce a study or public-private competition regarding conversion to contractor performance pursuant to OMB Circular A-76.

Section 738 extends the adjustment in the rates of basic pay set by Public Law 110-329 to civilian employees in the Department of Defense who are represented by a labor organization.

Section 739 prohibits executive branch agencies from creating prepackaged news stories that are broadcast or distributed in the United States unless the story includes a clear notification within the text or audio of that news story that the prepackaged news story was prepared or funded by that executive branch agency.

Section 740 prohibits funds from being used on contravention of the Privacy Act or associated regulations.

Section 741 requires agencies to evaluate the creditworthiness of an individual before issuing a government travel charge card and prohibits agencies from issuing a government travel charge card to individuals who have an unsatisfactory credit history.

Section 742 requires OMB to submit a crosscut budget report on Great Lakes restoration activities not later than 45 days after the submission of the budget of the President to Congress.

Section 743 prohibits funds in this or any other Act to be used for Federal contracts with expatriated entities.

Section 744 requires each agency to establish, on the homepage of its website, a link to the website of its Inspector General, and requires each Office of Inspector General to post public reports and audits within one day of release, allows an individual to request automatic receipt of information relating to any public report or audit, and establishes and maintains a link for individuals to anonymously report waste, fraud and abuse.

Section 745 prohibits agencies from using funds to implement regulations changing the competitive areas under reductions-in-force for Federal employees.

Section 746 prohibits funds from being used to implement the Regulatory Policy Officer provisions contained in Executive Order 13422.

Section 747 requires OMB to submit a status report on the pilot program to develop and implement an inventory to track the cost and size of service contracts.

Section 748 makes permanent Executive Order 13423 relating to Federal environmental, energy, and transportation management. After consulting with the Committees on Appropriations, the Steering Committee on Strengthening Federal Environmental, Energy, and Transportation Management and the Office of the Federal Environmental Executive are to report on protocols to measure, and successes in avoiding and reducing, annual greenhouse gas net emissions, to the Committees on Appropriations by June 1, 2009 and every year thereafter.

Section 749 permanently prohibits funds to pay the salary of an individual for a position in an acting capacity after the second submission of a nomination for that individual to that position has been withdrawn or returned to the President.

Section 750 clarifies references to "this Act".

Section 751 provides for nonreduction in pay for Federal employees while serving in the uniformed services or National Guard.

Section 752 requires each agency to submit a report to OMB stating the total size of its workforce, differentiated by number of civilian, military, and contract workers, and requires OMB to submit to the Committees on Appropriations a comprehensive statement delineating the workforce data.

TITLE VIII

GENERAL PROVISIONS—DISTRICT OF COLUMBIA

Section 801 specifies that appropriations are made for particular purposes and shall be considered the maximum for those purposes.

Section 802 authorizes that appropriations are available for travel and dues of organizations.

Section 803 allows for the use of local funds for making refunds or paying judgments against the District of Columbia government.

Section 804 prohibits Federal funds from being used for propaganda designed to support or defeat legislation before the Congress, but allows the District of Columbia to use local funds to lobby on any matter.

Section 805 provides reprogramming and transfer authorities.

Section 806 provides that appropriations under the Act shall be applied to objects for which the appropriation was made.

Section 807 prohibits the use of Federal funds to implement the District of Columbia's Health Care Benefits Act of 1992.

Section 808 makes permanent a provision which allows the Mayor to accept, obligate and expend Federal, private and other grants received by the District of Columbia not reflected in the amounts appropriated in this Act.

Section 809 prohibits Federal funds in the Act to be used for the expenses of the Shadow Senator or U.S. Representative.

Section 810 provides the parameters for which certain District of Columbia employees may use a vehicle meant for official duties to travel to and from work.

Section 811 prohibits the use of Federal funds for a petition or civil action which

seeks to require voting rights for the District of Columbia in Congress.

Section 812 prohibits Federal funds to be used for needle distribution, allowing the District of Columbia to utilize local funds for this purpose.

Section 813 concerns a “conscience clause” on legislation that pertains to contraceptive coverage by health insurance plans.

Section 814 lifts the cap on funds that can be used to pay the fees of an attorney in a suit brought against the District of Columbia under the Individuals with Disabilities Act.

Section 815 requires an annual report on crime, access to substance abuse treatment, management of parolees, education, rat abatement and indicators of child well-being.

Section 816 makes permanent the provision which allows local appropriations to be increased by no more than \$100,000,000 from unexpended general funds for certain purposes.

Section 817 makes permanent the provision pertaining to the spending of “Other-Type Funds” under certain conditions.

Section 818 makes permanent the provision which allows the Chief Financial Officer to conduct short-term borrowing.

Section 819 prohibits the use of funds in the Act to enact or carry out any law that legalizes or reduces the penalty for the use of controlled substances.

Section 820 prohibits the use of funds in the Act for abortion services.

Section 821 allows for the transfer of operating funds to enterprise and capital funds.

Section 822 authorizes a pay increase for District of Columbia Public Defenders.

Section 823 modifies an Act related to the control of wharf property and certain public spaces in the District of Columbia.

Section 824 specifies that references to this Act in this title or title IV are treated as referring only to the provisions of this title or title IV.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Reference in the following table to “The President” is a reference to President Bush. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION E—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2009

TITLE I—DEPARTMENT OF THE INTERIOR

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LANDS AND RESOURCES

Appropriation enacted, 2008	\$853,931,000
Budget estimate	864,827,000
Bill, 2009	890,194,000

Comparisons:

Appropriations, 2008	+36,263,000
Budget estimate, 2009	+25,367,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Land Resources. Within the funds provided for soil, water, and air management, there is a program increase of \$7,500,000 for abandoned mine remediation and inventory in the West. Of this amount, a minimum of \$6,000,000 is for actions to secure, seal, and remediate hazards from known mine openings. An amount up to \$1,500,000 may be used for discovery and inventory activities.

Cultural Resources Management. Within the amounts provided, there is an increase of \$500,000 to begin implementation of the Galisteo Basin Archeological Sites Protection Act of 2004 (NM).

Wildlife Management. Within the funds provided there is an additional \$4,600,000 for the native plant materials development program. This funding and program has been moved out of the Department's wildland fire management appropriation account. This program should continue previous activities as part of the national fire plan working closely with the Forest Service, and develop a seed bank of desirable native plant species to be available for use in burned area restoration, habitat restoration, and other related purposes by all of the Interior land management bureaus. An annual report on the accomplishments and expenditures of the

program should be submitted no later than 90 days after the end of the fiscal year.

Recreation Resources Management. Within the amounts provided, there is an increase of \$1,000,000 for management of the national scenic and historic trails.

Energy and Minerals. The bill continues the same application for permits to drill (APD) fee as in fiscal year 2008, \$4,000 per APD, which is estimated to net \$36,400,000 during fiscal year 2009 to partially offset BLM administrative costs. In addition, the bill includes \$6,000,000 for Alaska legacy well remediation, no specific funds for gas hydrates research or North Slope science, and \$1,000,000 for oil shale sample shipment and storage in Colorado. The discretionary funding total for oil and gas management is \$79,478,000, which when added to the APD fee receipts, and the off-budget pilot offices funds, is a small increase over the total fiscal year 2008 oil and gas management funding.

Future budget justifications should clearly delineate how the Bureau is complying with section 713 of the Energy Independence and Security Act of 2007 dealing with inventories of carbon dioxide sequestration in Federal mineral leaseholds.

Realty Ownership and Management. Within the funds provided, there is an increase of \$750,000 for GIS/cadastral mapping in Utah.

Resource Protection and Law Enforcement. Within the amounts provided, there is an increase of \$5,100,000 for drug enforcement on public lands.

Hazardous Materials Management. Within the amounts provided, there is an increase of \$1,000,000 for activities related to southwest border problems.

Challenge Cost Share. The Bureau should not set aside a specific allocation for the National Landscape Conservation System as was proposed in the budget request.

National Monuments and Conservation Areas. The bill includes the various funding transfers proposed by the Bureau, and an increase of \$6,371,000 above the request, for a total of \$28,196,000 for the new National Monuments and Conservation Areas activity. Additional National Landscape Conservation System

funding is included in the wilderness and recreation activities in this account, and in the Oregon and California Grant Lands account.

Healthy Lands Initiative. Within the amounts provided there is a total of \$7,797,000 for the Healthy Lands Initiative, including \$750,000 in soil, water and air management, \$2,586,000 in rangeland management, \$150,000 in forestry management, \$867,000 in riparian management, \$2,602,000 in wildlife management, \$292,000 in fisheries management, and \$550,000 in the threatened and endangered species activity.

National Fish and Wildlife Foundation. The bill includes \$3,000,000 to continue cost share activities as in the past, including \$1,917,000 in wildlife management, \$246,000 in fisheries management, \$246,000 in threatened and endangered species, \$345,000 in rangeland management, and \$246,000 in riparian management.

Other. The Bureau should retain its current level of support for the National Conservation Training Center; funds should be made available to the Center within 60 days of enactment.

CONSTRUCTION

Appropriation enacted, 2008	\$6,375,000
Budget estimate	4,476,000
Bill, 2009	6,590,000

Comparisons:

Appropriations, 2008	+215,000
Budget estimate, 2009	+2,114,000

The bill includes the funds requested, plus an additional \$14,000 for architectural and engineering services, and \$1,500,000 for the California National Historic Trail visitor center in Nevada and \$600,000 for the King Range National Conservation Area, CA.

LAND ACQUISITION

Appropriation enacted, 2008	\$8,939,000
Budget estimate	4,475,000
Bill, 2009	14,775,000

Comparisons:

Appropriations, 2008	+5,836,000
Budget estimate, 2009	+10,300,000

State	Project description	Amount
CA	Santa Rosa and San Jacinto NM	\$1,300,000
CA	Upper Sacramento River ACEC	2,200,000
CO	Arkansas River SRMA	2,200,000

OR	Sandy River/Oregon NHT	1,350,000
	Subtotal, Line Item Projects	11,425,000
	Acquisition Management	1,850,000
	Inholdings, Emergencies, and Hardships	1,500,000
	Total, BLM Land Acquisition	\$14,775,000

OREGON AND CALIFORNIA GRANT LANDS

Appropriation enacted, 2008	\$108,522,000
Budget estimate	108,253,000
Bill, 2009	109,949,000

Comparisons:

Appropriations, 2008	+1,427,000
Budget estimate, 2009	+1,696,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement.

FOREST ECOSYSTEM HEALTH AND RECOVERY FUND

(REVOLVING FUND, SPECIAL ACCOUNT)

The bill includes language, as in the past, allowing funds made available in the Forest Ecosystem Health and Recovery Fund to be used for various forestry purposes including planning, preparing, implementing and monitoring salvage timber sales and forest ecosystem restoration activities.

RANGE IMPROVEMENTS

Appropriation enacted, 2008	\$10,000,000
Budget estimate	10,000,000
Bill, 2009	10,000,000

Comparisons:

Appropriations, 2008	0
Budget estimate, 2009	0

The bill includes an indefinite appropriation of not less than \$10,000,000 to be derived from public lands receipts and Bankhead-Jones Farm Tenant Act lands grazing receipts. The bill retains this language as in previous years even though the Administration requested its deletion. Receipts are used for construction, purchase, and maintenance of range improvements, such as seeding, fence construction, weed control, water development, fish and wildlife habitat improvement, and planning and design of these projects.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The bill includes an indefinite appropriation estimated to be \$27,990,000 for service charges, deposits, and forfeitures. The bill modifies the Administration request to continue the energy and minerals cost recovery program for oil and gas management activities. The Administration request originally estimated that \$34,000,000 would be generated within this account; instead, the bill, as in fiscal year 2008, leaves the cost recovery program in the Management of Lands and Resources appropriation.

MISCELLANEOUS TRUST FUNDS

Appropriation enacted, 2008	\$20,130,000
Budget estimate	20,130,000
Bill, 2009	20,130,000

Comparisons:

Appropriations, 2008	0
Budget estimate, 2009	0

The bill includes an indefinite appropriation estimated to be \$20,130,000, the budget request, for miscellaneous trust funds.

PAYMENT FROM PROCEEDS, SALE OF WATER
(RESCISSION)

Appropriation enacted, 2008	\$0
Budget estimate	-46,000
Bill, 2009	-46,000
Comparisons:	
Appropriations, 2008	-46,000
Budget estimate, 2009	0

The bill includes the Administration request that unobligated balances remaining in the account, a total of \$46,000, be permanently rescinded.

USE OF RECEIPTS FROM MINERAL LEASING ACTIVITIES ON CERTAIN NAVAL OIL SHALE RESERVES

(RESCISSION)

Appropriation enacted, 2008	\$0
Budget estimate	-12,996,000
Bill, 2009	-12,996,000
Comparisons:	
Appropriations, 2008	-12,996,000
Budget estimate, 2009	0

The bill includes the Administration request to rescind \$12,996,000 from the naval oil shale reserves, mineral leasing receipts account.

ADMINISTRATIVE PROVISIONS

The bill includes the administrative provisions as requested, and provides a technical change to the Bureau's authority to collect mining claim maintenance fees so that mining law administration can be supported with claim maintenance fees, as in the past.

UNITED STATES FISH AND WILDLIFE SERVICE
RESOURCE MANAGEMENT

Appropriation enacted, 2008	\$1,082,616,000
Budget estimate	1,068,886,000
Bill, 2009	1,140,962,000
Comparisons:	
Appropriations, 2008	+58,346,000

Budget estimate, 2009 +72,076,000

The detailed allocation of funding by program area and activity for the U.S. Fish and Wildlife Service account is included in the table at the end of this section of the statement.

Ecological Services.—Within the funds for the listing program there is \$10,458,000 for critical habitat and \$8,808,000 for listing. Within the funds for candidate conservation, there is \$250,000 for the sage grouse in Idaho. Within the funds for the recovery program, there is \$1,500,000 for endangered species grants with the National Fish and Wildlife Foundation, \$250,000 for the Lahontan cutthroat trout restoration and an increase of \$250,000 for wolf monitoring in western states.

Within habitat conservation, the bill includes the following distribution of funds:

Habitat Conservation	\$105,055,000
Partners for Fish and Wildlife	52,943,000
Conservation Planning Assistance	32,048,000
Coastal Programs	14,736,000
National Wetlands Inventory	5,328,000

Within the funds for the partners for fish and wildlife program, there is \$350,000 for invasive species management in Hawaii, \$350,000 for the Nevada Biodiversity Research and Conservation Initiative, and \$350,000 for the Natural Resources Economic Enterprises Program at Mississippi State University. There is also \$725,000 for new activities for bald and golden eagle protection.

National Wildlife Refuge System.—Within the funds provided for the refuge system there is \$450,000 for the oceans and coastal frontiers initiative, increases of \$15,500,000 for wildlife and habitat management, \$1,000,000 for the invasive species program, and \$1,000,000 for the challenge cost share program. Within the

increase provided for refuge system maintenance, \$2,185,000 is for annual maintenance, and \$1,199,000 is for maintenance support. The Service is directed to continue spartina grass eradication and control at Willapa Bay NWR.

Migratory Bird Management, Law Enforcement, and International Affairs.—Within the funds provided for migratory birds, law enforcement and international programs, there is \$2,100,000 for the wild birds forever initiative, \$1,950,000 for activities under the North American Waterfowl Management Plan, \$960,000 for bald and golden eagle management programs, and \$150,000 for the Caddo Lake Ramsar Center. There is an increase of \$250,000 for the international wildlife trade program and a total program level of \$1,000,000 for the wildlife without borders program.

Fisheries.—Within the funds provided for fisheries and aquatic resource conservation, there is \$500,000 for freshwater mussel recovery conducted at national fish hatcheries, and \$350,000 for sea otters and pacific marine mammals. A \$350,000 increase is provided for annual maintenance activities.

General.—The Service is urged to continue ongoing priority efforts for aplomado falcons, California condors, southern sea otters and eiders, brown bullhead catfish and snakehead fish. The Service is expected to be an integral part of the Department-wide effort to eradicate marijuana on public lands.

Subtotal, Line Item Projects		25,267,000
Dam & Bridge Safety Inspections		1,350,000
Nationwide Engineering Services		8,970,000
Rescission of anadromous fish balances		-54,000
Total, FWS Construction		\$35,533,000

The Service should use the funds provided for sustainable energy enhancements at national wildlife refuges and national fish hatcheries to install alternative and renewable energy applications such as solar, wind, and geothermal energy. These should be small-scale projects that can be used as dem-

onstration projects for the public and surrounding communities.

The Service is directed to name the visitor center at Theodore Roosevelt National Wildlife Refuge in Sharkey County, MS, the Holt Collier Visitor and Interpretive Center.

LAND ACQUISITION

Appropriation enacted, 2008	\$34,596,000
Budget estimate, 2009	10,171,000
Bill, 2009	42,455,000
Comparison:	
Appropriation, 2008	+7,859,000
Budget estimate, 2009	+32,284,000

State	Project description	Amount
AK	Alaska Maritime NWR	\$400,000
CA	San Joaquin NWR	900,000
CT, NJ, NY, PA	Highlands Conservation Act—easements	1,500,000
FL	Crystal River NWR	1,500,000
HI	James Campbell NWR	7,000,000

Cost Allocation Methodology		1,500,000
Exchanges		1,500,000
Inholdings, Emergencies, and Hardships		3,000,000
Total, FWS Acquisition		\$42,455,000

The Service is directed to submit the proposed allocation of the delayed project savings to the House and Senate Committees on Appropriations for approval.

COOPERATIVE ENDANGERED SPECIES
CONSERVATION FUND
(INCLUDING RESCISSION OF FUNDS)

Appropriation enacted, 2008	\$73,831,000
Budget estimate	75,501,000
Bill, 2009	75,501,000
Comparisons:	
Appropriations, 2008	+1,670,000
Budget estimate, 2009	0

The bill provides \$80,001,000, as requested, for the Cooperative Endangered Species Conservation Fund, which is partially offset by a \$4,500,000 rescission of unobligated balances from prior appropriations. A detailed allocation of funding by activity is included in the table at the end of this section of the statement.

NATIONAL WILDLIFE REFUGE FUND

Appropriation enacted, 2008	\$13,980,000
Budget estimate	10,811,000
Bill, 2009	14,100,000
Comparisons:	
Appropriations, 2008	+120,000
Budget estimate, 2009	+3,289,000

The bill provides \$14,100,000 for payments to counties authorized by the National Wildlife Refuge Fund.

NORTH AMERICAN WETLANDS CONSERVATION
FUND

Appropriation enacted, 2008	\$41,981,000
Budget estimate	42,647,000
Bill, 2009	42,647,000
Comparisons:	
Appropriations, 2008	+666,000
Budget estimate, 2009	0

The bill provides \$42,647,000, as requested, for the North American Wetlands Conservation Fund. A detailed allocation of funding by activity is included in the table at the end of this section of the statement.

NEOTROPICAL MIGRATORY BIRD CONSERVATION

Appropriation enacted, 2008	\$4,430,000
Budget estimate	3,960,000
Bill, 2009	4,750,000
Comparisons:	
Appropriations, 2008	+320,000
Budget estimate, 2009	+790,000

The bill provides \$4,750,000 for Neotropical Migratory Bird Conservation.

MULTINATIONAL SPECIES CONSERVATION FUND

Appropriation enacted, 2008	\$7,875,000
Budget estimate	4,256,000
Bill, 2009	10,000,000

Comparisons:

Appropriations, 2008	+2,125,000
Budget estimate, 2009	+5,744,000

The bill provides \$10,000,000 for the Multinational Species Conservation Fund. A detailed allocation of funding by activity is included in the table at the end of this section of the statement.

STATE AND TRIBAL WILDLIFE GRANTS

Appropriation enacted, 2008	\$73,830,000
Budget estimate	73,830,000
Bill, 2009	75,000,000

Comparisons:

Appropriations, 2008	+1,170,000
Budget estimate, 2009	+1,170,000

The bill provides \$75,000,000 for State and Tribal Wildlife Grants.

WILDLIFE CONSERVATION AND APPRECIATION
FUND
(RESCISSION)

Appropriation enacted, 2008	\$0
Budget estimate	-497,000
Bill, 2009	-497,000

Comparisons:

Appropriations, 2008	-497,000
Budget estimate, 2009	0

The bill rescinds \$497,000, as requested, from the Wildlife Conservation and Appreciation Fund.

NATIONAL PARK SERVICE

OPERATION OF THE NATIONAL PARK SYSTEM

Appropriation enacted, 2008	\$1,970,581,000
Budget estimate, 2009	2,131,529,000
Bill, 2009	2,131,529,000
Comparisons:	
Appropriations, 2008	+160,948,000
Budget estimate, 2009	0

The detailed allocation of funding by program area and activity for the National Park Service account is included in the table at the end of this section of the statement. The amounts in this bill will support 20,923 full time equivalent (FTE) positions throughout the National Park Service, an increase of 622 FTE's over the number funded in 2008. This includes continuation of funding for the 3,000 new seasonal positions added in fiscal year 2008. Savings in personnel and contracting costs of \$9,855,000 compared to the request

have been realized due to delayed enactment of the 2009 appropriations. In addition, the bill includes the following specific funding levels and directions:

Visitor Services. Within the amounts provided for visitor services, the bill assumes an increase of \$3,300,000 above the amounts requested in the President's budget for the National Park Service portion of an expanded law enforcement effort to eradicate drug production and related activities on public lands.

Park Support. The bill assumes funding of \$11,000,000 for the National Trail System, and \$1,750,000 for the Wild and Scenic Rivers program.

U.S. Park Police. The \$96,555,000 provided in the bill for the U.S. Park Police annual operations budget includes sufficient funding for two additional recruit classes during 2009. In addition the bill includes the \$2,000,000 for security costs associated with the 2009 Presidential Inauguration.

Gettysburg National Military Park (NMP). \$200,000 is provided to continue the restoration of historic battlefield landscaping at Gettysburg NMP.

National Mall Concerts. The bill includes funding to continue support for the National Mall concerts program at the fiscal year 2008 level.

Youth Conservation Corps (YCC) and Public Lands Corps (PLC). The bill includes not less than \$3,000,000 of funding in this account for projects to be carried out by the YCC program and not less than \$3,000,000 for projects carried out by the PLC. The Committees on Appropriations are fully supportive of these partnership programs, as well as similar partnership arrangements with the Student Conservation Association, and encourages expansion of these programs in 2009.

Special Resource Studies. The bill includes sufficient funding to carry out all special resource studies authorized by law during the 110th and previous Congresses.

Harpers Ferry NHP. The Committees on Appropriations appreciate the Service's efforts to commemorate the 150th anniversary of John Brown's raid on the arsenal at Harpers Ferry National Historical Park, and authorize the use of up to \$300,000 to defray the costs of the extensive events that will surround the anniversary.

Traditional and Folk Arts Heritage Programs. The bill includes funding to continue National Park Service support of traditional and folk arts programs at parks whose mission includes preservation of these heritage traditions. The Committees are fully supportive of this important partnership program and encourage the National Park Service to expand its support of these programs in fiscal year 2009.

Haleakala National Park. The Committees on Appropriations are aware and supportive of the potential development of an Advanced Technology Solar Telescope (ATST) within the Haleakala High Altitude Observatories site at the summit of Haleakala, Maui, Hawaii. As the proposed ATST construction site can only be accessed via a road through the Haleakala National Park, the Service is expected to work cooperatively with the National Science Foundation to effectuate the issuance of a Special Use Permit as soon as possible. In turn, the Foundation is expected to complete its analysis on the effects to service standards in a timely fashion so that the Service can fully comply with all procedural requirements, with a goal of com-

pleting the permitting process within 150 days of enactment of this Act.

NATIONAL RECREATION AND PRESERVATION

Appropriation enacted, 2008	\$67,413,000
Budget estimate, 2009	45,488,000
Bill, 2009	59,684,000
Comparisons:	
Appropriations, 2008	-7,729,000
Budget estimate, 2009	+14,196,000

The detailed allocation of funding by program area and activity for the National Recreation and Preservation account is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

Cultural Programs. The bill includes \$1,000,000 to initiate programmatic activities under the Japanese-American Confinement Sites Act (P.L. 109-441). The bill does not include \$1,000,000 requested to begin an inventory of historic properties requested in the President's budget.

Heritage Partnerships Program. The bill includes \$15,702,000 for the heritage partnerships program. This amount will fund all heritage partnerships authorized during the 110th Congress. Partnerships which received

funding in fiscal year 2008 will be funded at the same level as they received last year. In addition, the bill provides \$148,000 of planning funds for each of three newly authorized heritage partnerships. The House and Senate Committees on Appropriations are concerned that the number of authorized heritage partnership programs has expanded rapidly in recent years and many more proposals are pending action by the authorizing committees. The Committees are in agreement that the amount of funding available for this program is limited; and that expanded funding for new heritage areas should be funded principally by savings which occur when mature programs are graduated from Federal support. The National Park Service is directed to develop new guidelines for this program which require self-sufficiency plans for all heritage areas within a reasonable period of time. The adoption of a credible self-sufficiency plan, or satisfactory work towards development of such a plan, should be a condition of continued funding for all plans after fiscal year 2009.

Statutory and Contractual Aid. The bill includes \$5,600,000 for grants under the statutory and contractual aid program as follows:

State	Project description	Amount
AL	National Voting Rights Interpretive Center	\$350,000
CA	Angel Island Immigration Center	1,250,000
CA	Yosemite Schools (P.L. 109-131)	400,000
DC	National Law Enforcement Memorial	500,000
HI	Native Hawaiian Culture & Arts Program	500,000
MD	Chesapeake Bay Gateways	1,000,000
MI	River Raisin War of 1812 Battlefield	350,000
NH	Lamprey Wild & Scenic River	200,000
NY	Hudson-Fulton-Champlain Quadricentennial	750,000
UT	Crossroads of the West Historic District	300,000
	Subtotal, Line Item Projects	\$5,600,000

HISTORIC PRESERVATION FUND (INCLUDING TRANSFERS AND RESCISSION OF FUNDS)

Appropriation enacted, 2008	\$70,385,000
Budget estimate, 2009	66,142,000
Bill, 2009	68,984,000
Comparisons:	
Appropriations, 2008	-1,401,000
Budget estimate, 2009	+2,842,000

The bill includes a direct appropriation of \$69,500,000 for the Historic Preservation

Fund, offset by rescission of \$516,000 of prior year unobligated funding within this account. The detailed allocation of funding by program area and activity is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

Program Reductions. The bill does not include \$10,000,000 requested in this account for the Preserve America program or \$2,000,000 requested to initiate an inventory of historic

properties. The Committees on Appropriations believe that future funding for the Preserve America program should be deferred pending a full evaluation of the effectiveness of the program in meeting national heritage tourism needs.

Save America's Treasures. The bill includes \$20,000,000 for the Save America's Treasures program and allocates \$10,000,000 of this amount to the following projects:

State	Project Description	Amount
AL	Fort Morgan, Gulf Shores	\$150,000
AL	Historic Blakely Park Spanish Fort	50,000
AL	Historic Jackson Jefferson Franklin Home	100,000
AL	Historic Peterson Hall	150,000
AL	Magnolia Grove, Greensboro	350,000
AZ	Glendale Historic Entryway	200,000
CA	Mission San Carlos, Carmel	650,000
CA	Shipyards 3 Historic District	150,000
CO	Hutchinson Ranch House, Salida	260,000

WA	Mason County Courthouse Restoration	200,000
WI	Medford Carnegie Library	45,000
WV	Fisherman's Hall, Charles Town	125,000
WV	Wheeling B&O Railroad Station	150,000
Subtotal, Line Item Projects		\$10,000,000

CONSTRUCTION

(INCLUDING RESCISSION OF FUNDS)

Appropriation enacted, 2008	\$218,522,000
Budget estimate, 2009	172,459,000
Bill, 2009	232,521,000
Comparisons:	
Appropriations, 2008	+13,999,000
Budget estimate, 2009	+60,062,000

The detailed allocation of funding by program area and activity for the Construction account is included in the table at the end of this section of the statement. The bill also includes the following specific funding levels and directions:

Everglades. The bill includes \$60,000,000 for the Modified Water Deliveries Project at Everglades National Park. This includes \$50,000,000 requested in the President's Budget for the Corps of Engineers. This funding level will allow construction of the first Tamiami Trail bridge to proceed expeditiously. The House and Senate Committees on Appropriations recognize, however, that this bridge is just a first step. As the next step in this critical restoration effort, the Secretary of the Interior, acting through the National Park Service, is directed to immediately evaluate the feasibility of additional

bridge length, including a continuous bridge, or additional bridges or some combination thereof, for the Tamiami Trail (U.S. Highway 41) to restore more natural water flow to Everglades National Park and Florida Bay. The feasibility study and the recommendation of the Secretary should be submitted to the Congress no later than 12 months from the date of enactment of this Act. Language is included in the bill directing that this study be completed.

Line Item Construction. The bill allocates funding for line item construction projects and activities as follows:

State	Project description	Amount
AK	Denali National Park	\$2,560,000
CA	California National Parks (mines), Golden Gate National Recreation Area (Pt Bonita)	1,600,000
CA	Joshua Tree National Park Visitor Center	300,000
CA	Manzanar National Historic Site (barracks)	900,000
CA	Redwoods National Park	5,481,000
CA	Yosemite National Park (tunnel)	800,000
CO	Rocky Mountain National Park	1,270,000
DC	National Mall (Jefferson Memorial)	10,000,000
FL	Everglades National Park	60,000,000
KY	Abraham Lincoln Birthplace NHS	1,596,000
MA	Boston Harbor Islands (NRA) Pavilion	5,000,000
MA	Boston National Historical Park	3,913,000
MO	Jefferson National Expansion Memorial (riverfront bridge)	1,500,000
NC	Blue Ridge Parkway	7,097,000
NC	Cape Hatteras National Seashore	3,090,000
NC	Ft Raleigh National Historical Site	7,213,000
NM	Bandelier National Monument	3,178,000
NY	Castle William Gateway NRA	1,350,000
NY	Vanderbilt Mansion NHS	2,547,000
OH	Cuyahoga Valley National Park	1,000,000
PA	Flight 93 National Memorial	1,200,000
PA	Valley Forge National Park, Welcome Center	1,000,000
TN	Great Smokey Mountains Nat'l Park (p/d storage)	90,000
TN	Moccasin Bend National Archeological District	500,000
TX	Big Bend National Park	4,860,000
UT	Canyonlands National Park	784,000
UT	Utah Public Land Artifact Pres. Act	1,000,000
VA	Booker T Washington NM	500,000
VA	Jones Point Lighthouse, GW Parkway	640,000
VA	Roosevelt Island Improvements, GW Parkway	250,000
WA	Olympic National Park (Elwha)	20,000,000
WI	Apostle Island Lighthouse Restoration	5,000,000
WI	Ice Age National Scenic Trail	125,000
WV	New River Gorge National River	2,600,000
WV	Savings from performance contracting	-401,000
WV	Use of prior year balances	-10,000,000
Subtotal, Line Item Projects		\$149,223,000

Bill language. The bill includes language permitting the National Park Service to enter into a single procurement contract for construction work at the Jefferson Memorial in Washington, D.C. The bill also includes language authorizing a grant to the St. Louis Metropolitan Park and Recreation District for the purpose of planning and constructing a pedestrian bridge to provide safe visitor access to the Jefferson National Expansion Memorial Arch.

LAND AND WATER CONSERVATION FUND
(RESCISSION)

Appropriation enacted, 2008	— \$30,000,000
Budget estimate	— \$30,000,000
Bill, 2009	— \$30,000,000
Comparisons:	
Appropriations, 2008	0
Budget estimate, 2009	0
The bill rescinds \$30,000,000, as in previous years, in annual contract authority. This au-	

thority has not been used in years, and there are no plans to use it in fiscal year 2009.

LAND ACQUISITION AND STATE ASSISTANCE

(INCLUDING RESCISSION OF FUNDS)	
Appropriation enacted, 2008	\$68,977,000
Budget estimate	20,832,000
Bill, 2009	64,190,000
Comparisons:	
Appropriations, 2008	— 4,787,000
Budget estimate, 2009	+43,358,000

State	Project description	Amount
Land Acquisition		
CA	Golden Gate National Recreation Area—Rancho Corral de Tierra	\$4,000,000
CA	Whiskeytown NRA	460,000
ID	Minidoka NHS	350,000
KY/TN	Cumberland Gap NHP—Fern Lake	1,150,000

WV	New River Gorge National River	500,000
	Delayed Project Savings	-2,500,000
	Subtotal, Line Item Projects	30,940,000
	Acquisition Management	9,250,000
	Inholdings	2,500,000
	Emergencies and Hardships	2,500,000
	Total, NPS Land Acquisition	\$45,190,000
Assistance to States		
	Stateside conservation grants	\$19,000,000
	Administrative expenses	1,000,000
	Sub-total, NPS Assistance to States	20,000,000
	Rescission of prior year balances	-1,000,000
	Total, NPS Assistance to States	\$19,000,000

The Service is directed to submit the proposed allocation of the delayed project savings to the House and Senate Committees on Appropriations for approval.

URBAN PARKS AND RECREATION

Appropriation enacted, 2008	\$0
Budget estimate	-\$1,300,000
Bill, 2009	-1,300,000
Comparisons:	
Appropriations, 2008	-1,300,000
Budget estimate, 2009	0

The bill rescinds \$1,300,000, as requested, from prior year balances in the Urban Parks and Recreation Fund.

ADMINISTRATIVE PROVISIONS

The bill continues administrative provisions applicable to the National Park Service and adds two new provisions. The first new provision provides for the retention for administrative purposes of up to 3 percent of new funding for state Land and Water Conservation Fund grants authorized by Public Law 109-432. The second new proviso extends the authorization for the National Park Service Advisory Board for one year.

UNITED STATES GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

Appropriation enacted, 2008	\$1,006,480,000
Budget estimate	968,516,000
Bill, 2009	1,043,803,000
Comparisons:	
Appropriations, 2008	+37,323,000
Budget estimate, 2009	+75,287,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. The bill includes the proposed global change research technical adjustments which move funds from several activities into the global change activity. The proposed reductions for travel are not included for any activity. In addition, the bill also includes the following specific funding levels and directions:

Geographic Research and Remote Sensing. The bill includes \$1,000,000 for the national cooperative geographic information system mapping program but does not include the funding increase requested for the national land imaging program. The bill includes the requested reduction for geographic research

and the transfer of priority ecosystems science funding to biological research. The bill fully funds the budget request of \$24,150,000 for the Landsat Data Continuity Mission and \$16,000,000 to continue the Landsat 5/7 program. Satellite development and launch costs associated with future US Geological Survey (USGS) land remote sensing operations should not be transferred from the National Aeronautics and Space Administration (NASA) to the Department of the Interior (DOI). These are functions that are not a component of current DOI operations but clearly fall within NASA's jurisdiction. Until a new plan for future land imaging and remote sensing coordination is drawn up that evaluates how satellite development, launch and operations should be funded, DOI should not undertake any action that attempts to assume the funding responsibilities that have traditionally been a part of the NASA budget.

Geologic Hazards Assessments. The bill includes \$3,000,000 for the earthquakes portion of the multi-hazards initiative and \$500,000 for the one-time costs of seismological equipment at the Arkansas Seismological Observatory, but the requested reduction for earthquake grants is not included. There is a general increase of \$2,000,000 for volcano hazards research. The Survey should evaluate ongoing needs for important volcano research and monitoring in active areas, such as Hawaii, Yellowstone, the Cascades and Alaska, where the USGS maintains observatories. The bill also includes a \$1,500,000 increase for the global seismographic network.

Geologic Landscapes and Coastal Assessments. The bill does not include the funds requested for the water census. The Administration should revisit that issue and consider resubmitting a more integrated program request in the next budget cycle. The bill moves funds for priority ecosystems science from earth surface dynamics to biological research as requested, and provides \$750,000 for Great Lakes region geological mapping within the National cooperative geologic mapping subactivity. The bill includes \$3,000,000 for extended continental shelf mapping in the Arctic Ocean, a total of \$1,000,000 for the ocean action plan coastal geology effort, and \$500,000 for California sea floor mapping.

Geologic Resources Assessments. The bill provides the fiscal year 2008 funding level for the minerals resources activities and assessments and includes \$650,000 to initiate a minerals resource assessment of federal lands in Nye County, Nevada, in collaboration with the University of Nevada, Las Vegas and the Nevada Bureau of Mines and Geology. The Survey's April 2008 petroleum resource assessment of the Bakken Formation was an important benchmark to further our nation's energy security. The Survey is strongly encouraged to expedite its efforts to conduct further applicable assessments or make additional data publicly available that can demonstrate the full range of energy resources in the stratigraphic sequences surrounding the Bakken Formation.

Ground Water Resources. The bill does not provide funding for the Water for America initiative but it does include a \$500,000 general increase and \$900,000 for San Diego, CA, aquifer mapping. Although funding is not provided for new aspects of the Water for America initiative, the importance of this work is recognized and future budgets should consider a more integrated program request for this work.

National Water Quality Assessment. The bill does not include the large reduction requested for this vital program.

Toxic Substances Hydrology. As requested, the bill transfers funds for priority ecosystems science to the biological research program. In disagreement with the budget request, the bill continues funding for amphibian research and monitoring but moves that amount to biological research where the work will be accomplished.

Hydrologic Research & Development. The bill provides \$270,000 to continue the Hood Canal, WA dissolved oxygen study, \$295,000 to maintain the San Pedro River partnership, AZ, \$400,000 for the Long Term Estuary Assessment Group, LA, and \$500,000 to continue work pursuant to the US-Mexico Transboundary Aquifer Assessment Act.

National Streamflow Information Program. The bill does not include funds for the Water for America initiative but does include a general increase of \$2,000,000 for the stream gage program.

Hydrologic Networks and Analysis. The bill maintains the fiscal year 2008 funding level

for the ocean action plan in this subactivity, provides \$497,000 to continue the Lake Champlain basin toxic materials study and \$500,000 to maintain Hawaii water resources monitoring activities. The Survey is encouraged to evaluate the need for selenium studies in Colorado and, to the extent possible, incorporate that work into other ongoing hydrologic research in the area.

Biological Research. The bill includes the following: a total of \$750,000 for the Healthy Lands Initiative; the requested funds for priority ecosystems science; the fiscal year 2008 level for Pacific Northwest forest biology; \$650,000 for contaminant and endocrine biology research; \$200,000 for the science excellence program with the Fish and Wildlife Service; \$500,000 to maintain the San Francisco, CA salt ponds restoration science; \$800,000 to maintain the Leetown, WV molecular biology effort; \$750,000 to maintain amphibian research and monitoring; a \$1,000,000 increase for Great Lakes biological sciences; and a total of \$5,000,000 for National Biological Information Infrastructure. The Survey is encouraged to provide full support for the southern sea otter science and monitoring effort.

Facilities. The bill provides the budget request, plus an additional \$4,000,000 for the deferred maintenance and capital improvement activity to continue the on-going project begun last year.

Global Climate Change Research. The bill includes all of the internal funding transfers recommended by the Survey in order to establish this new budget activity, and an increase of \$14,045,000 above the total request. Within the amounts provided, \$10,000,000 is for the National Global Warming and Wildlife Science Center and at least \$3,000,000 is to implement required geological and biological carbon sequestration studies as required by sections 711, 712 and 714 of the Energy Independence and Security Act of 2007.

The National Global Warming and Wildlife Science Center funding includes \$2,500,000 to complete establishment of the Center. Additionally, the funding allows the Center to develop mechanisms that will ensure that it is responsive to the research and management needs of Federal and State agencies regarding the impacts of global warming on fish, wildlife, plants and ecological processes and the mechanisms for adaptation to, mitigation of, or prevention of those impacts. The recommendation also includes \$7,500,000 for the Center to fund research projects, including use of external and independent scientific peer review, to address the needs of resource management agencies and the American public through greatly accelerated global warming research and through development of decision support tools.

The Secretary, with the assistance of the USGS National Climate Change and Wildlife Science Center and a science advisory board, including members recommended by the National Academy of Sciences, should initiate development of a national strategy to assist fish, wildlife, plants, and associated ecological processes in becoming more resilient, adapting to, and surviving the impacts of climate change. In developing this national framework for flora and fauna conservation in a changing climate, the Secretary should consult with other Federal agencies, State fish, wildlife and conservation data agencies, Territories, Tribes, scientists, and stakeholders, and the Secretary should provide the public with notice and opportunity for comment.

MINERALS MANAGEMENT SERVICE

ROYALTY AND OFFSHORE MINERALS MANAGEMENT

Appropriation enacted, 2008	\$154,750,000
Budget estimate	154,270,000
Bill, 2009	157,373,000

Comparisons:

Appropriations, 2008	+2,623,000
Budget estimate, 2009	+3,103,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill incorporates the requested increases for the leasing and environmental, resource and evaluation, regulatory, compliance and asset management, and revenue and operations programs. These increases are largely offset by savings from the delays in the OCS-connect project. The proposed reductions for travel are not included for any activity. In addition, the bill also includes the following specific funding levels and directions:

Leasing and Environmental Program. The bill includes an increase of \$1,000,000 above the request to support the alternative energy program.

Resource Evaluation. The bill includes \$900,000 to continue the Center for Marine Resources and Environmental Technology project, MS.

General Support Services. The bill does not include the requested decrease of \$98,000 for the IDEAS program.

OIL SPILL RESEARCH

Appropriation enacted, 2008	\$6,303,000
Budget estimate	6,123,000
Bill, 2009	6,303,000

Comparisons:

Appropriations, 2008	0
Budget estimate, 2009	+180,000

The bill includes \$6,303,000 for oil spill research.

ADMINISTRATIVE PROVISIONS

The bill continues language from the fiscal year 2008 enacted bill on a legislative matter requested by the Administration, which deducts 2 percent of State royalties to help cover Federal administrative costs, resulting in a \$47,000,000 scoring credit for the bill.

OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

Appropriation enacted, 2008	\$118,362,000
Budget estimate	118,352,000
Bill, 2009	120,156,000

Comparisons:

Appropriations, 2008	+1,794,000
Budget estimate, 2009	+1,804,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill includes an increase of \$1,000,000 in environmental protection to assist the State regulatory programs.

ABANDONED MINE RECLAMATION FUND

(INCLUDING RESCISSION OF FUNDS)

Appropriation enacted, 2008	\$51,951,000
Budget estimate	30,811,000
Bill, 2009	44,446,000

Comparisons:

Appropriations, 2008	-7,505,000
Budget estimate, 2009	+13,635,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill provides the requested increases and offsets them with a rescission of \$8,500,000 in unobligated balances from prior appropriations. In addition, the bill makes permanent the authority previously given annually for the State of Maryland to set aside the greater of \$1,000,000 or 10 percent of the total of the grants made available to the State for certain acid mine drainage abatement and treatment activities. The Surface Mining Control and Reclamation Act Amendment Act of 2006 did not provide a funding source for state emergency programs, therefore, the Administration request to discontinue funding for this important program is denied.

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$2,047,809,000
Budget estimate	1,988,290,000
Bill, 2009	2,128,630,000

Comparisons:

Appropriations, 2008	+80,821,000
Budget estimate, 2009	+140,340,000

The detailed allocation of funding by program area and activity for the Bureau of Indian Affairs, Operation of Indian Programs, is included in the table at the end of this section of the statement.

Tribal Government.—Within the funds for tribal government, there is \$5,000,000 to partially restore the welfare assistance program and \$263,000 to restore the Western Shoshone Claims program.

Trust.—Natural Resource Management.—Within the funds for trust resource management, rights protection, there is \$1,713,000 for the Timber-Fish-Wildlife program. Within the funds for Tribal Management Development, there is \$1,000,000 for the inter-tribal bison cooperative, and \$345,000 for Lake Roosevelt law enforcement. Within the funds for Fish, Wildlife and Parks, there is a \$360,000 increase for the general program and \$500,000 for fish hatcheries.

Education.—The Bill includes the following distribution of funds within Indian Education:

ISEP (formula funds)	\$375,000,000
Student Transportation	50,500,000
Early Childhood Development (FACE)	15,223,000
Johnson O'Malley Education Assistance Grants	13,797,000
Tribal Colleges and Universities	59,321,000
Scholarships and Adult Education	29,663,000
Tribal Technical Colleges	6,000,000

The funds provided for tribal technical colleges are for the Navajo Technical College, \$2,000,000, and the United Tribes Technical College, \$4,000,000.

Public Safety and Justice.—The Bill includes the following distribution of funds within Public Safety and Justice, Law Enforcement: Criminal Investigation

Criminal Investigation	\$163,148,000
Tribal LE and Special Investigations	15,022,000
Indian Police Academy	4,089,000

Within the funds for criminal investigation, there is an increase of \$25,000,000 for

tribal law enforcement in Indian country to be targeted to addressing the problem of domestic violence, particularly violence against women, combating substance abuse, and engaging in community policing. There are epidemic levels of sexual violence against Native American and Alaska Native women in Indian Country, and this funding should begin to provide the necessary resources to support a coordinated response. The Bureau is directed to do the following:

- Partner with the Indian Health Service, community advocates, and tribal leaders to establish clear standards of practice and standardized protocols for responding to domestic violence and sexual assaults.

- Provide training programs that develop culturally sensitive protocols for officers in the field who are most often the first to respond to incidences of domestic violence and sexual assault as well as protocols for the collection and preservation of evidence for prosecution.

- Work with the Federal Bureau of Investigation and the United States Attorney's Office to establish clear guidelines for the reporting of crimes and establishing evidentiary chains of command to maximize prosecutions.

- Work with Tribes, States, and local governments to clearly delineate jurisdictional responsibilities and protocols associated with reporting, responding to, and prosecuting these crimes.

Community and Economic Development.—Within the funds for Community and Economic Development, there is \$11,864,000 for job placement and training programs, \$3,893,000 for economic development, which includes \$400,000 for the ironworkers training program and \$26,046,000 for road maintenance.

CONSTRUCTION

(INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$203,754,000
Budget estimate	173,261,000
Bill, 2009	217,688,000

Comparisons:	
Appropriations, 2008	+13,934,000
Budget estimate, 2009	+44,427,000

The detailed allocation of funding by program area and activity for the Bureau of Indian Affairs, Construction, is included in the table at the end of this section of the statement.

Education.—Within the funds for Education Construction, there is \$4,445,000 for employee housing, and \$84,974,000 for facility improvement and repair. The increased funds within employee housing are to be used for new and existing housing needs in remote areas to promote recruitment and retention of teachers and other vital educational staff.

Public Safety and Justice.—Within the funds for Public Safety and Justice Construction, there is \$21,500,000 for detention center replacement, \$3,500,000 for employee housing, and \$10,941,000 for facilities improvement and repair. The increased funds for employee housing are to be used for new and existing housing needs in remote areas to promote recruitment and retention of law enforcement officers.

Resource Management.—Within the funds for Resource Management Construction, there is \$2,000,000 for mitigation of uranium contamination on the Navajo and Hopi reservations.

INDIAN LAND AND WATER CLAIMS SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

Appropriation enacted, 2008	\$33,538,000
Budget estimate	21,627,000
Bill, 2009	21,627,000

Comparisons:

Appropriations, 2008	−11,911,000
Budget estimate, 2009	0

The detailed allocation of funding by program area and activity for the Bureau of Indian Affairs, Indian Land and Water Claims Settlements and Miscellaneous Payments to Indians, is included in the table at the end of this section of the statement.

INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

Appropriation enacted, 2008	\$6,178,000
Budget estimate	8,186,000
Bill, 2009	8,186,000

Comparisons:

Appropriations, 2008	+2,008,000
Budget estimate, 2009	0

The bill provides \$8,186,000, as requested, for the Indian Guaranteed Loan Program Account.

DEPARTMENTAL OFFICES OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$99,573,000
Budget estimate	105,895,000
Bill, 2009	107,264,000

Comparisons:

Appropriations, 2008	+7,691,000
Budget estimate, 2009	+1,369,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. Within the funds provided, the bill includes \$1,000,000 to provide administrative support for the commission to study the potential creation of the National Museum of the American Latino, as authorized, \$269,000 to assist the Department's efforts to eradicate drugs on public lands, and a \$100,000 general increase.

MANAGEMENT OF FEDERAL LANDS FOR SUBSISTENCE USES

(RESCISSION)

Appropriation enacted, 2008	\$0
Budget estimate	−108,000
Bill, 2009	−108,000

Comparisons:

Appropriations, 2008	−108,000
Budget estimate, 2009	0

The bill includes the Administration request that unobligated balances remaining in the account, a total of \$108,000, be permanently rescinded.

INSULAR AFFAIRS

ASSISTANCE TO TERRITORIES

Appropriation enacted, 2008	\$77,819,000
Budget estimate	75,054,000
Bill, 2009	78,665,000

Comparisons:

Appropriations, 2008	+846,000
Budget estimate, 2009	+3,611,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The technical assistance program continues previous projects as follows: \$1,000,000 for the Marshall Islands four atoll health care program; \$850,000 for the Prior Services Trust Fund; \$320,000 for judicial and court education; \$750,000 for the Commonwealth of the Northern Mariana Islands population and workforce survey; and an increase of \$200,000 for Insular student educational travel. The Secretary should consider using some of the funding increase to staff an office in Guam to help deal with the upcoming military build-up and other Guam issues.

COMPACT OF FREE ASSOCIATION

Appropriation enacted, 2008	\$5,310,000
Budget estimate	4,818,000
Bill, 2009	5,318,000

Comparisons:

Appropriations, 2008	+8,000
Budget estimate, 2009	+500,000

The detailed allocation of funding by program is included in the table at the end of this section of the statement.

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$58,326,000
Budget estimate	62,050,000
Bill, 2009	62,050,000

Comparisons:

Appropriations, 2008	+3,724,000
Budget estimate, 2009	0

The bill provides the funding requested; the detailed allocation of funding by activity is included in the table at the end of this section of the statement.

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$43,877,000
Budget estimate	44,823,000
Bill, 2009	45,953,000

Comparisons:

Appropriations, 2008	+2,076,000
Budget estimate, 2009	+1,130,000

The detailed allocation of funding is included in the table at the end of this section of the statement. Within the amounts provided, \$1,000,000 has been added beyond the request to increase auditing and oversight capabilities as it relates to energy related financial activities of the Department.

OFFICE OF THE SPECIAL TRUSTEE FOR

AMERICAN INDIANS

FEDERAL TRUST PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$179,487,000
Budget estimate	181,648,000
Bill, 2009	181,648,000

Comparisons:

Appropriations, 2008	+2,161,000
Budget estimate, 2009	0

The bill provides \$181,648,000, as requested, for the Office of the Special Trustee for American Indians, Federal Trust Programs.

INDIAN LAND CONSOLIDATION

Appropriation enacted, 2008	\$9,844,000
Budget estimate	0
Bill, 2009	0

Comparisons:

Appropriations, 2008	−9,844,000
Budget estimate, 2009	0

The bill accepts the Administration's request to not provide funding for Indian Land Consolidation.

DEPARTMENT-WIDE PROGRAMS

WILDLAND FIRE MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

Appropriation enacted, 2008	\$808,072,000
Budget estimate	850,143,000
Bill, 2009	859,453,000

Comparisons:

Appropriations, 2008	+51,381,000
Budget estimate, 2009	+9,310,000

The detailed allocation of funding by program and activity is included in the table at the end of this section of the statement. The bill includes funding for wildfire suppression at the ten-year average suppression cost. The bill does not provide the requested decreases for the preparedness program; the increased funds for preparedness are for fixed costs. Burned area rehabilitation funding has been reduced by \$4,600,000 because the Native Plant Materials Development Program has been moved to the BLM.

The Department and the Forest Service must work together, along with State and

other partners, to maintain sufficient readiness with the preparedness program. The Department should do its utmost to maintain wildfire suppression capability at least at the same levels as in fiscal years 2007 and 2008. The Department should immediately notify the Committees on Appropriations if it appears that funding shortfalls may limit needed firefighting capacity.

It is imperative that both departments expedite deployment of the fire program analysis system in order to justify further investment beyond the current fiscal year.

The Department of the Interior and the Forest Service should continue reports required by the Committees on Appropriations previously and examine, using independent panels, any individual wildfire incident which results in expenses greater than \$10,000,000.

PAYMENTS IN LIEU OF TAXES

Appropriation enacted, 2008	\$228,901,000
Budget estimate	195,000,000
Bill, 2009	0
Comparisons:	
Appropriations, 2008	-228,901,000
Budget estimate, 2009	-195,000,000

The Payments in Lieu of Taxes (PILT) program is now fully funded with mandatory funds, so no funding is provided in this bill. The Emergency Economic Stabilization Act of 2008 (Public Law 110-343) provided that the total, discretionary plus mandatory PILT payments were \$367,226,525 in fiscal year 2008, and that mandatory payments of approximately \$376,000,000 will be made for PILT in fiscal year 2009. The bill also includes language under the Office of the Secretary heading continuing past practices, which allows the use of \$400,000 of the PILT funds for PILT administration, and preventing payments to counties which would receive less than \$100.

CENTRAL HAZARDOUS MATERIALS FUND

Appropriation enacted, 2008	\$ 9,799,000
Budget estimate	10,148,000
Bill, 2009	10,148,000
Comparisons:	
Appropriations, 2008	+349,000
Budget estimate, 2009	0

The bill provides \$10,148,000, as requested, for the Central Hazardous Materials Fund.

NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

Appropriation enacted, 2008	\$6,202,000
Budget estimate	6,338,000
Bill, 2009	6,338,000
Comparisons:	
Appropriations, 2008	+136,000
Budget estimate, 2009	0

The bill provides \$6,338,000, as requested, for the Natural Resource Damage Assessment Fund. The detailed allocation of funding by activity is included in the table at the end of this section of the statement.

WORKING CAPITAL FUND

Appropriation enacted, 2008	\$40,092,000
Budget estimate	73,435,000
Bill, 2009	73,435,000
Comparisons:	
Appropriations, 2008	+33,343,000
Budget estimate, 2009	0

The bill provides \$73,435,000 for the Working Capital Fund, Financial and Business Management System, as requested, and provides the Administrative provision, as requested, governing acquisition of certain aircraft.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

(INCLUDING TRANSFERS OF FUNDS)

Sec. 101: Retains a provision providing Secretary authority to transfer program funds for expenditures in cases of emergency.

Sec. 102: Retains a provision providing for expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oil spills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

Sec. 103: Continues a provision providing for use of appropriated funds for purchase and replacement of motor vehicles, contracts, rental cars and aircraft, certain library memberships, and certain telephone expenses.

Sec. 104: Continues a provision permitting the transfer of funds between the Bureau of Indian Affairs and the Office of the Special Trustee for American Indians.

Sec. 105: Continues a provision permitting the redistribution of tribal priority allocation and tribal base funds to alleviate funding inequities.

Sec. 106: Continues a provision permitting the conveyance of the Twin Cities Research Center of the former Bureau of Mines for the benefit of the National Wildlife Refuge System.

Sec. 107: Continues a provision allowing the Secretary to pay private attorney fees for employees and former employees incurred in connection with *Cobell v. Kempthorne*.

Sec. 108: Retains a provision dealing with the U.S. Fish and Wildlife Service's responsibilities for mass marking of salmonid stocks.

Sec. 109: Continues a provision prohibiting the use of funds to study or implement a plan to drain or reduce water levels in Lake Powell.

Sec. 110: Continues a provision authorizing the Secretary of the Interior to acquire lands for the operation and maintenance of facilities in support of transportation of visitors to Ellis, Governors, and Liberty Islands.

Sec. 111: Extends for one year a provision in the previous Interior and Environment Appropriations Act which allows the Minerals Management Service to accept contributions to complete environmental documents prior to energy exploration and production.

Sec. 112: Retains a provision limiting funding for any proposal to store water, approve right-of-way, or similar authorizations on the Mojave National Preserve or the Needles Field Office of the Bureau of Land Management.

Sec. 113: Includes a provision permitting the Secretary of the Interior to enter into cooperative agreements with a State, other political division, or any not-for profit organization under certain conditions.

Sec. 114: Includes language authorizing funds provided for land acquisition at the Ice Age National Scenic Trail and Shenandoah Valley Battlefields National Historic District be granted to a State, a local government, or any other land management entity.

Sec. 115: Includes a provision providing the Department with civil and criminal penalty authority for revenue collection of solid minerals, geothermal, and offshore alternative energy activities to correct existing deficiencies in the Sections 109 and 110 of the Federal Oil and Gas Royalty Management Act.

Sec. 116: Includes a provision renaming the Pittsford National Fish Hatchery to the Dwight D. Eisenhower National Fish Hatchery.

Sec. 117: Includes language clarifying the purpose for the Baca National Wildlife Refuge in Colorado.

Sec. 118: Includes a provision restricting the use of funds to reduce the number of Axis or Fallow deer at Point Reyes National Seashore.

Outer Continental Shelf.—Consistent with prior action by the Congress in Public Law 110-329, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, the bill does not contain language providing for a moratorium on Outer Continental Shelf oil and gas leasing activities.

TITLE II—ENVIRONMENTAL PROTECTION AGENCY

Reprogrammings.—The Environmental Protection Agency shall apply the \$1,000,000 reprogramming limitation to program area funding levels specified in the detailed table at the end of this section of the statement. Where the bill provides funding levels for program-projects or activities within a program area, the reprogramming limitation applies to those funding levels.

Congressional Budget Justification.—With regard to the Agency's annual Congressional Budget Justification, the Agency is directed to (1) expand the number of activities within the program-projects described and justified, including budgetary information and data; (2) include a comprehensive index of programs and activities within the program-projects; (3) add the requested bill language, with changes highlighted, at the beginning of each account section; and, (4) justify the budget for every program/project, including those proposed for elimination.

Energy Permitting Initiative.—The bill includes the requested amount in both the Environmental Programs and Management and the State and Tribal Assistance Grant Accounts for the energy permitting initiative, which will help to ensure energy development is undertaken in an environmentally sound manner.

Homeland Security Budget Amendment.—The bill includes increases above the Fiscal Year 2008 enacted level for Preparedness, Response and Recovery activities. The Agency has the flexibility to fund, from within those amounts, activities requested in the 2009 Budget Amendment. The Agency is directed to submit a spending plan for Homeland Security activities within 60 days of enactment.

Operations and Administrative Reductions.—Unless otherwise specified, the Agency has the flexibility to apply rent, utilities and/or security savings to the decreases in the Operations and Administration programs in each account.

SCIENCE AND TECHNOLOGY

Appropriation enacted, 2008	\$760,084,000
Budget estimate	774,127,000
(Includes a budget amendment request of \$10,600,000)	
Bill, 2009	790,051,000
Comparisons:	
Appropriations, 2008	+29,967,000
Budget estimate, 2009	+15,924,000

The detailed allocation of funding by program area for this account is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following:

Air Toxics and Quality.—Within the amount provided, \$3,951,000 is for the CASTNET Program and no less than \$8,000,000 is for implementation of the Renewable Fuels Standard required by the Energy Independence and Security Act. The latter is to be allocated as follows: \$3,000,000 for rule development and implementation; \$3,000,000 for Lab capacity and equipment; and, \$2,000,000 to develop and

test the new credit tracking system required to implement the new standard.

Homeland Security.—Within the amount provided, \$15,137,000 is for the Water Security Initiative, sufficient to fund pilots 4 and 5, and \$26,800,000 is for decontamination activities, which is a 22 percent increase above the prior year.

Research: Clean Air.—Within the amount provided, \$18,365,000 is for Global Change Research, of which \$2,000,000 is directed to study Greenhouse Gas mitigation and adaptation strategies.

Research: Clean Water.—Within the amount provided, \$47,283,000 is for Drinking Water Research, of which \$2,000,000 is directed to continue research on the effects of carbon sequestration on groundwater sources and \$2,000,000 is to study the human health risks associated with urban stormwater runoff.

Research/National Priorities.—The funds shall be allocated as follows: \$2,000,000 for the Water Environment Research Foundation; \$1,700,000 for the American Water Works Research Foundation (Water Research Foundation); \$1,000,000 for the Southwest Consortium for Environmental Research and Policy; and \$750,000 for the Consortium for Plant Biotech Research.

Research: Human Health and Ecosystems.—Within the amount provided, \$14,863,000 is for Computational Toxicology; \$11,002,000 for Endocrine Disruptor research; and, \$9,887,000 for Research: Fellowship, where the increase is directed to the STAR Fellowship Grants. The bill also includes \$153,342,000 for Research: Human Health and Ecosystems, which is \$8,600,000 above the request. The Agency is directed to allocate that increase as follows: \$720,000 to restore the TIME/LTM program to the prior year level; \$1,600,000 for the National Academy of Sciences' third party review of the Federal nanotechnology research program; \$3,200,000 to partially restore ecosystems research programs; and, \$3,080,000 for human health research. In addition, the Agency is directed to use a portion of the recent increases in the Human Health Risk Assessments program to expedite the new risk assessment for Trichlorethylene.

Integrated Risk Assessment System (IRIS).—Given concerns that the newly revised IRIS process will exacerbate delays and reduce transparency, the Agency is directed to aggressively pursue completion of pending IRIS assessments and to report to the Committees on the steps it will take to revise the IRIS process in accordance with recommendations in the March 2008 GAO report.

Nanotechnology.—The House and Senate Committees on Appropriations support EPA's ongoing efforts to work with the National Academy of Sciences and other Federal partners to conduct a third-party review of the Government's environmental, health and safety research strategy and have provided funds to support this effort.

ENVIRONMENTAL PROGRAMS AND MANAGEMENT	
Appropriation enacted, 2008	\$2,327,962,000
Budget estimate	2,338,353,000
Bill, 2009	2,392,079,000
Comparisons:	
Appropriations, 2008	+64,117,000
Budget estimate, 2009	+53,726,000

The detailed allocation of funding by program area for this account is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following:

Air Toxics and Quality.—Within the amount provided, \$1,000,000 is to restore the Sunwise program. In addition, the Agency is directed to fully fund the National Emissions Inventory.

Brownfields.—Within the amount provided, \$1,200,000 is to restore the Smart Growth Program to the enacted level.

Climate Protection Program.—Within the amount provided, \$50,000,000 is for the Energy Star Program and \$6,500,000 is to promulgate and begin implementing the Greenhouse Gas reporting rule authorized by P.L. 110-161. Bill language regarding this rule is also included in the Administrative Provisions Section. The bill eliminates funding for the Asian Pacific Partnership program.

Compliance.—Within the amount provided, \$23,835,000 is for Compliance Assistance and Centers and \$9,000,000 is for Compliance Incentives.

Enforcement.—Within the amount provided, \$136,000,000 is for Civil Enforcement and \$45,500,000 is for Criminal Enforcement. These increases are provided to begin to restore staffing in the Office of Enforcement and Compliance Assurance, with the Civil Enforcement increase available for implementation of the EISA. In addition, the bill includes no less than \$7,000,000 for Environmental Justice programs.

Environmental Protection/National Priorities.—The funds shall be allocated as follows: \$11,500,000 for the National Rural Water Association; \$2,000,000 for the Small Public Water System Technology Assistance Centers; \$2,500,000 for the Rural Community Assistance Partnership; \$700,000 for the Water Systems Council/WellCare; and, \$750,000 for the National Biosolids Partnership. Funds for the Technical Assistance Centers should be divided equally between the existing centers.

Geographic Programs.—The detailed allocation of funding by specific geographic program area is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following directives. Funding for the Chesapeake Bay Program is allocated as follows: \$21,001,000 for the base program, \$8,000,000 for Nutrient Removal grants, and \$2,000,000 for Small Watershed grants. The increase to the Great Lakes National Program Office is provided for additional staff to manage the Great Lakes Legacy Act. Funds for the San Francisco Bay program shall be used to continue grants to State and local governments and partner organizations to implement projects that improve water quality and restore Bay watersheds. Matching funds of no less than 25 percent shall be required, with priority given to organizations that emphasize the ability to leverage additional funds. Funds shall be awarded competitively. The Puget Sound restoration funds are provided in conjunction with the Clean Water Act for development and implementation of programs that will improve water quality, air quality, and minimize the adverse impacts of rapid development in the Puget Sound Basin, including activities linked to nonpoint sources or habitat restoration work. Funds shall be awarded competitively.

The bill also eliminates funding for the Regional Geographic Initiatives Program, which reflects continued concerns about the scope and purpose of the program.

Indoor Air.—The increase provided is directed to Reduced Risks from Indoor Air to restore the reduction to the Asthma program.

Information Exchange/Outreach.—From within the funds provided, the Agency is directed to fund the Environmental Education

program at its historic level of \$9,000,000. The bill includes an increase of \$6,448,000 for this program and the Agency is directed to provide the additional \$2,552,000 from the four program-projects which "housed" the Environmental Education FTE in the President's budget. The Agency also is directed to apply the funding formula mandated in the Environmental Education statute to the entire \$9,000,000. The bill provides \$1,000,000 less than requested for the Exchange Network to reflect the fiscal year 2008 reprogramming which initiated the Integrated Trade Data System. The bill also provides \$15,702,000 for the TRI/Right to Know program.

International Programs.—From within the funds provided, \$5,590,000 is for the US/Mexican Border Program.

IT/Data Management/Security.—The Agency is directed to take the reduction of \$2,000,000 to this program area from activities other than those to restore the Agency library system.

Legal/Science/Regulatory/Economic Review.—The bill provides \$19,443,000 for the Regulatory Innovation Program, and the Agency is directed to apply no less than \$3,500,000 of the reduction to the Performance Track Program. In addition, the bill provides \$16,415,000 for the Regulatory-Economic Management and Analysis Program.

Operations and Administration.—The bill provides \$73,623,000 for Central Planning and Budgeting and the Agency is directed to apply the reduction to the Financial System Modernization Project.

Resource Conservation and Recovery Act (RCRA).—The \$2,000,000 reduction to this program area eliminates the requested funding for the Electronic Manifest for Hazardous Waste, pending Congressional authorization of the fees.

Toxics Risk Review and Prevention.—Within the funds provided, \$5,743,000 is for the Toxic Substances: Chemical Risk Management program; \$8,560,000 is for the Endocrine Disruptor program; and, \$12,531,000 is for the High Production Volume Challenge/Voluntary Children's Chemical Evaluation Program.

Water: Ecosystems.—The bill provides \$37,000,000 for implementation of the Great Lakes Legacy Act and \$26,607,000 for the National Estuaries/Coastal Waterways program, which includes \$16,800,000 for the Section 320 grant program. The Agency is directed to provide at least \$600,000 to each National Estuary.

WaterISAC.—The bill provides the request of \$2,000,000 for this activity and the Agency is directed to implement the program through a grant to the Association of Metropolitan Water Agencies.

Endocrine Disruptors.—The House and Senate Appropriations Committees remain deeply concerned about the delays associated with assessing the impact of endocrine disrupting chemicals on the environment and public health. The Agency is directed to address this issue as a first priority and to submit to the Committees within 6 months of enactment a plan to address the backlog and delays in the Endocrine Disruptor Screening Program.

Life-cycle Inventory Analysis.—The Agency is encouraged to develop, in consultation with the National Renewable Energy Laboratory of the Department of Energy, a comprehensive life-cycle inventory analysis, including a carbon profile, for specification grade recycled scrap commodities utilized by manufacturers that produce both virgin and recycled materials for use as feedstock as well as manufacturers that use recycled material as feedstock.

Perchlorate.—The House and Senate Committees on Appropriations are concerned about EPA's preliminary decision not to issue national primary drinking water regulations for perchlorate under the Safe Drinking Water Act, and urge EPA to reconsider its position and to issue regulations establishing a maximum contaminant level for perchlorate as soon as possible. To facilitate this effort, EPA is encouraged to consult with its Science Advisory Board and States which have established maximum contaminant levels for perchlorate in drinking water supplies in order to develop a safe national standard for all populations.

OFFICE OF INSPECTOR GENERAL

Appropriation enacted, 2008	\$41,099,000
Budget estimate	39,483,000
Bill, 2009	44,791,000
Comparisons:	
Appropriations, 2008	+3,692,000
Budget estimate, 2009	+5,308,000

The detailed allocation of funding by program area for this account is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following:

None of the funds are to be used for "buy-outs" associated with staffing reductions. The Inspector General is to continue submitting quarterly staffing reports. The bill also includes \$9,975,000 in the Superfund account for activities related to investigations and audits of that program. To support the Inspector General's role as IG for the Chemical Safety and Hazard Investigations Board, the bill also includes a transfer of \$300,000 from the Board's appropriation account to this account. The IG is directed to expand the scope of its reviews of the Board, beginning with the issues recently identified by the Government Accountability Office.

BUILDINGS AND FACILITIES

Appropriation enacted, 2008	\$34,258,000
Budget estimate	35,001,000
Bill, 2009	35,001,000
Comparisons:	
Appropriations, 2008	+743,000
Budget estimate, 2009	0

For the Buildings and Facilities Account, the bill provides the requested amount, which is displayed by program area in the table at the end of this section of the statement.

HAZARDOUS SUBSTANCE SUPERFUND

(INCLUDING TRANSFERS OF FUNDS)

Appropriation enacted, 2008	\$1,253,998,000
Budget estimate	1,288,398,000
(Includes a budget amendment request of \$24,165,000)	
Bill, 2009	1,285,024,000
Comparisons:	
Appropriations, 2008	+31,026,000
Budget estimate, 2009	-3,374,000

The detailed allocation of funding by program area for this account is included in the

table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following:

Audits, Evaluations, and Investigations.—The bill provides \$9,975,000 to be paid to the Inspector General Account for audits and investigations related to the Superfund program. None of the funds are to be used for "buy-outs" associated with staffing reductions. The Inspector General is to continue submitting quarterly staffing reports.

Enforcement.—From within the funds provided, no less than \$166,778,000 is directed to the Superfund enforcement program-project, of which no less than \$25,600,000 is for the Interagency agreement with the Department of Justice.

Homeland Security.—From within the funds provided, \$33,467,000 is for Preparedness, Response and Recovery activities and programs.

Superfund Cleanup.—From within the amount provided, the bill provides \$605,000,000 for the Superfund Remedial program.

The bill provides the request of \$26,417,000 to be paid to the Science and Technology Account for research related to the Superfund program.

The Agency is directed to report within 30 days of enactment on its annual audit of the Region's use of the Army Corps of Engineers to oversee Superfund cleanups.

Rialto-Colton Basin in California.—The House and Senate Appropriations Committees support the Agency's proposed listing of Rialto-Colton Basin in San Bernardino County, California to the National Priorities List to remediate groundwater contamination. EPA is also encouraged to issue water replacement orders against the parties responsible for trichloroethylene and perchlorate contamination of the groundwater basin to remain in effect until clean drinking water supplies are fully restored to the City of Rialto, City of Colton, West Valley Water District and the Fontana Water Company.

LEAKING UNDERGROUND STORAGE TANK TRUST
FUND PROGRAM

Appropriation enacted, 2008	\$105,816,000
Budget estimate	92,584,000
Bill, 2009	112,577,000
Comparisons:	
Appropriations, 2008	+6,761,000
Budget estimate, 2009	+19,993,000

The detailed allocation of funding by program area for this account is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following:

Underground Storage Tanks (LUST/UST).—From within the funds provided, \$63,000,000 is directed to LUST Cooperative Agreements and \$35,500,000 to the Underground Storage Tank grants authorized by the Energy Policy Act of 2005. The President had requested these funds through the State and Tribal Assistance Grants Account.

OIL SPILL RESPONSE

Appropriation enacted, 2008	\$17,056,000
-----------------------------	--------------

Budget estimate	17,687,000
Bill, 2009	17,687,000

Comparisons:

Appropriations, 2008	+631,000
Budget estimate, 2009	0

For the Oil Spill Response Account, the bill provides the requested amount, which is displayed by program area in the table at the end of this section of the statement.

STATE AND TRIBAL ASSISTANCE GRANTS

Appropriation enacted, 2008	\$2,926,223,000
Budget estimate	2,601,652,000
Bill, 2009	2,968,464,000
Comparisons:	

Appropriations, 2008	+42,241,000
Budget estimate, 2009	+366,812,000

The detailed allocation of funding by program area for this account is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes the following:

Infrastructure Assistance. The bill provides \$1,873,609,000, which is \$308,164,000 above the request. Within this program area, the bill includes:

Mexican Border Infrastructure.—From within the amount provided for the Mexican Border program, \$2,500,000 is directed to El Paso and Brownsville, Texas as in prior years. Consistent with recommendations from the Inspector General in his March 31, 2008 Report, the Agency is directed to (1) complete planning and design of projects before it awards grant funds to the North American Development Bank for construction; (2) work with its partners to create a portfolio of developed projects, which would then be ready to begin construction as funding becomes available; and, (3) report to the Committees within six months of enactment on its progress to implement these directives and other IG recommendations.

Diesel Emission Reduction Grants.—The bill includes funds to support the Ports Initiative and the Agency is directed to consider giving priority funding to either ports with the largest volume of activity or ports in non-attainment areas.

California Emissions Reduction Grants.—The bill provides funds to continue cost-effective emission reduction project grants, to be divided equally between the San Joaquin Valley and the South Coast air quality districts. These grants shall fund projects that reduce emissions and improve local air quality such as innovative or cost-effective retrofits, engine replacement, equipment replacement and technology development in the transportation, agriculture, and port sectors. Funds shall be matched at the program level on at least a 1-to-1 basis, and shall be awarded competitively.

State and Tribal Assistance Grants Infrastructure Grants.—The bill provides \$145,000,000 for the following projects:

	State	Project	Amount
1	AK	City of Craig for water and wastewater improvements project	\$250,000
2	AK	City of Haines for water and wastewater infrastructure project	350,000
3	AK	City of Ketchikan for water facilities construction project	300,000
4	AK	City of North Pole for wastewater system improvements project	1,000,000
5	AL	Butler County for water treatment facility upgrades project	300,000
6	AL	City of Alexander City for water transmission main extension project	550,000
7	AL	City of Athens for water transmission main extension project	1,000,000
8	AL	City of Attalla, North Attalla Sewer Project	500,000
9	AL	City of Jackson, US HWY 43 Main	500,000
10	AL	City of Opelika for water transmission main extension project	450,000
11	AL	St. Clair County Commission, St. Clair County Water System Improvements	224,000
12	AL	Town of McIntosh for sewer upgrades and expansion project	300,000
13	AR	City of Fayetteville wastewater system improvements	300,000
14	AR	City of Heber Springs, West End Sewer Project	335,000
15	AR	City of Warren, Water and Sewer Extension along Northeast Bypass	330,000
16	AR	Ozark Mountain Regional Public Water Authority, in Marshall for drinking water system improvements	300,000
17	AZ	Buckskin Sanitary District, Wastewater Facilities Improvements	500,000
18	AZ	City of Surprise, Water Treatment Improvements	500,000
19	AZ	Pascua Yaqui Tribe, Master Drainage Plan	700,000
20	CA	Big Bear Lake Department of Water and Power, Water System Infrastructure Improvements	500,000
21	CA	Borrego Water District, Borrego Springs Pipeline Feasibility Study	275,000
22	CA	City of Alhambra, Main Line Sewer Replacement	240,000
23	CA	City of Arcadia, Arcadia and Sierra Madre Joint Water Infrastructure Improvement	500,000
24	CA	City of Barstow, Sewer Master Plan Implementation Phase II	500,000
25	CA	City of Compton, Water Resources Project	500,000
26	CA	City of East Palo Alto for the East Palo Alto water supply improvement project	1,100,000
27	CA	City of El Monte, Garvey Storm Drain Reconstruction Project	500,000
28	CA	City of Eureka for the Martin Slough interceptor project	900,000
29	CA	City of Galt, Wastewater Treatment Plant Upgrade	275,000
30	CA	City of Garden Grove, Yockey/Newland Storm Drain (Phase I)	500,000
31	CA	City of Hemet, Hemet/San Jacinto Basin Groundwater Management Plan	275,000
32	CA	City of Lawndale, Firmona Avenue Storm Drain Construction	350,000
33	CA	City of Maywood, Maywood Neighborhood Sewer Improvement Project	400,000
34	CA	City of Norco, Norco Water Treatment Plant Improvements	500,000
35	CA	City of Pomona, Pomona Groundwater Cleanup in Chino Basin Wells	400,000
36	CA	City of Sacramento, Combined Sewer System Improvement	500,000

37	CA	City of San Diego for the La Jolla Ecological Reserve storm drain overflow control project	900,000
38	CA	City of San Joaquin, Wastewater Treatment Facility	500,000
39	CA	City of San Jose, Japantown Sewer Infrastructure	500,000
40	CA	City of Vallejo, Mare Island Sanitary Sewer and Storm Drain	500,000
41	CA	Joshua Basin Water District, Joshua Basin Water District Recharge System	300,000
42	CA	Los Angeles County Department of Public Works for the Antelope Valley recycled water improvement project	900,000
43	CA	Orange County Sanitation District, OCSD Secondary Treatment Upgrades	300,000
44	CA	San Bernardino Municipal Water District for the Inland Empire alternative water supply project	500,000
45	CA	San Francisco Public Utilities Commission, Civic Center Sustainable District Water Related Projects	1,000,000
46	CA	Smith River Rancheria for wastewater infrastructure	900,000
47	CA	Ventura County Public Works Agency for the El Rio Forebay project	900,000
48	CO	City of Alamosa for drinking water system improvements	300,000
49	CO	City of Pueblo, Wastewater Infrastructure	500,000
50	CO	Eagle County in Red Cliff water quality protection project	800,000
51	CO	Powderhorn Metropolitan District in Mesa County for wastewater improvements project	850,000
52	CT	City of Bristol, East Bristol Sanitary Sewer Overflow Reduction Project	500,000
53	CT	City of Stamford, Harbor Point Water and Wastewater Infrastructure Improvement Initiative	500,000
54	CT	Norwich Public Utilities for the Norwich wastewater facility improvements	300,000
55	CT	Town of North Haven, Wharton Brook Industrial Park and Todd Drive Area Sewer Project	500,000
56	DE	City of Wilmington wastewater treatment plant headworks upgrade	300,000
57	DE	New Castle County for Old Shellpot Interceptor improvements	698,000
58	FL	Brevard County, South Mainland Regional Water Treatment Plant Project	500,000
59	FL	City of Coral Gables, Wastewater Infrastructure Improvements	500,000
60	FL	City of Crescent City, Potable Water System Improvement Project	500,000
61	FL	City of Gainesville for Depot Avenue stormwater and sewer improvements	300,000
62	FL	City of Jacksonville Beach, Wastewater Treatment Plant Upgrade	500,000
63	FL	City of Oakland Park, Garden Acres Sanitary Sewers (Part B)	500,000
64	FL	City of Opa Locka, Wastewater Infrastructure Improvements	500,000
65	FL	City of Orlando for stormwater improvements project	300,000
66	FL	City of Treasure Island, Wastewater and Sewer System Upgrade	500,000
67	FL	Lee County, Wastewater Infrastructure	275,000

68	FL	Palm Beach County, Lake Region Water Treatment Plant	500,000
69	FL	Sarasota County, Phillippi Creek Septic System Replacement Program	500,000
70	FL	Southwest Florida Water Management District, Upper Peace River Restoration of the West-Central Florida Water Restoration Action Plan	500,000
71	FL	St. Johns River Water Management District, Volusia County Integrated Water Resources	500,000
72	FL	Taylor County Water and Sewer District, Phase II of Taylor County Water and Sewer Upgrades	300,000
73	FL	Town of Havana, Havana Water Main Loop	200,000
74	GA	Chattahoochee County, Water and Wastewater Infrastructure Improvements	250,000
75	GA	City of Atlanta for sewer system rehabilitation project	300,000
76	GA	City of Crawfordville, Taliaferro County Sewer Infrastructure	350,000
77	GA	City of East Point, Flood Control and Environmental Infrastructure Project	500,000
78	HI	County of Kauai Department of Public Works for Wailua wastewater treatment plant upgrades	1,000,000
79	IA	City of Clinton for regional wastewater treatment improvements project	300,000
80	IA	City of Fort Madison for drinking water system improvements	350,000
81	IA	City of Ottumwa for sewer system improvements	400,000
82	IA	City of Spencer for combined sewer separation upgrades	150,000
83	IA	Mason City, Iowa Self Chlorination System	220,000
84	ID	City of Buhl for drinking water and arsenic removal project	300,000
85	ID	City of Filer for wastewater system improvements project	662,000
86	ID	City of Greenleaf for wastewater system improvements project	600,000
87	ID	City of Lava Hot Springs, Wastewater Improvement Project	250,000
88	ID	City of Lewiston for wastewater system improvements project	338,000
89	IL	City of Chicago Heights, Water and Sewer Improvements	280,000
90	IL	City of Lexington for wastewater treatment system improvements	300,000
91	IL	County of Peoria, Regional Storm Water Plan Implementation	500,000
92	IL	Long Creek Township for water storage improvements	300,000
93	IL	RE Rural Water System, RE Water Expansion, Richland County	350,000
94	IL	Village of Bartlett, Public Well Project	500,000
95	IL	Village of Crestwood for water storage improvements	300,000
96	IL	Village of Mt. Morris, Wastewater Treatment Plant	500,000
97	IL	Village of South Holland, Water and Sewer Improvements	220,000
98	IN	City of Anderson for a combined sewer outfall elimination project	300,000
99	IN	City of North Vernon, Water Infrastructure Improvements	500,000
100	IN	City of Rensselaer, Water and Wastewater Infrastructure Improvements	500,000
101	IN	Newton County Board of Commissioners, Newton County Water and Wastewater Infrastructure Improvements	750,000
102	IN	Town of Fishers for wastewater infrastructure expansion project	300,000

103	IN	Warrick County Board of Commissioners, Stonehaven Sewer Project	500,000
104	KS	City of Augusta for water supply infrastructure project	185,000
105	KS	City of Derby, Water and Wastewater System Improvements	1,000,000
106	KS	City of Great Bend for sewer rehabilitation project	300,000
107	KS	City of Lindsborg for wastewater treatment plant upgrades project	500,000
108	KS	City of Manhattan for sewer mainline extension project	185,000
109	KS	City of Salina, Kansas Sewer and Water Line Extension Project	250,000
110	KS	City of Topeka for water and sewer infrastructure upgrades project	500,000
111	KS	Riley County Board of Commissioners, Konza Sewer Main Extension	290,000
112	KS	Unified Government of Kansas City, Drinking Water Infrastructure Replacement	500,000
113	KY	Breathitt County Water District, Breathitt County Waterline Expansion Project	500,000
114	KY	Caveland Environmental Authority for water storage tank construction project	1,200,000
115	KY	City of Harrodsburg, Wastewater Treatment Plant Technology Replacement	1,300,000
116	KY	City of Vanceburg for combined sewer renovations project	300,000
117	KY	City of Warsaw, Wastewater Improvement Project	500,000
118	KY	Estill County for wastewater treatment plant extension project	1,350,000
119	LA	City of East Baton Rouge for sewer system improvements	300,000
120	LA	City of Houma for construction of water distribution system	300,000
121	LA	City of Leesville for a sewer system expansion project	400,000
122	LA	City of Monroe, Monroe Wastewater Treatment System	500,000
123	LA	Town of Golden Meadow for storm water system improvements	400,000
124	MA	Cities of Fall River and New Bedford and the Town of Acushnet, Bristol County CSO and Sewer Infrastructure	750,000
125	MA	City of Brockton for wastewater system improvements	300,000
126	MA	City of Malden Redevelopment Authority, Lead Water Pipe Replacement Program	500,000
127	MA	City of Marlborough, Westerly Wastewater Treatment Facility Upgrades	500,000
128	MA	Pioneer Valley Planning Commission, Connecticut River Combined Sewer Overflow Projects	1,000,000
129	MA	Town of Montague, Combined Sewer Overflow Reduction and Water Pollution Control Facility Improvements Project	1,000,000
130	MD	Allegany County Commission for George's Creek wastewater treatment plant improvements	300,000
131	MD	Charles County, Closed Loop Effluent Reuse System	750,000
132	MD	City of Cumberland Department of Public Works for wastewater system improvements	300,000
133	MD	City of Frostburg, MD Department of Public Works for combined sewer overflow improvements	300,000
134	MD	City of Hagerstown for drinking water system improvements	300,000
135	MD	City of Rockville, Sanitary Sewer Rehabilitation Project	500,000

136	MD	Harford County, Wastewater Reuse Pipeline at Aberdeen Proving Ground	500,000
137	MD	Washington, D.C. Water and Sewer Authority for nutrient removal upgrades at the Blue Plains facility	300,000
138	ME	City of Ellsworth for construction of a wastewater treatment plant	375,000
139	ME	Monson Utility District for existing wells and distribution mains improvements project	425,000
140	ME	Town of Bingham, South End Sewer and Pump Station Infrastructure Improvements	500,000
141	MI	City of Detroit, DEGC, East Riverfront Wastewater Infrastructure Improvements	500,000
142	MI	City of Grand Rapids, East Side CSO Separation Improvements	500,000
143	MI	City of Mason, Water Treatment Plant	500,000
144	MI	City of Port Huron for a combined sewer overflow control project	300,000
145	MI	Office of the Oakland County Drain Commissioner, Evergreen-Farmington Sanitary Sewer Improvements	500,000
146	MI	Wayne County, Rouge River National Wet Weather Demonstration Project	500,000

299	WV	Ohio River Sanitation Commission for organic detection system improvements	1,000,000
300	WV	Taylor County Commission, Sewer Extension	1,000,000
301	WY	Lincoln County for water treatment plant rehabilitation project	300,000

Categorical Grants. The bill provides \$1,094,855,000, which is \$58,648,000 above the request, adjusted to reflect the Underground Storage Tank Program's movement to the LUST account. Within this program area, the bill includes:

Climate Change Initiative Grants for Local Communities.—The Bill includes \$10,000,000 for the Office of Air and Radiation to initiate a new, competitive grant program to assist local communities in establishing and implementing their own climate change initiatives. The goal of this program is to implement programs, projects and approaches, which demonstrate documentable reductions in greenhouse gases and are replicable elsewhere. The Agency is directed to follow these guidelines to implement this Program: (1) grants are to be awarded on a competitive basis; (2) they are to be one-time grants only; (3) grantees, other than tribes, are required to provide a 50 percent match for the Federal funds; (4) local, county, municipal and tribal governments are eligible to apply; (5) five percent of the funds shall be allocated to tribal governments; (6) grants will fund planning activities, demonstration pilots, innovative approaches and implementation of projects designed to reduce greenhouse gases; (7) examples of eligible projects include land use planning, programs to reduce vehicle miles traveled, improvements to building energy efficiency and projects to capture methane from agriculture operations for use as an alternative to fossil fuels. The Agency is directed to report on its progress in implementing this grant program, including a summary of the projects funded, estimates of greenhouse gases reduced and suggestions for future implementation of the program.

Section 106 Pollution Control Grants.—The bill provides \$218,495,000 for pollution control grants authorized by Section 106 of the Clean Water Act. The House and Senate Appropriations Committees do not support the Agency's recent National Permit Discharge and Elimination System (NPDES) rulemaking to create an incentive pool of funds for States that charge NPDES fees and have not provided funds to implement this change. The Agency is directed to award Section 106 grants using the historic allocation formula. The Committees have also rejected the Agency's proposal to direct the entire amount appropriated for water quality monitoring to statistically representative monitoring programs and direct the Agency to follow the historic allocation criteria between State capacity building and national surveys, as provided in fiscal year 2008.

Underground Storage Tank Grants.—The amount remaining in this account and not moved to the LUST account, is directed to fund state activities not authorized by either section 9003(h) of the Solid Waste Disposal Act or the Energy Policy Act of 2005.

ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY (INCLUDING RESCISSION OF FUNDS)

The bill includes two new administrative provisions which make permanent prior year limitations on the reimbursement of consultants, purchase of uniforms, and use of funds for facility construction projects. It also includes bill language concerning the Agency's use of Title 42 hiring authority. The bill includes a \$10,000,000 rescission from the State and Tribal Assistance Grants Account as proposed in the budget request. The Committees further direct the Agency to take this rescission from the following programs:

(1) Unobligated balances from the Title II Construction Grants program;

(2) Unobligated prior-year balances from State categorical grant programs; and

(3) Balances from special project grants appropriated in fiscal year 2002 or earlier which have not been obligated on an approved grant as of July 1, 2009.

The Agency is directed to provide a report to the Committees outlining the allocation of the rescission 15 days prior to implementation.

The bill includes a provision mandating that the Agency provide no less than \$6,500,000 from the Environmental Program and Management account for the Greenhouse Gas emissions reporting rule and restating the deadline for promulgation of a final rule, as directed by Public Law 110-161. That law directed EPA to use its existing authority under the Clean Air Act to develop and publish a rule requiring mandatory reporting of greenhouse gas emissions above appropriate thresholds in all sectors of the economy. The Committees are dismayed that the Agency missed its September 26, 2008 deadline to issue a draft rule and direct the Agency to redouble its efforts to meet the June 26, 2009 deadline to promulgate the final rule, as required by law.

TITLE III—RELATED AGENCIES DEPARTMENT OF AGRICULTURE FOREST SERVICE

FOREST AND RANGELAND RESEARCH

Appropriation enacted, 2008	\$285,926,000
Budget estimate	263,000,000
Bill, 2009	296,380,000
Comparisons:	
Appropriations, 2008	+10,454,000
Budget estimate, 2009	+33,380,000

The detailed allocation of funding by program is included in the table at the end of this section of the statement; this includes an increase of \$4,000,000 for fixed costs. Within the funds provided there is a total increase above fiscal year 2008 of \$5,000,000 for priority global climate change research. The funding increase for climate change science should include carbon cycle science; carbon inventory and management; bioenergy and biomaterials; atmospheric deposition and watersheds; climate and air quality effects; and, social impacts and policy. In addition, the bill includes: \$400,000 for the Center for Bottomlands Hardwoods (MS); \$1,300,000 for Forest Products Lab equipment (WI); \$900,000 each for the Northeast States Research Co-operatives in Vermont and New Hampshire and \$300,000 for this item in Maine.

STATE AND PRIVATE FORESTRY

Appropriation enacted, 2008	\$262,808,000
Budget estimate	109,500,000
Bill, 2009	265,861,000
Comparisons:	
Appropriations, 2008	+3,053,000
Budget estimate, 2009	+156,361,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Forest Health Management, Cooperative Lands.—Within the funds provided there is a program increase of \$1,000,000 for emerald ash borer work in the Midwest and \$750,000 for gypsy moth suppression in the Mid-Atlantic area.

Forest Stewardship.—Within the funds provided there is at least \$1,000,000 for the Chesapeake Bay program.

Forest Legacy.—The forest legacy program is funded at a total level of \$57,445,000, of which \$8,000,000 is derived from prior-year

unobligated funds. This includes \$5,800,000 for program administration and \$51,645,000 for forest legacy projects. The Service is directed to fund projects in priority order according to the competitively-selected national priority list of projects. Within the prioritized projects, the Service is directed to fund the ongoing South Branch, WV project at \$3,670,000. In addition, the Service is directed to fund the Eden Forest project in Vermont at \$1,800,000.

Urban and Community Forestry.—Within the funds provided there is: \$50,000 for tree replacement in River Rouge, MI; \$500,000 for Seattle-Tacoma regional urban forestry (WA); \$1,000,000 to address impacts of Emerald ash borer in the Midwest, and \$300,000 for the Chicago GreenStreets Program to mitigate emerald ash borer infestation and promote urban forestry (IL).

Economic Action Program.—Within the funds provided there is: \$300,000 for the University of Missouri's extension program for a woody biomass technology demonstration project; \$350,000 for the State of Vermont to fund forest products business development grants and technical assistance through the Vermont Wood Products Collaborative; \$500,000 to Purdue University to fund wood products technology development through the Hardwood Scanning Technology Center; \$200,000 to New Hampshire's Northern Forest Center to fund a sustainable forestry and forest products initiative; \$1,700,000 to the Service's Region 5 headquarters to continue infrastructure assistance grants for the region's small forest products businesses; and \$1,923,000 above the request to restore funding for the Wood Education and Resource Center in Princeton, West Virginia, to the fiscal year 2007 enacted level, for a total in all Service accounts of \$2,673,000.

NATIONAL FOREST SYSTEM (INCLUDING RESCISSION OF FUNDS)

Appropriation enacted, 2008	\$1,469,579,000
Budget estimate	1,349,537,000
Bill, 2009	1,509,805,000
Comparisons:	
Appropriations, 2008	+40,226,000
Budget estimate, 2009	+160,268,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Inventory and Monitoring.—Within the funds provided, \$1,000,000 of the funds provided for the Threat Assessment Centers program is for the NASA Stennis Space Center in Mississippi to acquire remote sensing data to inventory and monitor Federal and non-Federal lands as authorized by Title IV of Public Law 108-148, the Healthy Forests Restoration Act.

Recreation, Heritage, and Wilderness.—The bill provides the fiscal year 2008 funding level, plus fixed costs, plus an increase of \$10,000,000. The Committees on Appropriations expect that each individual National Forest or Grassland will comply fully with all travel management regulatory requirements, particularly the science-based analysis in 36 CFR 212.5 (b)(1), the identification of unneeded roads in 36 CFR 212.5(b)(2), and the criteria for designation in 36 CFR 212.55(a) and (b). The Committees expect the Forest Service to identify priorities, and associated resource requirements, to fully comply with the regulatory requirements of 36 CFR 212.5(b) (1) and (2).

Forest Products.—The bill provides the budget request of \$322,666,000 plus an increase

of \$10,000,000. The requested funds should be allocated as stipulated in the President's budget, following the Northwest Forest Plan. The funding increase should be used for those forests not covered by the Northwest Forest Plan that have budget shortfalls and capacity for additional, successful work.

The Service should consider all contract methods for implementing fuels reduction projects proposed on the Sierra and Sequoia National Forests, including the Kings River, Sugar Pine, Frog, and revised Ice projects, including stewardship contracting authority provided under Section 323 of Public Law 108-7, and utilize available agency funding to accomplish these multiple objectives.

Vegetation and Watershed Management.—The bill supports the budget request to continue leafy spurge eradication on the Dakota Prairie Grasslands in conjunction with the Service's local partners. There is also a \$500,000 increase within available funding to remediate hazardous materials and other natural resource damage caused by drug cultivation on national forest lands; these funds should be distributed to support high-priority restoration needs following drug eradication activity.

Law Enforcement Operations.—The bill provides \$135,500,000 for law enforcement operations. The Service is expected to use the increase above the request to fund uncontrollable costs, continue efforts to increase the eradication of marijuana from national forest lands and maximize the number of inter-agency drug enforcement operations conducted with Federal and non-Federal partners. In particular, funding for counterdrug operations on the Daniel Boone (KY) and Mark Twain (MO) National Forests shall be maintained at no less than their enacted levels.

Valles Caldera National Preserve.—The bill includes \$4,000,000 for the Valles Caldera National Preserve Trust (NM). The increase over the enacted level should be used to fund capital improvements for the preserve.

Land Between the Lakes.—The bill includes the budget request of at least \$8,200,000 in appropriated funds to support activities at the

Land Between the Lakes National Recreation Area (KY and TN).

Rescission.—The bill rescinds \$5,000,000 in unobligated, prior balances as proposed in the budget request. The bill language is within the National forest system appropriation instead of as a General Provision as proposed by the Administration.

CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$464,768,000
Budget estimate	405,788,000
Bill, 2009	482,393,000
Comparisons:	
Appropriations, 2008	+17,625,000
Budget estimate, 2009	+76,605,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Facilities Construction. Within the funds provided there is: \$200,000 to begin Timberline Lodge water system upgrades, OR; \$600,000 for the Keenwild fire helicopter base, CA; \$185,000 for Uwharrie NF electrical upgrades, NC; \$250,000 for Sumter NF access improvements, SC; \$300,000 for the Kinzua recreation facility, PA; \$1,271,000 for facilities improvements on the Monongahela NF, WV; \$2,500,000 for construction of research field stations and support infrastructure in Hawaii; and \$1,500,000 for construction of a new work station for the Cherokee NF in Tennessee.

Roads Maintenance and Construction. The bill includes \$162,500,000 for road maintenance and \$66,325,000 for road construction; these allocations reflect new information from the Forest Service concerning appropriate allocations for maintenance versus construction. The construction activity includes \$1,000,000 for road improvements on the Tongass National Forest (AK) and \$825,000 for road improvements on the Monongahela National Forest (WV).

The Service should provide a report to the Committees on Appropriations by May 15,

2009 on road maintenance needs and policy options for designating portions of the Forest Service road system so it would be eligible for the next highway bill funding in a manner similar to Interior department bureaus.

Trails Maintenance and Construction. The trail maintenance activity should especially consider the needs of the Pacific Crest National Scenic Trail and the Florida National Scenic Trail. Within the funds for trail construction there is \$300,000 for the Humboldt-Toiyabe National Forest (NV) to construct the Reno-to-Tahoe Rim Trail and \$350,000 for the Monongahela National Forest (WV) trail improvements.

The bill retains previous base funding for maintenance, construction, and operation of the network of national scenic and historic trails; they should be funded at no less than the enacted level.

Legacy Road and Trail Remediation. The bill provides \$50,000,000 to expand the effort begun last year to begin to remedy the extensive backlog of roads and trails which harm the environment and provide poor public service. The Service should use legacy road and trail remediation funding in a strategic effort to decommission and fix roads and trails in environmentally sensitive areas, focusing on those areas where Forest Service roads may be contributing to water quality problems in streams and water bodies which support threatened, endangered or sensitive species. The Service should utilize public input to help select legacy road and trail remediation projects, and report back to the Committees on Appropriations on the selected projects, and make its selection process and implementation activities readily apparent on the Agency's web site.

LAND ACQUISITION

Appropriation enacted, 2008	\$41,827,000
Budget estimate	5,000,000
Bill, 2009	49,775,000
Comparisons:	
Appropriations, 2008	+7,948,000

Appropriation enacted, 2008	\$55,000
Budget estimate	50,000
Bill, 2009	50,000

Comparisons:

Appropriations, 2008	-5,000
Budget estimate, 2009	0

The bill provides the funding requested for Gifts, Donations and Bequests for Forest and Rangeland Research.

MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

Appropriation enacted, 2008	\$4,974,000
Budget estimate	0
Bill, 2009	5,000,000

Comparisons:

Appropriations, 2008	+26,000
Budget estimate, 2009	+5,000,000

The bill provides \$5,000,000 for Management of National Forest Lands for Subsistence Uses.

WILDLAND FIRE MANAGEMENT
(INCLUDING TRANSFERS OF FUNDS)

Appropriation enacted, 2008	\$1,943,477,000
Budget estimate	1,976,592,000
Bill, 2009	2,131,630,000

Comparisons:

Appropriations, 2008	+188,153,000
Budget estimate, 2009	+155,038,000

The detailed allocation of funding by program, activity and subactivity is included in the table at the end of this section of the statement. In addition, the bill also includes the following specific funding levels and directions:

Preparedness. The bill provides the fiscal year 2008 funding level, plus \$6,181,000 for fixed costs, plus \$3,000,000 to continue the firefighter retention initiative funded through P.L. 110-329. The Forest Service should maintain the levels of readiness needed for public safety that were established in fiscal year 2007. The Forest Service should analyze current readiness levels to determine whether maintaining preparedness resources in the field at a level not less than that established in fiscal year 2007 will, based on the best information available, result in lower overall firefighting costs. If the Forest Service makes such a determination, the Service should adjust the levels for preparedness and suppression funding accordingly and report on these adjustments to the House and Senate Committees on Appropriations. The Secretary of Agriculture should advise the House and Senate Committees on Appropriations in writing prior to the decision. In the future, the Committees on Appropriations expect the Service to request preparedness budgets that adequately cover the costs of readiness activities without undue shifts of expenses to the suppression appropriation.

The Committees are very concerned that the Service has not yet finalized or imple-

mented a comprehensive plan to improve firefighter recruitment and retention in Region 5, despite documented vacancies in firefighting positions. The Committees understand that the Service is still studying a range of options to improve firefighter recruitment and retention in Region 5 and other high-risk areas of the nation, including changes to pay rates and scheduling flexibility. Further delay is not acceptable. The Service is directed to provide a comprehensive recruitment and retention plan, including a full spending plan for the funds appropriated in P.L. 110-329, to the Committees by no later than March 1, 2009.

Fire suppression operations. The bill provides the request, \$993,947,000, for fire operations, an increase of \$148,327,000 above the fiscal year 2008 non-emergency funding level. The Forest Service and the Department of the Interior should continue reports required previously and examine, using independent panels, any individual wildfire incident which results in expenses greater than \$10,000,000.

Hazardous Fuels. The bill provides \$328,086,000 for the hazardous fuels reduction program, an increase of \$18,000,000 above the fiscal year 2008 level. This funding increase should be used in those areas facing the greatest risk from wildfires because of excessive fuel loads.

The Forest Service should provide no less than \$26,200,000 for the Quincy Library Group's hazardous fuels reduction activities (CA) as proposed in the request.

Rehabilitation. The bill provides \$11,500,000 to continue the rehabilitation of burned areas program as in fiscal year 2008; the Administration request eliminated this program.

Fire Plan Research and Development. The bill provides \$23,917,000 to continue the fire plan research and development program.

Forest Health Management Federal Lands. The bill provides \$17,252,000 for Federal lands forest health management, which includes the requested funding plus \$3,000,000 for a western bark beetle initiative. The increase should be allocated using the National Insect and Disease Risk map; the Service should focus its efforts on areas where tree mortality is expected to exceed at least 25 percent over the next 15 years.

Forest Health Management Cooperative Lands. The bill provides \$9,928,000 to continue the cooperative lands forest health program.

State Fire Assistance. The bill provides \$55,000,000 for State fire assistance, an increase of \$19,996,000 above the request. Within the funds provided, \$5,000,000 shall be provided to the South Lake Tahoe Public Utility District for the Lake Tahoe Community Fire Protection Project. These funds should be used by local utility districts to fund their highest priority fire protection projects such as increasing water pressure or installing new fire hydrants. Funds are to be matched by local water utility districts on at least a one-to-one basis.

Volunteer Fire Assistance. The bill provides \$9,000,000 for volunteer fire assistance, an increase of \$1,000,000 above the request.

ADMINISTRATIVE PROVISIONS, FOREST SERVICE

The bill includes administrative provisions similar to previous years. This includes limiting transfers to the USDA for reimbursable charges to the requested amount and allowing up to \$50,000,000 to be assessed for fire, administrative and other facilities maintenance. The bill provides \$3,000,000 for the National Forest Foundation and \$3,000,000 for

the National Fish and Wildlife Foundation; it is acceptable for these foundations to make grants to Federal recipients, including Forest Service offices. Bill language in Title IV, General Provisions, prevents any funding for the competitive sourcing program.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

INDIAN HEALTH SERVICE

INDIAN HEALTH SERVICES

Appropriation enacted, 2008	\$2,971,535,000
Budget estimate	2,971,533,000
Bill, 2009	3,190,956,000

Comparisons:

Appropriations, 2008	+219,421,000
Budget estimate, 2009	+219,423,000

The detailed allocation of funding by program area and activity for the Indian Health Services account is included in the table at the end of this section of the statement. In addition to specifying these amounts, the bill includes the following directions:

Domestic violence within the American Indian and Alaska Native (AI/AN) communities continues to be an area of serious concern. Children in these communities have the second highest rate of maltreatment in the country, and one in three AI/AN women will be physically or sexually abused in her lifetime. In order to provide the Indian Health Service (IHS) with additional tools to better address child and family violence in AI/AN communities, the bill includes \$7,500,000 to implement a nationally coordinated domestic violence prevention initiative. With these funds, the IHS is encouraged to further expand its outreach advocacy programs into Native communities, expand the Domestic Violence and Sexual Assault Pilot project already in operation; and use a portion of the funding for training and the purchase of forensic equipment to support the Sexual Assault Nurse Examiner program (SANE). Within 90 days of enactment, the Service should provide an outline of how funds will be allocated, and an assessment of next steps to be taken to further advance the various components of this initiative in the coming fiscal year. The report should also address the Service's progress in developing standardized sexual assault policies, as well as a cost estimate for full implementation of the SANE program.

An additional amount of \$2,500,000 is provided to support the Service's health information technology efforts. The House and Senate Committees on Appropriations view the various components of this program—from electronic records management to telehealth technologies—as essential to the increased availability of quality health services throughout Indian Country.

The Service, and particularly the Director of Oral Health, is strongly encouraged to redouble its efforts to address the alarmingly high vacancy rates among health professionals, for example 31 percent among dental professionals, in the Indian Health Service. Therefore, an increase of \$8,299,000 over the fiscal year 2008 enacted level has been provided for Dental Services in order to maintain current levels of care and provide for the staffing of new facilities.

The bill provides \$16,391,000 to continue the grant program to treat and prevent methamphetamine abuse. This is an increase of \$2,609,000 over the amount provided in fiscal year 2008, and it is expected that the Service will use a portion of the funding for the treatment of behavioral and mental health problems associated with methamphetamine use. To determine the effectiveness of this program, which was initiated in fiscal year

2008, the Service is directed to report on the progress, accomplishments, and achievements of this program to the Committees on Appropriations within 60 days of enactment of this legislation. In addition, the Service is encouraged to participate in the Fetal Alcohol Spectrum Disorders and Alcohol Screening, Intervention and Referral Initiative.

The Indian Health Service is directed to use the Indian Health Care Improvement Fund to bring the units with the highest level of need up to at least 40 percent before allocating funds to units with needs above 40 percent.

Within the resources available to the Hospitals and Clinics program, the Service is encouraged to provide such assistance as may be necessary for the newly formed Nevada Indian Health Board to fully establish its operations.

Within the amount provided for Indian Health Professions, it is expected that the Service will fund the InMed, RAIN and InPsych programs at no less than the current levels and manage them in the same manner as in prior years. The Service is also expected to use health professions program funding for loan repayment and scholarship programs to encourage increased recruitment and retention of health professionals.

The Service is directed to re-examine the policies it currently has in place for the integration of newly recognized tribes into the IHS system. There have been complaints regarding the length of time it now takes for a newly recognized tribe to obtain the funding and services to which it is entitled under the law. While acknowledging the budgetary constraints within which the IHS must operate, it is not unreasonable for newly recognized tribes to expect that a process would be in place for the prompt assessment of tribal needs, the subsequent development of a specific plan for the delivery of health services and funding, and a timeline for doing so. The Service is directed to report to the Committees on Appropriations within 90 days of enactment of this legislation with recommendations for the improvement of the current ad hoc system.

INDIAN HEALTH FACILITIES

Appropriation enacted, 2008	\$374,646,000
Budget estimate	353,329,000
Bill, 2009	390,168,000
Comparisons:	
Appropriations, 2008	+15,522,000
Budget estimate, 2009	+36,839,000

The detailed allocation of funding by program area and activity for the Indian Health Facilities account is included in the table at the end of this section of the statement. In addition to specifying these amounts, the bill includes the following directions:

The bill provides \$40,000,000 for health facilities construction, but it does not allocate specific projects within that amount. Instead, the Service is directed to select projects from the priority list based upon readiness, as well as need, and report to the Committees on Appropriations within 60 days of enactment on the specific construction projects it intends to fund. It is expected that facilities funding will continue to be distributed in a manner that addresses the fluctuating annual workload and maintains parity among tribes and Indian Health Service areas as the workload shifts. The Service is further expected to use savings achieved from completed health care facilities construction projects to continue other high priority projects from the Service's construction list.

The high vacancy rate of health professionals in the Indian Health Service has not

been substantially alleviated by current recruitment and retention efforts. To the extent possible, the Service is encouraged to use the construction and improvement of staffing quarters as a vital tool to recruit and retain these health professionals.

Within the overall amount provided for construction, the House and Senate Committees on Appropriations recommend \$500,000 for new mobile dental units. There is a concern, however, that high dental vacancy rates have left newly constructed units understaffed. The Service should attempt in the distribution of these funds to ensure that staffing will be available for new units and that construction can be initiated in an expeditious manner once funds are committed.

No resources have been provided for the joint venture and small ambulatory grants programs because all qualified projects on the existing list have been completed. These programs have broad support, and the Service is directed to initiate new solicitations for both in this fiscal year. As in the past, the Service is encouraged to provide additional credit to tribes that are willing to provide full funding for facility equipment in addition to providing full funding for facility construction when determining priorities for project funding under the joint ventures program for hospitals and clinics.

The recent GAO findings on the Indian Health Service's inventory management system are of particular concern. Although the IHS has reportedly taken steps to address the issues specifically identified in the report, the GAO is directed to conduct a follow-up investigation of the Service's inventory management system to ensure that proper safeguards have been put in place to ensure full accountability. In addition, the IHS is strongly encouraged to evaluate its entire inventory management system, take necessary steps to correct any deficiencies, and report to the Committees on Appropriations on these efforts no later than 60 days after enactment of this Act.

An amount of up to \$2,700,000 from within funds from both the "Facilities" and "Services" accounts is designated in the bill for the purchase of ambulances through an existing agreement with the General Services Administration. This is an increase of \$1,700,000 from previous years and reflects the current GSA estimate of \$100,000 per replacement vehicle.

NATIONAL INSTITUTES OF HEALTH

NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

Appropriation enacted, 2008	\$77,546,000
Budget estimate	77,546,000
Bill, 2009	78,074,000
Comparisons:	
Appropriations, 2008	+528,000
Budget estimate, 2009	+528,000

The bill includes an increase of \$528,000 above the request to provide training for as many as 6,500 additional workers.

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY

TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

Appropriation enacted, 2008	\$74,039,000
Budget estimate	72,882,000
Bill, 2009	74,039,000
Comparisons:	
Appropriations, 2008	0
Budget estimate, 2009	+1,157,000

The bill restores funding for the Agency for Toxic Substances and Disease Registry to the prior year level. The Bill reinstates prior year language concerning the number of tox-

icological profiles reviewed in one year. The Agency is encouraged to continue its support for minority health professions. The Government Accountability Office is directed to review the indirect/administrative costs paid to the Centers for Disease Control and report to the House and Senate Appropriations Committees by May 15, 2009.

OTHER RELATED AGENCIES

EXECUTIVE OFFICE OF THE PRESIDENT COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

Appropriation enacted, 2008	\$2,661,000
Budget estimate	2,703,000
Bill, 2009	2,703,000
Comparisons:	
Appropriations, 2008	+42,000
Budget estimate, 2009	0

The bill provides the amount requested by the President.

CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$9,263,000
Budget estimate	9,499,000
Bill, 2009	10,199,000
Comparisons:	
Appropriations, 2008	+936,000
Budget estimate, 2009	+700,000

Within the amount provided, \$400,000 is for three additional investigators. In addition, the bill includes language to transfer \$300,000 to the Environmental Protection Agency Inspector General (IG) Account to fund the costs associated with performing the IG function for the Board. The bill does not include funds requested for a Knowledge Manager or additional video production. In response to a recent review by the Government Accountability Office, the Board is directed to issue the regulation called for in Section 112(r)(6) of the Clean Air Act, to submit a Human Resources plan within 6 months of enactment of this bill, and to submit quarterly reports on implementation of the GAO recommendations. The Board is encouraged to establish a regional presence in a geographic area with the most likely accident occurrences.

OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$8,860,000
Budget estimate	7,530,000
Bill, 2009	7,530,000
Comparisons:	
Appropriations, 2008	-1,330,000
Budget estimate, 2009	0

The bill provides \$7,530,000, as requested, for the Office of Navajo and Hopi Indian Relocation, Salaries and Expenses.

INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT

PAYMENT TO THE INSTITUTE

Appropriation enacted, 2008	\$7,183,000
Budget estimate	7,900,000
Bill, 2009	7,900,000
Comparisons:	
Appropriations, 2008	+717,000
Budget estimate, 2009	0

The bill provides \$7,900,000, as requested, for the Institute of American Indian and Alaska Native Culture and Arts Development.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$562,434,000
-----------------------------	---------------

Budget estimate	588,400,000
Bill, 2009	593,400,000
Comparisons:	
Appropriations, 2008	+30,966,000
Budget estimate, 2009	+5,000,000

The detailed allocation of funding by program area and activity for the Salaries and Expenses account of the Smithsonian Institution is included in the table at the end of this section of the statement. This allocation reflects the decision to reallocate \$10,000,000 from the budget request for facilities to restore reductions proposed in the budget for public programs, education, and research. The reallocation includes \$5,000,000 from facility services in the Salaries and Expenses account and \$5,000,000 from facilities planning in the Facilities Capital account. While the bill maintains the traditional structure for appropriating facility funding in the two accounts, the House and Senate Committees on Appropriations request that the Secretary of the Smithsonian review this structure to determine whether a consolidation of these funds under the Facilities Capital account would provide a more systemic review of facility funding requirements throughout the Institution.

Government Accountability Office Review of Reform Process.—The House and Senate Committees on Appropriations believe that much progress has been made by the Smithsonian to address the failures which contributed to a decline in Congressional and public confidence in the management and governance of the Smithsonian Institution. The appointment of a new Secretary, the restructuring of a more active Board of Regents, and the adoption of a series of policy changes to correct fiscal and management failures are very positive signs. The Committees believe, however, that these are only the initial steps and that a continuing commitment to reform, especially to the principals of fiscal stewardship of public resources, and to accountability and openness, are essential. The Committees request that the Government Accountability Office conduct a thorough review of the reform process and submit a progress report to the Committees no later than December 31, 2009.

National Zoo.—The House and Senate Committees on Appropriations are pleased that the National Zoo has recently received full accreditation from the Association of Zoos and Aquariums (AZA). The Committees recognize, however, that maintaining accreditation is an on-going process and encourage the Smithsonian to give priority in allocating resources to meet continuing staffing needs identified during this year's AZA review.

FACILITIES CAPITAL

Appropriation enacted, 2008	\$105,429,000
Budget estimate	128,000,000
Bill, 2009	123,000,000
Comparisons:	
Appropriations, 2008	+17,571,000
Budget estimate, 2009	—5,000,000

The detailed allocation of funding by program area and activity for the Facilities Capital account of the Smithsonian Institution is included in the table at the end of this section of the statement.

LEGACY FUND

Appropriation enacted, 2008	\$14,766,000
Budget estimate	0
Bill, 2009	15,000,000
Comparisons:	
Appropriations, 2008	+234,000
Budget estimate, 2009	+15,000,000

The bill includes \$15,000,000 for the Legacy Fund established in fiscal year 2008 to ad-

dress major facility repair needs at the Smithsonian Institution. Funds are to be matched by private donations on a dollar for dollar basis. The Committees on Appropriations are agreed that these funds are for critical repair and rehabilitation projects which are part of the Smithsonian's \$2,500,000,000 backlog. Legacy Funds are not to be used for programmatic activity, exhibit installation, expansion of existing facilities or construction of new facilities.

NATIONAL GALLERY OF ART SALARIES AND EXPENSES

Appropriation enacted, 2008	\$100,130,000
Budget estimate	101,741,000
Bill, 2009	105,388,000
Comparisons:	
Appropriations, 2008	+5,258,000
Budget estimate, 2009	+3,647,000

The detailed allocation of funding by program for this account is included in the table at the end of this section of the statement. In addition to these specific amounts, the bill includes language mandating not more than \$3,350,000 for special exhibition programs. The remaining increases to each program are directed to fixed costs and restoration of base programs.

REPAIR, RESTORATION AND RENOVATION OF BUILDINGS

Appropriation enacted, 2008	\$17,736,000
Budget estimate	16,259,000
Bill, 2009	17,368,000
Comparisons:	
Appropriations, 2008	—368,000
Budget estimate, 2009	+1,109,000

The bill includes an increase of \$1,109,000 above the request to continue the Gallery's progress on its Master Facilities Plan.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

OPERATIONS AND MAINTENANCE

Appropriation enacted, 2008	\$19,885,000
Budget estimate	21,300,000
Bill, 2009	21,300,000
Comparisons:	
Appropriations, 2008	+1,415,000
Budget estimate, 2009	0

The bill provides the request for the Operations and Maintenance account.

CAPITAL REPAIR AND RESTORATION

Appropriation enacted, 2008	\$22,789,000
Budget estimate	12,000,000
Bill, 2009	15,064,000
Comparisons:	
Appropriations, 2008	—7,725,000
Budget estimate, 2009	+3,064,000

The bill includes an increase of \$3,064,000 above the request for major renovation projects including exterior marble cladding and building-wide electrical upgrades.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$9,844,000
Budget estimate	8,857,000
Bill, 2009	10,000,000
Comparisons:	
Appropriations, 2008	+156,000
Budget estimate, 2009	+1,143,000

The legislation provides \$10,000,000 for the Woodrow Wilson International Center for Scholars.

NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

NATIONAL ENDOWMENT FOR THE ARTS

GRANTS AND ADMINISTRATION

(INCLUDING TRANSFER OF FUNDS)

Appropriation enacted, 2008	\$144,706,000
-----------------------------	---------------

Budget estimate	128,412,000
Bill, 2009	155,000,000

COMPARISONS:

Appropriations, 2008	+10,294,000
Budget estimate, 2009	+26,588,000

The detailed allocation of funding by program area and activity for the National Endowment for the Arts is included in the table at the end of this section of the statement.

NATIONAL ENDOWMENT FOR THE HUMANITIES

GRANTS AND ADMINISTRATION

(INCLUDING MATCHING GRANTS)

Appropriation enacted, 2008	\$144,707,000
Budget estimate	144,355,000
Bill, 2009	155,000,000
Comparisons:	
Appropriations, 2008	+10,293,000
Budget estimate, 2009	+10,645,000

The detailed allocation of funding by program area and activity for the National Endowment for the Humanities is included in the table at the end of this section of the statement. The bill combines the requests for "Grants and Administration" and "Matching Grants" into a single appropriations account. This modification is for administrative reasons only and has no programmatic impact.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$2,059,000
Budget estimate	2,234,000
Bill, 2009	2,234,000
Comparisons:	
Appropriations, 2008	+175,000
Budget estimate, 2009	0

The bill provides \$2,234,000 for the Commission of Fine Arts.

NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

Appropriation enacted, 2008	\$8,367,000
Budget estimate	0
Bill, 2009	9,500,000
Comparisons:	
Appropriations, 2008	+1,133,000
Budget estimate, 2009	+9,500,000

The bill provides \$9,500,000 for the National Capital Arts and Cultural Affairs grant program. Language in the accompanying Act increases the maximum allowable grant level to \$650,000 per recipient per year.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$5,265,000
Budget estimate	5,498,000
Bill, 2009	5,498,000
Comparisons:	
Appropriations, 2008	+233,000
Budget estimate, 2009	0

The bill provides \$5,498,000 for the Advisory Council on Historic Preservation.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

Appropriation enacted, 2008	\$8,136,000
Budget estimate	8,328,000
Bill, 2009	8,328,000
Comparisons:	
Appropriations, 2008	+192,000
Budget estimate, 2009	0

The legislation provides \$8,328,000 for the National Capital Planning Commission.

UNITED STATES HOLOCAUST MEMORIAL MUSEUM HOLOCAUST MEMORIAL MUSEUM

Appropriation enacted, 2008	\$44,786,000
Budget estimate	46,839,000
Bill, 2009	47,260,000
Comparisons:	
Appropriations, 2008	+2,474,000

Budget estimate, 2009 +421,000
 The bill provides \$47,260,000 for the United States Holocaust Memorial Museum.

PRESIDIO TRUST

PRESIDIO TRUST FUND

Appropriation enacted, 2008 \$22,051,000
 Budget estimate 17,450,000
 Bill, 2009 17,450,000
 Comparisons:
 Appropriations, 2008 -4,601,000
 Budget estimate, 2009 0

The bill provides the same amount requested by the President for the Presidio Trust.

DWIGHT D. EISENHOWER MEMORIAL COMMISSION

SALARIES AND EXPENSES

Appropriation enacted, 2008 \$1,969,000
 Budget estimate 3,000,000
 Bill, 2009 2,000,000
 Comparisons:
 Appropriations, 2008 +31,000
 Budget estimate, 2009 -1,000,000

The bill provides \$2,000,000 for the Dwight D. Eisenhower Memorial Commission. This amount will continue the process of refining the design and fund raising plans for the Memorial.

CONSTRUCTION DESIGN

Appropriation enacted, 2008 \$0
 Budget estimate 16,000,000
 Bill, 2009 0
 Comparisons:
 Appropriations, 2008 0
 Budget estimate, 2009 -16,000,000

The bill does not include any funding to begin construction.

TITLE IV—GENERAL PROVISIONS

(INCLUDING TRANSFERS OF FUNDS)

Sec. 401: Retains a provision on consulting services.

Sec. 402: Retains a provision limiting certain activities related to support or opposition to legislative proposals.

Sec. 403: Retains provision which provides that appropriations in the bill are available only for the current fiscal year, unless otherwise stated.

Sec. 404: Retains a provision prohibiting funds for certain personal services.

Sec. 405: Retains a provision which limits overhead charges, deductions, reserves or holdbacks for certain functions.

Sec. 406: Retains a provision limiting transfer of funds except as provided in this or other Acts.

Sec. 407: Retains a provision prohibiting the sale of giant sequoia trees.

Sec. 408: Retains a provision limiting funds for patents for mining or mill site claims.

Sec. 409: Includes a provision limiting payments for BIA and IHS contract support costs in past years to the funds available in law.

Sec. 410: Retains a provision regarding Forest Service land management planning.

Sec. 411: Retains a provision limiting certain mineral, oil and gas leasing activities within the boundaries of certain National Monuments.

Sec. 412: Retains a provision concerning wildfire suppression assistance with foreign countries.

Sec. 413: Retains a provision pertaining to the awarding of federal contracts by the Secretaries of Agriculture and Interior in certain disadvantaged communities.

Sec. 414: Prohibits the use of any funds in this or any other Act for competitive sourcing studies and associated activities involving the Forest Service.

Sec. 415: Retains a provision which restricts funding for acquisition of land from being used for declarations of taking or complaints in condemnation.

Sec. 416: Prohibits the use of funds by the EPA to amend the Maximum Achievable Control Technology Standards.

Sec. 417: Extends a provision which provides authority for Utah to work cooperatively on Forest Service lands.

Sec. 418: Extends the Service First authorities for the Department of the Interior and the Forest Service to combine certain administrative functions.

Sec. 419: Includes a provision that extends the authority of the Shasta-Trinity National Forest to retain receipts from marina facilities, consistent with other recreation sites managed under the Federal Lands Recreation Enhancement Act.

Sec. 420: Includes a provision to authorize a transfer of \$8,000,000 from the Environmental Protection Agency to the Department of the Navy to fund efforts to monitor and remediate groundwater contamination and other pollution sources at Hunter's Point Naval Shipyard in San Francisco, CA. These funds shall be awarded competitively.

Sec. 421: Includes a provision making a minor modification to the boundaries of the Tongass National Forest in Alaska.

Sec. 422: Extends the Forest Service Realignment and Enhancement Act of 2005 authority through 2011, and makes a minor amendment to Title V of that Act.

Sec. 423: Includes a provision providing the Lake Tahoe Basin Management Unit of the Forest Service, CA and NV, authority to conduct up to 5,000 acres of hazardous fuels treatments under a categorical exclusion from NEPA, with additional conditions.

Projects are to be conducted consistent with the Lake Tahoe Basin Multi-Jurisdictional Fuel Reduction and Wildfire Prevention Strategy published in December 2007, as updated. Acres treated with more than one prescription shall count as one acre for purposes of the 5,000-acre limit. The categorical exclusion cannot be used for projects in wilderness areas, or projects that involve new permanent roads.

Sec. 424: Includes a provision directing the Administrator of the Environmental Protection Agency to reconsider and issue a decision on California's waiver request on the regulation of Greenhouse Gas emissions from motor vehicles.

Sec. 425: Includes a provision prohibiting the use of funds to implement the "Toxics Release Inventory Burden Reduction Final Rule" (71 Fed. Reg. 76932) and reinstating the previous version of the rule. The Committees note that the rule being reversed exempted more than 3,500 manufacturing facilities from reporting toxic chemical releases to the public.

Sec. 426: Amends existing law to continue for one year certain authorities to renew grazing permits or leases administered by the Forest Service or Department of the Interior.

Sec. 427: Transfers certain Job Corps centers and staff from the Department of the Interior to the Forest Service, including the Centennial, Collbran, Columbia Basin, Fort Simcoe, Treasure Lake, and Weber Basin Job Corps centers.

Sec. 428: Amends existing law regarding the applicability of Healthy Forest Restoration Act procedures for projects treating hazardous fuels under the Herger-Feinstein Quincy Library Group Forest Recovery Act.

Sec. 429: Includes a provision that allows the Secretary of the Interior and the Secretary of Commerce to withdraw the final rule relating to the "Interagency Cooperation under the Endangered Species Act" issued by the U.S. Fish and Wildlife Service and the National Marine Fisheries Service; and that allows the Secretary of the Interior to withdraw the final rule relating to "Endangered and Threatened Wildlife and Plants; Special Rule for the Polar Bear" issued by the U.S. Fish and Wildlife Service. Should the Secretaries exercise this authority, the rules that were in place previous to December 10, 2008 would continue to be in effect.

Sec. 430: Includes a new section designating funding for projects and purposes as described in the following table:

Congressionally Directed Spending

INTERIOR / ENVIRONMENT

Agency	Account	State	Project	Amount
Bureau of Land Management	Management of Lands and Resources	CO	Shipment and storage of oil shale core samples	\$1,000,000
Bureau of Land Management	Management of Lands and Resources	NM	Galisteo Basin Archaeological Sites Protection	\$500,000
Bureau of Land Management	Management of Lands and Resources	UT	GIS Cadastral Mapping in Utah	\$750,000
Bureau of Land Management	Construction	CA	King Range National Conservation Area—Paradise Ridge Mountain Bike Trail	\$600,000
Bureau of Land Management	Construction	NV	California National Historic Trail Interpretive Center—exhibits, trails, amphitheater	\$1,500,000

DISCLOSURE OF EARMARKS AND
CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of

the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a re-

quest to the Committee of jurisdiction for each item so identified. The explanatory statement does not contain any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

Reprogramming Guidelines

The reprogramming requirements for fiscal year 2009 applicable to funds appropriated in this Act for programs under the jurisdiction of the Interior, Environment and Related Agencies Subcommittees remain the same as in effect for fiscal year 2008 with one exception (see H. Rept. 110-187, pages 190-191). In addition to these requirements, the Committees on Appropriations direct that all major reorganizations be submitted for review prior to their implementation.

Workforce planning

The Department of the Interior is a highly staff-intensive agency employing approximately 70,000 people. This staff is distributed throughout eight major bureaus and numerous other offices. Similarly, the Environmental Protection Agency, which employs over 17,000 staff, has 12 offices within headquarters, 10 regions and scores of laboratories and centers, while the Forest Service has over 30,000 employees in over 750 offices in 48 States and territories. The Committees on Appropriations are concerned that workforce plans for the Department of the Inte-

rior, the Environmental Protection Agency and the Forest Service are in many cases outdated and that no comprehensive review of appropriate staffing needs for the future has been undertaken. The Committees request that the Government Accountability Office conduct a review of existing workforce planning processes throughout these institutions and make recommendations for changes based on appropriate best-practices models used by other federal agencies. The Committees request this report be submitted no later than December 31, 2009.

DIVISION F—LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS, 2009

Following is an explanation of the effects of this division (hereafter referred to as the “bill”). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

Section 516 sets forth the reprogramming requirements and limitations for the Departments and agencies funded through this Act, including the requirement to make a written request to the Committees on Appropriations of the House of Representatives and the Senate 15 days prior to reprogramming, or to the announcement of intent to reprogram, funds in excess of 10 percent, or \$500,000, whichever is less, between programs, projects and activities.

Departments and agencies funded in this bill shall submit statements on the effect of this Act to the Appropriations Committees within 45 days of enactment of this Act, pursuant to section 518. The Committees on Appropriations of the House of Representatives and the Senate expect that these statements will provide sufficient detail to show the allocation of funds among programs, projects and activities, particularly in accounts where the final appropriation is different

than that of the budget request. Further, these statements shall also include the effect of the appropriation on any new activities or major initiatives discussed in the budget justifications accompanying the fiscal year 2009 budget.

TITLE I—DEPARTMENT OF LABOR

EMPLOYMENT AND TRAINING ADMINISTRATION
TRAINING AND EMPLOYMENT SERVICES

The bill includes \$3,626,448,000 for Training and Employment Services, which is \$50,180,000 above the fiscal year 2008 funding level and \$565,525,000 above the budget request.

The bill continues the funding for Community-Based Job Training grants within the Dislocated Worker Assistance National Reserve. Within the funds provided for the Community-Based Job Training Initiative (CBJTI), the Department of Labor (DOL) should provide priority consideration to worker training programs for the energy efficiency and renewable energy industries specified in the Green Jobs Act of 2007. A similar priority should be established in awarding competitive grants for high growth industries. Consultation with the Committees on Appropriations of the House of Representatives and the Senate prior to the issuance of CBJTI and high growth industry solicitations of grant applications is requested.

The amount provided for YouthBuild will allow for the selection of additional YouthBuild grantees. The Department is encouraged to incorporate a priority for use of

green building techniques in its competitive selection of additional YouthBuild programs. The Department also should explore ways to expand assistance to YouthBuild programs to enhance their ability to teach green building techniques, to prepare youth for employment in green construction while increasing the energy efficiency of local housing. The Department should provide recommendations to the Committees on Appropriations of the House of Representatives and the Senate on how this type of assistance could be expanded beyond the current DOL grantees.

The bill includes new language that will allow YouthBuild grantees to use grant awards for program year 2009, as well as remaining funds available in program year 2008, to serve individuals who have dropped out of high school and reenrolled in an alternative school, if that reenrollment is part of a sequential service strategy. This is the same integrated approach used when the program was administered by the Department of Housing and Urban Development.

Within the amount provided for Pilots, Demonstrations and Research, the bill designates \$5,000,000 for the continuation of the program of competitive grants to address the employment and training needs of young parents.

Within the amount provided for Pilots, Demonstrations and Research, the bill includes \$41,324,000 for the following projects in the following amounts:

Project	Amount
Aerospace Worker Joint Apprenticeship Training Committee, Seattle, WA, for skills training for the aerospace industry.....	476,000
Alabama Institute for the Deaf and Blind, Mobile, AL for an employer training and job development initiative.....	190,000
Arab-American and Chaldean Council, Lathrup Village, MI for a job training initiative.....	190,000

YouthCare, Seattle, WA, for a technology training program for homeless and out-of-school youth.....	95,000
YWCA of Youngstown, OH for a workforce development initiative.....	146,000

Within the funds provided for Re-integration of Ex-Offenders, the bill designates \$88,500,000 for youthful offender activities. Within the amount provided for youthful offender activities, \$42,900,000 is available to continue a school mentoring initiative that began in program year 2006. These funds are intended to be used to implement mentoring strategies that integrate educational and employment interventions and prevent youth violence. Within this amount, \$7,900,000 shall be used to continue those mentoring grants made with program year 2008 funds, along with the technical assistance that supports these grantees. This amount represents a down payment for continuation costs of those grants made with 2008 funds. The balance of continuation costs associated with those 2008 grants will be provided in fiscal year 2010. Bill language requires \$35,000,000 under the school mentoring initiative to be used for additional grants, and associated technical assistance, to implement mentoring strategies in schools identified as persistently dangerous.

Also within the amount provided for youthful offender activities, \$45,600,000 is available for other activities to support the employment needs of youthful offenders so as to prevent them from re-entering the criminal justice system. Of this amount, \$20,000,000 is included for a program of new competitive awards for activities that prepare young ex-offenders and school dropouts for employment. This competition should address the needs of minority communities, and shall include opportunities for national and regional intermediaries with demonstrated capacity to serve young offenders to apply. Funds not used for this new competition are available for continuation funding for existing grantees.

COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS

The bill includes \$571,925,000 for Community Service Employment for Older Americans, which is \$50,250,000 above the fiscal year 2008 funding level and \$221,925,000 above the budget request. New bill language will allow for these funds to be recaptured and reobligated in accordance with section 517(c) of the Older Americans Act.

FEDERAL UNEMPLOYMENT BENEFITS AND ALLOWANCES

The bill includes \$958,800,000 for Federal Unemployment Benefits and Allowances, which is \$70,100,000 above the fiscal year 2008 funding level and the same as the budget request.

STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS

The bill includes \$3,694,865,000 for State Unemployment Insurance and Employment Service Operations, which is \$277,545,000 above the fiscal year 2008 level and \$911,951,000 above the budget request.

Within the amount provided for grants to the States for the administration of Unemployment Insurance (UI), the bill includes a new provision, recommended in the budget request, requiring that \$10,000,000 in base UI funds be used for in-person reemployment and eligibility assessments and UI improper payment reviews. An additional \$40,000,000 is provided for this purpose. It is expected that a portion of the funds provided will be used for technology-based overpayment prevention, detection, and collection infrastructure investments in support of these activities. The bill also contains new language allowing the Secretary of Labor, at the request of a State participating in a consortium, to reallocate funds under Title III of the Social Se-

curity Act to other consortium members to carry out activities that benefit the unemployment compensation law of the requesting State.

Within the total for Employment Service National Activities, \$18,520,000 is provided for the administration of the Work Opportunity Tax Credit. Funds for Foreign Labor Certification activities are now consolidated and separately identified in this account. Previously, funds were provided in this account and in the Employment and Training Administration Program Administration account. Due to concern about the Department's new requirement for State Workforce Agencies to assume the responsibility for employment verification in the H-2A agricultural workers program, the Secretary is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 90 days of the enactment of this Act on the costs to States and legal basis for imposing this responsibility on a mandatory basis.

Within the amount provided for One-Stop Career Center and Labor Market Information, the Department is directed to fund workforce information grants to States at not less than \$32,000,000. Also within the total, not less than \$2,500,000 is provided for competitive grants to State agencies to identify job openings and skill requirements for the energy efficiency and renewable energy industries and to refer workers to job openings and training programs as outlined in 171(e)(2)(C) of the Workforce Investment Act.

The increase in funding for Work Incentive Grants is intended to allow for the integration of disability navigators into the one-stop system in all participating States and the evaluation of the progress to date in reaching this goal.

ADVANCES TO THE UNEMPLOYMENT TRUST FUND AND OTHER FUNDS

The bill includes \$422,000,000 for Advances to the Unemployment Trust Fund and Other Funds, which is \$15,000,000 below the fiscal year 2008 funding level and the same as the budget request. The funds may be used to implement the expansion of the Trade Adjustment Assistance program contained in the American Recovery and Reinvestment Act, including the provision of additional training, employment, and case management services funds to the States.

PROGRAM ADMINISTRATION

The bill includes \$130,463,000 for Program Administration, which is \$373,000 below the fiscal year 2008 level, after adjusting the funding to account for moving Foreign Labor Certification activities to another account, and \$13,548,000 below the budget request.

EMPLOYEE BENEFITS SECURITY ADMINISTRATION

SALARIES AND EXPENSES

The bill includes \$143,419,000 for the Employee Benefits Security Administration, which is \$4,106,000 above the fiscal year 2008 funding level and \$4,452,000 below the budget request.

PENSION BENEFIT GUARANTY CORPORATION PENSION BENEFIT GUARANTY CORPORATION FUND

The bill includes \$444,722,000 for the Pension Benefit Guaranty Corporation (Corporation), which is \$18,075,000 above the fiscal year 2008 funding level and the same as the budget request. The bill modifies language that permits workload driven increases in assets received by the Corporation and includes new language providing the Corporation the ability to access funds to meet un-

foreseen expenses in order to protect plan assets.

EMPLOYMENT STANDARDS ADMINISTRATION SALARIES AND EXPENSES (INCLUDING RESCISSION)

The bill includes \$440,267,000 for the Employment Standards Administration, which is \$19,342,000 above the fiscal year 2008 level and \$28,393,000 below the budget request.

Within the amount provided for the Enforcement of Wage and Hour Standards, \$1,000,000 is provided for accelerating start-up of a system to resolve claims of victims for injury caused by asbestos exposure. Activities to shorten the lead-time for implementation may include planning for the promulgation of regulations and establishing procedures for the processing of claims, including the expediting of exigent health claims. The Wage and Hour Division may use contracts with individuals or entities with the relevant experience to jump start the process. Funds not needed for this purpose, if authorizing legislation is not enacted, should be used for additional investigations as outlined in the budget request.

The bill includes a rescission of \$97,000,000 in unobligated funds collected pursuant to section 286(v) of the Immigration and Nationality Act. Sufficient funds will remain to ensure that the Department of Labor will be able to continue its enforcement activities under the current legislative authority.

SPECIAL BENEFITS

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$163,000,000 for Special Benefits, which is \$40,000,000 below the fiscal year 2008 funding level and the same as the budget request.

SPECIAL BENEFITS FOR DISABLED COAL MINERS

The bill includes \$188,130,000 for Special Benefits for Disabled Coal Miners, as requested. This amount is in addition to the \$62,000,000 appropriated last year as an advance for the first quarter of fiscal year 2009. The total program level of \$250,130,000 is \$26,091,000 below the program level for fiscal year 2008 and the same as the budget request. In addition, the bill provides an advance appropriation of \$56,000,000 for the first quarter of fiscal year 2010, which is the same as the budget request.

ADMINISTRATIVE EXPENSES, ENERGY EMPLOYEES

OCCUPATIONAL ILLNESS COMPENSATION FUND

The bill includes \$49,654,000, to remain available until expended, for the Energy Employees Occupational Illness Compensation Fund. This amount is \$267,000 above the comparable fiscal year 2008 funding level and the same as the budget request. The bill conforms with the budget request to provide an additional \$55,358,000 for the activities performed under this program by the National Institute for Occupational Safety and Health directly to the Centers for Disease Control and Prevention.

BLACK LUNG DISABILITY TRUST FUND (INCLUDING TRANSFER OF FUNDS)

The bill includes such sums as necessary for payment of benefits and interest on advances for the Black Lung Disability program. The recommendation assumes that \$1,072,000,000 will be required for this account, which is \$4,000,000 above the fiscal year 2008 funding level and the same as the budget request. The bill provides for transfers from the trust fund for administrative expenses for Department of Labor agencies and for the Department of the Treasury.

OCCUPATIONAL SAFETY AND HEALTH
ADMINISTRATION
SALARIES AND EXPENSES

The bill includes \$513,042,000 for the Occupational Safety and Health Administration (OSHA), which is \$27,041,000 above the fiscal year 2008 funding level and \$11,368,000 above the budget request.

The Department should use the increase above the fiscal year 2008 funding level to begin rebuilding OSHA's enforcement capacity and to increase the pace of standard setting. An important component of this mission is to enhance enforcement and oversight of injury and illness recordkeeping to ensure complete and accurate recording and reporting by employers. OSHA should use \$1,000,000 of the funds provided above the request for a recordkeeping enforcement initiative on injury and illness reporting, addressing the apparent lack of completeness of the OSHA Log of Work-related Injuries and Illnesses. The Department shall provide a letter report on OSHA's current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

The increase above the request for State Programs is intended to support the efforts of the Illinois Department of Labor to become a State-plan State for public worksites.

The bill provides \$10,000,000 for Susan Harwood Training grants, and designates \$3,144,000 within this amount for the continuation of Institutional Competency Building training grants awarded in February 2008, provided that a grantee has demonstrated satisfactory performance.

MINE SAFETY AND HEALTH ADMINISTRATION
SALARIES AND EXPENSES

The bill includes \$347,003,000 for the Mine Safety and Health Administration (MSHA), which is \$15,156,000 above the fiscal year 2008 funding level and \$14,942,000 above the budget request. The funds over the request are provided to accelerate the implementation of the MINER Act and to improve the health and safety of miners. These funds are specifically directed toward ensuring that MSHA is able to conduct and follow up on 100 percent of its mandatory inspections; adequately train and hire coal mine safety enforcement personnel; improve the infrastructure of the National Mine Health and Safety Academy; accelerate the certification and approval of safety and health equipment, including communication and tracking technologies required in the MINER Act; and ensure the

compliance with and effectiveness of statutory training requirements. In each of these areas and others specifically required by the MINER Act, the Department shall submit an overall operating plan within 60 days of enactment of this Act, and quarterly progress reports thereafter, to the Committees on Appropriations of the House of Representatives and the Senate.

Within the amount provided for Coal Enforcement, \$2,000,000 shall be used to increase spot inspections of respirable dust levels in the active workings of coal mines. MSHA shall report to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009 on the feasibility and efficacy of MSHA assuming responsibility for collecting dust samples, and using single, full-shift measurements instead of averages to ensure compliance with current law regarding the exposure limit for respirable dust.

Within Educational Policy and Development, \$2,000,000 above the budget request is provided to improve the infrastructure and expand on-line training programs at the National Mine Health and Safety Academy.

Within the funds provided for Technical Support, \$1,000,000 above the budget request is included for equipment and infrastructure at the Approval and Certification Center, which together with funds in the request that support additional staffing, will allow for progress in addressing the backlog of approval actions.

Within the amount provided for Program Administration, \$1,808,000 is provided for an award to the United Mine Workers of America to continue a project, initiated with the fiscal year 2008 appropriation, for classroom and simulated rescue training for mine rescue teams.

The MSHA Office of Accountability was established to provide focus and oversight to ensure that MSHA policies, enforcement procedures, and guidance are being complied with consistently and that the agency is accomplishing its mission-critical activities. MSHA is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate, not later than May 1, 2009, on staffing and budget resources expended or planned for fiscal years 2008 and 2009; findings and recommendations of audits conducted to date; and the status of all corrective actions recommended.

BUREAU OF LABOR STATISTICS
SALARIES AND EXPENSES

The bill includes \$597,182,000 for the Bureau of Labor Statistics (BLS), which is \$52,381,000 above the fiscal year 2008 funding level and \$4,376,000 above the budget request.

The increase above the request for Employment and Unemployment Statistics is provided for BLS to maintain the American Time Use Survey.

The increase above the request for Compensation and Working Conditions is intended to strengthen the current examination of the differences between workers' compensation and BLS survey data, better understand employer injury and illness recording practices, and conduct a pilot study using multiple data sources to capture injury and illness data. BLS shall provide a letter report on its current and planned activities in this area to the Committees on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

The bill provides that \$1,500,000 may be used for the Mass Layoff Statistics Program. These resources, together with \$3,500,000 to be contributed from the Employment and Training Administration, are sufficient to continue this program.

OFFICE OF DISABILITY EMPLOYMENT POLICY
SALARIES AND EXPENSES

The bill includes \$26,679,000 for the Office of Disability Employment Policy (ODEP), which is the same as the fiscal year 2008 funding level and \$14,238,000 above the budget request. No less than 80 percent of these funds shall be used to design and implement research and technical assistance grants and contracts to develop policies that reduce barriers to employment for youth and adults with disabilities. Within the funds provided, \$500,000 shall be used to expand a structured internship program for undergraduate college students with disabilities.

DEPARTMENTAL MANAGEMENT
SALARIES AND EXPENSES

The bill includes \$314,198,000 for Departmental Management, which is \$20,246,000 above the fiscal year 2008 funding level and \$50,715,000 above the budget request.

International Labor Affairs Bureau

The bill includes \$86,074,000 for the International Labor Affairs Bureau (ILAB). The detailed table below and accompanying statement language establish the allocation of these funds. The Department may propose adjustments to this allocation through the transfer and reprogramming guidance provided by this Act, which include requirements for advance notification of the Committees on Appropriations of the House of Representatives and the Senate.

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
IL0—IPEC contribution	\$39,260,000	+\$3,000,000	+\$39,260,000
Basic Grants	20,000,000	–1,750,000	+20,000,000
Promotion of worker rights in countries with trade preference programs	6,500,000	+1,777,000	+6,500,000
Research, policy, reporting and administration	20,314,000	+1,972,000	+5,492,000

ILAB shall use \$39,260,000 for the United States' contribution to expand on the successful efforts of the International Labor Organization's (ILO) International Program for the Elimination of Child Labor (IPEC). ILAB shall ensure that these funds are spent effectively in the effort to reduce the worst forms of child labor.

The bill also provides \$20,000,000 to continue the program of basic education grants in countries where the growing number of children removed from abusive and exploita-

tive child labor need access to basic education. The Department shall continue to work with the governments of host countries to eliminate school fees that create a barrier to education.

The bill also provides \$6,500,000 to continue support for the implementation of model programs designed to address worker rights in countries with which the United States has trade preference programs. Within this amount, \$2,500,000 is included to expand the existing cooperative agreement for the de-

velopment of an effective system of monitoring and transparent public reporting on the adherence to, and enforcement of, worker rights in the Republic of Haiti. These additional funds will allow the implementation of an effective monitoring program in factories, including the training of labor inspectors, and reflect the support for a multi-year funding commitment to improve the working conditions in Haiti's garment industry

and increase compliance with core international labor standards. Cost sharing from Haiti shall continue to support this effort.

Within the funds provided for research, policy, reporting and administration, sufficient funds are included to expand the competitively awarded contract for oversight of public and private initiatives to eliminate the worst forms of child labor in the cocoa sector in Cote d'Ivoire and Ghana. These funds are intended to support the assessment of the implementation of the child labor monitoring system by industry covering 100 percent of the cocoa growing areas in Cote d'Ivoire and Ghana and other objectives of the current contract where full assessment has not been possible due to the delay in the implementation of a transparent certification system. These funds will support continued annual reporting through 2010, which should include a programmatic review of industry and national government efforts to remediate the worst forms of child labor and adult forced labor in the cocoa supply chain. The review should also include recommendations for the frequency of data collection needed in the field to accurately report on the incidence of the worst forms of child labor and adult forced labor in order to measure the decline over time of these abusive labor practices.

Also within research, policy, reporting and administration, not more than \$1,500,000 shall be available for research activities authorized by the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008, as proposed in the budget request.

Sufficient funding within research, policy, reporting and administration also is included for the effective oversight, monitoring, audit and evaluation of ILAB's project portfolio to ensure that taxpayer dollars are well spent in the effort to eliminate exploitive child labor, increase respect for and compliance with the fundamental rights of workers, and meet ILAB's other mandates and responsibilities. ILAB shall ensure that funding in this bill is spent effectively in carrying out its mission and achieving its performance goals and objectives.

Legal Services

The Office of the Solicitor shall support no less than an increase of five full-time equivalents for enforcement support for the Mine Safety and Health Administration.

Women's Bureau

Within the funds provided for the Women's Bureau are sufficient resources for the expansion of a competitive award designed to support local women's employment and training programs throughout the United States. These funds shall be used to continue to support technical assistance, online and toll-free referral services, and other activities that advance unemployed and underemployed women in the workforce.

Minority unemployment

The Secretary of Labor shall provide a report to the Committees on Appropriations of the House of Representatives and the Senate by July 1, 2009 detailing the actions that the Department will take under existing authorities to ensure that its programs and policies are oriented to reduce the disparities in unemployment rates across racial and ethnic groups.

Greenhouse gas emissions

The Secretary of Labor is directed to provide the Committees on Appropriations of the House of Representatives and the Senate a detailed inventory of the Department's

greenhouse gas emissions, and a plan to reduce these emissions, by December 31, 2009.

OFFICE OF JOB CORPS

The bill provides \$1,683,938,000 for the Office of Job Corps, which is \$73,432,000 above the fiscal year 2008 funding level and \$119,239,000 above the budget request.

The funds provided for Job Corps Operations are intended to support the operations of the 122 current Job Corps centers, as well as allow two new centers, in Florida and Wisconsin, to begin operations, as scheduled, in program year 2009. The Department also should work to reverse the erosion in training offerings that has occurred over the past two years. In restoring career training slots, priority should be given to matching training to labor market needs, including growth sectors, such as health care, and to prepare students for careers that respond to the growing demand for energy-efficient building techniques and other "green" jobs. Within the funds provided for Job Corps renovation and construction are sufficient funds to continue the development of three new Job Corps centers, with the intention that the timelines for accepting students at these new centers—New Hampshire in September 2010, Iowa in November 2010 and Wyoming in February 2011 will be met.

The Department shall conduct a capital assessment of the Harpers Ferry Job Corps Civilian Conservation Center in Harpers Ferry, West Virginia, and report the results of this assessment to the Committees on Appropriations of the House of Representatives and the Senate not later than March 31, 2009.

VETERANS EMPLOYMENT AND TRAINING

The bill includes \$239,439,000 for Veterans Employment and Training, which is \$11,343,000 above the fiscal year 2008 funding level and \$1,000,000 above the request.

The Department of Labor should work, in coordination with the Departments of Housing and Urban Development and Veterans Affairs, to address the needs of homeless veterans, including exploring new approaches for preventing additional veterans from becoming homeless.

OFFICE OF INSPECTOR GENERAL

The bill includes \$82,141,000 for the Office of Inspector General, which is \$7,751,000 above the fiscal year 2008 funding level and the same as the request.

GENERAL PROVISIONS

Sec. 101. The bill continues a provision that prohibits the use of funds for the Job Corps program to pay the salary of any individual, either as direct costs or any pro-rata as an indirect cost, at a rate in excess of Executive Level I.

(TRANSFER OF FUNDS)

Sec. 102. The bill continues a provision limiting the authority to transfer funds between a program, project, or activity for emergency needs and requiring a 15 day advance notification of any such request.

Sec. 103. The bill continues a prohibition on the purchase of goods that are, in whole or in part, produced by indentured children.

Sec. 104. The bill modifies a provision requiring the Secretary of Labor to issue a monthly transit subsidy at the full amount of \$115 for eligible employees in the National Capital Region.

Sec. 105. The bill continues a provision prohibiting the obligation of funds for demonstration, pilot, multiservice, research and multistate projects under section 171 of the Workforce Investment Act prior to the submission of a report on the planned use of such funds.

Sec. 106. The bill continues a provision authorizing such sums as may be necessary to the Denali Commission to conduct job training where Denali Commission projects will be constructed.

Sec. 107. The bill continues a provision that prohibits the use of the funds available to the Department under section 414(c) of the American Competitiveness and Workforce Improvement Act for new grants for purposes other than training in the occupations and industries for which employers are using the visas to hire foreign workers that generate these funds.

Sec. 108. The bill continues a provision prohibiting Community-Based Job Training grants and grants authorized under section 414(c) of the American Competitiveness and Workforce Improvement Act from being awarded on a non-competitive basis.

Sec. 109. The bill continues a provision requiring that the Secretary of Labor take no action to amend the definition established in 20 CFR 667.220 for functions and activities under title I of the Workforce Investment Act of 1998 or to modify the procedure for designation of local areas as specified in that Act until such time as legislation reauthorizing the Act is enacted.

Sec. 110. The bill continues a provision that prohibits the use of funds to finalize or implement regulations under the Workforce Investment Act of 1998 (WIA), the Wagner-Peyser Act of 1933, or the Trade Adjustment Assistance Reform Act of 2002 (TAA), until such time as the WIA or TAA legislation is reauthorized.

Sec. 111. The bill continues a provision that prohibits grantees from using funds appropriated for the Employment and Training Administration to pay the salary and bonuses of an individual at a rate in excess of Executive Level II.

TITLE II—DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH RESOURCES AND SERVICES ADMINISTRATION

HEALTH RESOURCES AND SERVICES

The bill includes \$7,259,436,000 for health resources and services, of which \$7,234,436,000 is provided as budget authority and \$25,000,000 is made available from the Public Health Service policy evaluation set-aside, which is \$378,245,000 above the fiscal year 2008 level and \$1,369,925,000 above the budget request.

The bill includes language identifying \$56,000,000 for base grant adjustments for existing community health centers.

The bill includes language designating \$44,055,000 for expenses associated with extending Federal Tort Claims Act protection to practitioners in community health centers.

The bill includes language providing \$1,886,873,000 for Parts A and B of the Ryan White HIV/AIDS Treatment Modernization Act, to be available through September 30, 2011.

The bill includes language similar to that contained in the fiscal year 2008 bill that limits 2008 program year reductions in Ryan White Part A grants for metropolitan areas to 6.3 percent and for transitional areas to 11.3 percent by providing \$10,853,000 for supplemental grants for fiscal year 2009.

The bill includes language setting aside \$92,551,000 for Special Projects of Regional and National Significance (SPRANS) and \$10,400,000 for Community Integrated Service Systems (CISS) within the Maternal and Child Health Block Grant. Allocations to State grants are increased by \$2,590,000 compared to fiscal year 2008. The bill assumes the following set-asides within SPRANS:

SPRANS Set-asides budget activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget re- quest
Oral health	\$4,859,000	+\$141,000	+\$4,859,000
Epilepsy	3,416,000	+585,000	+3,416,000
Sickle cell	3,774,000	0	+3,774,000
First-time motherhood	4,956,000	+43,000	+4,956,000
Doulas	1,504,000	— 5,000	+1,504,000
Fetal alcohol syndrome	486,000	— 487,000	+486,000
Subtotal	18,995,000	— 1,610,000	+18,995,000

Within this amount, Doula Grants shall be allocated evenly among urban and rural settings. Urban settings should be focused on supporting and expanding community-based activities. Rural settings should emphasize breastfeeding initiation and retention.

In addition to the SPRANS funding above for oral health activities, an additional \$10,000,000 is provided for Dental Health Improvement Act State Grants (authorized under section 340G of the Public Health Service Act) within Allied Health.

Funding for the Heritable Disorders Newborn Screening Program is provided under the authority of the Newborn Screening Saves Lives Act of 2008 rather than as a SPRANS set-aside, as in prior years. The funding total also includes \$5,031,000 for primary genetics and newborn screening activities that were previously supported in SPRANS base activities.

The bill includes language that identifies not less than \$5,000,000 for General Dentistry Programs, not less than \$5,000,000 for Pediatric Dentistry Programs, including loan re-

payment, and not less than \$29,025,000 for Family Medicine Programs.

The bill includes language permitting funds provided for National Health Service Corps recruitment activities and the Nurse Loan Repayment and Scholarship Program to be used to make prior year adjustments to awards in these programs.

The bill includes \$310,470,000 within health care-related facilities and activities to support the following projects in the following amounts:

Project	Amount
Access Community Health Network, Chicago, IL for facilities and equipment.....	181,000
Access Community Health Network, Chicago, IL, for construction at Holy Cross Hospital.....	476,000
Access to Healthcare Network, Reno, NV, to expand the Access to Healthcare Network into Northern NV rural counties.....	571,000
Adams State College, Alamosa, CO for facilities and equipment.....	381,000
Adrian College, Adrian, MI for facilities and equipment.....	523,000
Adventist GlenOaks Hospital, Glendale Heights, IL for facilities and equipment.....	143,000
Advocate Health Care, Chicago, IL for facilities and equipment.....	190,000

Yukon-Kuskokwim Health Corporation, Bethel, AK, for renovation and equipment.....	1,475,000
Zufall Health Center, Dover, NJ for purchase of equipment.....	209,000

The bill includes language permitting up to one percent of the amount for each project to be used for related agency administrative expenses.

The bill includes language providing \$19,642,000 as a direct lump sum payment to the Denali Commission.

The bill includes \$26,000,000 for the Delta Health Initiative and associated administrative expenses.

The bill includes language identifying \$9,201,000 for State Offices of Rural Health. The bill includes language specifying that, within the funding provided for Rural Hospital Flexibility Grants, \$15,000,000 is available for the Small Rural Hospital Improvement Grant Program for quality improvement and adoption of health information technology.

The Health Resources and Services Administration (HRSA) is encouraged to begin an initiative to expand community health center primary care services to low-income persons with serious mental illnesses.

HRSA is expected to continue to approve community health centers' proposed scope of project changes when necessary to ensure access to needed specialty services or to meet the comprehensive needs of special populations who may require care in other types of health care settings.

The bill provides \$14,200,000 for Native Hawaiian Health Care Activities within the Community Health Centers Program. Sufficient funding has been provided to permit the continuation of master's degree and certificate programs for Native Hawaiian health care administrators.

HRSA is directed to implement any new expansion initiative using the existing, and statutorily-required, proportionality for urban and rural communities, as well as migrant, homeless and public housing health centers.

HRSA is urged to confirm that the Federal Torts Claims Act covers clinicians employed or individually contracted by community health centers. HRSA is encouraged to work with the U.S. Department of Agriculture Rural Development Office to assist more community health centers in accessing these resources.

The bill includes \$75,000,000 for State Health Access Grants. Grants will be awarded competitively to States that demonstrate they have a program which will expand access to affordable health care coverage for the uninsured populations in that State. States will also be required to demonstrate that they have achieved the key State and local statutory or regulatory changes required to implement the new program within twelve months from the grant start date. States that have already developed a comprehensive health insurance access program would not be eligible to apply.

The types of activities that can be supported through this grant include: "three share" community coverage (employer, State or local government, and the individual); reinsurance plans that subsidize a certain share of carrier losses within a certain risk corridor; subsidized high risk insurance pools; health insurance premium assistance; creation of a state insurance "connector" authority to develop new, less expensive, portable benefit packages for small employers and part-time and seasonal workers; development of statewide or automated enrollment systems for public assistance programs; and innovative strategies to insure low-income childless adults.

Two types of State grants will be available: target grants (\$2,000,000-\$4,000,000 annually per State) for States that choose to target particular populations such as uninsured children, small business employees, or uninsured seniors; or comprehensive grants (\$7,000,000-\$10,000,000 annually per State) for States that are planning extensive coverage initiatives. Each grant will be awarded based on a five-year grant period, subject to the availability of funds, with funding distributed each year based on attaining benchmarks that would be designated in the grant award. States shall be required to demonstrate their seriousness of intent by matching twenty percent of the Federal grant through non-Federal resources, which could be a combination of State, local, and private dollars from insurers, providers, and other private organizations. Waiver of the matching requirement shall be possible if financial hardship is demonstrated. States shall also be required to demonstrate their ability to sustain the program without Federal funding after the end of the five-year grant period. HRSA should consider geographic diversity in the allocation of these awards.

HRSA shall brief the Committees on Appropriations of the House of Representatives and the Senate on the terms and conditions of its proposed request for application prior to its public release.

States shall be required to report to HRSA the impact and results of their demonstration project at the conclusion of the five-year grant period. HRSA is encouraged to convene grantees periodically throughout the period of their award to share information with each other about their program experiences and gain ideas for refinement of their programs. HRSA is directed to submit a comprehensive report to the Committees on Appropriations of the House of Representatives and Senate about the outcomes and lessons learned from each of the State demonstrations eighteen months after the five-year grant period ends.

HRSA should use National Health Service Corps recruitment funds only to support multi-year, rather than single year, commitments.

Of the funds provided for Allied Health Training Programs, \$10,000,000 is for grants to States authorized under section 340G of the Public Health Service Act to improve access to dental care; \$1,945,000 is allocated to the Chiropractic-Medical School Demonstration Grants; and \$1,945,000 is designated for the Psychology Training Program.

Within the funding provided for the Autism and Other Related Developmental Disorders, an increase of not less than \$2,000,000 is provided to expand the Leadership Education in Neurodevelopmental and Related Disabilities Program. In addition, an increase of not less than \$2,000,000 is provided for research on evidence-based practices for interventions for individuals with autism and other developmental disabilities, for development of guidelines for those interventions, and for information dissemination.

HRSA should support Traumatic Brain Injury Protection and Advocacy Services at no less than the fiscal year 2008 level.

The bill includes \$1,000,000 to establish the Congenital Disabilities Program, which will provide information and support services to families receiving a diagnosis for Down syndrome, spina bifida, dwarfism, or other prenatally or post-natally diagnosed conditions. Competitive grants may be made to States

and territories, localities, and non-governmental organizations with expertise in these conditions.

HRSA should allocate funds for the Minority AIDS Initiative within the Ryan White HIV Programs at least at the fiscal year 2008 level.

With the \$7,550,000 provided in the bill for the Telehealth Program, the Office of the Advancement of Telehealth is directed to facilitate cooperation among health licensing boards or various States to develop and implement policies that will reduce statutory and regulatory barriers to telehealth and telehomecare. Funding supports grants for resource centers, networks, pilots, and demonstrations.

HRSA's decision to shift resources from rural health grants that specialize in rapid response policy analysis to grants that sponsor more general research is concerning. As Congress discusses healthcare reform, it will be crucial to have an accurate analysis of how specific policy proposals impact the rural population. HRSA is urged to reconsider this decision.

Rural and Community Access to Emergency Devices funding should be divided equally between urban and rural communities.

The Department of Health and Human Services is instructed to distribute to the regional offices all of the funds available for Family Planning services no later than 60 days following enactment of this Act. Regional offices should retain the authority for the review, award and administration of Family Planning funds, in the same manner and timeframe as in fiscal year 2006. At least 90 percent of Family Planning funds should be used for clinical services authorized under section 1001 of the Public Health Service Act. The Office of Family Planning is expected to spend any remaining year-end funds in section 1001 activities.

HEALTH EDUCATION ASSISTANCE LOAN PROGRAMS ACCOUNT

The bill includes \$2,847,000 for the Health Education Assistance Loan Programs Account, which is the same as the fiscal year 2008 level and \$59,000 below the budget request.

VACCINE INJURY COMPENSATION PROGRAM TRUST FUND

The bill provides \$5,404,000 for administration for the Trust Fund, which is the same as the fiscal year 2008 level and \$876,000 above the budget request.

CENTERS FOR DISEASE CONTROL AND PREVENTION

DISEASE CONTROL, RESEARCH, AND TRAINING

The bill includes \$6,283,350,000 in discretionary appropriations for Disease Control, Research, and Training at the Centers for Disease Control and Prevention (CDC), which is \$233,376,000 more than the fiscal year 2008 funding level and \$665,341,000 more than the budget request. In addition, \$331,251,000 is made available under section 241 of the Public Health Service (PHS) Act, which is \$5,578,000 more than the fiscal year 2008 funding level and \$48,592,000 more than the budget request.

Infectious Diseases

Immunization and Respiratory Diseases

Within the program level total for Immunization and Respiratory Diseases, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Section 317 Immunization Program	\$495,901,000	+\$30,000,000	+\$30,899,000
Program Operations	61,458,000	0	+92,000
Vaccine Tracking	4,738,000	0	+7,000
Influenza	158,689,000	+1,414,000	—1,408,000
Pandemic Influenza	156,046,000	+1,414,000	—1,413,000

HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Within the total for HIV/AIDS, Viral Hepatitis, STD, and TB prevention, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Domestic HIV/AIDS Prevention and Research	\$691,860,000	\$0	+\$713,000
State/Local Health Dept. Coop. Agreements	321,221,000	+9,949,000	+10,105,000
Domestic HIV/AIDS Testing Initiative	53,278,000	+12,762,000	—9,722,000
Early Diagnosis Grants	15,000,000	+10,527,000	—15,000,000
National/Regional/Other Organizations	165,343,000	0	+24,125,000
Viral Hepatitis	18,316,000	+734,000	+812,000
Sexually Transmitted Diseases	152,329,000	0	+678,000
Tuberculosis	143,870,000	+3,511,000	+4,135,000

Within the total for Domestic HIV/AIDS Prevention and Research programs, the bill provides funding to support activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders.

The bill includes \$15,000,000 within the total for the Domestic HIV/AIDS Testing Initiative for the Early Diagnosis and Screening Program authorized in section 2625 of the Public Health Service Act. These funds shall

be awarded to States newly eligible for the program in fiscal year 2009 and no State may be eligible for more than \$1,000,000. Any amounts that have not been awarded by May 31, 2009 shall be awarded for other HIV testing programs.

CDC has convened a workgroup of CDC officials, outside tuberculosis (TB) professionals, and State and local public health officials to review and revise the TB funding distribution formula. The agency is directed to create a plan and submit such plan to the Committees on Appropriations of the House of Representatives and the Senate by no

later than March 1, 2009 identifying the optimal proportion of TB funding that should be distributed under the new funding formula being considered. Such formula should ensure that the funding distribution aligns with the epidemiological trends of the disease.

Zoonotic, Vector-borne, and Enteric Diseases

Within the total for Zoonotic, Vector-borne, and Enteric Diseases, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Vector-borne Diseases, including West Nile Virus.	\$26,299,000	\$0	+\$7,022,000
Food Safety	27,908,000	+132,000	+261,000
Prion Disease	5,388,000	+132,000	+156,000
Chronic Fatigue Syndrome	4,750,000	0	+22,000

CDC is directed to conduct a peer review of the Chronic Fatigue Syndrome (CFS) program, including a program performance evaluation by March 1, 2009, and report the result of such review to the Committees on Appropriations of the House of Representatives and the Senate no later than June 1, 2009. In addition, CDC is directed to include in its annual budget justification an itemized expenditure of funds for each CFS research project or activity in the following five functional expense categories: surveillance and epidemiology; clinical assessment and evaluation; objective diagnosis and pathophysiology; treatment and intervention; and education, including the CFS marketing campaign and healthcare provider education.

Preparedness, Detection, and Control of Infectious Diseases

Within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$10,100,000 for the National Healthcare Safety Network (NHSN), a surveillance tool used by healthcare facilities and State and local public health departments to understand and prevent healthcare-associated infections (HAIs). According to CDC, hospitals participating in the NHSN have decreased bloodstream infections by up to 50 percent over the last ten years. With this increased funding, CDC shall expand NHSN capacity to increase the number of hospitals and other healthcare facilities participating, increase the types of infections collected by each facility, and accelerate the transition from manual to electronic HAI reporting.

Also within the total for Preparedness, Detection, and Control of Infectious Diseases, the bill includes \$2,500,000 to be used to respond to outbreaks of disease caused in some part by the re-use of syringes in outpatient settings and to ensure that infection control measures are adhered to broadly, including provider education and patient awareness activities. CDC is encouraged to partner with industry and university researchers to identify the best interventions to reduce the possibility of disease transmission in the healthcare setting.

Health Promotion

Chronic Disease Prevention, Health Promotion, and Genomics

Within the total for Chronic Disease Prevention, Health Promotion, and Genomics, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Heart Disease and Stroke	\$54,096,000	+\$3,995,000	+\$5,258,000
Delta Health Intervention	3,000,000	+1,526,000	+1,526,000
Diabetes	65,847,000	+3,136,000	+3,393,000
Cancer Prevention and Control	340,300,000	+30,814,000	+38,527,000
Breast and Cervical Cancer	205,853,000	+5,021,000	+5,849,000
WISEWOMAN	19,528,000	+930,000	+1,007,000
Cancer Registries	46,366,000	0	+190,000

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Colorectal Cancer	38,974,000	+25,000,000	+25,057,000
Comprehensive Cancer	16,348,000	0	+67,000
Johanna's Law	6,791,000	+325,000	+6,791,000
Ovarian Cancer	5,402,000	+133,000	+155,000
Prostate Cancer	13,245,000	0	+54,000
Skin Cancer	1,876,000	0	+8,000
Geraldine Ferraro Cancer Education Program	4,666,000	+335,000	+353,000
Cancer Survivorship Resource Center	779,000	0	+3,000
Arthritis and Other Chronic Diseases	25,245,000	+1,330,000	+1,428,000
Arthritis	13,287,000	+250,000	+303,000
Epilepsy	7,958,000	+192,000	+224,000
National Lupus Patient Registry	4,000,000	+888,000	+901,000
Tobacco	106,164,000	+2,000,000	+2,427,000
Nutrition, Physical Activity, and Obesity	44,300,000	+2,109,000	+2,282,000
Health Promotion	28,541,000	-436,000	+4,331,000
Behavioral Risk Factor Surveillance System	7,300,000	+1,000	+31,000
Community Health Promotion	6,453,000	+41,000	+67,000
Sleep Disorders	859,000	+41,000	+41,000
Mind-Body Institute	1,500,000	-219,000	+1,500,000
Glaucoma	3,511,000	+167,000	+181,000
Visual Screening Education	3,222,000	+833,000	+843,000
Alzheimer's Disease	1,688,000	+112,000	+118,000
Inflammatory Bowel Disease	684,000	+17,000	+20,000
Interstitial Cystitis	658,000	0	+3,000
Excessive Alcohol Use	1,500,000	+1,500,000	+1,500,000
Chronic Kidney Disease	2,025,000	+60,000	+68,000
School Health	57,636,000	+3,313,000	+4,024,000
Healthy Passages Study	3,485,000	+1,515,000	+3,485,000
Food Allergies	496,000	+5,000	+496,000
Safe Motherhood/Infant Health	44,777,000	+2,430,000	+2,603,000
Preterm Birth	2,000,000	+2,000,000	+2,000,000
Sudden Infant Death Syndrome	207,000	0	+1,000
Oral Health	13,044,000	+622,000	+673,000
Prevention Research Centers	31,132,000	+2,001,000	+2,120,000
Healthy Communities	22,771,000	-2,387,000	+7,230,000
Racial & Ethnic Approaches to Community Health	35,553,000	+1,693,000	+1,832,000
Genomics	12,280,000	+187,000	+237,000
Primary Immune Deficiency Syndrome	3,100,000	+187,000	+199,000
Public Health Genomics	9,180,000	0	+38,000

The bill includes funding to continue planning for capacity and infrastructure at CDC for a kidney disease program and to institute a Chronic Kidney Disease (CKD) surveillance system. Further, the bill includes funding to support additional grants for State-based, culturally-appropriate, community demonstration projects for CKD detection.

Within the amount provided for colorectal cancer, \$25,000,000 is to launch a nationwide colorectal cancer screening program. These funds should be made available for screening and diagnostic follow-up care.

The CDC is urged to collaborate with eating disorders researchers in order to better understand the disparity between outside studies and CDC reported morbidity and mortality, focusing on obtaining a clear picture of what might be barriers to the detection and reporting of eating disorders.

Within the total provided for Nutrition, Physical Activity, and Obesity, the bill includes \$500,000 for a study by the Institute of Medicine (IOM) that will examine and provide recommendations regarding front-of-package nutrition symbols. These should include, but not be limited to, a review of systems being used by manufacturers, supermarkets, health organizations, and governments in the United States and abroad and the overall merits of front-label nutrition icons, the advantages and disadvantages of

various approaches, and the potential benefits of a single, standardized front-label food guidance system regulated by the Food and Drug Administration. Based upon its work, the IOM should recommend one or several of the systems, along with means of maximizing the use and effectiveness of front-label symbols, that it has identified as best at promoting consumers' health.

The bill provides funding to support CDC's new initiative for Healthy Communities, re-modeled from the former Steps to a Healthier U.S. program. Within the total provided, \$4,000,000 is for a community-based grant program focusing on poor nutrition and physical inactivity. Priority in funding should go to applicants with a high degree of collaboration among community organizations, schools, county and municipal governments, and business leaders.

Within the total for Chronic Disease Prevention, Health Promotion, and Genomics, the additional funding provided for the National Lupus Patient Registry is intended to be used to expand the registry and address the epidemiological gaps among Hispanic/Latinos, Asian Americans, and Native Americans.

The bill includes funding within the Community Health Promotion program for CDC to support the National Sleep Awareness Roundtable and to incorporate sleep and

sleep-related disturbances into established CDC surveillance systems.

The \$2,000,000 increase provided for the Office of Smoking and Health above the fiscal year 2008 funding level should be used to expand the transfer to the Environmental Health Laboratory to support its work to analyze tobacco products and cigarette smoke. This increase shall be provided by the Office of Smoking and Health to the Environmental Health Laboratory in a manner that supplements, and in no way replaces, existing funding for tobacco-related activities.

A diet high in sodium is a major cause of heart disease and stroke. CDC is encouraged to work with major food manufacturers and chain restaurants to reduce sodium levels in their products. The agency is directed to submit to the Committees on Appropriations of the House of Representatives and the Senate an evaluation of its sodium-reduction activities by no later than 15 months after the enactment of this Act, and annually thereafter.

Birth Defects, Developmental Disabilities, Disability and Health

Within the total for Birth Defects, Developmental Disabilities, Disability and Health, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Birth Defects and Developmental Disabilities	\$42,059,000	+\$4,479,000	+\$4,661,000
Birth Defects	21,123,000	+3,882,000	+3,965,000
Craniofacial Malformation	1,750,000	+200,000	+207,000
Fetal Death	844,000	0	+4,000
Alveolar Capillary Dysplasia	246,000	0	0
Fetal Alcohol Syndrome	10,112,000	0	+49,000
Folic Acid	2,818,000	+597,000	+608,000
Infant Health	8,006,000	0	+39,000
Human Development and Disability	76,106,000	+5,757,000	+6,096,000
Disability & Health (including Child Development)	13,572,000	+3,302,000	+3,351,000
Limb Loss	2,898,000	+42,000	+56,000
Tourette Syndrome	1,744,000	+26,000	+34,000
Early Hearing Detection and Intervention	10,858,000	+987,000	+1,035,000
Muscular Dystrophy	6,274,000	+97,000	+127,000

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Special Olympics Healthy Athletes	5,519,000	+82,000	+108,000
Paralysis Resource Center	5,727,000	0	+28,000
Attention Deficit Hyperactivity Disorder	1,746,000	0	+8,000
Fragile X	1,900,000	+72,000	+81,000
Spina Bifida	5,468,000	+263,000	+288,000
Autism	20,400,000	+4,188,000	+4,266,000
Hereditary Blood Disorders	19,857,000	+420,000	+513,000
Hemophilia	17,155,000	+420,000	+500,000
Thalassemia	1,860,000	0	+9,000
Diamond Blackfan Anemia	516,000	0	+2,000
Hemochromatosis	326,000	0	+2,000

Within the level provided for autism, the bill includes sufficient funding to restore the non-CADDRE Phase I Autism Development Disabilities Monitoring Centers.

The increase provided above the fiscal year 2008 funding level for craniofacial malformation is intended to first be used for the development of web-based continuing medical education for healthcare professionals that interface with patients with cleft lip and palate and their families. Second, the funds should be used for the planning and hosting of a national scientific conference to draft best practices guidelines for diagnosis, treatment, and long-term management of children with craniosynostosis and deformational plagiocephaly. Finally, the funds should be used to disseminate the guidelines and to develop a reporting instrument to evaluate the care of children with craniosynostosis.

There is significant concern about the disparity in the rates of folic acid intake and neural tube defects, particularly in the Hispanic population. Within the funds provided for folic acid, CDC is encouraged to provide increased funding to expand the folic acid education campaign to inform more women and healthcare providers about the benefits of folic acid and to explore the scientific benefits and concerns about expanding folic acid fortification in the United States. The agency is directed to submit to the Committees on Appropriations of the House of Representatives and the Senate an evaluation of the current folic acid fortification system by no later than nine months after the enactment of this Act. This report should include recommendations regarding expansion of the system and a summary of the current state of science.

CDC is encouraged to continue the promising research being conducted by the re-

gional centers for birth defects research and prevention. The bill includes sufficient funding to maintain the current level for States to continue birth defects surveillance systems, programs to prevent birth defects, and activities to improve access to health services for children with birth defects.

Health Information and Service

Public Health Informatics/Health Marketing

Within the total for Public Health Informatics/Health Marketing, the bill includes a program level total of \$70,075,000 for Public Health Informatics and \$84,580,000 for Health Marketing.

Environmental Health and Injury Prevention

Environmental Health

Within the total for Environmental Health, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Environmental Health Laboratory	\$42,735,000	+\$8,938,000	+\$16,625,000
Newborn Screening Quality Assurance Program	6,878,000	0	+6,878,000
Newborn Screening for Severe Combined Immuno. Diseases	983,000	0	+983,000
Environmental Health Activities	74,299,000	+18,991,000	+28,572,000
Arctic Health	292,000	0	+3,000
Climate Change	7,500,000	+7,500,000	+7,500,000
Safe Water	7,199,000	0	+7,199,000
Volcanic Emissions	98,000	0	+1,000
Environmental and Health Outcome Tracking Network	31,143,000	+7,312,000	+7,535,000
Amyotrophic Lateral Sclerosis (ALS) Registry	5,000,000	+2,179,000	+4,137,000
Polycythemia Vera (PV) Cluster	5,000,000	+5,000,000	+5,000,000
Asthma	30,760,000	0	+288,000
Healthy Homes (formerly Childhood Lead Poisoning)	34,621,000	0	+324,000

CDC has worked to develop a nationwide Amyotrophic Lateral Sclerosis (ALS) registry that will estimate the incidence and prevalence of the disease, promote a better understanding of the disease, and provide data that will be useful for research on improving disease management and developing standards of care. The funds provided for the ALS Registry are intended to be used to develop and design a registry for ALS and other neurodegenerative disorders that will be of use to biomedical researchers working in the field.

Within the total for Environmental Health Activities, the bill includes \$7,500,000 for a

new Climate Change initiative to develop and enhance programs to help the nation prepare for and adapt to the potential health effects of global climate change. CDC is urged to develop additional expertise in epidemiologic and laboratory science, infectious disease ecology, modeling and forecasting, climatology and earth science, communication and behavioral change science, and to support public health research in these areas.

Within the funds provided for Environmental Health Activities, \$5,000,000 is provided to conduct assessments of Polycythemia Vera (PV) trends and associated

risk factors, including potential environmental risk factors, in PV cluster areas or in areas with potential environmental risk factors. These funds may also be used to evaluate efforts to improve reporting of PV and other hematologic cancers to cancer registries.

Injury Prevention and Control

Within the total for Injury Prevention and Control the bill includes the following amounts:

Budget activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget request
Intentional Injury	\$103,384,000	+\$6,471,000	+\$6,881,000
Domestic Violence and Sexual Violence	31,283,000	+4,981,000	+5,093,000
Child Maltreatment	7,086,000	0	+30,000
Youth Violence Prevention	21,291,000	+500,000	+588,000
Domestic Violence Community Projects	5,511,000	+490,000	+511,000
Rape Prevention	42,516,000	+500,000	+678,000
All Other Intentional Injury	2,783,000	0	+11,000
Unintentional Injury	38,323,000	+3,620,000	+3,767,000
Traumatic Brain Injury	6,137,000	+428,000	+452,000
All Other Unintentional Injury	32,186,000	+3,192,000	+3,315,000
National Violent Death Reporting System	3,535,000	+314,000	+328,000

Within the total for Unintentional Injury, the bill includes \$2,000,000 for elderly falls prevention research.

Within the total for Injury Prevention and Control, the bill includes funding for the injury control research centers (ICRCs) to support their core operations and to expand research to improve translation of effective

interventions. Injury is the leading cause of death and disability among children and youth. CDC is encouraged to continue its support for all ICRCs to ensure that each ICRC is funded at a level commensurate with programmatic expectations, including the new injury control research center that will

focus on research and prevention related to children and adolescents.

National Institute for Occupational Safety and Health

Within the program level total for the National Institute for Occupational Safety and Health (NIOSH), the bill includes the following amounts:

Budget activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget request
Education and Research Centers	\$23,497,000	+\$2,072,000	+\$4,263,000
Personal Protective Technology	17,042,000	+4,238,000	+4,689,000
Pan Flu Preparedness for Healthcare Workers	3,000,000	+3,000,000	+3,000,000
Healthier Workforce Centers	4,030,000	+1,250,000	+1,250,000
National Occupational Research Agenda	111,644,000	+4,535,000	+15,189,000
World Trade Center	70,000,000	—38,083,000	+45,000,000
Mining Research	50,000,000	+874,000	+12,936,000
Other Occupational Safety and Health Research	83,846,000	+3,219,000	+5,679,000
Miners Choice	641,000	0	+20,000
Nat'l Mesothelioma Registry & Tissue Bank	1,014,000	+25,000	+55,000

The total provided for NIOSH includes sufficient funding to maintain staffing levels at the Morgantown facility and to increase research funding at that facility.

The bill includes sufficient resources to fully fund the existing Healthier Workforce Centers and to expand this network dedicated to research, education, and translation programs to integrate health protection and health promotion in the workplace.

The bill includes \$250,000 for NIOSH to undertake follow-up studies on the National Hospital Ambulatory Medical Care Survey on the underreporting of worker injury data, particularly focusing on the self-employed population. As NIOSH develops research agendas, NIOSH should consider the disproportionate attention paid to acute injuries and illnesses over chronic injuries and illnesses contracted at work places in America. NIOSH shall continue to work with the Bureau of Labor Statistics to improve the statistics that direct Federal enforcement and compliance efforts aimed at preventing illness and injury at our Nation's workplaces. NIOSH shall provide a letter report on activities in this area to the Committees

on Appropriations of the House of Representatives and the Senate not later than 90 days after enactment of this Act.

According to a report issued in 2008 by the Institute of Medicine of the National Academies, there is a critical need to better understand the airborne transmissibility of pandemic influenza and other pathogenic bioaerosols to protect healthcare workers and to gauge the efficacy of the currently recommended types of respirators. The bill includes \$3,000,000 within the total for Personal Protective Technology for NIOSH to research modes of transmission of influenza and to evaluate filtering face piece respirators, other types of respirators, and other personal protective technology equipment. Further, NIOSH is urged to design and promote the next generation of personal protective equipment for healthcare workers and first responders to address the unique challenges posed by the healthcare environment.

Energy Employees Occupational Illness Compensation

For the World Trade Center (WTC) Medical Monitoring and Treatment program, the fis-

cal year 2009 program level is \$182,000.00. Approximately \$112,00.00 in carryover balances from prior year appropriated funds are available in fiscal year 2009. Combined with the \$70,00.00 included in this bill, the total amount available for the WTC program is sufficient to continue to expand the program in the New York City area and around the country for first response emergency personnel, residents, students, and others whose health has been impacted from exposure to toxins in or around the WTC site.

In addition, the bill includes \$55,358,000 for CDC to administer the mandatory Energy Employees Occupational Illness Compensation program, which is the same funding level as in fiscal year 2008 and the budget request. In prior years, funding was appropriated within the Department of Labor.

Global Health

Within the funds provided for Global Health, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Global AIDS Program	\$118,863,000	\$0	+\$136,000
Global Immunization Program	143,326,000	+3,475,000	+3,635,000
Polio Eradication	101,500,000	+3,475,000	+3,587,000
Other Global/Measles	41,826,000	0	+48,000
Global Disease Detection	33,723,000	+2,278,000	+2,314,000
Global Malaria Program	9,396,000	+700,000	+700,000
Other Global Health	3,516,000	0	+4,000

The increased funding included in the bill for Global Disease Detection shall be used to support no less than one new Global Disease Detection Center.

CDC is encouraged to continue its support of research and development toward new anti-malarial drugs.

Terrorism Preparedness and Response

Within the funds provided for Terrorism Preparedness and Response, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Public Health Emergency Prep. Coop. Agreements	\$700,465,000	\$0	+\$129,562,000
Centers for Public Health Preparedness	30,000,000	+1,445,000	+1,499,000
Advanced Practice Centers	5,261,000	0	+5,261,000
All Other State and Local Capacity	10,870,000	—888,000	+889,000
Upgrading CDC Capacity	120,744,000	0	—10,327,000
Anthrax	7,875,000	—7,000	+8,000
BioSense	34,389,000	0	—15,516,000
Quarantine	26,507,000	+16,637,000	—16,766,000
Real-time Lab Reporting	8,239,000	—783,000	+783,000
Strategic National Stockpile	570,307,000	+18,798,000	0

With the level of funding provided in the bill for the Public Health Emergency Pre-

paredness Cooperative Agreements program, CDC is expected to issue a full year of grants

rather than reducing the grant cycle to nine

months and three weeks as proposed in the budget request.

The bill provides an increase of \$16,637,000 over the fiscal year 2008 funding level for the network of quarantine stations at ports of entry across the United States. This funding is provided to maintain the current capacity at the 20 existing domestic quarantine stations, to hire additional employees to begin to adequately staff and operate these stations, and provide centralized core support to the Quarantine and Migration Health System.

The Cities Readiness Initiative (CRI) provides resources to cities and metropolitan

areas around the country to better distribute countermeasures during public health emergencies. Concerns have been raised about CDC's revised formula for the allocation of CRI funds. Several grantees are potentially facing reductions of up to 48 percent. Significantly reducing grant awards in a single fiscal year could have a damaging impact on a jurisdiction's readiness to disburse medical countermeasures. In this transition to a new formula, CDC should move gradually in implementation and limit grant award reductions in 2009. Further, before any final decision is made on the allocation of fiscal year

2009 resources, CDC should review this formula again to address the concerns raised by grantees. Further, CDC shall submit a written report and provide a briefing to the Committees on Appropriations of the House of Representatives and the Senate justifying any changes to the CRI formula distribution used in fiscal year 2007 prior to issuing final guidance to grantees.

Public Health Improvement and Leadership

Within the total for Public Health Improvement and Leadership, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Leadership and Management	\$149,332,000	—\$8,923,000	\$0
Director's Discretionary Fund	2,948,000	—2,947,000	+2,948,000
Public Health Workforce Development	34,859,000	+850,000	+2,048,000
Applied Epidemiology Fellowship Training	982,000	+24,000	+982,000

The bill includes language making available until expended up to \$1,000 per eligible CDC employee for Individual Learning Accounts. The agency is directed to submit a report to the Committees on Appropriations of the House of Representatives and the Sen-

ate by no later than November 30, 2009, and annually thereafter, on the total level of funds used by CDC in the prior year for such Individual Learning Accounts.

The CDC is encouraged to continue the Institutional Research Training Grant pro-

gram, funded through the CDC's Health Protection Research Initiative.

The bill includes \$21,997,000 for the following projects in the following amounts:

Project	Amount
A Voice for All, Wilmington, DE, for speech and language evaluations for persons with disabilities.....	381,000
Access Community Health Network, Martin Russo Health Center, Bloomingdale, IL to implement a community-based heart health program.....	95,000
Advancement Project, Los Angeles, CA for a comprehensive public health strategy for gang and violence reduction.....	176,000
Advocate Good Shepherd Hospital, Barrington, IL for the expansion of an ongoing project to address the growing problem of childhood obesity among elementary schools in Lake County, IL	48,000
AKI Life Health Center, Hollis, NY for the Angel Doc Program to implement a series of health programs.....	143,000
Alameda County Department of Public Health, Office of AIDS, Oakland, CA for an HIV/AIDS prevention and testing initiative.....	190,000
Albert Einstein Healthcare Network, Philadelphia, PA, for a college student health screening program.....	95,000
Baltimore City Health Department, Baltimore, MD for the Baltimore City Health Disparities project to address the alarming cardiovascular disease health disparities that exist among city residents	190,000
Boys and Girls Club of Alaska, Anchorage, AK, for a rural Alaska youth fitness initiative.....	714,000
Brownsville Campus - University of Texas Health Science Center School of Public Health, Brownsville, TX for studies regarding the health of the Hispanic population in the Rio Grande Valley	238,000
California State University-Fullerton, CA for programs aimed at preventing obesity and promoting health in children.....	190,000
Cascade AIDS, Portland, OR, for HIV/AIDS education, outreach and prevention services	190,000
Childrens Hunger Alliance in 7th District, Ohio, Columbus, OH for programs to prevent childhood obesity	95,000
City of Waterloo, Iowa, for Fire PALS, a school-based injury prevention program.....	238,000
Clearbrook, Inc., Wilkes Barre, PA, for substance abuse and treatment program.....	95,000
Community Health Centers in Hawaii for Childhood Rural Asthma Project, Honolulu, HI, for childhood rural asthma project.....	167,000
Cornelia de Lange Syndrome Foundation, Avon, CT, for awareness and education activities.....	238,000
County of Marin, San Rafael, CA for research and analysis related to breast cancer incidence and mortality in the county and breast cancer screening.....	238,000
County of San Diego, CA for a public health information management system.....	476,000
Delaware Division of Public Health, Dover, DE for an infant mortality reduction initiative.....	190,000
Diabetic Amputation Prevention Foundation, Inglewood, CA for health care screening and culturally appropriate educational materials about diabetes and cardiovascular care for African American men	238,000
Drexel University School of Public Health, Philadelphia, PA, to investigate a polycythemia vera cluster in Northeast, Pennsylvania.....	499,000
Eastern Maine Healthcare Systems, Brewer, ME, for a childhood obesity program.....	285,000
Fletcher Allen Health Care, Burlington, VT for the Center for Nutrition and Healthy Food Systems.....	143,000
Friends of the Congressional Glaucoma Caucus Foundation, Lake Success, NY to provide glaucoma screenings and follow-up in Bronx, NY in concert with Einstein Hospital.....	190,000

Project	Amount
Friends of the Congressional Glaucoma Caucus Foundation, Lake Success, NY to provide glaucoma screenings and follow-up in the Virgin Islands.....	48,000
Friends of the Congressional Glaucoma Caucus Foundation, Lake Success, NY, for the New Jersey Mobile Glaucoma Screening Program.....	95,000
Gilda's Club Louisville, KY to provide free education and peer-based counseling to youths and their families regarding cancer prevention, diagnosis, and treatment.....	95,000
Grinnell Regional Medical Center, Grinnell, IA, for a wellness initiative.....	238,000
Hackensack University Medical Center, Hackensack, NJ, for a study on possible environmental factors of autism and neurodevelopmental disorders in New Jersey.....	95,000
Haitian American Association Against Cancer, Inc., Miami, FL for cancer education, outreach, screening, and related programs.....	238,000
Healthy Northeast Pennsylvania Initiative, Clarks Summit, PA, for obesity prevention and education programs.....	95,000
Henry Ford Macomb Hospital, Warren, MI to develop and implement diabetes care and support interventions including care management, group education sessions, and provider education	167,000
Hudson Alpha Institute for Biotechnology, Huntsville, AL for a method of detection for food borne pathogens.....	262,000
International Rett Syndrome Foundation, Clinton, MD for education and awareness programs regarding Rett syndrome.....	238,000
International Rett Syndrome Foundation, Richmond, VA, for a health education program.....	143,000
Iowa Chronic Care Consortium, Des Moines, Iowa, for a preventative health demonstration program.....	190,000
Iowa Department of Public Health, Des Moines, IA, to continue the Harkin Wellness Grant program.....	951,000
Johnson and Wales University, Providence, RI for a food safety initiative.....	190,000
Kaweah Delta Hospital Foundation, Visalia, CA, for a comprehensive asthma management program.....	95,000
Kendall County Health Department, Yorkville, IL for a program to reduce childhood obesity.....	24,000
La Crosse County Health Department, La Crosse, WI, for a program to prevent childhood obesity.....	333,000
Latino Leadership Alliance Foundation, New Brunswick, NJ, to establish a Latino Leadership Alliance Health Initiative that will educate and inform the Latino Community on the importance of proper preventive health care	190,000
Mary Bird Perkins Cancer Center, Baton Rouge, LA to expand early detection cancer screenings.....	428,000
Matthew Siravo Memorial Foundation, Wakefield, RI for programs and outreach for families of children with epilepsy statewide.....	95,000
Middle Tennessee State University, Murfreesboro, TN to improve the physical fitness of children and adolescents in Middle Tennessee.....	295,000
Mount Sinai, New York, NY, for firefighter and emergency responder health monitoring program in Louisiana.....	381,000
National Kidney Foundation of Central New York, Syracuse, NY for an education and outreach program to identify individuals at risk for early stages of kidney disease.....	95,000
New England Coalition for Health Promotion and Disease Prevention, Providence, RI, for continued development of obesity and disease prevention programs.....	95,000
Oglala Sioux Tribe, Pine Ridge, SD, for the Oyate Bli Helya diabetes program.....	381,000
Ohio Patient Safety Institute, Columbus, OH, for patient safety programs.....	190,000

Project	Amount
Ohio University, Athens, OH for the Appalachian Rural Health Institute to disseminate diabetes education materials in Appalachian counties.....	190,000
Our Lady of Fatima Hospital, North Providence, RI for a healthlink program on wellness for retirees.....	143,000
Pennsylvania Breast Cancer Coalition, Ephrata, PA, for breast cancer awareness outreach.....	48,000
Pinellas County Schools Administration, Largo, FL for the Steps to a Healthier Pinellas program.....	190,000
Providence Health Care System, Portland, OR, for a multiple sclerosis registry.....	190,000
Pulmonary Hypertension Association, Silver Spring, MD for a pulmonary hypertension prevention and awareness initiative.....	238,000
Rainbow Babies and Children's Hospital, Cleveland, OH for prevention and community outreach programs in childhood diabetes and obesity.....	200,000
Rhode Island Center for Agricultural Promotion and Education, Providence, RI for nutrition, fitness, and outdoor activity initiatives at schools statewide in conjunction with KIDSFIRST.....	95,000
Rich Center for Autism/Youngstown State University, Youngstown, OH, for improve outreach and early treatment interventions for children with autism.....	95,000
Roberts Family Development Center, Sacramento, CA for programs to reduce the risk of chronic diseases, particularly cancer, heart disease, and obesity.....	190,000
San Antonio Metropolitan Health District, San Antonio, TX for further studies and public health outreach regarding environmental health concerns at and near the former Kelly Air Force Base	285,000
Schneider Children's Hospital, New Hyde Park, NY for comprehensive Diamond Blackfan Anemia awareness and surveillance.....	167,000
Sedgwick County Government, Wichita, KS for prenatal education and outreach programs.....	428,000
Shelburne Farms, Shelburne, VT, for nutritional educational programming.....	476,000
Silent Spring Institute, Newton, MA for studies of the impact of environmental pollutants on breast cancer and women's health.....	333,000
South Dakota State University, Brookings, SD, for multidisciplinary research on health promotion.....	285,000
Southeastern Center for Emerging Biologic Threats, Emory University, Atlanta, GA, for programs related to bioterrorism and emerging biologic threats.....	95,000
Southern Nevada Health District, Las Vegas, NV, for management of the hepatitis C outbreak in Southern Nevada.....	523,000
St. Elizabeth's Medical Center, Wabasha, MN for the chronic disease management program.....	181,000
St. Joseph's Medical Center, Stockton, CA for facilities and equipment.....	238,000
St. Louis Regional Asthma Consortium, St. Louis, MO, for asthma management for at-risk children	714,000
St. Mary Medical Center Foundation, Long Beach, CA for the Well Woman Outreach and Education Program focusing on chronic disease community outreach, education, and support.....	238,000
State of Alaska Department of Health and Social Services, Anchorage, AK, for a program to prevent, control, and reduce incidence of obesity.....	476,000
Texas Tech University Health Sciences Center, El Paso, TX, for the Center for Border Health Research.....	285,000
University of Nebraska-Medical Center, Omaha, NE to establish an environmental health informatics database.....	238,000
University of North Carolina at Greensboro, Greensboro, NC for the North Carolina Council for Health Literacy initiative.....	238,000

Project	Amount
University of North Carolina-Chapel Hill in conjunction with East Carolina University, Chapel Hill, NC, to study racial disparities in cardiovascular disease.....	309,000
University of Wisconsin - Milwaukee, Milwaukee, WI, to support and expand public health training programs.....	285,000
West San Gabriel Valley YMCA, San Gabriel, CA for an initiative to combat obesity.....	95,000
Wheeling Jesuit University, Wheeling, WV, for the Mining and Industry Safety Technology and Training Innovation Center.....	2,854,000
Whitman-Walker Clinic, Inc., Washington, DC for HIV screening and education materials.....	48,000
Yale New Haven Health System, New Haven, CT, for emergency preparedness education and training activities at the Connecticut Center for Public Health Preparedness.....	238,000

Preventive Health and Health Services Block Grant

As part of an HHS-wide initiative to reduce healthcare-associated infections (HAIs) coordinated by the HHS Office of the Secretary, the bill includes language that each State must certify that it will submit a plan by January 1, 2010 to the Secretary of Health and Human Services for reducing HAIs to be eligible for the full allotment in this Act under the Preventive Health and Health Services Block Grant. State plans shall be consistent with the Department of Health and Human Services national action plan for reducing such infections.

The bill also includes additional funding to provide States increased support for a wide range of public and preventive health activities. States are strongly encouraged to use these increased resources to invest in strategies to reduce HAIs through collaborations with public health departments and healthcare facilities and to begin to develop statewide plans.

Buildings and Facilities

Within the amount provided for Buildings and Facilities, the bill includes \$30,000,000 for nationwide repairs and improvements; \$71,300,000 for the completion of Building 24 on the Roybal Campus in Atlanta, Georgia; \$1,500,000 for facilities and equipment at the CDC laboratory in Ft. Collins, Colorado; and the remaining funds shall be used to begin planning and construction of Buildings 107 and 108 on the Chamblee Campus in Atlanta, Georgia.

Business Services and Support

The funds for Business Services and Support are intended for CDC to carry out its business functions, including, but not limited to, administrative services, financial management, security and emergency preparedness, and procurement and grants. Neither these funds nor any other funds provided to CDC are to be enhanced through the mechanism of program assessments or tapping at any level, including at the coordinating center level.

NATIONAL INSTITUTES OF HEALTH

The bill includes \$30,317,024,000 for the 26 accounts that comprise the National Institutes of Health (NIH) total appropriation, which is \$937,500,000 above the fiscal year 2008 level and \$1,087,500,000 above the budget request. In addition, the bill continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding, consistent with the budget request. Appropriation levels for individual institutes and centers are described in the table at the end of this explanatory statement. Guidance for specific institutes and centers is provided below.

NATIONAL CANCER INSTITUTE

The bill provides up to \$8,000,000 for facilities repairs and improvements at the National Cancer Institute (NCI)-Frederick Federally Funded Research and Development Center in Frederick, Maryland.

The NCI is directed to name a Fellowship in Surgical Pathology the "Alan S. Rabson Award" to provide lasting recognition to the work of Alan S. Rabson, M.D., Deputy Director of NCI. As a pathologist, researcher, administrator, and clinical advisor, Dr. Rabson has demonstrated unequalled service in his 53 years at NIH. He is the author of more than 100 scientific journal articles and is credited with several discoveries in virology that paved the way for other important findings in this field. But, in particular, he has made his life passion helping cancer patients and their families come to grips with their cancer diagnosis and locating the medical treatment and provider that will help them most. He is joined in his dedication to NIH by his wife, Dr. Ruth Kirschstein, who served as the Acting Director of NIH and Director of several institutes. Naming a fellowship in honor of Dr. Rabson is a modest acknowledgement of how much the country is indebted to this unparalleled public servant.

NATIONAL CENTER FOR RESEARCH RESOURCES

The bill provides \$474,972,000 for clinical and translational science awards, divided between \$53,224,000 from the Common Fund and \$421,748,000 from the National Center for Research Resources. The bill provides \$224,043,000 for the Institutional Development Award (IDeA) Program.

OFFICE OF THE DIRECTOR

The bill provides \$25,000,000 in Flexible Research Authority as authorized under section 402 of the Public Health Service Act ("PHS Act"); up to \$192,300,000 for continuation of the National Children's Study; and up to \$8,000,000 for the Office of AIDS Research to make grants for construction or renovation of facilities as authorized in section 2354(a)(5)(B) of the PHS Act.

The bill provides funding for a 2 percent increase in the average cost of new and competing as well as non-competing grants. The bill provides \$35,000,000 for Transformative Research Project Grants; \$80,000,000 through the Common Fund for New Innovators Awards; \$40,600,000 through the Common Fund for the Director's Pioneer Awards; \$24,000,000 for the rare and neglected diseases initiative; and \$96,711,000 within the Office of the Director for radiological, nuclear, and chemical countermeasure research.

NIH is required to notify the Committees on Appropriations of the House of Representatives and the Senate each time the Director uses the statutory 1 percent transfer authority.

NIH is encouraged to take steps to accelerate implementation of its conflict of interest policy for contract staff.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES

The bill includes \$3,334,906,000 for Substance Abuse and Mental Health Services, which is \$100,866,000 more than the fiscal year 2008 funding level and \$309,939,000 more than the budget request. In addition, \$131,585,000 is made available under section 241 of the Public Health Service (PHS) Act, which is \$9,296,000 more than the fiscal year 2008 funding level and \$1,596,000 less than the budget request. The bill does not include language requested by the Administration to provide supplemental performance awards under the Substance Abuse Prevention and Treatment (SAPT) Block Grant. The increase included for the SAPT Block Grant shall be distributed based on the current statutory formula.

Within the total provided for Programs of Regional and National Significance across the Substance Abuse and Mental Health Services Administration (SAMHSA), the bill includes \$75,000,000 for homeless programs. SAMHSA is directed to continue to fund supportive services programs within the authority of the Programs of Regional and National Significance. The distribution of these funds between the Center for Mental Health Services (CMHS) and the Center for Substance Abuse Treatment (CSAT) is detailed later in this statement.

Within the total provided for Programs of Regional and National Significance across SAMHSA, the bill includes \$116,656,000 for activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders. The distribution of these funds between CMHS, CSAT and the Center for Substance Abuse Prevention (CSAP) is detailed later in this statement.

Within the total provided for Programs of Regional and National Significance across SAMHSA, the bill includes \$4,701,000 for the Minority Fellowship Program. The distribution of these funds between CMHS, CSAT and CSAP is detailed later in this statement.

Center for Mental Health Services

Programs of Regional and National Significance

Within the total provided for CMHS Programs of Regional and National Significance, the bill includes the following amounts:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Capacity:			
Co-Occurring State Incentive Grant	\$3,611,000	\$0	+\$3,192,000
Seclusion and Restraint	2,449,000	0	+2,449,000
Youth Violence Prevention	94,502,000	+1,500,000	+18,792,000
Safe Schools/Healthy Students	84,320,000	+2,155,000	+16,837,000
College Emergency Preparedness	2,237,000	+763,000	+2,237,000
School Violence	10,182,000	+819,000	+1,955,000
National Traumatic Stress Network	38,000,000	+4,908,000	+22,332,000
Children and Family Programs	9,194,000	+1,465,000	+9,194,000
Mental Health Transformation Activities	5,912,000	-4,211,000	+5,912,000
Consumer and Family Network Grants	6,236,000	+1,431,000	+6,236,000
MH Transformation State Incentive Grants	26,012,000	0	+26,012,000
Primary and Behavioral Health Care Integration	7,000,000	+7,000,000	+7,000,000
Project LAUNCH Wellness Initiative	20,000,000	+12,631,000	+20,000,000
Suicide Lifeline	4,484,000	0	+4,484,000
Garrett Lee Smith—Youth Suicide State Grants	29,738,000	+262,000	+11,918,000
Garrett Lee Smith—Youth Suicide Campus Grants	4,975,000	+62,000	+25,000
American Indian/Native Suicide Prevention	2,944,000	+26,000	-26,000
Homelessness Prevention Programs	32,250,000	+21,151,000	+29,450,000

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Older Adult Programs	4,814,000	0	+4,814,000
Minority AIDS	9,283,000	0	0
Jail Diversion	6,684,000	0	+2,824,000
Science to Service:			
Garrett Lee Smith—Suicide Resource Center	4,957,000	+44,000	+997,000
Mental Health Systems Transformation Activities	9,949,000	+722,000	+9,949,000
Nat'l Registry of Evidence-based Programs & Practices	544,000	+107,000	— 106,000
SAMHSA Health Information Network	1,920,000	0	— 1,050,000
Consumer/Consumer Support TA Centers	1,927,000	0	+1,927,000
Minority Fellowship Program	4,083,000	+278,000	+4,083,000
Disaster Response	1,054,000	0	+1,054,000
Homelessness	2,306,000	0	+2,306,000
HIV/AIDS Education	974,000	0	0

Within the total for CMHS Programs of Regional and National Significance, the bill provides \$38,000,000 for the National Child Traumatic Stress Initiative (NCTSI). SAMHSA is strongly urged to give preference to applicants with prior experience in the NCTSI, as well as extensive experience in the field of trauma-related mental disorders in children, youth and families, especially in the areas of child abuse and residential treatment settings. SAMHSA should also pay special attention to the role of resiliency in recovery from trauma.

Also within the total for CMHS Programs of Regional and National Significance, the

bill provides \$7,000,000 for a new program to integrate primary care and specialty medical services in community mental health centers and other community-based behavioral health agencies. SAMHSA is urged to issue one or more competitive awards to national entities with experience in providing training and technical assistance to these community sites in order to ensure the success of this integrated treatment model.

The SOAR program has been successful in connecting disabled people experiencing homelessness with Federal disability benefits and appropriate supportive services, such as housing, medical benefits, and vocational

training. SAMHSA is encouraged to continue funding the SOAR program within the Programs of Regional and National Significance and to apply this approach nationally with adequate technical assistance and to share lessons learned to assist other disadvantaged populations.

Within the total for Consumer and Family Network Grants, the bill provides \$2,531,000 for the Statewide Consumer Network Grant program.

Within the \$15,660,000 included in the bill, \$8,636,000 shall be used for the following projects in the following amounts:

Project	Amount
211 Maine, Inc., Portland, ME, for a 211 telephone number enabling access to health and social services in the community.....	190,000
American Red Cross, Lower Bucks County Chapter, Levittown, PA to provide mental health counseling and case management services, along with related services.....	95,000
ChildNet - East Tennessee, Knoxville, TN for a children's mental health initiative.....	238,000
Children's Health Fund, New York, NY, for support services for the Mississippi Gulf Coast Children's Health Project, Gulfport, MS.....	238,000
City and County of San Francisco Department of Health, San Francisco, CA for supportive services for the Direct Access to Housing program	476,000
City of Berkeley, CA for mental health screening, assessment, referral, and treatment for young children ages 0 - 5	95,000
City of Charleston, SC to implement mental health services in response to catastrophic events.....	95,000
City of San Diego, CA, to address the risks of homelessness, violence and drug abuse among returning veterans.....	95,000
Community Foundation for Greater New Haven, CT for innovative intervention programs serving children and families exposed to violence and trauma.....	190,000
Community Rehabilitation Center, Inc., Jacksonville, FL for substance abuse and mental health programs.....	285,000
Comunilife, Inc., New York, NY for the Life is Precious demonstration project in the Bushwick, Williamsburg, and Greenpoint sections of Brooklyn, NY.....	167,000
Crossroads Rhode Island, Providence, RI for mental health services for homeless individuals.....	95,000
Discipleship Outreach Ministries, Inc. dba Turning Point to provide mobile and on-site mental health services	95,000
Gateway Healthcare, Pawtucket, RI for mental health services for returning veterans in conjunction with the Rhode Island Veterans Task Force.....	190,000
Henry/Stark County Health Department, Kewanee, IL to start a mental health services program in Henry County.....	95,000
Jewish Family & Children's Service of North Jersey, Wayne, NJ for mental health services.....	71,000
Jewish Family Service of MetroWest, Florham Park, NJ, for the Mental Health Intervention and Homelessness Prevention Project	190,000
Kids Hope United, Lake Villa, IL for the multi-systemic therapy program for youth.....	100,000
Marion County, Salem, OR, for mental health treatment programs.....	143,000
Midwest Rural Telemedicine Consortium, Des Moines, IA, for the Mental Health Outreach Initiative.....	476,000
North Shore Child and Family Guidance Center, Roslyn Heights, NY for the Maternal Depression Outreach program.....	147,000
Oak Lawn Family Service, Oak Lawn, IL for counseling services to village residents and their families.....	285,000
One Sky Center, Portland, OR, for substance abuse and mental health programs.....	190,000
Pacific Clinics, Arcadia, CA for mental health and suicide prevention programs for Latina youth.....	466,000
Peninsula Counseling Center, Woodmere, NY for mental health services.....	190,000
Roberta's House, Baltimore, MD, for mental health services for children and families.....	285,000

Project	Amount
Rosebud Sioux Tribe, Rosebud, SD for suicide prevention and early intervention services.....	476,000
Spectrum Programs, Inc., Miami, FL for a mental health and substance abuse program at the Florida Center of Excellence in Emerging Behavioral Health Strategies.....	238,000
St. Ann's Corner of Harm Reduction, Bronx, NY for individual mental health consultations and support services for individuals living with HIV/AIDS, Hepatitis C, and other blood-borne diseases	95,000
Tuesday's Children, Manhasset, NY to establish the First Responder Institute, which provides mental health counseling to first responders after the September 11, 2001 terrorist attacks	190,000
Turnaround for Children, Inc., Manhattan, NY, for crisis intervention and treatment services for students.....	238,000
United Community Center, Inc., Milwaukee, WI for a bilingual outpatient mental health program	95,000
United Way of Anchorage, AK, for the 211 project to provide a statewide health and human services management system for Alaska	571,000
United Way of Greater St. Louis, Inc., St. Louis, MO, for the 211 project for outreach, community education and expansion of statewide health and human services management systems.....	238,000
University of South Florida, Tampa, FL, for mental health program for disabled veterans	95,000
Ventura County Sheriff's Office, Ventura, CA for training programs related to the mentally ill.....	219,000
Village of Childhelp West, Beaumont, CA to expand mental health treatment of severely abused and neglected children.....	714,000

Center for Substance Abuse Treatment

CSAP is expected to focus its resources and outcome measurement efforts on preventing substance use among youth and increasing the age of initiation through environmental and population based strategies, due to the cost effectiveness of these approaches.

Within the \$15,666,000 included in the bill, \$2,744,000 shall be used for the following projects in the following amounts:

Project	Amount
Fighting Back Partnership, Vallejo, CA for an intervention program targeting elementary and high school students who are at risk for substance abuse and misuse.....	333,000
Hamakua Health Center, Honokaa, HI, for a youth anti-drug program.....	190,000
Mothers Against Drunk Driving, Louisiana Chapter, Baton Rouge, LA, for substance abuse prevention focusing on underage drinking.....	95,000
National Asian Pacific American Families Against Substance Abuse, Inc., Los Angeles, CA for the development of a comprehensive Asian American and Pacific Islander substance abuse information clearinehouse and resource center	143,000
Operation UNITE, Somerset, KY for a multi-school substance abuse counseling and curriculum development program.....	618,000
Sonoma County Department of Health, Santa Rosa, CA for partnerships with senior service providers for alcohol and drug abuse prevention and education in the senior population.....	190,000
South Boston Community Health Center, South Boston, MA for substance abuse prevention services.....	81,000
West Virginia Prevention Resource Center, Charleston, WV, for drug abuse prevention.....	951,000
YMCA of the East Bay, Richmond, CA for substance abuse prevention activities.....	143,000

Program Management

Within the total for Program Management, the bill includes \$2,000,000 for the inclusion of questions related to the mental health of children in the National Health Interview Survey (NHIS) and to carry out studies necessary to ensure the validity and reliability of the NHIS data on children with serious emotional disturbance.

Within the total provided for Program Management, the bill includes \$1,000,000 for a module in the National Survey on Drug Use and Health to provide reliable and valid data on adults with serious mental illness.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

HEALTHCARE RESEARCH AND QUALITY

The bill includes a program level of \$372,053,000 for the Agency for Healthcare Research and Quality (AHRQ), which is \$37,489,000 more than the fiscal year 2008 program level and \$46,389,000 more than the budget request. The bill makes these funds fully available through section 241 of the Public Health Service (PHS) Act.

The bill does not include funding for the Health Insurance Decision Tool.

The bill includes \$50,000,000 for comparative effectiveness research within the total for Research on Health Costs, Quality, and Outcomes. This amount is \$20,000,000 more than the fiscal year 2008 funding level and the budget request. The objective of the program is to research difference healthcare interventions to help consumers, healthcare providers, and others make informed choices among treatment options. This investment will improve healthcare quality.

The investigator-initiated research portfolio at AHRQ has languished even though many of the sentinel studies that have changed the face of health and health care in the U.S. are the result of researchers' ingenuity and creativity. To advance discovery and the free marketplace of ideas, the bill in-

cludes increased funding to expand investigator-initiated research within the total for Research on Health Costs, Quality, and Outcomes.

Within the total for Research on Health Costs, Quality, and Outcomes, the bill includes \$41,889,000 for Patient Safety Threats and Medical Errors. The bill includes increased funding to reduce healthcare-associated infections (HAIs) and expand the Methicillin-Resistant *Staphylococcus Aureus* (MRSA) program begun in fiscal year 2008.

The bill includes \$9,304,000 for the Comprehensive Unit Based Program (CUSP), a patient safety program to reduce central-line associated blood stream infections in intensive care units (ICUs). The CUSP is modeled after the Michigan Keystone Program, which was successfully used in more than 100 ICUs in Michigan and, within three months of implementation, helped reduce infection rates to zero in more than 50 percent of the participating hospitals. With fiscal year 2008 funding, the CUSP is being implemented by State-wide consortiums in 10 different States and includes members of State hospital associations, quality improvement organizations, and public health agencies. With the increased funding in fiscal year 2009, AHRQ will be able to increase the number of participating hospitals within each of the 10 States, as well as increase the number of participating States, to bring this important and successful initiative to additional communities and healthcare facilities. In addition, AHRQ is urged to initiate a similar approach to CUSP in addressing other HAIs, including urinary tract infections and surgical site infections, as well as expand its activities to include research on ways to reduce HAIs in other healthcare settings, including hospital locations outside the ICU, dialysis centers, nursing homes, and ambulatory care settings.

AHRQ received funding in fiscal year 2008 to identify and reduce the spread of MRSA and other HAIs. Due to concern about the prevalence of these preventable infections, the bill provides AHRQ with \$8,000,000 to continue its work in this area. Funding is included to increase AHRQ's investment in evidence-based research to help healthcare providers and others implement quality improvement strategies to reduce the incidence of MRSA and other HAIs. In this effort, AHRQ is encouraged to continue to develop partnerships with healthcare delivery networks to implement system-wide MRSA prevention programs.

CENTERS FOR MEDICARE AND MEDICAID SERVICES

GRANTS TO STATES FOR MEDICAID

The bill includes \$149,335,031,000 for grants to States for Medicaid, which is \$7,706,975,000 above the fiscal year 2008 level and the same as the budget request.

PAYMENTS TO HEALTH CARE TRUST FUNDS

The bill provides \$195,383,000,000 for payments to health care trust funds, which is \$6,938,000,000 above the fiscal year 2008 level and \$75,000,000 above the budget request.

PROGRAM MANAGEMENT

The bill provides \$3,305,386,000 for program management, which is \$153,735,000 above the fiscal year 2008 level and \$1,958,000 below the budget request.

The bill includes language providing \$35,700,000, available through fiscal year 2010, for the Healthcare Integrated General Ledger Accounting System.

The bill includes language providing \$108,900,000, available through fiscal year 2010, for Medicare contractor reform activities.

The bill includes \$4,542,000 within research, demonstration and evaluation to support the following projects in the following amounts:

Project	Amount
Bedford Ride, Bedford, VA for a program to assist seniors.....	95,000
Bi-State Primary Care Association, Concord, NH for primary care workforce recruitment.....	105,000
Bi-State Primary Care Association, Concord, NH to treat uninsured patients.....	618,000
Bi-State Primary Care Association, Montpelier, VT to treat uninsured patients.....	190,000
Bucks County Health Improvement Partnership, Langhorne, PA to provide access to low-income patients.....	343,000
City of Milwaukee, WI, to improve access to and utilization of primary and preventive health care among low-income residents.....	171,000
Health Improvement Partnership of Santa Cruz County, Scotts Valley, CA to treat uninsured patients.....	238,000
Hope Through Housing Foundation, Rancho Cucamonga, CA for the Program of All-Inclusive Care for the Elderly (PACE) in Fontana, CA.....	238,000
Hospice Foundation of America, Washington, DC, for education programs.....	571,000
MAGNET, Inc., Cleveland, OH to establish Lean healthcare services at Humility of Mary Health Partners.....	143,000
Maryland Disability Law Center, Baltimore, MD for legal advocacy for disabled Medicaid recipients.....	95,000
Maternity Care Coalition, Philadelphia, PA for the MOMobile outreach program.....	285,000
Medical Foundation of Chattanooga, Chattanooga, TN, for Project Access to provide medical care to low-income patients.....	190,000
Medicare Chronic Care Practice Research Network, Sioux Falls, SD, to evolve and continue the Medicare Coordinated Care Demonstration project.....	666,000
Medicare Rights Center, New York, NY for interactive health care workshops.....	95,000
Miami Jewish Home and Hospital for the Aged, Miami, FL for the Palliative Care Center	214,000
Patient Advocate Foundation, Newport News, VA for a patient assistance program for the uninsured.....	190,000
University of Pittsburgh Medical Center, Pittsburgh, PA, to develop a comprehensive health care delivery model.....	95,000

Within the total funding for research, demonstration, and evaluation, the bill includes \$5,000,000 for Real Choice Systems Change Grants to States.

The bill provides \$45,000,000 for the State Health Insurance Program.

The Centers for Medicare and Medicaid Services (CMS) is directed to include in the next publication of "Medicare & You" information regarding the importance of writing and updating advance directives and living wills.

HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The bill includes \$198,000,000 from the Medicare trust funds for health care fraud and abuse control, which is \$198,000,000 above the fiscal year 2008 level and the same as the budget request. This level includes funding for CMS to expand its efforts to link Medicare claims and public records data and to initiate new demonstration projects using data mining technologies.

ADMINISTRATION FOR CHILDREN AND FAMILIES

PAYMENTS TO STATES FOR CHILD SUPPORT ENFORCEMENT AND FAMILY SUPPORT PROGRAMS

The bill includes \$2,759,078,000 for Child Support Enforcement and Family Support programs, which is \$238,892,000 below the fiscal year 2008 level and the same as the budget request.

LOW-INCOME HOME ENERGY ASSISTANCE

Public Law 110-329, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provided fiscal year 2009 funding of \$5,100,000,000 for the Low-Income Home Energy Assistance program (LIHEAP), which is \$2,529,672,000 above the fiscal year 2008 level and \$3,100,000,000 over the budget request. As a result, this bill does not include funding for LIHEAP.

REFUGEE AND ENTRANT ASSISTANCE

The bill includes \$633,442,000 for Refugee and Entrant Assistance programs, which is \$22,189,000 below the fiscal year 2008 level and \$5,398,000 above the budget request. With carryover funds, a total of \$685,493,000 will be available for these programs. In addition, the bill includes language providing for availability of funds through September 30, 2011 to reimburse the costs of services for all programs within the jurisdiction of the Office of Refugee Resettlement (ORR).

ORR is requested to provide adequate funding under Transitional and Medical Assistance to unaccompanied refugee minor programs for capacity development so that they have the necessary infrastructure to accommodate increasing numbers of unaccompanied and separated refugee children.

Within the funds provided for Social Services, the bill includes \$19,000,000 for continued support to communities with large concentrations of Cuban and Haitian entrants of varying ages whose cultural differences make assimilation especially difficult, justifying a more intense level and longer duration of Federal assistance.

The Administration on Children and Families (ACF) is requested to continue to adequately fund refugee school impact grants.

In conjunction with the Office of Management and Budget (OMB) and the Department of Homeland Security (DHS), the Department of Health and Human Services (HHS) is directed to submit a report to the House and Senate Committees on Appropriations (Committees) no later than March 1, 2009, recommending which agency is the most appropriate to fund the transportation of unaccompanied alien children (UAC) between DHS and HHS custody. This joint report shall focus on which agency can deliver these services in the most cost effective manner. In addition, starting no later than September 1, 2009, the ORR, in conjunction with Immigration and Customs Enforcement, should provide semi-annual briefings to the Committees on the implementation of the recommendations. For fiscal year 2009, the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009, provides sufficient resources to DHS to pay for this transportation function.

With regard to the UAC program, ORR is directed to respond to the DHS initial call for placement by identifying the ORR placement facility to DHS within six hours, on average, of receiving the DHS call. In addition, ORR shall continue to work with DHS to expedite the transfer and placement of these special needs children in the most appropriate facility as quickly as possible.

Within funds for the UAC program, \$5,050,000 is provided to continue the pro bono legal services initiative to ensure legal representation of all UAC. These funds should be used to train attorneys to detect abuse, mistreatment, labor exploitation, and trafficking of these children. In addition, a portion of these funds should be used to train attorneys in methods that will ensure the appearance of children at all immigration court hearings. ORR is expected to use part of these funds to assess the overall impact of the pro bono legal services initiative, including the number and proportion of UAC provided pro bono legal representation.

The bill includes \$9,050,000 more than the budget request for the UAC program to ensure that sufficient funds are available for UAC medical and transportation services.

PAYMENTS TO STATES FOR THE CHILD CARE AND DEVELOPMENT BLOCK GRANT

The bill includes \$2,127,081,000 for the Child Care and Development Block Grant, which is \$65,000,000 above the fiscal year 2008 level and the budget request. The bill designates \$18,960,000 for child care resource and referral and school-aged child care activities, \$1,000,000 for the Child Care Aware toll-free hotline, \$271,401,000 for an additional amount for activities authorized under section 658G, including \$99,534,000 to improve the quality of infant and toddler care, and \$9,910,000 for child care research, demonstration, and evaluation activities.

SOCIAL SERVICES BLOCK GRANT

The bill includes \$1,700,000,000 for the Social Services Block Grant, which is the same as the fiscal year 2008 level. The amended budget request did not include any funds for this program.

CHILDREN AND FAMILIES SERVICES PROGRAMS

The bill includes \$9,301,111,000 for Children and Families Services Programs. This amount is \$330,620,000 above the fiscal year 2008 level and \$807,901,000 above the budget request. In addition, \$10,217,000 is provided through the evaluation set-aside.

The bill provides \$7,112,786,000 for Head Start activities, which is a program level increase of \$234,810,000 above the fiscal year 2008 level. Within the total, the bill designates \$2,000,000 for centers of excellence in early childhood education authorized by section 657B of the Improving Head Start for School Readiness Act, 2007. The ACF Head Start Bureau shall continue to provide the House and Senate Committees on Appropriations (Committees) with the number and cost of buses purchased, by region, with Head Start funds in the annual Congressional budget justifications. In addition, ACF is requested to report to the Committees on fiscal year 2009 funding allocations to Migrant and Seasonal and Indian Head Start and provide a briefing to the Committees within 30 days of the release of the study on these targeted populations required under the Head Start Act.

Within the amount provided in the bill for Child Abuse Discretionary Activities, \$13,500,000 is provided to expand the home visitation initiative. These funds shall support continuing and new competitive grants to States to encourage investment of existing funding streams into evidence-based home visitation models that have been shown to improve the health, well-being, and self-sufficiency of low-income, first-time parents and their children. As in fiscal year 2008, ACF shall ensure that these funds support models that have been shown in well-designed, randomized controlled trials to produce sizeable, sustained effects on important child outcomes such as reductions in abuse and neglect. Funds shall support activities to assist a range of home visitation programs to replicate the techniques that have met these high evidentiary standards. In carrying out this initiative, ACF is instructed to adhere closely to evidence-based models of home visitation. ACF shall not incorporate any additional initiatives that have not met these high evidentiary standards or might otherwise dilute the emphasis on home visitation.

The bill also includes \$500,000 within Child Abuse Discretionary Activities for a feasibility study on the creation, development, and maintenance of a national child abuse and neglect offender registry.

Within the \$16,910,000 included in the bill, \$2,412,000 shall be used for the following projects in the following amounts:

Project	Amount
Addison County Parent/Child Center, Middlebury, Vermont, to support and expand parental education activities.....	238,000
Anchorage's Promise, Anchorage, AK, for a child mentoring and support program.....	109,000
Athens-Limestone County, Athens, AL for its children's advocacy center.....	48,000
Catholic Community Services, Juneau, AK, to implement child abuse delivery programs in Southeast Alaska.....	381,000
County of Contra Costa, Martinez, CA for an initiative for children and adolescents exposed to domestic violence.....	428,000
Crisis Shelter of Lawrence County, New Castle, PA, for abuse victim services.....	95,000
Family and Children Services Division of Clark County Department of Job and Family Services, Springfield, OH for training, support and program management for child and adolescent trauma issues	95,000
Family Resource Center, St. Louis, MO for its Child Abuse Reduction Pilot Program.....	285,000
Jeffrey Foundation, Los Angeles, CA for child care food and other services for special needs children.....	105,000
Olive Crest, Las Vegas, NV for the Strong Families, Safe Kids program.....	190,000
Women's Center of San Joaquin County, Stockton, CA for children's advocacy, crisis intervention, counseling, and other services for children who are victims of sexual assault.....	238,000
Young Women's Resource Center, Des Moines, IA for a child sexual abuse prevention training program.....	200,000

February 23, 2009

CONGRESSIONAL RECORD—HOUSE, Vol. 155, Pt. 4

5003

For Adoption Awareness, the bill provides \$12,953,000, of which \$10,058,000 is for the Infant Adoption Awareness Training Program

and \$2,895,000 is for the Special Needs Adoption Campaign.

Within the \$16,910,000 included in the bill, \$14,498,000 shall be used for the following projects in the following amounts:

Project	Amount
180 Turning Lives Around, Inc., Hazlet, NJ for its child and teen violence reduction and treatment project.....	238,000
A+ For Abstinence, Waynesboro, PA, for abstinence education and related services	24,000
AAAdvantage Foundation, Inc., North Strabane, PA to improve support services for the disabled.....	95,000
Action for Bridgeport Community Development, Inc., Bridgeport, CT for the Total Learning Program.....	190,000
Agudath Israel of America, Community Services, Inc., for a mentoring program for at-risk youth and children of prisoners.....	190,000
Asian Americans for Community Involvement, San Jose, CA for operating expenses for a domestic violence shelter.....	309,000
Borromeo Housing, Inc., Arlington, VA for its Elizabeth House Program to serve homeless adolescent mothers and their infants.....	143,000
Burdman Group, Inc., Youngstown, OH for its Sojourner House domestic violence services program.....	95,000
Catholic Social Services, Wilkes Barre, PA, for abstinence education and related services	24,000
Cherokee County Commission, Centre, AL for social service and family support programs.....	95,000
Child Center of New York, Woodside, NY for early childhood education and intervention services for children and their families.....	95,000
Child Guidance Resource Center, Havertown, PA for services for autistic children.....	57,000
Children's Rehabilitation Center, Warren, OH for an initiative to implement a multi-disciplinary approach to providing services for families of children with disabilities.....	124,000
Children's Services Council of Palm Beach County, Boynton Beach, FL for evaluation and implementation of a nurse family partnership home visitation program.....	95,000
City of Chester, Bureau of Health, Chester, PA, for abstinence education and related services	24,000
City of Ft. Worth, TX for the Early Childhood Matters Initiative.....	285,000
City of Los Angeles, CA for its Young Women from Adversity to Resiliency Program.....	285,000
City of Norwich, New London, CT for services to pregnant and parenting adolescents and their families.....	81,000
Connecticut Council of Family Service Agencies, Wethersfield, CT, for the Empowering People for Success welfare-to-work initiative.....	381,000
County of Monterey Probation Department, Salinas, CA for its Silver Star Gang Prevention and Intervention Program.....	1,427,000
County of Solano, Fairfield, CA for an initiative to provide doula and/or parenting coaches for low-income pregnant, postpartum and parenting women.....	119,000
Creative Visions in Des Moines, IA, for a family unification project for incarcerated individuals.....	143,000
Crozer Chester Medical Center, Upland, PA, for abstinence education and related services	24,000
Crystal Stairs, Inc., Los Angeles, CA for its Special Needs Advisory Project to increase early childhood care and education opportunities for children with special needs.....	95,000
Deschutes County Family Access Network, Bend, OR, for social service programs.....	238,000
Desormeaux Foundation, Lafayette, LA, for an expectant mother education and aid program.....	95,000

Project	Amount
Diaper Bank, New Haven, CT for services to at-risk children in childcare centers.....	133,000
Dickinson Mental Health Center, Ridgway, PA to develop programming for children diagnosed with autism.....	119,000
Elijah's Promise, New Brunswick, NJ, for the Healthy Kitchens- Healthy Lives program.....	48,000
Family Services and Childrens Aid Society, Oil City, PA, for abstinence education and related services	24,000
Family, Inc., Council Bluffs, IA, for the FAMILY program.....	333,000
First 5 Alameda County, San Leandro, CA for its children's screening, assessment, referral, and treatment initiative.....	476,000
Guidance Center, Ridgeway, PA, for abstinence education and related services	24,000
Horizons for Homeless Children, Lawrence, MA for programs for homeless children.....	95,000
Horizons for Homeless Children, Roxbury, MA, for continued development of programs designed to support homeless children.....	143,000
Humility of Mary Health Partners, Youngstown, OH for a teen parent program.....	285,000
Iowans for Social and Economic Development, Des Moines, IA, for a Comprehensive Asset Development Project.....	190,000
Jordan New Life Hub, Minneapolis, MN for life skills training, mentoring, case management, referral and other services for at-risk individuals and families.....	190,000
Katie Brown Educational Program, Barrington, RI for a youth relationship violence prevention initiative	95,000
Keystone Central School District, Mill Hall, PA, for abstinence education and related services	24,000
Keystone Economic Development Corporation, Johnstown, PA, for abstinence education and related services	24,000
Kids Oneida, Inc., Utica, NY for a community intervention plan to address child and youth abuse and neglect.....	48,000
LaSalle University, Philadelphia, PA, for abstinence education and related services	24,000
Local Initiatives Support Coalition Rhode Island, Providence, RI, for child care professional development and programmatic activities.....	190,000
Logan Community Resources, Inc., South Bend, IN for its Regional Autism Center.....	143,000
Louisiana Association of United Ways, New Orleans, LA, to expand the capacity of the Louisiana 2-1-1 system.....	381,000
Marcus Autism Center, Atlanta, GA for services for children and adolescents with developmental disabilities.....	95,000
Minot State University, Minot, ND for its Great Plains Autism Treatment Program to serve children with autism spectrum disorders.....	761,000
Missouri Bootheel Regional Consortium, Portageville, MO for the Fatherhood First program.....	476,000
My Choice, Inc., Athens, PA, for abstinence education and related services	24,000
Nassau County Coalition Against Domestic Violence, Inc., Hempstead, NY, to provide legal services to low-income victims of domestic violence.....	381,000
National Energy Assistance Directors' Association, Washington, DC for research and information dissemination related to the Low-Income Home Energy Assistance Program	190,000

Project	Amount
Neighborhood United Against Drugs, Philadelphia, PA, for abstinence education and related services	24,000
New Brighton School District, Brighton, PA, for abstinence education and related services	24,000
Nueva Esperanza, Philadelphia, PA, for abstinence education and related services	24,000
Ohio United Way, Columbus, OH, to expand the capacity of the 2-1-1 system.....	381,000
One Family, Inc., Boston, MA, for continued development of programs to designed to end family homelessness.....	238,000
Progressive Believers Ministries, Glenside, PA, for abstinence education and related services	24,000
Providence House, Shreveport, LA to provide outcomes-based child care services to homeless pre-school children.....	247,000
School District of Philadelphia, PA, for abstinence education and related services	24,000
Shepherd's Maternity House, Inc., East Stroudsburg, PA, for abstinence education and related services	24,000
Sheriffs Youth Programs of Minnesota, Inver Grove Heights, MN for services for foster children and families and for professional development for staff	200,000
Simpson College, Indianola, IA, for Urban Studies Institute.....	190,000
SingleStop USA, New York, NY for a project in San Francisco, CA to improve the access of low-income households to services.....	190,000
Southern Penobscot Regional Program for Children with Exceptionalities, Bangor, ME, for services for families with autistic children.....	190,000
Space Coast Early Intervention Center, Melbourne, FL for afterschool childcare programs for children with disabilities.....	428,000
St. Mary's Home for Children, North Providence, RI for services for abused children.....	190,000
Starr Commonwealth, Detroit, MI for its Structured Therapeutic Living Program for developmentally disabled and at-risk youth and young adults.....	95,000
Survivors of Torture, International, San Diego, CA for medical, dental, psychological, and social services to victims of torture.....	95,000
Susanna Wesley Family Learning Center, East Prairie, MO for programs to assist at-risk youth and their families.....	238,000
Tender Care Pregnancy Center, Inc., Hanover, PA, for abstinence education and related services	24,000
The Jimmie Hale Mission, Birmingham, AL, for services for homeless families.....	95,000
TLC for Children and Families, Inc, Olathe, KS, for a transitional living program for at-risk youth.....	190,000
Tuscarora Intermediate Unit, McVeytown, PA, for abstinence education and related services	24,000
United Way of the Capital Area, Jackson, MS, for 2-1-1 Mississippi for social services programs.....	238,000
University of Central Missouri, Warrensburg, MO for its Midwest Clinic for Autism Spectrum Disorders.....	285,000
University of Toledo, OH for its Center for Excellence in Autism for autism spectrum disorder service programs.....	476,000
Urban Family Council, Philadelphia, PA, for abstinence education and related services	24,000

Project	Amount
Washington Hospital Teen Outreach, Washington, PA, for abstinence education and related services	24,000
Watts Labor Community Action Committee, Los Angeles, CA for its Reading As Enablement to Reclaim Ourselves project to provide literacy, mentoring, and other services to individuals in shelters	95,000
Women's Care Center of Erie County, Inc., Erie, PA, for abstinence education and related services	24,000
York County Human Life Services, York, PA, for abstinence education and related services	24,000
Zuni Tribe, Zuni, NM, for a program to assist foster children.....	262,000

Within the amount for Projects of National Significance, the bill provides \$2,000,000 for the purposes of providing and promoting leadership training by and for families with children with disabilities, as described in section 202(b)(2) of the Families of Children with Disabilities Support Act of 2000. Such training shall be designed to increase access to and availability of family support services and must address policy development, implementation and evaluation of family support services for families with children with disabilities. To maximize the sustainability of the outcomes of the leadership training supported by these funds, the Secretary shall distribute these funds as competitive grants to one or more national non-profit organizations with demonstrated capacity at the State and local level to foster and provide direct services to families with children with disabilities.

The bill provides a \$1,000,000 increase over the fiscal year 2008 level for the University Centers for Excellence in Developmental Disabilities, which may be used to provide a cost-of-living adjustment to existing centers and to establish new grants to work through partnerships with minority-serving institutions. These new grants, if awarded, will focus research, training and services on minority populations with disabilities.

The bill provides a \$1,500,000 increase over the fiscal year 2008 level for activities authorized under section 803C(b)(7)(A)-(C) of the Native American Programs Act (as added by the Esther Martinez Native American Languages Preservation Act of 2006).

With regard to the Community Services Block Grant (CSBG), ACF is directed to allocate \$500,000 of CSBG training and technical assistance funds for a national community economic development training and capacity development initiative. Successful implementation of community development programs requires significant investment in high-quality board and staff training and proven technical assistance. This funding will enable community action agency leaders to attain the professional skills needed to undertake projects to enhance their communities' future security through financing and implementing innovative housing, economic and community development partnerships.

The bill includes language clarifying Congressional intent regarding disposition of intangible assets—including loans and investments—acquired under the community economic development authority of the CSBG Act. The bill continues the policy in place since 1999 that establishes a regulatory period of up to 12 years after the end of the grant period. During that period, as the grantee receives repayments or program income from these loans or investments, the grantee is permitted to recycle these funds into other similar projects. After that time, the intangible assets and program income become the property of the grantee provided they are used in a manner consistent with the intent of the authorizing statute. The bill clarifies that recycled and repaid loan or investment funds or program income may be used in any low-income community for any eligible purpose under the law and is not restricted to the original target area, financing, or type of project for which the grantee was originally funded. The language applies not only to new grantees but also to grantees for whom the post-grant period has reached a point at which the disposition of intangible assets must be made.

Funds provided in the bill for the Rural Community Facilities program shall be used solely for the purpose of improving water and wastewater facilities in poor, rural communities. As in the past, these funds should be allocated to regional rural community assistance programs.

The ACF Office of Community Services is expected to remedy during fiscal year 2009 a failure (1) to report on progress made in remedying oversight deficiencies identified by the Government Accountability Office and (2) to comply with a fiscal year 2005 Congressional directive to implement a training and technical assistance needs assessment and delivery plan in consultation with CSBG State and local eligible entities.

The bill provides funds for Abstinence Education as defined in section 510(b)(2) of the Social Security Act and includes language precluding grantees who receive abstinence education funding from discussing with adolescents any other education regarding sexual conduct in the same setting as abstinence education. It also requires that information provided through abstinence education grants shall be scientifically accurate and comply with section 317P(c)(2) of the Public Health Service Act.

Further, the bill provides that up to \$10,000,000 may be used to carry out a national abstinence education campaign and \$4,455,000 shall be available from section 241 Public Health Service Act evaluation funds to carry out evaluations of adolescent pregnancy prevention approaches. Finally, up to 5 percent of funds may be set aside for technical assistance and capacity-building, which shall be used to ensure that programs are using evidence-based curricula that comply with statutory requirements.

Within Program Administration, the bill includes \$1,500,000 for the National Commission on Children and Disasters. The funds included in this bill may be used for personnel, travel, and any other necessary expenses of the Commission. The Commission is expected to build on the evaluations of other entities and avoid unnecessary duplication, by reviewing the findings, conclusions, and recommendations of various commissions, Federal, State, and local governments, and nongovernmental entities as to the needs of children as they relate to preparation for, response to, and recovery from all hazards, including major disasters and emergencies. ACF is requested to submit a report to the House and Senate Committees on Appropriations on the progress of the Commission within one year of its initial meeting. While Departmental funds will support the operations of the Commission, the Commission is expected to operate independently in order to provide unbiased recommendations to the President and the Congress.

PROMOTING SAFE AND STABLE FAMILIES

The bill includes \$345,000,000 in mandatory funds for the Promoting Safe and Stable Families program, which is the same as the fiscal year 2008 level and the budget request. The bill includes \$63,311,000 in discretionary funds for this program, which is the same as the fiscal year 2008 level and the budget request.

PAYMENTS TO STATES FOR FOSTER CARE AND ADOPTION ASSISTANCE

The bill includes \$5,050,000,000 for Payments to States for Foster Care and Adoption Assistance, which is \$17,000,000 below

the fiscal year 2008 level and \$46,000,000 below the budget request. The amount provided varies from the President's request because of the enactment of the Fostering Connections to Success and Improving Adoptions Act of 2008 and reflects updated estimates provided by the Department.

ADMINISTRATION ON AGING

AGING SERVICES PROGRAMS

The bill includes \$1,491,343,000 for Aging Services Programs, which is \$77,908,000 above the fiscal year 2008 funding level and \$109,959,000 above the budget request.

Protection of Vulnerable Older Americans

Within the total of \$21,383,000 provided for the Protection of Vulnerable Older Americans, \$16,327,000 is for the Long-term Care Ombudsman Program and \$5,056,000 is for the Prevention of Elder Abuse, Neglect, and Exploitation Program.

Program Innovations

The bill includes \$18,172,000 for Program Innovations, which is \$3,517,000 more than the fiscal year 2008 funding level and \$14,746,000 less than the budget request. The Administration on Aging (AoA) is directed to include in the fiscal year 2010 and all future budget justifications a table of Program Innovations funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years.

Within the total for Program Innovations, funding is provided at no less than the fiscal year 2008 levels for national programs scheduled to be refunded in fiscal year 2009. Within these funds, the bill includes \$2,000,000 for the Senior Legal Hotlines/Helplines, which will provide an increase in the number of States in which these services are available for older Americans. The bill also includes \$1,000,000 to continue a 24-hour call center to provide Alzheimer's family caregivers with professional care consultation and crisis intervention.

In addition, within Program Innovations the bill includes \$5,000,000 for the Community Innovations for Aging in Place program, created by the Older Americans Act reauthorization in 2006. This funding will provide grants to community-based organizations to coordinate and deliver services to elderly residents living in naturally occurring retirement communities and other model aging in place initiatives. AoA is encouraged to ensure that these initiatives are coordinated with existing programming included in the Older Americans Act, including Aging and Disability Resource Centers, Nursing Home Diversion, and Evidence-Based Prevention activities.

AoA has worked to further civic engagement among older Americans, particularly through a Memorandum of Understanding with the Corporation for National and Community Service. AoA is urged to continue to advance the field of civic engagement, as authorized under section 417 of the Older Americans Act, by entering into additional partnerships with organizations that offer innovative and proven programs to enable older Americans to effectively meet critical social needs.

The bill includes \$5,123,000 for the following projects in the following amounts:

Project	Amount
Aging in NY Fund, Inc./NYC Department for the Aging for an Alzheimer's disease social research project.....	285,000
Alzheimer's Association, California Southland Chapter, Los Angeles, CA for an Alzheimer's disease demonstration program.....	190,000
Cedar Crest College, Allentown, PA, for a seniors outreach program.....	95,000
County of Multnomah, Portland, OR for the Multnomah County Gatekeeper Project.....	48,000
Intergenerational Resource Center, Inc., Atlanta, GA for a community-based health and social services demonstration program.....	57,000
Jewish Family & Child Service, Portland, OR, for senior programs and services.....	95,000
Jewish Family and Children, Waltham, MA for a naturally occurring retirement community program.....	95,000
Jewish Family and Children's Services of Greater Mercer County, Princeton, NJ for a naturally occurring retirement community program.....	190,000
Jewish Family Service of Greater New Orleans, Metairie, LA, for a Community Nursing Elder Trauma Response Program demonstration project.....	238,000
Jewish Family Service of St. Paul, MN for a naturally occurring retirement community program.....	238,000
Jewish Federation of Broward County, Davie, FL for a family caregivers support demonstration program.....	167,000
Jewish Federation of Greater Atlanta, Atlanta, GA, for a Naturally Occurring Retirement Community.....	95,000
Jewish Federation of Greater Indianapolis, Indianapolis, IN for a naturally occurring retirement community program.....	438,000
Jewish Federation of Metropolitan Detroit, Bloomfield Hills, MI for the Family Caregiver Access Network project.....	238,000
Legal Services of Northern California, Inc., Sacramento, CA, to provide free legal consultation for older Californians.....	238,000
Miami Jewish Home and Hospital Hialeah PACE Center, Miami, FL for an independent living demonstration for the elderly.....	476,000
Nevada Rural Counties RSVP, Carson City, NV, to provide home services to seniors in rural areas.....	95,000
Rebuilding Together, Incorporated, Washington, DC for an elder fall prevention demonstration program.....	285,000
SOWEGA Council on Aging, Inc., Albany, GA for a demonstration program.....	95,000
St. Barnabas Senior Services, Los Angeles, CA for a fall risk prevention demonstration program.....	133,000
St. Clair County Office on Aging, Belleville, IL for a senior wellness center demonstration program.....	143,000
Stetson University College of Law, Gulfport, FL for a demonstration program to educate seniors on economic issues.....	95,000
Town of North Hempstead, NY, for the Project Independence naturally occurring retirement communities demonstration project.....	333,000
Town of Yorktown, NY for an elder health demonstration program.....	333,000
University of Wisconsin-Oshkosh, Oshkosh, WI, for a demonstration training program that prevents elder abuse and neglect.....	333,000
Utah Department of Human Services, Division of Aging and Adult Services, Salt Lake City, UT, for senior counseling services on Medicare, Medicaid and private insurance options.....	95,000

Aging Network Support Activities

The bill recommends \$41,694,000 for Aging Network Support Activities, which is \$10,105,000 more than the fiscal year 2008 funding level and \$28,561,000 more than the budget request. AoA is directed to include in the fiscal year 2010 and all future budget justifications a table of Aging Network Support Activities funding broken down by account, program, and activity, which includes actual funding or estimates for the previous, current, and future fiscal years. Within the funds provided, the bill includes \$1,719,000 for the Pension Counseling and Information Program, to increase training and technical support for the counseling projects and to maintain the number of regional counseling projects at six.

The bill also includes \$28,000,000 to continue national implementation of the Choices for Independence program. Funding is provided for this program in Aging Network Support Activities, as reflected in the reauthorized Older Americans Act, and is intended to build on national implementation activities already in place. In contrast, the Administration requested these funds within the Program Innovations account and limited this program to narrow trials in only a few States. The Choices for Independence program seeks to establish long-term care options for seniors so they can live independently in their own communities. The program will continue and expand existing AoA programs that focus on Nursing Home Diversion, Aging and Disability Resource Centers and Evidence-Based Disease Prevention activities. In implementing these activities, AoA is encouraged to continue its close partnership efforts with the Centers for Medicare and Medicaid Services, the National Insti-

tute on Aging, the Centers for Disease Control and Prevention, and other agencies.

AoA shall report to the Committees on Appropriations of the House of Representatives and the Senate by no later than March 1, 2009 on the establishment of national standards that will be used to evaluate the Choices for Independence Program, including the performance measures and indicators States must use to track and report on the outputs and outcomes they achieve. AoA should include in future Congressional budget submissions, the number of people served by these programs, funding breakdowns for each component of the program, and on the progress States are making in implementing these activities.

The bill does not provide funding for the National Center on Senior Benefits Outreach and Enrollment. Section 119 of P.L. 110-275, the Medicare Improvements for Patients and Providers Act of 2008 provided \$17,500,000 to the AoA for Medicare enrollment assistance, including \$5,000,000 specifically to inform seniors about benefits available under existing Federal and State programs. Bill language has been included to allow the AoA to administer these funds.

OFFICE OF THE SECRETARY GENERAL DEPARTMENTAL MANAGEMENT (INCLUDING TRANSFER OF FUNDS)

The bill includes \$395,776,000 for General Departmental Management, including \$5,851,000 from Medicare trust funds. This total is \$41,762,000 above the fiscal year 2008 level and \$15,912,000 above the budget request. In addition, \$46,756,000 in program evaluation funding is provided. The bill also provides that \$1,000,000 shall be transferred, not later than 30 days after enactment of this Act, to the National Institute of Mental

Health to administer the Interagency Autism Coordinating Committee (IACC), which will support the IACC's work authorized under the Combating Autism Act of 2006.

Office of the Secretary

The bill includes sufficient funds to continue the Area and National Poverty Centers at no less than the fiscal year 2008 level.

The Department of Health and Human Services (HHS) is expected to maintain support for the U.S.-Mexico Border Health Commission at the same level as in fiscal year 2008.

The HHS Secretary is directed to provide a detailed inventory of the Department's greenhouse gas emissions and a plan to reduce these emissions by December 31, 2009 to the Committees on Appropriations of the House of Representatives and the Senate.

According to the Centers for Disease Control and Prevention (CDC), healthcare-associated infections (HAIs) are one of the top ten leading causes of death in the United States, accounting for an estimated 99,000 associated deaths and \$20 billion in excess healthcare costs annually. HAIs are largely preventable. HHS is commended for its work in developing a national action plan with five year targets for reducing HAIs. The Department is directed to continue the HHS Steering Committee for the Prevention of HAIs, and associated workgroups, that it has established to coordinate prevention and implementation, research, information systems and technology, compliance and oversight, and public and provider outreach activities across the operating divisions of the Department.

To accelerate progress on preventing HAIs and to begin implementation of the national action plan, the bill includes nearly

\$22,000,000 in additional funding over the fiscal year 2008 funding level for HAI-related initiatives within the Department. These increases include \$5,000,000 within the Office of the Secretary, \$7,500,000 within CDC and \$9,304,000 within the Agency for Healthcare Research and Quality (AHRQ). The Office of the Secretary shall use the additional \$5,000,000 to develop and implement a national campaign to empower consumers to be active participants in preventing HAIs; perform a comprehensive inventory of HAI data and databases; enhance prevention, surveillance, and research activities; improve integration of data across HHS systems; expand measures in CMS' Hospital Compare and improve regulatory oversight of hospitals and the hospital accreditation program; provide management support to the HHS Steering Committee for the Prevention of HAIs; and conduct other priority activities related to reducing HAIs. A description of how the funds provided to CDC and AHRQ shall be used is included in the explanatory statement under those operating divisions.

To ensure that greater attention to this problem also occurs at the State level, the bill includes language within CDC requiring States to certify to the HHS Secretary that they will submit plans for reducing HAIs by January 1, 2010 to be eligible to receive a full allotment in this Act under the Preventive Health and Health Services Block Grant. The bill also directs HHS to conduct a review of these State plans and report to the Committees on Appropriations of the House of Representatives and the Senate not later than June 1, 2010 regarding the adequacy of such plans for achieving State and national goals for reducing HAIs.

It is noted that although 27 years have passed since HIV/AIDS was first identified in the U.S., there has never been a national plan to guide the coordination of prevention, care, and treatment programs. Further, the U.S. currently requires foreign countries receiving assistance to combat HIV/AIDS to develop and implement a single coordinated national AIDS strategy. HHS is encouraged to develop and implement a single national AIDS strategy to promote coordination among Federal agencies and State and local

governments, set clear goals and benchmarks, and provide a basis for ensuring accountability.

Approximately 36 States have prescription drug repository programs, also known as prescription drug redistribution programs. These programs, often volunteer-driven, may save the health care system millions of dollars every year by allowing unused, unopened medications to be re-dispensed to patients who meet certain need-based criteria. Due to the potential for substantial savings that these programs have shown, HHS is directed to conduct a study of State drug repository programs, with recommendations for how the Federal government can assist States in implementing and expanding these programs. This study also should include an estimate of potential cost savings and identify best practices, including ways to maintain patient safety. HHS shall submit this report to the House and Senate Committees on Appropriations no later than January 1, 2010.

Due to the growing demand for, and lack of well-trained, social workers to serve a variety of needs for individuals, families, and communities throughout the nation, HHS is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within one year of enactment of this Act. This report shall analyze current workforce trends and gaps in incentives, and provide recommendations for the recruitment and retention of professional social workers.

The bill includes \$1,000,000 for the Inter-agency Working Group on Youth Programs, chaired by HHS. These funds shall be used to solicit input from young people, State children's cabinet directors, and non-profit organizations on youth programs and policies; develop an overarching strategic plan for Federal youth policy; and prepare recommendations to improve the coordination, effectiveness, and efficiency of programs affecting youth.

The bill provides \$7,000,000 for a Health Diplomacy Initiative in the Department of Health and Human Services. This health initiative will focus on training health care workers and providing other services in, but

not limited to, Central and South America. This health diplomacy initiative will help control diseases such as HIV/AIDS, tuberculosis, and malaria by giving local residents the training they need to provide basic health care in Latin America and other underserved communities.

Trauma is the most important cause of morbidity and mortality among children and adolescents, accounting for nearly 16,000 deaths, 250,000 hospital admissions and 9 million emergency department visits annually. While the goal is to deliver optimal care to injured children so that they attain the best possible outcomes after serious trauma, many questions about what constitutes optimal care remain unanswered. This gives rise to the tremendous variations in care and settings we see today. The HHS Secretary is directed to conduct a national prospective study on the variation in trauma care for children and adolescents in order to understand how the organization and processes of treatment affect outcomes and submit a report to the Committees on Appropriations of the House of Representatives and the Senate within six months of enactment of this Act that outlines how the Secretary will conduct this study.

The Assistant Secretary of Planning and Evaluation (ASPE) shall review the fiscal year 2008 awards under the home visitation initiative administered by the Administration for Children and Families and shall assess, in consultation with the Office of Management and Budget and independent experts if necessary, whether these awards met the evidentiary standards for this initiative specified in the explanatory statement for the Consolidated Appropriations Act, 2008. In addition, ASPE shall review any request for proposals for fiscal year 2009 awards for adherence to the evidentiary standards in this explanatory statement. ASPE shall report its findings to the Committees on Appropriations of the House of Representatives and the Senate by September 30, 2009.

The bill includes \$2,854,000 for the following projects in the following amounts:

Project	Amount
Black Health Care Coalition, Kansas City, MO for its Improving Community Cardiovascular Health Project.....	95,000
City of Detroit, MI for its Health Disparities Reduction Project for Women and Children.....	381,000
Commonwealth of Massachusetts Department of Public Health, Boston, MA, for the continued development of a program to reduce health disparities and infant mortality.....	238,000
Community Transportation Association of America, Washington, DC, for technical assistance to human services transportation providers on ADA requirements.....	714,000
Dillard University, New Orleans, LA for its Gentilly Center for Health Disparities and Disease Prevention.....	309,000
Family Health and Birth Center, Washington, DC for its Developing Families Center Initiative.....	285,000
St. Augustine's College, Raleigh, NC for its St. Agnes Health Disparities Institute.....	285,000
Toledo Community Foundation, Toledo, OH for its Pathways Outcome Production Model initiative to improve birth outcomes for at-risk women.....	71,000
Voorhees College, Denmark, SC for a colonoscopy screening program for minority populations.....	381,000
Windham Hospital Foundation, Willimantic, CT for prenatal and case management services to low-income women	95,000

Lifespan respite care

The bill includes new funding of \$2,500,000 for the Lifespan Respite Care Act. These funds will be used to support coordinated systems of community-based respite care services for family caregivers of children and adults with special needs.

Office of Minority Health (OMH)

The bill includes \$5,283,000 for the effort to address health disparities issues in the gulf coast region.

The bill includes \$1,000,000 for the OMH, in conjunction with the Surgeon General and the Office of Women's Health, to conduct a national health provider education program to improve lupus diagnosis and treatment and reduce health disparities. OMH is encouraged to involve a wide array of public health, community, academic, medical, and industry organizations, including those working to improve medical curricula. OMH shall provide a report by May 1, 2009 on lupus, associated health disparities, and impact of the disease on the population to the Committees on Appropriations of the House of Representatives and the Senate.

Office of Women's Health (OWH)

The bill includes \$1,500,000 to expand the OWH violence against women prevention initiative. The additional funds above the budget request shall be used to enhance health care providers' understanding of domestic and dating violence, and to develop a coordinated public health response regarding the domestic violence issues.

The bill includes \$1,000,000 to continue the national lupus education campaign, in conjunction with the OMH and the Surgeon General, directed toward the general public and health professionals who diagnose and treat people with lupus.

Minority HIV/AIDS

The Office of the Secretary is expected to support activities that are targeted to address the growing HIV/AIDS epidemic and its disproportionate impact upon communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders, at no less than last year's funding level.

Embryo donation and adoption

Increasing public awareness of embryo donation and adoption remains an important goal. The bill provides \$4,200,000 for HHS's embryo donation and adoption awareness activities. The costs associated with embryo adoption may be hindering people from participating in embryo adoption. The medical procedures involved can be expensive and are not always successful. To address those challenges, the bill includes language allowing funds appropriated for embryo donation and adoption activities to be available to pay medical and administrative costs deemed necessary to facilitate embryo donations and adoptions. It is intended that funds in the bill be used for embryo donation for family building and/or embryo adoption and that eligibility not be limited based on the terminology used to describe the transfer of the embryo.

OFFICE OF MEDICARE HEARINGS AND APPEALS

The bill includes \$64,604,000 for the Office of Medicare Hearings and Appeals, which is \$740,000 above the fiscal year 2008 level and \$740,000 below the budget request.

OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The bill includes \$61,231,000 for this activity, of which \$43,552,000 is provided in budget authority and \$17,679,000 is made available

through the Public Health Service program evaluation tap. This level is \$670,000 above the fiscal year 2008 level and \$4,920,000 below the budget request.

OFFICE OF INSPECTOR GENERAL (OIG)

The bill includes \$45,279,000 for the Office of Inspector General, which is \$2,048,000 above the fiscal year 2008 level and \$779,000 below the budget request. Bill language is included requiring that at least forty percent of the funds provided be used only for investigations, audits, and evaluations pertaining to the discretionary programs funded in the Labor-HHS-Education Appropriations Act. The OIG should submit a report to the Committees on Appropriations of the House of Representatives and the Senate by March 1, 2009 describing the OIG workplan development process, the assessment of relative Federal risk in the discretionary programs funded in the Labor-HHS-Education Appropriations Act, and the process used to rank for action program requests from various executive and legislative branch offices. The OIG is directed to continue its investigation of contracting procedures at the Centers for Disease Control and Prevention and the agency's use of contract employees and report to the Committees on Appropriations of the House of Representatives and the Senate by June 1, 2009.

OFFICE FOR CIVIL RIGHTS

The bill includes \$40,099,000 for the Office for Civil Rights, of which \$3,314,000 is made available from the Federal Hospital Insurance Trust Fund and the Federal Supplementary Medical Insurance Trust Fund. This level is \$5,800,000 above the fiscal year 2008 level and the same as the budget request.

RETIREMENT PAY AND MEDICAL BENEFITS FOR COMMISSIONED OFFICERS

The bill includes \$434,694,000 for retirement pay and medical benefits for commissioned officers, which is \$37,516,000 above the fiscal year 2008 level and the same as the budget request.

*PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND**(INCLUDING TRANSFER OF FUNDS)*

The bill includes \$1,397,795,000 for the Public Health and Social Services Emergency Fund (PHSSEF), which is \$668,536,000 more than the fiscal year 2008 funding level and \$903,036,000 less than the budget request.

In order to accelerate progress in the procurement of medical countermeasures through Project BioShield and for pandemic influenza preparedness, the bill includes language transferring \$412,000,000 from the Project BioShield advance appropriations provided in the Department of Homeland Security Appropriations Act, 2004. Of this amount, \$275,000,000 is to fund the Biomedical Advanced Research and Development Authority (BARDA) and \$137,000,000 is for pandemic influenza preparedness and response activities.

Currently, there are large carryover balances in Project BioShield; approximately \$3,575,000,000 remains available in fiscal year 2009 from funds provided in fiscal year 2004. A significant reason for this carryover is that there are insufficient chemical, biological, radiological, or nuclear countermeasures ready for acquisition by Project BioShield into the Strategic National Stockpile. The funds provided in this bill are included to spur the development of these countermeasures from early discovery phases through the advanced clinical trials necessary for FDA approval. Without a greater investment in advanced research and devel-

opment of these countermeasures, Project BioShield will not succeed.

The Secretary of Health and Human Services is directed to provide the Committees on Appropriations of the House of Representatives and the Senate monthly reports updating the status of actions taken and funds obligated in this and previous appropriations bills for the Pandemic Influenza Preparedness activities; the Biomedical Advanced Research and Development Authority; and Project BioShield. These reports should be provided by no later than 15 days after the end of each month.

In addition, the Secretary of Health and Human Services, together with the Director of the Centers for Disease Control and Prevention, is directed to provide a report to the Committees on Appropriations of the House of Representatives and the Senate within 180 days of enactment of this Act on the Department's current supply chain management strategies. This report shall include information on how supply chain management strategies can be improved in order to enhance both State and local preparedness in a complex, multi-tiered response.

GENERAL PROVISIONS

Sec. 201. The bill continues a general provision limiting the amount available for official reception and representation expenses.

Sec. 202. The bill continues a general provision permitting the Secretary of Health and Human Services to make available not more than 60 Public Health Service employees to assist in child survival and AIDS programs funded by the U.S. Agency for International Development and other international organizations.

Sec. 203. The bill continues a general provision limiting the salary of grantees of the National Institutes of Health, the Substance Abuse and Mental Health Services Administration, and the Agency for Healthcare Research and Quality to not more than Executive Level I.

Sec. 204. The bill continues a general provision prohibiting the Secretary from using evaluation set-aside funding prior to the submission of a report of planned uses to the Committees on Appropriations of the House of Representatives and the Senate.

Sec. 205. The bill continues a general provision capping the permitted use of the evaluation set-aside at 2.4 percent of funds authorized under the Public Health Service Act.

(TRANSFER OF FUNDS)

Sec. 206. The bill continues a general provision providing the Secretary of Health and Human Services with the authority to transfer up to one percent of discretionary funds between a program, project, or activity, but no such program, project or activity shall be increased by more than three percent by any such transfer. This transfer is available only to meet emergency needs. The Committees on Appropriations of the House of Representatives and the Senate are to be notified 15 days in advance of any transfer.

(TRANSFER OF FUNDS)

Sec. 207. The bill continues a general provision to provide the Director of the National Institutes of Health, jointly with the Director of the Office of AIDS Research, the authority to transfer up to three percent of HIV/AIDS funds.

(TRANSFER OF FUNDS)

Sec. 208. The bill continues a general provision to make HIV/AIDS funds available to the Office of AIDS Research.

Sec. 209. The bill continues a general provision to encourage family participation in the

decision of minors to seek family planning services and counseling of minors on how to resist attempts to coerce them into engaging in sexual activities.

Sec. 210. The bill continues a general provision stating that no provider of family planning services shall be exempt from any State law requiring notification or reporting of child abuse or molestation.

Sec. 211. The bill continues a general provision related to the Medicare Advantage program.

Sec. 212. The bill continues a general provision to exempt States from Synar provisions if certain funding criteria are met.

Sec. 213. The bill continues a general provision allowing Department of Health and Human Services health activities abroad to be supported under State Department authorities.

Sec. 214. The bill continues a general provision giving the Director of the National Institutes of Health authority to conduct research to implement the Roadmap for Medical Research.

Sec. 215. The bill continues a general provision regarding Centers for Disease Control and Prevention Individual Learning Accounts.

Sec. 216. The bill continues a general provision extending the Council on Graduate Medical Education.

Sec. 217. The bill modifies a general provision requiring National Institutes of Health-funded authors to deposit final manuscripts in the National Library of Medicine's PubMed Central by making the provision permanent.

Sec. 218. The bill continues a general provision clarifying that National Institutes of Health (NIH) funds may be used for minor repairs or improvements to NIH buildings.

(TRANSFER OF FUNDS)

Sec. 219. The bill continues a general provision restoring the authority to transfer one percent of the amounts made available for National Institutes of Health National Research Service Awards to the Health Resources and Services Administration and the Agency for Healthcare Research and Quality.

Sec. 220. The bill includes a general provision making permanent a Department of Health and Human Services Nonrecurring Expenses Fund.

Sec. 221. The bill includes a general provision amending the Deficit Reduction Act of 2005 to include non-title X-funded family planning clinics and college health centers in the Medicaid drug rebate program.

Sec. 222. The bill includes a general provision raising the ceiling on the number of regular Commissioned Corps officers.

Sec. 223. The bill includes a general provision requiring the Secretary of Health and Human Services to issue an advanced notice of proposed rulemaking regarding conflicts of interest among extramural National Institutes of Health investigators.

Sec. 224. The bill includes a general provision naming hearing screening programs authorized under section 399M of the Public Health Service Act the "James T. Walsh Universal Newborn Hearing Screening Program" in recognition of the legislation's principal author and his commitment to ensuring the health and well-being of all children.

(RESCISSION OF FUNDS)

Sec. 225. The bill includes a rescission of \$21,500,000 of Demonstrations to Maintain Independence and Employment funding in the Centers for Medicare and Medicaid Serv-

ices. Out of a total of \$250,000,000 that was appropriated for the Demonstrations, over \$116,000,000 currently remains unobligated. States have until September 30, 2009 to use their grant funding before authority for the program terminates.

Sec. 226. The bill includes a technical correction to the language creating the Medicaid Improvement Fund in Public Law 110-252.

TITLE III—DEPARTMENT OF EDUCATION EDUCATION FOR THE DISADVANTAGED

The bill includes \$15,760,086,000 for the Education for the Disadvantaged account, which is \$270,611,000 above the fiscal year 2008 funding level. The bill provides \$4,918,910,000 in fiscal year 2009 and \$10,841,176,000 in fiscal year 2010 funding for this account.

The bill provides increased funding for Title I to support sustainable, locally determined activities. School districts are expected to spend a portion of the increase to continue supporting scientifically based reading instruction programs that have been proven effective.

The Department is directed to strengthen professional development partnerships for early childhood educators through grants awarded under Early Reading First.

IMPACT AID

The bill includes \$1,265,718,000 for the Impact Aid account, which is \$25,000,000 above the fiscal year 2008 funding level and the budget request.

SCHOOL IMPROVEMENT PROGRAMS

The bill includes \$5,362,016,000 for the School Improvement Programs account, which is \$72,939,000 above the fiscal year 2008 funding level and \$795,693,000 above the budget request. The bill provides \$3,680,575,000 in fiscal year 2009 and \$1,681,441,000 in fiscal year 2010 funding for this account.

Within the amount provided for Teacher Quality State Grants, \$5,000,000 shall be for a national initiative to recruit, train, and support results-oriented, highly motivated individuals to lead high-need schools with a focus on raising the achievement of all students and closing the achievement gap in these schools. The Department shall provide a grant to New Leaders for New Schools (NLNS) to build the organization's capacity to develop and deliver training for aspiring principals and support for principals; conduct research to create a national knowledge base to inform the recruitment, selection, and training of principals for high-need schools; and produce a report on rural school leadership based on existing research and available data from rural schools and systems. NLNS and its partners shall provide not less than a 150 percent match in cash or in-kind for the Federal funds provided under this heading. The match may consist of cash or in-kind offerings by private philanthropy or public sources, including funding allocated by partner State and school systems. In addition, up to \$7,500,000 shall be for the Secretary to use for teacher and principal quality initiatives designed to improve recruitment, training, mentoring, retention and placement, and transform education outcomes.

Within the \$1,131,166,000 provided for 21st Century Community Learning Centers, the Department shall encourage States to use 40 percent of their additional allocation over the fiscal year 2008 funding level to provide supervised and supportive after-school activities to middle and high school students.

Within the \$9,489,000 provided for Training and Advisory Services, \$2,500,000 is available

for competitive grants to school districts to arrange and pay for technical assistance in preparing, adopting, or modifying, and implementing student assignment plans in accordance with the parameters of recent Supreme Court decisions pertaining to school desegregation, which require a compelling governmental interest in avoiding racial isolation and the resulting re-segregation in the Nation's schools, and in facilitating student diversity. School districts shall utilize the grant funds to seek assistance and expertise from student assignment specialists, demographers, community relations specialists, facility and other planners, curriculum specialists and others in comparable school districts with relevant and successful experience, as well as specialists and consultants from academia, non-profit organizations, civil rights organizations, and the private sector. Further, the Department shall administer these grants in amounts not to exceed \$250,000 each, in a manner that reflects the particular needs and complexity of plans from differing communities, and allows for short-term or multi-year assistance as necessary.

The bill includes language that allows funds under the Education of Native Hawaiians program to be used for construction, renovation, and modernization of any elementary school, secondary school, or structure related to an elementary school or secondary school run by the Department of Education of the State of Hawaii that serves a predominantly Native Hawaiian student body. The bill also includes language which designates, within the amount provided for the Education of Native Hawaiians program, not less than \$1,500,000 to the Hawaii Department of Education for school construction/renovation activities, and \$1,500,000 for the University of Hawaii's Center of Excellence in Native Hawaiian Law.

The bill includes language that allows funds for the Alaska Native Educational Equity program to be used for construction.

INDIAN EDUCATION

The bill includes \$122,282,000 for the Indian Education account, which is \$2,718,000 above the fiscal year 2008 funding level and the budget request.

INNOVATION AND IMPROVEMENT

The bill includes \$996,425,000 for the Innovation and Improvement account, which is \$10,908,000 above the fiscal year 2008 funding level and \$128,908,000 above the budget request.

For the Advanced Credentialing program, the bill specifies \$10,649,000 for the National Board of Professional Teaching Standards (NBPTS), of which \$1,000,000 shall be available for NBPTS to develop a national board certification for elementary and secondary school principals.

The bill modifies language for the Charter Schools program to permit the Secretary of Education to use funds in excess of \$195,000,000 to carry out the State Facilities Incentive and Credit Enhancement for Charter Facilities programs.

Fund for the Improvement of Education (FIE)

The bill includes \$250,370,000 for the Fund for the Improvement of Education.

The bill includes funding for the following activities authorized under section 5411 of the Elementary and Secondary Education Act:

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Evaluation and data quality initiative	\$1,890,000	+\$98,848	— \$110,000
National Institute of Building Science for the National Clearinghouse for Educational Facilities	700,000	+12,229	+700,000
Reach Out and Read	4,965,000	+1,034,880	+4,965,000
Teach for America	14,895,000	+3,104,640	+14,895,000
Full Service Community Schools Demonstration	5,000,000	+87,350	+5,000,000

Within the total amount provided for FIE, the Elementary and Secondary Education Act in the following amounts: the bill also includes funding for separately authorized programs under title V, part D of

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Reading is Fundamental	\$24,803,000	+\$197,501	+\$24,803,000
Ready to Teach	10,700,000	— 629,752	+10,070,000
Education through Cultural and Historical Organizations	8,754,000	0	+8,754,000
Arts in Education	38,166,000	+633,354	+38,166,000
Parental Information and Resource Centers	39,254,000	+345,812	+39,254,000

Budget Activity	FY 2009 Bill	FY 2009 Bill compared to—	
		FY 2008	FY 2009 Budget Request
Excellence in Economic Education	1,447,000	— 267	+1,447,000
Mental Health Integration Grants	5,913,000	+1,000,350	+5,913,000
Women's Educational Equity	2,423,000	+576,826	+2,423,000
Presidential and Congressional American History and Civics Academies	1,945,000	+29,591	+1,945,000
Foundation for Learning Grants	1,000,000	+35,156	+1,000,000

Within the total amount provided for FIE, the bill also provides \$500,000 for the National History Day project to support its Annual History Day contest for students in grades 6–12. Within the \$38,166,000 provided for Arts in Education, the funds shall be distributed as

follows: \$8,639,000 is for VSA Arts; \$6,838,000 for the John F. Kennedy Center for the Performing Arts; \$13,697,000 for model arts programs; \$8,506,000 for model professional development programs for music, drama, dance

and visual arts educators; and \$486,000 for evaluation activities. The bill includes \$88,015,000 within the Fund for the Improvement of Education for the following projects in the following amounts:

Project	Amount
AB Christian Learning Center, Ft. Worth, TX for a higher education resource center.....	95,000
Academy for Urban School Leadership, Chicago, IL for a campus-based teacher residency program, which may include stipends.....	238,000
Acelero Learning, Las Vegas, NV, for early education programs.....	476,000
Alameda County Office of Education, Educational Partnerships Foundation, Hayward, CA for programs to deter truancy.....	48,000
Alaska PTA, Anchorage, AK, to train parents in their roles and responsibilities under the No Child Left Behind Act.....	238,000
Albany State University, Albany, GA for enrichment activities for students in grades 6-12 to compliment school instruction in science, technology, engineering and math.....	95,000
Alley Pond Environmental Center, Douglaston, NY for an environmental education program for urban students from New York City schools.....	62,000
Alton School District, Alton, IL for arts education and equipment and technology for a new technology center.....	95,000
American Ballet Theatre, New York, NY for educational activities	143,000
American Samoa Government, Pago Pago, AS for teacher training in Samoan language and instructional materials, which may include equipment	618,000
Anson County Schools, Wadesboro, NC for purchase of equipment.....	95,000
Arkansas City Schools, Arkansas City, KS for the purchase of equipment.....	120,000
Audubon Society of Rhode Island, Smithfield, RI, to develop the Environmental Education for Urban Schools Initiative.....	143,000
AVANCE, Inc. Middle Rio Grande Valley Chapter, Del Rio, TX for a family literacy program.....	285,000
AVANCE, Inc., Houston, TX for computers, technology, and program support for one or more Head Start centers.....	285,000
AVANCE, Inc., Waco, TX for a family literacy program.....	95,000
Beecher Community Schools, Mt. Morris, MI to provide supplemental education services for students at-risk of failing.....	238,000
Bergen Performing Arts Center, Englewood, NJ for arts education program, which may include equipment.....	95,000
Best Buddies International, Miami, FL for mentoring programs for persons with intellectual disabilities	333,000
Big Brothers and Big Sisters of Southeastern Pennsylvania, Philadelphia, PA, for recruitment, placement and oversight of school-based mentoring programs.....	95,000
Bishop Museum, Honolulu, HI, for educational programming.....	190,000
Blackhawk Foundation, Inc., Beaver Falls, PA for a physical education program at Blackhawk High School, which may include equipment.....	143,000
Boise State University, Boise, ID for the Idaho SySTEMic Solution program.....	190,000
Bossier Parish School Board, Benton, LA, for acquisition of equipment and technology upgrades.....	95,000
Boys & Girls Club of Greater Milwaukee, Milwaukee, WI, to expand an early literacy program for children	285,000
Boys & Girls Clubs of the Los Angeles Harbor, San Pedro, CA for college-preparation activities, which may include equipment.....	238,000

Project	Amount
Boys and Girls Club of Greater Sacramento, CA for an internet safety program for teenagers, which may include equipment.....	214,000
Boys and Girls Club of Kootenai County, Post Falls, Idaho, to expand education, health, and art programs, including the purchase of equipment.....	95,000
Boys and Girls Club of the Wausau Area, Wausau, WI for its youth development program.....	95,000
Boys and Girls Clubs of Greater Washington - Virginia, Alexandria, VA, for character, leadership, education and career development programs.....	95,000
Bridgeport Public Schools, Bridgeport, CT, for professional development for teachers and administrations in Bridgeport, CT.....	143,000
Bristol Township School District, Levittown, PA for a science education program, which may include equipment.....	238,000
Brockton Area Private Industry Council, Brockton, MA, for workforce development programs for at-risk youth.....	143,000
Bronxville Public School District, Bronxville, NY for science education, which may include equipment.....	138,000
Cabrini College, Radnor, PA, for professional development for K-12 teachers.....	95,000
California State University-Northridge, CA for an arts education program, including teacher professional development.....	285,000
California State University-Northridge, CA for teacher development.....	285,000
Canton Symphony Orchestra Association, Canton, OH for the Northeast Ohio Arts Education Collaborative, including teacher training and curriculum development.....	95,000
Carnegie Hall, New York, NY for its National Music Education Program.....	315,000
Catholic Big Brothers Big Sisters, Inc., Los Angeles, CA for youth mentoring program for at-risk youth.....	33,000
Cedar Rapids Symphony Orchestra, Cedar Rapids, IA, to support the Residency program.....	381,000
Center for Advancing Partnerships in Education, Allentown, PA, to develop a foreign language distance learning program and for teacher training.....	95,000
Center for Rural Development, Somerset, KY for civic literacy programs.....	238,000
Central Florida YMCA, Orlando, FL for expansion of the YMCA Achievers program.....	190,000
Centro Latino for Literacy, Los Angeles, CA for an English literacy program, which may include tutoring.....	205,000
Charter School Development Foundation, Las Vegas, NV for technology upgrades and professional development.....	262,000
Chicago Public Schools, Chicago, IL for educational enrichment activities.....	190,000
Child and Family Network Centers - Leveling the Playing Field: Start Early, Finish Strong, Alexandria, VA, to expand preschool programs for at-risk children.....	95,000
Children Northwest, Vancouver, WA, to expand Early Learning and Teaching Career Academies in Southwest Washington.....	133,000
Children's Coalition, West Palm Beach, FL for at-risk teenagers to participate in the Library of Congress' Veterans History Project.....	119,000
Children's Hospital and Regional Medical Center, Seattle, WA for a mobile, hands-on, science-based program, which may include equipment.....	143,000
Children's Literacy Initiative, Philadelphia, PA, to improve the reading readiness and early literacy of children.....	95,000

Project	Amount
Children's Services Council of Palm Beach County, Boynton Beach, FL for an early childhood literacy program.....	190,000
City of Compton, CA, for educational programming at Tomorrow's Aeronautical Museum.....	476,000
City of Dallas, Dallas, TX for family literacy.....	214,000
City of Detroit, MI for daily physical education activities, which may include equipment.....	238,000
City of Fairfield, CA for after-school programs.....	190,000
City of Holyoke, Holyoke, MA, to develop a full-service community school pilot project.....	238,000
City of Jacksonville, FL for the Jacksonville Journey alternative education program	333,000
City of Jacksonville, FL, for the Take a Step Initiative to provide alternative education for academically-challenged students.....	48,000
City of Long Beach, CA, for an at-risk youth mentoring program.....	1,189,000
City of Los Angeles, CA for academic and support services to prevent drop-outs of school-age mothers.....	219,000
City of Los Angeles, CA, for the LA's BEST afterschool enrichment program.....	238,000
City of Moultrie, GA, for technology upgrades, including purchase of equipment and professional development	95,000
City of Newark, CA for after-school programs.....	29,000
City of Portsmouth, Department of Museums, Portsmouth, VA for the Visual and Performing Arts After-School Program for at-risk youth	57,000
City of Presque Isle, ME, Recreation and Parks Department, for afterschool arts and physical activity programs.....	238,000
City of Springfield, MO for the Ready to Learn program, including equipment and technology	571,000
City of St. Paul, MN, to provide tutoring, mentoring and other educational programs and resources for afterschool programs	95,000
City Year New Hampshire, Stratham, NH, to expand education and youth development programs.....	143,000
Civic League of Greater New Brunswick, New Brunswick, NJ, for the Academy of After School Excellence.....	190,000
Clark County School District, Las Vegas, NV for the Family Leadership Institute.....	190,000
Clark County School District, Las Vegas, NV for the Urban Teacher Mentor Program.....	238,000
Clark County School District, Las Vegas, NV, for school counseling and dropout prevention services.....	856,000
Cleveland Avenue YMCA, Montgomery, AL, for after school math and science tutoring programs.....	95,000
Cleveland Metropolitan School District, Cleveland, OH, for technology upgrades, including purchase of equipment to improve math, science and language proficiency.....	95,000
Clovis Unified School District, Clovis, CA for curriculum development, to include the purchase of equipment.....	476,000
Coffeyville School District, Coffeyville, KS for the purchase of equipment.....	167,000

Project	Amount
Committee for Action Program Services, Cedar Hill, TX for professional development and curriculum enhancements for teachers.....	219,000
Communities in Schools of Northeast Texas, Mount Pleasant, TX for a drop-out prevention program.....	143,000
Communities In Schools, Bell-Coryell Counties, Inc., Killeen, TX for the Youngest Victims of War Project.....	143,000
Connecticut Humanities Council, Middletown, CT, for curriculum development.....	238,000
Connecticut Science Center, Hartford, CT for education science programs, which may include equipment.....	285,000
Connecticut Technical High School System, Middletown, CT for equipment for the Manufacturing Technologies Department of Platt Technical High School in Milford, CT.....	190,000
Connecticut Technical High School System, Middletown, CT for equipment for the Manufacturing Technologies Department of Vinal Technical High School.....	143,000
Consortium for Children Services, Inc., Syracuse, NY for the Parents as Teachers early childhood education program.....	95,000
Cook Inlet Tribal Council, Anchorage, AK, for educational programs for low performing students in the Anchorage school district.....	285,000
Cooperative Educational Service Agency No. 10, Chippewa Falls, WI for after-school programs.....	856,000
Cooperative Educational Service Agency No. 11, Turtle Lake, WI for after-school programs.....	476,000
Cooperative Educational Service Agency No. 12, Ashland, WI for after-school programs.....	476,000
Cooperative Educational Services Agency No. 9, Tomahawk, WI for after-school programs.....	95,000
Coppin State University, Baltimore, MD, to support the Urban Education Corridor program.....	285,000
County of Amador, Jackson, CA, for the College Preparation Initiative to provide educational programming.....	238,000
County of Glacier School District #9, Browning, MT, for academic programs.....	381,000

Youth Policy Institute, Los Angeles, CA for the San Fernando Valley Poverty Initiative, for after-school, family-literacy and college-preparation activities.....	285,000
Youth Services of Washington County, Montpelier, VT for Cityscape, an after-school program, which may include equipment.....	167,000
YWCA Anchorage, AK, for after school education programs.....	95,000
YWCA of Seattle, King County, and Snohomish County, Seattle, WA, to support and expand the School's Out Washington program.....	285,000

SAFE SCHOOLS AND CITIZENSHIP EDUCATION
The bill includes \$690,370,000 for programs in the Safe Schools and Citizenship Edu-

cation account, which is \$3,033,000 below the fiscal year 2008 funding level and \$408,407,000 above the budget request.

The bill includes funding for the following National activities:

Budget activity	FY 2009 bill	FY 2009 bill compared to—	
		FY 2008	FY 2009 budget request
School Emergency Preparedness Initiative	\$35,991,000	+\$4,182,574	+\$991,000
Safe Schools/Healthy Students	77,816,000	— 376	0
Drug Testing	6,607,000	— 4,031,835	— 5,206,000
Postsecondary Education Drug and Violence Program (including \$850,000 for the recognition program)	6,017,000	+40,270	0
Sober Truth on Preventing Underage Drinking (STOP Act)	2,500,000	+2,500,000	+2,500,000
Other Activities	10,053,000	+1,523,657	— 2,440,000

In response to the increasing problems of alcohol and drug abuse on college campuses, the Department shall use \$850,000 within the amount provided for Safe and Drug-Free Schools and Communities National Programs to identify, and provide recognition of promising and model alcohol and drug abuse education programs in higher education.

For the Carol M. White Physical Education Program, the Department shall incorporate the Centers for Disease Control and Prevention's School Health Index into the program. Further, the Department shall require new grantees to implement the index within their physical education programs, if they have not already done so.

The bill includes increased funding for the School Emergency Preparedness Initiative to enable the Department to continue assisting colleges and universities in their efforts to prepare for, and respond to traumatic events and emergencies. Within the \$138,984,000 provided for Safe and Drug-Free National activities, \$35,991,000 is reserved for this initiative. Together with \$2,237,000 provided under the Substance Abuse and Mental Health Services Administration (SAMHSA), a total of \$38,228,000 will be available for this initiative.

The bill provides \$2,500,000 for the Sober Truth on Preventing Underage Drinking (STOP Act), which finances grants to colleges, States, and non-profit organizations to combat underage drinking in communities.

Effective civic education begins in the elementary school and continues through middle and high school. Increased funding for Civic Education programs should be used to support the goal of improved knowledge and civic engagement of all school-aged children. Within the \$33,459,000 provided for the Civic

Education program, the bill includes \$20,076,000 for the We the People programs, including \$2,957,000 to continue the comprehensive program to improve public knowledge, understanding, and support of American democratic institutions, which is a cooperative project among the Center for Civic Education, the Center on Congress at Indiana University, and the Trust for Representative Democracy at the National Conference of State Legislatures. The bill also includes \$13,383,000 for the Cooperative Education Exchange program.

ENGLISH LANGUAGE ACQUISITION

The bill includes \$730,000,000 for the English Language Acquisition account, which is \$29,605,000 above the fiscal year 2008 funding level and the same as the budget request.

In the event a State experiences a drastic fluctuation in the estimated number of limited-English-proficient and immigrant children in a given year, as estimated by the American Community Survey (ACS), such that the fluctuation would result in a 10 percent or greater decrease in the State's title III allotment from the previous fiscal year, the Department shall determine the affected State's allocation using an average of the most recent 3 years of data (based on the ACS) for the number of limited-English-proficient and immigrant children residing in such State.

SPECIAL EDUCATION

The bill includes \$12,579,677,000 for the Special Education account, which is \$585,994,000 above the fiscal year 2008 funding level and \$243,734,000 above the budget request. The bill provides \$3,987,294,000 in fiscal year 2009

and \$8,592,383,000 in fiscal year 2010 funding for this account.

The bill includes \$38,615,000 for Technology and Media Services. Within this amount, \$737,000 is available for the Reading Rockets program, administered by the Greater Washington Educational Television Association. Also within this amount, the bill specifies \$13,250,000 for Recording for the Blind and Dyslexic, Inc., to support the development, production, and circulation of recorded educational materials.

The bill includes a new provision to allow funds to be used to support National and World Special Olympics games hosted in the United States. Further, Special Olympics International should use a portion of this funding to support the 2010 National Games being held in Nebraska.

Additional funds provided for Parent Information Centers should be used to increase the grant awards of Parent Information Centers that did not receive an increase in their awards from the 2008 appropriation, to enable all centers to better meet the training and information needs of parents of children with disabilities.

REHABILITATION SERVICES AND DISABILITY RESEARCH

The bill includes \$3,387,762,000 for the Rehabilitation Services and Disability Research account, which is \$110,995,000 above the fiscal year 2008 funding level and \$68,906,000 above the budget request.

Demonstration and training programs

The bill includes \$9,594,000 for Demonstration and Training Programs; within this amount \$3,088,000 shall be for the following projects in the following amounts:

Project	Amount
Access Living, Chicago, IL for a program to assist disabled veterans with reintegrating into society.....	95,000
Adelphi University, Garden City, NY for assessments, training and intervention for individuals with complex communication needs, which may include equipment.....	262,000
Alaska Adaptive Recreation Alliance, Anchorage, AK, for programs to provide adaptive and therapeutic recreation to disabled in Alaska.....	571,000
Alaska Statewide Independent Living Council, Anchorage, AK, for independent living programs for rural and remote areas.....	285,000
Arc of New London County, Norwich, CT, for adult vocational training.....	238,000
Best Buddies Maryland, Baltimore, MD for mentoring programs for persons with intellectual disabilities.....	190,000
Bethany College, Bethany, WV for the Autism Center and Sensory Classroom in the Hurl Education Center.....	81,000
Cumberland Perry Association for Retarded Citizens, Carlisle, PA, to support educational programming for young adults with disabilities.....	95,000
Enable America, Inc., Tampa, Florida, for civic/citizenship demonstration project for disabled adults.....	571,000
Jewish Foundation for Group Homes, Rockville, MD for transitional services for young adults with developmental disabilities.....	143,000
Lighthouse International, New York, NY for online accessible interactive lessons for health care providers who work with individuals with visual impairments.....	176,000
Southern Illinois University, Carbondale, IL for a program for disabled veterans, including education, counseling, and therapy, which may include scholarships and research.....	381,000

Within the funds provided for Assistive Technology, the bill includes \$25,660,000 for State grants, \$4,300,000 for Protection and Advocacy, and \$1,000,000 for National activities.

The bill specifies \$107,741,000 for the National Institute on Disability and Rehabilitation Research (NIDRR). The increased funding should be used to restore the number of rehabilitation research and training centers focusing on the issues of traumatic brain injury, arthritis, neuromuscular disease and spinal cord injury. NIDRR shall award these funds on a competitive basis.

SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

AMERICAN PRINTING HOUSE FOR THE BLIND

The bill includes \$22,599,000 for the American Printing House for the Blind, which is \$983,000 above the fiscal year 2008 funding level and the budget request.

NATIONAL TECHNICAL INSTITUTE FOR THE DEAF

The bill includes \$64,212,000 for the National Technical Institute for the Deaf, which is \$4,517,000 above the fiscal year 2008 funding level and \$5,017,000 above the budget request.

GALLAUDET UNIVERSITY

The bill includes \$124,000,000 for Gallaudet University, which is \$10,616,000 above the fiscal year 2008 funding level and \$4,616,000 above the budget request. The bill designates \$6,000,000 of this amount for construction and provides that the funds are available until expended.

CAREER, TECHNICAL, AND ADULT EDUCATION

The bill includes \$1,944,348,000 for the Career, Technical, and Adult Education account, which is \$2,706,000 above the fiscal year 2008 funding level and \$1,369,758,000 above the budget request. The bill provides \$1,153,348,000 in fiscal year 2009 funding, of which \$1,148,948,000 is available on July 1, 2009 and \$4,400,000 is available on October 1, 2008. The bill also makes \$791,000,000 available on October 1, 2009.

For Adult Education, National Leadership Activities, the Department is directed to submit a report to the Committees on Appropriations of the House of Representatives and the Senate prior to the formal release of any contracting opportunity for USA Learns, which details any cost savings that could be achieved by using commercially-available English language training technologies or solutions along with full justification of any decision to expend funds that might duplicate existing training materials.

For Smaller Learning Communities, the Department is required to use program funds only for activities related to establishing Smaller Learning Communities within large high schools or small high schools that provide alternatives for students enrolled in large high schools. Further, the Department shall consult with the Committees on Appropriations of the House of Representatives and the Senate prior to the release of program guidance for fiscal years 2008 and 2009. Finally, the Department shall submit an operating plan outlining the planned use of the five percent set-aside prior to the obligation of these funds.

STUDENT FINANCIAL ASSISTANCE (INCLUDING DEFERRAL OF FUNDS)

The bill includes \$19,156,973,000 for the Student Financial Assistance account, which is \$3,075,837,000 above the fiscal year 2008 funding level and \$1,235,481,000 above the budget request.

The bill includes \$17,288,000,000 for Pell Grants. These funds, when combined with funds under the American Recovery and Reinvestment Act, will support a discretionary maximum Pell Grant of \$4,860 for the 2009–2010 award year, a \$619 increase over the 2008–2009 award year. With mandatory funds under the College Cost Reduction Act, the total maximum Pell Grant for the 2009–2010 award year will be \$5,350.

The bill also defers \$887,000,000 from unobligated balances under the mandatory Academic Competitiveness and SMART grants program. These balances are not needed to pay Academic Competitiveness and SMART grant awards in the 2009–2010 award year and will offset additional costs in the Pell Grant program.

The Department shall provide the same funding in fiscal year 2009 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work-Study Programs appropriation.

STUDENT AID ADMINISTRATION

The bill includes \$753,402,000 for Student Aid Administration, which is \$57,559,000 above the fiscal year 2008 funding level and \$10,598,000 below the budget request.

HIGHER EDUCATION

The bill includes \$2,100,150,000 for the Higher Education account, which is \$78,298,000 above the fiscal year 2008 funding level and \$366,466,000 above the budget request.

For Strengthening Tribally Controlled Colleges and Universities (TCCUs), the bill specifies the Department shall award TCCUs that received a multiple-year grant that was

in effect prior to the reauthorization of the Higher Education Act HEA, (P.L. 110–315), the larger of either the amount of the continuation grant or the amount that they are entitled to under the newly reauthorized section 316(d) of the HEA, which modified the formula. Institutions receiving these funds shall be required to spend the funds in accordance with the terms of the original grant. The bill also specifies that the Secretary shall use mandatory funds made available for these institutions by the College Cost Reduction and Access Act for continuation grants, and one-year construction grants.

The bill also includes \$1,000,000 and legislative language for Erma Byrd Scholarships, which are intended to increase the size of the industrial health and safety workforce in the public and private sectors. The Department should work with the CDC, National Institute for Occupational Safety and Health, and the Department of Labor in implementing this program.

For Title VI International Education and Foreign Languages Studies programs, the Department shall use \$3,155,000 of the \$102,335,000 provided for Title VI Domestic Programs, to increase the number of individuals receiving academic year and summer foreign language and area studies fellowships. The Department shall use a portion of the 1% available for program evaluation, to assist grantees with developing web portals to improve the dissemination of information produced under these programs to the public.

Fund for the Improvement of Postsecondary Education (FIPSE)

The bill includes \$133,667,000 for the Fund for the Improvement of Postsecondary Education (FIPSE). Within the amount provided for FIPSE, \$10,000,000 is reserved for a new college textbook rental initiative. The initiative will provide competitive grants to colleges to expand opportunities for students to rent college course materials. In addition, within the amount for FIPSE, \$10,000,000 is provided for the newly authorized Postbaccalaureate Opportunities for Hispanic Americans program, to expand graduate academic offerings at colleges that enroll a significant number of Hispanic students.

The bill includes \$91,243,000 within the Fund for the Improvement of Postsecondary Education for the following projects in the following amounts:

Project	Amount
AIB College of Business, Des Moines, IA, to continue recruiting and training captioners and court reporters and to provide scholarships to students.....	381,000
Alabama Institute of the Deaf and Blind, Talladega, AL for direct employment and training services for the deaf and blind.....	190,000
Alamo Community College, San Antonio, TX for an associates degree program for air traffic controllers.....	285,000
Albright College, Reading, PA, for laboratory equipment acquisition	95,000
Alcorn University, Lorman, MS, for curriculum improvements.....	238,000
Alvernia College, Reading, PA, for scholarships and nursing education programs.....	95,000
American Prosthodontic Society Foundation, Osceola Mills, PA, for scholarships and program costs related to prosthetic dentistry and clinical prosthodontics.....	95,000
Anoka Ramsey Community College, Coon Rapids, MN for curriculum development and programs focused on the biomedical device manufacturing.....	238,000
Armstrong Atlantic State University Cyber Security Research Foundation, Inc., Savannah, GA for curriculum development at the Cyber and Homeland Security Institute, including purchase of equipment.....	428,000
Ashland Community and Technical College, Ashland, KY for purchase of equipment.....	143,000
Asnuntuck Community College, Enfield, CT for its manufacturing technology training program, which may include scholarships.....	143,000
Assumption College, Worcester, MA, for the acquisition of educational equipment and information technology.....	143,000
Atlantic Cape Community College, Mays Landing, NJ for purchase of equipment for the Science, Technology, Engineering and Math Center.....	381,000
Austin Peay State University, Clarksville, TN for a math and science initiative.....	476,000
Barry University, Miami Shores, FL for curriculum development, to include the purchase of equipment.....	95,000
Barry University, Miami, FL for the Center for Community Service Initiatives, which may include equipment.....	167,000
Black Mountain Institute, Las Vegas, NV, for undergraduate and graduate instruction in literature, humanities, creative writing, translation and for international and study abroad programs.....	95,000
Bloomsburg University of Pennsylvania, Bloomsburg, PA, for computer forensic science education programs.....	95,000
Blue Mountain Community College, Hermiston, OR, for curriculum development, including purchase of equipment.....	285,000
Bowie State University, Bowie, MD for its nursing education program.....	333,000
Brandeis University, Waltham, MA for its Key to the University program to teach research methods and pedagogy, which may include technology and equipment.....	319,000
Breathitt Veterinary Center, Hopkinsville, KY for purchase of equipment.....	238,000
Brevard County Community College, Cocoa, FL for equipment and technology.....	428,000
Briar Cliff University, Sioux City, IA for equipment.....	190,000
Broward Community College, Ft. Lauderdale, FL for equipment and technology for its aviation degree program.....	190,000

Project	Amount
Broward Community College, Ft. Lauderdale, FL for the Center for Preparedness, for education and training in emergency preparedness and response.....	357,000
Buena Vista University, Storm Lake, IA, for support for students with disabilities.....	238,000
C.O.R.E. Philly, Philadelphia, PA for college preparation and scholarship assistance, which may include equipment.....	452,000
Caldwell College, Caldwell, NJ to establish a doctoral program in Applied Behavioral Analysis to prepare students for leadership roles in developmental services, special education and mental health.....	238,000
Caldwell College, Caldwell, NJ, for an Autism Teacher Doctorate Program at the Center for Excellence in Teaching, which may include equipment for distance learning activities.....	238,000
California Baptist University, Riverside, CA for purchase of equipment.....	238,000
California Maritime Academy, Vallejo, CA, for an emergency response training program, which may include the acquisition of software and technology.....	476,000
California State University, Fullerton, CA for Center for the Advancement of Teaching and Learning in Mathematics and Science.....	238,000
California State University, Fullerton, CA for the Vietnamese Language and Culture program, including purchase of equipment.....	238,000
California State University, San Bernardino- Palm Desert Campus, San Bernardino, CA for purchase of equipment.....	190,000
California State University-Channel Islands, Camarillo, CA for development of a nursing program, including purchase of equipment.....	285,000
California State University-Stanislaus, Turlock, CA for its Promise Scholars Program to assist former foster care youth with transitioning to college.....	285,000
California University of Pennsylvania, California, PA, for curriculum development and teacher training to enhance math and science instruction.....	95,000
Campbell University, Buies Creek, NC for its Advancement for Underrepresented Minority Pharmacists and Pharmaceutical Scientists Program	262,000
Canisius College, Buffalo, NY for its science education program, which may include equipment.....	285,000
Cape Girardeau Career and Technology Center, Cape Girardeau, MO, for equipment and technology upgrades, including the purchase of equipment	285,000
Cedar Crest College, Allentown, PA for nursing curriculum development, including purchase of equipment.....	95,000
Center for Education, Business, and the Arts, St. George, UT, for an educational program in business entrepreneurship at Dixie State College.....	95,000
Central Florida Community College, Ocala, FL for curriculum development, to include the purchase of equipment.....	238,000
Central Piedmont Community College, Charlotte, NC for curriculum development at the Center for Integrated Emergency Response Training.....	95,000
Cerritos Colleg Foundation, Norwalk, CA to train students in closed captioning, which may include equipment.....	238,000
Cerritos College, Norwalk, CA to train students in closed captioning, which may include equipment.....	95,000
Chabot College, Hayward, CA for a nursing program, which may include recruitment and retention activities.....	114,000
Cheyney University of Pennsylvania, Cheyney, PA, to develop model best practices in early childhood education, curriculum instruction and assessment	95,000
Cheyney University, Cheyney, PA for equipment and technology upgrades.....	133,000
City of Detroit, MI for an initiative to assist TANF recipients with attaining higher education, which may include scholarships.....	295,000

Project	Amount
Clackamas Community College, Oregon City, OR for a pilot project with the Oregon National Guard to provide career and education information to returning veterans.....	381,000
Clark University, Worcester, MA, for information technology and educational equipment.....	190,000
Clayton College and State University, Morrow, GA for a Master of Arts in Archive program, which may include student scholarships and community outreach.....	285,000
Cleary University, Howell, MI for the purchase of equipment.....	238,000
Cleveland Chiropractic College, Overland Park, KS, for curriculum development.....	190,000
Cleveland State Community College, Cleveland, TN for the Energy Efficient Residential Construction program, including curriculum development and purchase of equipment.....	328,000
Coe College, Cedar Rapids, Iowa, for the Science and Technology Enhancement Initiative.....	476,000
Endicott College, Beverly, MA, for expansion of higher education programs.....	190,000
Coffeyville Community College, Coffeyville, KS, to establish an endowed scholarship program for Kansas residents.....	428,000
College of Charleston, Charleston, SC for purchase of equipment.....	238,000
College of DuPage, Glen Ellyn, IL for curriculum development, to include the purchase of equipment.....	381,000
College of Southern Idaho, Twin Falls, ID for curriculum development, to include the purchase of equipment.....	285,000
College of Southern Maryland, La Plata, MD for its STEM program, which may include equipment.....	486,000
College of the Canyons, Santa Clarita, CA for the University Center Consortium.....	238,000
Colorado State University - Pueblo, Pueblo, CO, for science, technology, engineering and mathematics programs, including equipment.....	143,000
Columbia College, Columbia, SC for its divergent learning program.....	190,000
Community College of Allegheny County, Pittsburgh, PA for nursing, allied health and technical education programming.....	381,000
Community College System of New Hampshire, Concord, NH for the Energy Services and Technology degree program at Lakes Region Community College, which may include equipment.....	190,000
Connecticut State University System, Hartford, CT for nursing education programs.....	476,000
Coppin State University School of Nursing, Baltimore, MD for its nursing education program, which may include equipment and technology.....	190,000
Cosumnes River College, Sacramento, CA for the GreenForce center, including outreach and recruitment of students for clean energy training.....	238,000
Daniel Webster College, Nashua, NH, for technology upgrades, including the purchase of equipment.....	190,000
Danville Community College, Danville, VA for the Center for Advanced Manufacturing in Wood Products Technology.....	190,000
Dartmouth College, Hanover, NH, to continue an interdisciplinary initiative on engineering and medicine, including the purchase of equipment.....	285,000
Deaf West Theater, North Hollywood, CA, for educational programming.....	238,000
Del Mar College, Corpus Christi, TX for curriculum development and the purchase of equipment, technology, and training materials for instruction in closed captioning.....	381,000

Project	Amount
Delaware County Community College, Media, PA, for technology upgrades, including the purchase of equipment.....	95,000
Delaware Valley Association for the Education of Young Children, Philadelphia, PA to prepare individuals for careers in early childhood education and to assist with certification, which may include equipment	152,000
DeSales University, Center Valley, PA, for technology upgrades including the purchase of equipment.....	95,000
Dickenson County Industrial Development Authority - The Dickenson Center for Education and Research, Clintwood, VA, for technology upgrades, including the purchase of equipment.....	95,000
Dowling College, Oakdale, NY, to create and establish a school of Banking and Financial Services.....	190,000
Duquesne University, Pittsburgh, PA, for professional development and research training in computational sciences.....	95,000
East Central University, Ada, OK for curriculum development at the Economic Development Training and Education Center, including purchase of equipment.....	476,000
Eastern Illinois University, Charleston, IL for purchase of equipment	190,000
Eastern Iowa Community College, Davenport, IA, for the creation of a center on sustainable energy, including equipment.....	285,000
Eastern Maine Community College, Bangor, ME for upgrades and satellite locations for science laboratories, including purchase of equipment.....	295,000
Eastern Michigan University, Ypsilanti, MI for its DREAMS teacher training initiative, which may include scholarships.....	285,000
Eastern Shore Community College, Virginia Beach, VA for purchase of equipment.....	190,000
Eastern University, St. Davids, PA, for an initiative to increase minority access to higher education.....	95,000
Edinboro University of Pennsylvania, Edinboro, PA, for a nursing education program and equipment acquisition	95,000
Edison College, Punta Gorda, FL for its nursing education program.....	105,000
Edward M. Kennedy Institute for the Senate, Boston, MA, for the planning and design of a building and may include support for an endowment.....	5,813,000
Elgin Community College, Elgin, IL for its automotive training program.....	100,000
Elizabethtown College, Elizabethtown, PA, for technology infrastructure upgrades and acquisition.....	95,000
Elmira College, Elmira, NY for technology upgrades.....	428,000
Emerson College, Boston, MA, for educational equipment and technology infrastructure.....	95,000
Emmanuel College, Boston, MA, for educational equipment and technology infrastructure.....	309,000
Emporia State University, Emporia, KS for purchase of equipment for the Bioscience Department.....	190,000
Farmingdale State College, Farmingdale, NY to develop green building curriculum, which may include equipment.....	357,000
Finger Lakes Community College, Canandaigua, NY for equipment and technology upgrades for science laboratories in Newark, New York.....	238,000
Florida Campus Compact, Tallahassee, FL for a project to enhance service learning on campuses throughout Florida, which may include equipment, lodging, and travel.....	190,000
Florida Gulf Coast University, Ft. Myers, FL for establishment of the Coastal Watershed Institute.....	333,000

Project	Amount
Ft. Valley State University, Ft. Valley, FL for recruitment and training projects for STEM-related programs.....	95,000
Gadsden State Community College, Gadsden, AL for technology upgrades.....	95,000
Gateway Community and Technical College, Ft. Mitchell, KY for the Center for Advanced Manufacturing, including purchase of equipment.....	95,000
George C. Wallace State Community College - Hanceville, Hanceville, AL for technology upgrades.....	95,000
George Meany Center for Labor Studies- the National Labor College, Silver Spring, MD, for curriculum development.....	476,000
George Washington University, Washington, DC, to provide DC public school students opportunities to pursue health professions careers.....	141,000
Germanna Community College, Fredericksburg, VA for a nurse training initiative, including purchase of equipment.....	285,000
Grace College and Seminary, Winona Lake, IN for curriculum development for a distance learning program, including the purchase of equipment and technology.....	95,000
Green River Community College, Auburn, WA, for support of the Computer Reporting Technologies program.....	285,000
Grossmont College, El Cajon, CA for nursing programs, including purchase of equipment.....	190,000
Hawaii Community College, Waipahu, HI, to provide cultural education.....	190,000
Henry Kuualoha Giugni Archives, University of Hawaii, Honolulu, HI, for cultural education.....	238,000
Hillsborough Community College, Tampa, FL for curriculum development and the purchase of equipment for the Veterinary Technology program.....	476,000
Housatonic Community College, Bridgeport, CT for the Middle College Program.....	285,000
Houston Community College, Houston, TX, for curriculum development and purchase of equipment for the Accelerated Nursing Proficiency Center.....	190,000
Huntingdon College Institute, Montgomery, AL, for teacher training and purchase of equipment	190,000
Huston Tillotson University, Austin, TX for math and science education initiative.....	143,000
Hutchinson Community College, Hutchinson, KS for technology upgrades.....	238,000
I-LEAD, Inc., Reading, PA for the College Without Walls program, including purchase of equipment.....	143,000
Illinois College, Jacksonville, IL for a teacher preparation program, including curriculum development.....	190,000
Immaculata University, Immaculata, PA, for nursing education programs.....	95,000
Indian Hills Community College and Kirkwood Community College, Eddyville, IA for online biofuels curriculum and assessment tools for instructors.....	476,000
Indiana University of Pennsylvania, Indiana, PA, for curriculum development for a mine safety course and research on use of mine maps.....	95,000
Institute of American Indian Arts, Sante Fe, NM for a distance education program.....	362,000
Iowa Central Community College, Ft. Dodge, IA for the Advanced Manufacturing Training Center, including purchase of mobile laboratory equipment.....	333,000
Ivy Tech Community College of Indiana, Bloomington, IN for a center for mathematics and science at the Bloomington Region campus.....	381,000

Project	Amount
Ivy Tech Community College of Indiana, Gary, IN for a center on logistics, distribution, and transportation at the Northwest Region campus.....	381,000
Jacksonville State University Canyon Center, Jacksonville, AL for a science initiative, including curriculum development.....	95,000
Jobs for Mississippi Graduates, Inc., Jackson, MS, for Reaching Up for Success dropout prevention program.....	95,000
Kent State University Stark Campus, North Canton, OH for the First Year Access and Success Program.....	333,000
Keuka College, Keuka Park, NY for technology upgrades.....	190,000
Keystone College, La Plume, PA, for technology upgrades including the purchase of equipment.....	95,000
King's College, Wilkes-Barre, PA for the mass communications program.....	181,000
La Sierra University, Riverside, CA for the Building Science Capacity Initiative, including purchase of equipment.....	143,000
Lackawanna College, Scranton, PA, for technology upgrades, including the purchase of equipment	95,000
Lafayette College, Easton, PA, for technology upgrades, including the purchase of equipment.....	95,000
Lake City Community College, Lake City, FL for the Math for College and Career Excellence program.....	95,000
Lakeland Community College, Kirtland, OH for health information technology curriculum development and purchase of associated equipment.....	333,000
Lakeshore Technical College, Cleveland, WI, for the purchase of equipment.....	238,000
Lane Community College, Eugene, OR, for a nursing program, which may include equipment.....	333,000
Lehigh Career & Technical Institute, Schnecksville, PA for purchase of equipment.....	209,000
Lehigh University, Bethlehem, PA, to develop programming for a Center for Developing Urban Educational Leaders.....	95,000
LeMoyne College, Syracuse, NY for purchase of equipment at the Biological and Life Sciences laboratories.....	428,000
Lincoln University, Lincoln University, PA, to support a distance learning initiative, including the purchase of equipment.....	95,000
Lyndon State College, Lyndonville, VT, for a center for rural students.....	333,000
Macomb Community College, Warren, MI for curriculum development for an Associate of Applied Science degree in Energy Management.....	333,000
Mansfield University of Pennsylvania, Mansfield, PA, for nursing education programs, including the purchase of equipment	95,000
Marian College, Fond du Lac, WI, for a collaborative abilities-based Master's program in nursing education, to include the purchase of equipment.....	190,000
Maricopa County Community College, Tempe, AZ for the Bilingual Nursing Program at Gateway South Mountain Community College.....	285,000
Marshall University Research Corporation, Huntington, WV for the College of Information Technology and Engineering, which may include equipment.....	257,000
Marshall University Research Corporation, Huntington, WV for the Visualization Resource Center, which may include equipment.....	257,000
Marywood University, Scranton, PA, for campus-based autism education programs.....	95,000

Project	Amount
McNeese State University, Lake Charles, LA, to provide professional development to improve student writing.....	190,000
Mesa Community College, Mesa, AZ for the Online Registered Nurse certification program, which may include equipment.....	119,000
Metropolitan State University, St. Paul, MN for nurse education programs.....	466,000
Miami University, Oxford, OH for purchase of equipment.....	381,000
Michigan Community College Association, Lansing, MI, for an alternative energy training initiative.....	1,617,000
Mid-American Christian University, Oklahoma City, OK for a teacher training initiative.....	285,000
MidAmerican Nazarene University, for technology acquisition to expand distance education for teachers in western Kansas, including the purchase of equipment.....	143,000
Middle Tennessee State University, Murfreesboro, TN for a math and science education teacher training initiative, which may include equipment, technology and scholarships.....	476,000
Midland College, Midland, TX for technology upgrades, including purchase of equipment.....	285,000
Midland Independent School District, Midland, TX for a teacher training initiative in conjunction with Texas Mathworks.....	95,000
Millikin University, Decatur, IL, for a nursing training program.....	476,000
Minnesota State Colleges and Universities, St. Paul, MN for career and education services to veterans, National Guard members and reservists.....	951,000
MiraCosta College Foundation, Oceanside, CA for nursing programs, including curriculum development.....	238,000
Mississippi State University, Meridian, MS for purchase of equipment at the Riley Center for Education and Performing Arts.....	285,000
Mississippi Valley State University, Itta Bena, MS for science and math education programs, which may include curriculum development.....	390,000
Missouri State University, Springfield, MO, for equipment and technology upgrades, including the purchase of equipment.....	476,000
Missouri Western State University, St. Joseph, MO for purchase of equipment at the Institute for Industrial and Applied Life Sciences.....	285,000
Mohawk Valley Community College, Utica, NY for an aircraft maintenance certificate program, which may include equipment.....	238,000
Montclair State College, Upper Montclair, NJ, for a Minority Teacher Recruitment, Development and Retention program.....	190,000
Montclair State University, Montclair, NJ for a STEM teacher training program, which may include technology and equipment.....	190,000
Montgomery County Community College, Blue Bell, PA, for curriculum development and equipment acquisition to support a health services initiative.....	95,000
Morehouse College, Atlanta, GA, to establish a research initiative to improve college graduation rates of minority males.....	95,000
Mott Community College, Flint, MI, for the Center for Advanced Manufacturing.....	190,000
Mount Aloysius College, Cresson, PA, for college preparation programs.....	95,000
Muhlenberg College, Allentown, PA, for a civic engagement and service learning program.....	95,000
Murray State University, Hopkinsville, KY, to purchase equipment for the Breathitt Veterinary Clinic.....	95,000

Project	Amount
Nazareth College, Rochester, NY for the purchase of equipment at the Center for Math and Science Education.....	238,000
Nevada State College, Henderson, NV for nursing programs, including the purchase of equipment.....	428,000
Nevada State College, Henderson, NV, for teacher preparation programs.....	285,000
Nevada Volunteers, Fallon, NV, to expand service-learning programs.....	238,000
New College, Sarasota, FL for digital collections at the Jane Bancroft Cook Library.....	95,000
New Mexico Military Institute, Roswell, NM, for a Native American criminal justice program, including scholarships.....	190,000
North Arkansas College, Harrison, AR for purchase of equipment.....	190,000
North Central Missouri College, Trenton, MO, for technology upgrades, including the purchase of equipment for the Allied Health building.....	1,522,000
North Dakota State College of Science, Wahpeton, ND, for a Center for Nanoscience Technology Training.....	951,000
North Florida Community College, Madison, FL for purchase of equipment.....	143,000
Northampton Community College, Bethlehem, PA, for technology and equipment upgrades and acquisition	95,000
Northeast Community College, Norfolk, NE, for improved access to postsecondary educational opportunities, including distance learning and other equipment.....	761,000
Northeast Wisconsin Technical College, Green Bay, WI for the Weld Training Center, which may include equipment.....	314,000
Northern Arizona University, Yuma, AZ for student support services and community outreach programs.....	128,000
Northwest Nazarene University, Nampa, Idaho, for technology upgrades, including the purchase of equipment.....	190,000
Northwestern State University of Louisiana, Natchitoches, LA for technology upgrades.....	381,000
Oakland University, Rochester, MI for the Institute of Radio Frequency Electronics and Nanoelectronics, including purchase of equipment.....	95,000
Oklahoma State University, Okmulgee, OK for a wildlife technician program at the Okmulgee campus, which may include equipment.....	238,000
Oregon Institute of Technology, Klamath Falls, OR for the purchase of technology and equipment at the Health Informatics Simulation Laboratory.....	285,000
Our Lady of the Lake University, San Antonio, TX for a science, technology, engineering and math teacher training program.....	285,000
Palm Beach Community College, Lake Worth, FL for equipment and technology.....	285,000
Peninsula College, Port Angeles, WA for the purchase of technology and equipment	476,000
Pennsylvania Highlands Community College, Johnstown, PA, for technology and equipment upgrades and acquisition	95,000
Pittsburg State University, Pittsburg, KS for equipment and technology for the College of Technology.....	285,000
Plymouth State University, Plymouth, NH, for a collaborative research institute for sustainable rural economies.....	190,000
Point Park University, Pittsburgh, PA, for technology upgrades including the purchase of equipment.....	95,000

Project	Amount
Polk Community College, Winter Haven, FL for curriculum development and the purchase of equipment.....	718,000
Portland State University, Portland, OR for the Science Research Teaching Center, which may include equipment and technology.....	333,000
ProLiteracy Worldwide, Syracuse, NY to develop a comprehensive model adult literacy curriculum.....	238,000
Pulaski Technical College, North Little Rock, AR for transportation education programs, which may include equipment.....	214,000
Queens College Center for Jewish Studies, Flushing, NY for student training, civic education and cultural outreach	285,000
Queens College, Flushing, NY for a math teacher preparation program.....	190,000
Quinsigamond Community College, Worcester, MA for educational and regional workforce development, which may include equipment.....	238,000
Quinsigamond Community College, Worcester, MA, for the procurement of educational equipment and information technology to support academic expansion.....	143,000
Richmond Community College, Hamlet, NC for purchase of equipment	428,000
Rockford College, Rockford, IL for technology upgrades and purchase of equipment.....	238,000
Round Rock Higher Education Center, Round Rock, TX to establish a nursing program, including purchase of equipment.....	476,000
Rutgers University School of Law, Camden, NJ for financial assistance to students participating in the pro bono community service program.....	428,000
Rutgers University, Camden, NJ, for the Camden Children's Initiative, which may include scholarships and fellowships.....	95,000
Salem State College, Salem, MA for a nursing education program, which may include equipment and technology.....	224,000
Salish Kootenai College, Pablo, MT for curriculum development.....	238,000
San Jose State University Research Foundation, San Jose, CA for a Center for Migration Studies.....	190,000
Sauk Valley Community College, Sauk, IL for occupational training programs, which may include equipment.....	76,000
School of New Resources, College of New Rochelle, Bronx, NY for technology upgrades for its Co-op City campus.....	167,000
Schultz Center for Teaching and Leadership, Jacksonville, FL for the Florida ESOL E-Learning Network, including purchase of equipment.....	190,000
Seattle University, Seattle, WA for its Fostering Scholars Program, including student scholarships.....	285,000
Security on Campus, Inc., King of Prussia, PA, for development and implementation of a sexual assault awareness and training program.....	24,000
Sedgwick County Government, KS, to establish an advanced education in general dentistry residency program.....	476,000
Seminole State College, Seminole, OK, for a distance learning program and technology upgrades, including the purchase of equipment.....	95,000
Siena Heights University, Adrian, WI for a nursing initiative, including purchase of equipment.....	428,000
Simmons College of Kentucky, Louisville, KY for community outreach and research, which may include equipment.....	190,000
Sitting Bull College, Ft. Yates, ND, for a Student Record and Data Management System.....	238,000

Project	Amount
Southeast Missouri State University, Cape Girardeau, MO for technology upgrades.....	333,000
Southeastern Illinois College, Harrisburg, IL to develop a mining and mine safety curriculum.....	190,000
Southern Illinois University at Edwardsville, Edwardsville, IL for purchase of equipment at the SIAM Center.....	238,000
Southern Oregon University, Ashland, OR, for technology infrastructure and equipment acquisition.....	285,000
Southern Utah University, Cedar City, UT, to enhance the academic skills and training of science teachers in rural Utah, including the purchase of equipment.....	95,000
Southwestern Oregon Community College, Coos Bay, OR for its Collaborative Relevant Education and Applied Technologies for Economic Development Program, which may include metals fabrication equipment and upgrades	143,000
Spelman College, Atlanta, GA, for programs to recruit and increase graduate rates for students pursuing science, mathematics, or dual-engineering degrees.....	95,000
St. Bonaventure University, St. Bonaventure, NY for purchase of equipment	95,000
St. Bonaventure University, St. Bonaventure, NY for technology upgrades.....	285,000
St. Bonaventure University, St. Bonaventure, NY, for the Father Mychal Judge program, which may include student scholarships and travel costs for student exchanges and visiting professorships	285,000
St. Clair County Community College, Port Huron, MI for development of a degree program in alternative energy	190,000
St. Francis College, Brooklyn, NY for its Project Access initiative, which may include equipment.....	285,000
St. John Fisher College, Rochester, NY for purchase of equipment at the Wegmans School of Pharmacy.....	285,000
St. Louis Community College, St. Louis, MO for education and training programs at its Harrison Education Center.....	190,000
St. Mary's College of Maryland, St. Mary's City, MD for its College 101 Program to increase the participation of minority students in math and science.....	143,000
St. Mary's University of Minnesota, Minneapolis, MN, for technology upgrades, including the purchase of equipment.....	190,000
St. Petersburg College, Clearwater, FL for a health care informatics education initiative, which may include the purchase of equipment and technology.....	95,000
St. Vincent College, Latrobe, PA, for educational programs, including the purchase of equipment.....	95,000
State University of New York at Canton, Canton, NY for purchase of equipment.....	143,000
State University of New York College at Cortland, Cortland, NY for a civic engagement and leadership program.....	247,000
State University of New York College of Environmental Science and Forestry, Syracuse, NY for purchase of equipment.....	238,000
Stony Brook University School of Journalism, Stony Brook, NY for a partnership program to teach scientists how to effectively communicate with the public and the press.....	214,000
Susquehanna University, Selinsgrove, PA, for science laboratory technology, including the purchase of equipment	95,000
Sustain Hawaii, Honolulu, HI for the interdisciplinary Center of Excellence in Island Resiliency and Climate Policy, which may include curriculum development, stipends, and equipment.....	190,000
Texas Tech University, Lubbock, TX for the Center for the Study of Addiction	95,000

Project	Amount
Texas Woman's University, Denton, TX, for curriculum development and technology upgrades, including the purchase of equipment	143,000
Tougaloo College, Tougaloo, MS, for applied undergraduate level community based research programs and partnerships.....	285,000
Trident Technical College, Charleston, SC for the nursing education program.....	190,000
Trinity University, San Antonio, TX for curriculum development for the Educators Technology Teaching Laboratory, to include the purchase of equipment.....	285,000
Troy University, Montgomery, AL, for technology upgrades, including the purchase of equipment.....	238,000
Truckee Meadows Community College, Reno, NV, for recruiting, mentoring and providing supportive services.....	285,000
Turtle Mountain Community College, Belcourt, ND, to expand its Nursing Program, including equipment.....	476,000
Tuskegee University, Tuskegee, AL for curriculum development	190,000
Union Graduate College, Schenectady, NY, for program support of a Masters degree in Emerging Energy Systems.....	285,000
University of Alaska, Anchorage, AK, to continue the Alaska science and engineering program for Alaska students.....	999,000
University of Arizona, Tucson, AZ for the Disability Resource Center to provide instruction and support to disabled veterans to ensure academic success.....	238,000
University of Arizona, Tucson, AZ, for the Integrative Medicine in Residency program.....	476,000
University of Arkansas at Little Rock, AR for a nursing education program, which may include equipment.....	71,000
University of Central Florida, Department of Political Science, Orlando, FL for the Lou Frey Institute of Politics.....	333,000
University of Guam Marine Laboratory, Mangilao, GU for equipment.....	143,000
University of Hawaii at Hilo Clinical Pharmacy Training Program, Hilo, HI, for clinical pharmacy training program and applied rural science program.....	951,000
University of Hawaii School of Law, Honolulu, HI, for health policy center.....	238,000
University of Idaho College of Engineering, Moscow, ID to develop a mining and mine safety curriculum, including purchase of equipment.....	238,000
University of Maine, Orono, ME, for technology upgrades, including the purchase of equipment.....	285,000
University of Maryland, College Park, MD for a public service fellowship program.....	951,000
University of Massachusetts Dartmouth, North Dartmouth, MA for the Center for Regenerative Biomaterials.....	95,000
University of Montana, Missoula, MT, to establish the Institute for Leadership and Public Service to fulfill the purposes of the Mansfield Center, including the creation of an endowment.....	238,000
University of Montevallo, Montevallo, AL for technology upgrades.....	190,000
University of New Hampshire, Manchester, NH, for technology upgrades, including the purchase of equipment.....	238,000
University of New Mexico, Albuquerque, NM for the American Indian Language Policy Research and Teacher Training Center	190,000
University of Northern Colorado, Greeley, Colorado, for professional development at the National Center on Severe & Sensory Disabilities	285,000

Project	Amount
University of Northern Iowa, Cedar Falls, IA for recruitment and enrollment of school administrators, which may include scholarships and equipment.....	48,000
University of Northern Iowa, Cedar Falls, IA, for equipment.....	476,000
University of Pittsburgh at Bradford, Bradford, PA for establishment of the Energy Institute.....	238,000
University of Pittsburgh, Pittsburgh, PA, to support a Center for Global Value and Innovation Networks.....	95,000
University of Scranton, Scranton, PA, for a health profession education and training initiative.....	95,000
University of South Dakota, Vermillion, SD, for equipment and wiring for the Research, Education and Economic Development Network.....	381,000
University of South Dakota, Vermillion, SD, for graduate programs on the digital preservation of recorded oral histories.....	409,000
University of Southern Maine, Portland, ME, for technology upgrades, including the purchase of equipment.....	333,000
University of Southern Mississippi, Hattiesburg, MS for curriculum and professional development.....	262,000
University of Tennessee, Martin, TN for a STEM initiative, which may include equipment.....	143,000
University of Texas at Arlington, Arlington, TX for purchase of equipment.....	143,000
University of Utah, Salt Lake City, UT, for distance learning for community of caring schools, including technology upgrade and purchase of equipment.....	95,000
University of Virginia Center for Politics, Charlottesville, VA for the Youth Leadership Initiative.....	285,000
University of Washington, Bothell, WA for nursing education program.....	333,000
University of Wisconsin - Platteville, Platteville, WI, for program support for entrepreneurial education.....	285,000
University of Wisconsin Oshkosh, Oshkosh, WI for the Center for the Advancement of Sustainable Processes and Environmental Research, including the purchase of equipment.....	95,000
University of Wisconsin-Green Bay, Green Bay, WI, for a comprehensive academic enrichment program to prepare low-income and first-generation high school students for college.....	285,000
Upper Iowa University, Fayette, IA, for equipment.....	238,000
Urban College of Boston, MA, to support higher education programs serving low-income and minority students.....	714,000
Utah Valley University, Orem, UT, to improve education and training programs for nursing graduates, including the purchase of equipment.....	285,000
Valley City State University, Valley City, ND, for a Center for Technology and Engineering Education.....	381,000
Vanguard University, Costa Mesa, CA for science, math, and nursing education and training, to include the purchase of equipment.....	190,000
Vincennes University, Vincennes, IN to purchase technology and equipment.....	381,000
Virginia Department of Correctional Education - Workforce and Community Transition Training for Incarcerated Youth Offenders Program, Richmond, VA, to improve access to postsecondary education for incarcerated individuals.....	95,000
Virginia Foundation for Community College Education - Great Expectations Program, Richmond, VA, to improve access to postsecondary education for foster care youth.....	95,000
Voices of September 11th, New Canaan, CT, for graduate education on digital archiving in relationship to the 9/11 Living Memorial Project.....	285,000

Project	Amount
Waldorf College, Forest City, IA for purchase of library materials and equipment relating to teacher training programs.....	95,000
Walsh University, North Canton, OH for curriculum development.....	333,000
Washington & Jefferson College, Washington, PA, for science education outreach programs.....	95,000
Waubonsee Community College, Sugar Grove, IL for a computer training program.....	238,000
Waubonsee Community College, Sugar Grove, IL for an automotive technology occupational training program, which may include equipment and technology.....	143,000
Webster University, St. Louis, MO for a nursing education program, which may include scholarships.....	262,000
Wentworth Institute of Technology, Boston, MA for a nanotechnology laboratory, which may include equipment.....	190,000
West Chester University, West Chester, PA, for technology infrastructure upgrades and acquisition.....	95,000
West Liberty State College, West Liberty, WV for technology and equipment.....	95,000
Western Kentucky University Research Foundation, Bowling Green, KY, for technology upgrades, including the purchase of equipment.....	2,379,000
Western Oklahoma State College, Altus, OK for equipment upgrades in nursing programs.....	190,000
Western Oklahoma State College, Altus, OK, for technology upgrades, including the purchase of equipment.....	95,000
Wheelock College, Boston, MA, for continued development of science programs for K-12 teachers.....	95,000
White Mountains Community College, Berlin, NH for the commercial driver license training program, which may include equipment.....	243,000
Wildlife Conservation Society, Bronx, NY for recruitment and training of science teachers, which may include curriculum development and scholarships.....	143,000
William Jewell College, Liberty, MO, for purchase of equipment.....	190,000
Wilson College, Chambersburg, PA, for science laboratory equipment acquisition.....	95,000
Wisconsin Association of Independent Colleges and Universities, Madison, WI, for consolidated administrative support functions for independent colleges and universities.....	285,000
Wofford College, Spartanburg, SC, for technology upgrades, including the purchase of equipment.....	285,000
Year Up Providence, Providence, RI, for a bridge to career and college program.....	571,000
Zane State College, Zanesville, OH for curriculum development, which may include equipment.....	200,000

For TRIO, the Department shall reserve \$7,745,000 of the funding increase, for a total of \$290,045,000, for the Student Support Services program, which will be re-competed in fiscal year 2009. Further, \$5,000,000 of the funding increase for Student Support Services shall be for college completion awards to provide grant aid to participating students who are at high risk of dropping out of college due to financial need. The Department shall ensure that Student Support Services projects that receive the college completion awards provide matching funds equal to 33 percent of the total award.

For other TRIO programs, the Department shall reserve the following: \$3,100,000 of the funding increase for Upward Bound Math-Science, for a total of \$34,100,000; \$1,300,000 of the increase, for a total of \$14,400,000, for Veterans Upward Bound; and \$2,970,000 of the funding increase, for a total of \$46,570,000, for the McNair Postbaccalaureate Achievement Program. The Department shall use any additional funds for Upward Bound Math Science, Upward Bound Veterans, and the McNair programs to fund high-ranking applicants from the 2007 competitions for these programs that did not receive an award.

The Department shall not obligate any funds for an Upward Bound evaluation until the Department submits a report including the specifications for the evaluation and provides a briefing to the Committees on Appropriations of the House of Representatives and the Senate on its proposal.

Within the \$313,212,000 provided for GEAR UP, the Department shall reserve \$4,405,000 of the increase over fiscal year 2008 for State grants. In addition, within the \$4,405,000, half of that shall be used to provide student scholarships. In addition, the Department shall reserve \$5,384,000 for Partnership grants. The Department shall give favorable consideration in any GEAR UP competition to Partnership Grant applicants that, in addition to providing early intervention services, guarantee college scholarships to GEAR UP students.

For Teacher Quality Enhancement Grants, the bill specifies that \$6,556,000 shall be available for the Department to continue funding the recipients of multi-year grants that were in effect prior to the recent reauthorization of the Higher Education Act, which modified the authorization for Teacher Recruitment Grants.

HOWARD UNIVERSITY

The bill includes \$234,977,000 for Howard University, which is \$1,733,000 above the fiscal year 2008 funding level and \$1,732,000 above the budget request. Within this amount, \$28,946,000 is for the Howard University hospital.

COLLEGE HOUSING AND ACADEMIC FACILITIES LOANS PROGRAM

The bill includes \$461,000 for the College Housing and Academic Facilities Loans Program, which is \$12,000 below the fiscal year 2008 funding level and the same as the budget request.

HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL FINANCING PROGRAM ACCOUNT

The bill includes \$10,354,000 for the HBCU Capital Financing Program Account, which is \$10,169,000 above the fiscal year 2008 funding level and the same as the budget request.

The bill specifies that within the amount provided, \$10,000,000 shall be used for loan subsidy costs. The bill also increases the total limit on bonds insured under this program from \$375,000,000 to \$725,000,000.

INSTITUTE OF EDUCATION SCIENCES

The bill includes \$617,175,000 for the Institute of Education Sciences (IES), which is

\$71,070,000 above the fiscal year 2008 funding level and \$41,072,000 below the budget request. The bill specifies that \$312,241,000 of total funding shall be available through fiscal year 2010.

IES should be the lead agency for congressionally authorized evaluations of Federal education programs using various methodologies, to ensure that the evaluations are rigorous, include scientific peer review, and are independent of the program offices. Given the concerns raised regarding the methodology utilized in at least one of IES's program evaluations as well as the operation of the What Works Clearinghouse, IES should be mindful that the methodology it employs for any program evaluation or assessment of evidence regarding the effectiveness of education interventions must be beyond reproach so as to ensure the highest degree of public confidence in the objectivity of its analyses.

Within the amount provided for Research, Development, and Dissemination, \$8,023,000 is included for the What Works Clearinghouse. GAO shall examine the What Works Clearinghouse reviews to determine if they meet current standards in terms of emphasizing large randomized and matched experiments, using outcome measures independent of treatments, and emphasizing research done over significant time periods. In addition, GAO should examine the pace of completion of reviews, the degree of consistency of standards and review procedures from topic to topic, and the clarity and usefulness of the What Works Clearinghouse for practicing educators, including the extent to which practicing educators utilize the What Works Clearinghouse. GAO shall also make recommendations for how the What Works Clearinghouse can make its reviews more scientifically valid, fair, timely and meaningful to educators and researchers at a lower cost. GAO shall submit a report of its findings to the Committees on Appropriations of the House of Representatives and the Senate.

DEPARTMENTAL MANAGEMENT PROGRAM ADMINISTRATION

The bill includes \$433,482,000 for Program Administration, which is \$22,208,000 above the fiscal year 2008 funding level and \$10,957,000 below the budget request.

The Secretary is directed to provide to the Committees on Appropriations of the House of Representatives and the Senate, a detailed inventory of the Department's greenhouse gas emissions, and a plan to reduce these emissions by December 31, 2009.

States and school districts face significant financial challenges in implementing all of the requirements of the No Child Left Behind Act. The Department is encouraged to provide a report to the Committees on Appropriations of the House of Representatives and the Senate detailing the amount of money Federal, State, and local governments are spending on No Child Left Behind-related testing requirements and how many hours in a school year are dedicated to testing, within one year following the enactment of this Act.

OFFICE FOR CIVIL RIGHTS

The bill includes \$96,826,000 for the Office for Civil Rights, which is \$7,214,000 above the fiscal year 2008 funding level and \$4,214,000 below the budget request.

The Department is encouraged to collaborate with relevant organizations to conduct a campus survey on the frequency of sexual harassment incidents on college campuses in order to assess the need for an online reporting system for sexual harassment.

OFFICE OF THE INSPECTOR GENERAL

The bill provides \$54,539,000 for the Office of the Inspector General, which is \$3,690,000 above the fiscal year 2008 funding level and the same as the budget request.

GENERAL PROVISIONS

Sec. 301. The bill continues a provision that prohibits funds under this Act from being used for the transportation of students or teachers in order to overcome racial imbalances or to carry out a plan of racial desegregation.

Sec. 302. The bill continues a provision that prohibits funds under this Act from being used to require the transportation of any student to a school other than the school which is nearest the student's home in order to comply with Title VI of the Civil Rights Act of 1964.

Sec. 303. The bill continues a provision that prohibits funds under this Act from being used to prevent the implementation of programs of voluntary prayer and meditation in public schools.

(TRANSFER OF FUNDS)

Sec. 304. The bill continues a provision that allows up to one percent of any discretionary funds appropriated for the Department of Education to be transferred between appropriations accounts, provided that no appropriation is increased by above three percent by any such transfer.

Sec. 305. The bill includes new language that states the signature pages submitted by Heart Butte School District in Pondera County, Montana, as part of its application for Impact Aid under Title VIII of the Elementary and Secondary Education Act of 1965 shall be considered to have been submitted timely and complete for purposes of receiving funding under such program for fiscal year 2009.

Sec. 306. The bill includes new language which allows the Outlying Areas to consolidate funds under title V of the Elementary and Secondary Education Act.

TITLE IV—RELATED AGENCIES COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

SALARIES AND EXPENSES

The bill includes \$5,094,000 for the Committee for Purchase From People Who Are Blind or Severely Disabled, which is \$187,000 above the fiscal year 2008 level and the same as the budget request.

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

OPERATING EXPENSES

The bill includes \$680,564,000 for the operating expenses of the programs administered by the Corporation for National and Community Service (CNCS), which is \$35,355,000 more than the fiscal year 2008 funding level and \$61,221,000 more than the budget request. Funding for the National Service Trust is provided in a separate appropriations account.

The maximum total dollars that may be used in fiscal year 2009 for Grants.gov/eGrants support, Training and Technical Assistance, and Recruitment and Retention activities shall not exceed the amount provided for these activities in fiscal year 2008.

Within the total for Innovation, Assistance, and Other Activities, the bill includes sufficient funding for merit-based competitive grants for supporting and expanding volunteerism. Previous partnership grantees, such as the Points of Light Foundation, America's Promise, and Communities in Schools, are expected to be among the eligible applicants. National programs that build

alignment among youth-serving organizations and other sectors to promote coordination of services for disadvantaged youth to achieve better outcomes are recommended for consideration.

NATIONAL SERVICE TRUST
(INCLUDING TRANSFER OF FUNDS)

The bill includes \$131,075,000 for the National Service Trust (Trust), to be available until expended. This amount is \$6,460,000 less than the fiscal year 2008 level and \$1,035,000 less than the budget request. The bill includes language that allows funds appropriated for the Trust to be invested without regard to apportionment requirements. Additionally, bill language is included allowing for funds to be transferred to the Trust from the Operating Expenses account upon determination that such transfer is necessary to support the activities of national service participants and after notice is transmitted to the Committees on Appropriations of the House of Representatives and the Senate.

SALARIES AND EXPENSES

The bill includes \$71,715,000 for the Corporation for National and Community Service Salaries and Expenses, which is \$3,956,000 more than the fiscal year 2008 funding level and the same as the budget request.

OFFICE OF INSPECTOR GENERAL

The bill includes \$6,512,000 for the Office of Inspector General, which is \$684,000 more than the fiscal year 2008 funding level and the same as the budget request.

ADMINISTRATIVE PROVISIONS

Sec. 401. The bill continues to include language regarding qualified student loans eligible for education awards.

Sec. 402. The bill continues to include language regarding the availability of funds for the placement of volunteers with disabilities.

Sec. 403. The bill continues to include language that CNCS shall make any changes to program requirements, service delivery, or policy only through public notice and com-

ment rulemaking to include service delivery changes in the administration and/or governance of national service programs.

Sec. 404. The bill continues to include language permitting professional corps program applicants that exceed a statutory living allowance/salary amount to apply for funds through State formula.

Sec. 405. The bill continues to include language to allow CNCS to solicit and accept compensated and commercial services of organizations and individuals (other than participants) to assist in programs administered by CNCS.

Sec. 406. The bill continues to include language that permits organizations operating projects under the AmeriCorps education awards to do so without regard to several administrative functions in the underlying statute.

Sec. 407. The bill continues to include language that combines separate matching requirements for AmeriCorps grants.

Sec. 408. The bill continues to include language that formula-based grants to States and territories to operate AmeriCorps programs may be made if the application describes certain criteria related to positions and qualifications and makes assurances with regard to subgrants prior to the execution of any subgrants.

(TRANSFER OF FUNDS)

Sec. 409. The bill continues to include language, although the bill moves the language to Administrative Provisions from Operating Expenses, allowing the transfer of any deobligated funds from closed out AmeriCorps grants to the National Service Trust.

Sec. 410. The bill includes language providing for a small State minimum of \$500,000 in State formula funds.

Sec. 411. The bill includes language giving CNCS flexibility to extend member service terms for up to six months.

Sec. 412. The bill includes language requiring that donations supplement and not supplant operations.

CORPORATION FOR PUBLIC BROADCASTING

The bill includes a fiscal year 2011 advance appropriation of \$430,000,000 for the Corporation for Public Broadcasting, which is \$10,000,000 over the enacted fiscal year 2010 appropriation and \$20,000,000 over the enacted fiscal year 2009 appropriation. The budget request included a \$220,000,000 rescission from the fiscal year 2010 appropriation and a \$200,000,000 rescission from the fiscal year 2009 appropriation.

In addition, the bill provides fiscal year 2009 appropriations of \$34,591,000 for digital conversion grants and \$26,642,000 for the national public radio interconnection project. The budget request did not include new funds for these purposes.

FEDERAL MEDIATION AND CONCILIATION
SERVICE

SALARIES AND EXPENSES

The bill includes \$45,476,000 for the Federal Mediation and Conciliation Service (FMCS), which is \$2,441,000 above the fiscal year 2008 funding level and \$650,000 above the budget request. Within the funds provided, not less than \$650,000 shall be used for the FMCS Labor-Management Grants Program.

FEDERAL MINE SAFETY AND HEALTH REVIEW
COMMISSION

SALARIES AND EXPENSES

The bill includes \$8,653,000 for Federal Mine Safety and Health Review Commission, which is \$698,000 above the fiscal year 2008 level and the same as the budget request.

INSTITUTE OF MUSEUM AND LIBRARY SERVICES

OFFICE OF MUSEUM AND LIBRARY SERVICES:
GRANTS AND ADMINISTRATION

The bill includes \$274,840,000 for the Institute of Museum and Library Services, which is \$11,332,000 above the fiscal year 2008 level and \$3,594,000 above the budget request.

Within the funds provided, the bill includes funds for the following activities in the following amounts:

Budget activity	FY 2009 bill	FY 2009 bill compared to—	
		FY 2008	FY 2009 Budget request
Library Services Technology Act (LSTA):			
Grants to States	\$171,500,000	+\$10,615,000	0
Native American Library Services	3,717,000	+143,000	0
National Leadership: Libraries	12,437,000	+278,000	— 278,000

MEDICARE PAYMENT ADVISORY COMMISSION
SALARIES AND EXPENSES

The bill includes \$11,403,000 for the Medicare Payment Advisory Commission, which is \$843,000 above the fiscal year 2008 level and the same as the budget request.

NATIONAL COUNCIL ON DISABILITY
SALARIES AND EXPENSES

The bill includes \$3,206,000 for the National Council on Disability, which is \$147,000 above the fiscal year 2008 level and the same as the budget request.

NATIONAL LABOR RELATIONS BOARD
SALARIES AND EXPENSES

The bill includes \$262,595,000 for the National Labor Relations Board, which is \$10,833,000 above the fiscal year 2008 level and the same as the budget request.

NATIONAL MEDIATION BOARD
SALARIES AND EXPENSES

The bill includes \$12,992,000 for the National Mediation Board (NMB), which is \$307,000 above the fiscal year 2008 level and \$560,000 above the budget request. The increase provided is intended to increase the number of arbitration cases heard and closed. NMB is directed to provide quarterly reports, beginning with the first quarter after enactment of this Act, describing the use of these funds and their impact on the backlog of section 3 arbitration cases, to the Committees on Appropriations of the House of Representatives and the Senate.

OCCUPATIONAL SAFETY AND HEALTH REVIEW
COMMISSION

SALARIES AND EXPENSES

The bill includes \$11,186,000 for the Occupational Safety and Health Review Commission, which is \$677,000 above the fiscal year 2008 funding level and the same as the budget request.

RAILROAD RETIREMENT BOARD
DUAL BENEFITS ACCOUNT

The bill includes \$72,000,000 for dual benefits, which is \$5,620,000 below the fiscal year 2008 funding level and the same as the budget request.

FEDERAL PAYMENT TO THE RAILROAD
RETIREMENT ACCOUNT

The bill includes \$150,000 for the interest earned on unnegotiated checks, which is the same as the fiscal year 2008 funding level and the budget request.

LIMITATION ON ADMINISTRATION

The bill includes a consolidated limitation of \$105,463,000 on the expenditure of Railroad Retirement and Railroad Unemployment Trust Funds for administrative expenses of the Railroad Retirement Board, which is \$3,581,000 above the fiscal year 2008 funding level and the same as the budget request.

LIMITATION ON THE OFFICE OF INSPECTOR
GENERAL

The bill includes authority to expend \$7,806,000 from the Railroad Retirement and Railroad Unemployment Insurance Trust Funds for the Office of Inspector General, which is \$758,000 above the fiscal year 2008 funding level and the same as the budget request. The bill includes language that clarifies the Inspector General's authority to receive funds to conduct audits, investigations and reviews of Medicare programs. The bill continues to prohibit the transfer of any other funds to the Office of the Inspector General.

SOCIAL SECURITY ADMINISTRATION

PAYMENTS TO SOCIAL SECURITY TRUST FUNDS

The bill provides \$20,406,000 for payments to Social Security trust funds, which is

\$7,734,000 below the fiscal year 2008 funding level and the same as the budget request.

SUPPLEMENTAL SECURITY INCOME PROGRAM

The bill includes \$30,471,537,000 for the Supplemental Security Income Program, which is \$3,525,366,000 above the fiscal year 2008 funding level and \$57,537,000 above the budget request.

LIMITATION ON ADMINISTRATIVE EXPENSES

The bill provides \$10,453,500,000 for a Limitation on Administrative Expenses for the Social Security Administration (SSA), which is \$708,922,000 above the fiscal year 2008 funding level and \$126,500,000 above the budget request. An additional \$31,000,000 in emergency funding was available to SSA in fiscal year 2008 for activities related to outreach and administration of economic stimulus payments.

The additional funds above the request are provided to accelerate SSA's effort to reduce the backlog of disability claims and to support improvements in other SSA services offered to the public. SSA should provide a report to the Committees on Appropriations of the House of Representatives and the Senate, not later than 180 days after enactment of this Act, which identifies the specific investments and major initiatives that have or will be made to improve SSA's key services to the public.

The bill includes new language designating that from within the amounts provided for the Limitation on Administrative Expenses, not less than \$264,000,000 may be used for conducting continuing disability reviews and redeterminations of eligibility under SSA's disability programs. An additional \$240,000,000 is also provided for these continuing disability reviews and redeterminations of eligibility. These amounts are the same as the budget request. A report to Congress on the obligation and expenditure of these additional amounts is required.

OFFICE OF INSPECTOR GENERAL
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$98,127,000 for the Office of Inspector General, which is \$6,212,000 above the fiscal year 2008 funding level and the same as the budget request.

TITLE V—GENERAL PROVISIONS

Sec. 501. The bill continues a provision to allow the Secretaries of Labor, Health and Human Services, and Education to transfer unexpended balances of prior appropriations to accounts corresponding to current appropriations to be used for the same purpose and for the same periods of time for which they were originally appropriated.

Sec. 502. The bill continues a provision to prohibit the obligation of funds beyond the current fiscal year unless expressly so provided.

Sec. 503. The bill continues a provision to prohibit appropriated funds to be used to support or defeat legislation pending before the Congress or any State legislature, except in presentation to the Congress or any State legislature itself.

Sec. 504. The bill continues a provision to limit the amount available for official reception and representation expenses for the Secretaries of Labor and Education, the Director of the Federal Mediation and Conciliation Service, and the Chairman of the National Mediation Board.

Sec. 505. The bill continues a provision to prohibit funds in this Act to be used to carry out a needle distribution program.

Sec. 506. The bill continues a provision to require grantees receiving Federal funds to clearly state the percentage of the total cost

of the program or project that will be financed with Federal money.

Sec. 507. The bill continues a provision to prohibit appropriated funds in this Act to be used for any abortion.

Sec. 508. The bill continues a provision to provide exceptions for sec. 507 and a provision to prohibit funds in this Act from being made available to a Federal agency or program, or to a State or local government, if such agency, program or government discriminates against institutional or individual health care entities because they do not provide, pay for, provide coverage of, or refer for abortions.

Sec. 509. The bill continues a provision to prohibit the use of funds in this Act concerning research involving human embryos. However, this language should not be construed to limit Federal support for research involving human embryonic stem cells listed on an NIH registry and carried out in accordance with policy outlined by the President.

Sec. 510. The bill continues a provision to prohibit the use of funds in this Act for any activity that promotes the legalization of any drug or substance included in schedule I of the schedules of controlled substances.

Sec. 511. The bill continues a provision to prohibit the use of funds in this Act to promulgate or adopt any final standard providing for a unique health identifier until legislation is enacted specifically approving the standard.

Sec. 512. The bill continues a provision related to certain annual reports to the Secretary of Labor.

Sec. 513. The bill continues a provision that prohibits the transfer of funds from this Act except by authority provided in this Act or another appropriation Act.

Sec. 514. The bill continues a provision to limit funds in this Act for public libraries to those libraries that comply with the requirements of the Children's Internet Protection Act.

Sec. 515. The bill continues a provision to limit technology funds in this Act for elementary and secondary schools to those schools that comply with the requirements of the Children's Internet Protection Act.

Sec. 516. The bill continues a provision regarding procedures for reprogramming of funds in this or previous appropriations Acts.

Sec. 517. The bill continues a provision pertaining to appointments to scientific advisory committees.

Sec. 518. The bill continues a provision requesting each department and related agency funded through this Act to submit an operating plan within 45 days of enactment of this Act, detailing any reprogramming of funds which result in a different funding allocation than that in this Act, the accompanying detailed table, or budget request.

Sec. 519. The bill continues a provision that prohibits the use of funds in this Act to employ workers described in section 274A(h)(3) of the Immigration and Nationality Act.

Sec. 520. The bill includes a provision that requires the Secretaries of Labor, Health and Human Services, and Education to submit a quarterly report to the Committees on Appropriations of the House of Representatives and the Senate containing certain information on noncompetitive contracts, grants, and cooperative agreements exceeding \$100,000 in value, excluding those awarded on a formula basis or directed by law.

Sec. 521. The bill continues a provision that prohibits the use of funds in this Act for a contract or grant exceeding \$5,000,000 unless the prospective contractor or grantee

makes certain certifications regarding Federal tax liability.

Sec. 522. The bill modifies a provision prohibiting funds in this Act to process claims for credit for quarters of coverage based on work performed under a Social Security number that was not the claimant's number and the performance of such work under such number has formed the basis for a conviction of the claimant of a violation of section 208(a)(6) or (7) of the Social Security Act.

Sec. 523. The bill includes a provision making technical corrections to title XIV of the American Recovery and Reinvestment Act of 2009 pertaining to the State Fiscal Stabilization Fund.

TITLE VI—AFGHAN ALLIES PROTECTION ACT OF 2009

The bill includes language to increase the number of certain Afghan aliens granted special immigrant status to not more than 1,500 per year for each of fiscal years 2009 through 2013, authorize up to eight months of resettlement assistance for such special immigrants, mandate a report from the Secretaries of Homeland Security and State regarding the implementation of these provisions, and require annual reporting on the use of special immigrant visas.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending

items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

DIVISION G—LEGISLATIVE BRANCH
APPROPRIATIONS ACT, 2009

TITLE I

Diversity in Hiring and Advancement.—While many Legislative Branch agencies have achieved reasonable diversity at the lower wage tiers, diversity levels are sharply lower among managers and executives. More can be done to maximize diversity in the workplace, especially in the executive ranks. All Legislative Branch agencies who have not done so are directed to adopt by May 31, 2009 a formal written policy, in accordance with all applicable Federal laws, to develop and institute an affirmative action plan with specific goals and objectives to further the ability of women, minorities, and individuals with disabilities to achieve balanced representation within the Legislative Branch workforce and management.

SENATE

The bill includes \$895,030,000 for Senate operations. This amount is \$63,334,000 above the current level and is \$45,867,000 below the budget request.

HOUSE OF REPRESENTATIVES

The bill includes \$1,301,267,000 for House operations. This amount is \$118,432,000 above the current level and is \$32,594,000 below the budget request.

Electronic Access to Hearing Documents.—To reduce costs and reduce the carbon footprint of the operations of the House of Representatives and expand public access to congressional information, committees of the House are encouraged to post their hearings online on the Government Printing Office web site, GPO Access. Online posting of hearings can help reduce the need for printing and storage of paper copies of hearing records and facilitate accessibility for congressional staff and the general public.

Expanded Hours for the House Fitness Center.—The physical and mental health of House staff is important. The Chief Administrative Officer of the House is asked to review the "extended hours" pilot program and if appropriate explore the possibilities of further extending the hours of operation of the fitness facility.

Expanded Hours for the Child Care Center.—Expanded hours of operation at the House Child Care Center need to be considered to accommodate employees who must work late hours. The Chief Administrative Officer of the House is asked to study the feasibility and costs associated with extending the hours of operation beyond the standard work day. This study should be completed and provided to the House Committee on Appropriations no later than June 30, 2009.

Child Care Center Playground.—The current playground at the House Child Care Center frequently overheats in the summer, uses space inefficiently, and lacks many child development tools that would benefit children at the Center. The Architect of the Capitol (AOC) and the Office of the Chief Administrative Officer (CAO) of the House should make the project a priority and develop a plan to ensure that the playground is ready by summer 2009. Accordingly, AOC and the CAO are asked to submit a report to the House Committee on Appropriations on the status of the playground within 30 days of enactment of this Act. The report should include a detailed work plan with specific dates of when the planning, design, and construction of the playground will be complete as well as the actions being taken to ensure that the playground is open by summer 2009.

Congressional Technology Coordination.—The House of Representatives needs a stra-

tegic and coordinated plan that will prepare for the future technology needs of the institution. A 2006 report commissioned by the Chief Administrative Officer and the Committee on House Administration, entitled Strategic Technology Road Map for the Ten Year Vision of Technology in the House of Representatives, provided a suggested structure for Information Technology evaluation and decision making. The Chief Administrative Officer, the Clerk, and the Sergeant at Arms are asked to prepare a report by June 30, 2009 on their efforts or plans to develop House-wide data-sharing standards; implement standard legislative document formats; address the increasing resource challenges of Member offices; and identify disparate systems throughout the institution that prevent it from taking advantage of economies of scale.

JOINT ITEMS

JOINT ECONOMIC COMMITTEE

The bill provides \$4,626,000 for the Joint Economic Committee. This amount is \$228,000 above the current level and is the same as the budget request.

JOINT COMMITTEE ON TAXATION

The bill provides \$10,719,000 for the Joint Committee on Taxation. This amount is \$1,522,000 above the current level and is \$420,000 below the budget request.

OFFICE OF THE ATTENDING PHYSICIAN

The bill provides \$3,105,000 for the Office of the Attending Physician. This amount is \$314,000 above the current level and is \$7,000 above the budget request. The amount above the budget request provides an allowance for a Senior Medical Officer.

OFFICE OF CONGRESSIONAL ACCESSIBILITY
SERVICES

The bill provides \$800,000 for the Office of Congressional Accessibility Services. This is a successor office to the Special Services Office following enactment of the Capitol Visitor Center Act of 2008.

CAPITOL GUIDE SERVICE AND SPECIAL
SERVICES OFFICE

The bill provides \$9,940,000 for the Capitol Guide Service. This amount is available for the Architect of the Capitol to use as part of the Capitol Visitor Center appropriation due to the transfer of the Capitol Guide Service to the Architect of the Capitol following enactment of the Capitol Visitor Center Act of 2008.

STATEMENTS OF APPROPRIATIONS

The bill provides \$30,000 for Statements of Appropriations. This amount is the same as the current level and is also the same as the budget request.

CAPITOL POLICE

Salaries

The bill provides \$248,000,000 for salaries and benefits of the Capitol Police. This amount is \$15,782,000 above the current level and is \$21,223,000 below the budget request. The Capitol Police are expected to proceed with filling vacancies on the basis of management-determined priorities, and to provide the Committees on Appropriations notification of such determinations on a regular basis.

This level of funding will support the current staffing level of 1702 sworn and 414 civilian FTEs. In addition, increases in FTEs have been provided which are associated with the Library of Congress Police Merger for fiscal year 2009: 73 sworn, 24 sworn attrition, and 4 civilian support staff. An additional 10 sworn FTE have been funded re-

lated to maintaining the operations in the Cannon and Russell tunnels with the opening of the Capitol Visitor Center. The total authorized FTEs for fiscal year 2009 are 1799 sworn and 418 civilian.

It is noted that there is confusion and inconsistency concerning whether Capitol Police staffing authorization and utilization are reported as positions or FTEs. It is expected that budget submissions and agency reports use FTEs consistent with the OMB definition.

General Expenses

The bill provides \$57,750,000 for general expenses of the Capitol Police. This amount is \$8,972,000 above the current level and is \$6,681,000 below the budget request. It includes \$2,750,000 for the Capitol Police to begin migrating accounting services to the Library of Congress as part of an effort to move towards financial management cross-servicing for as many Legislative Branch agencies as practicable in order to achieve cost savings through the elimination of duplicative systems.

Vehicle Fleet.—There is concern about the size of the Capitol Police's overall vehicle fleet. The Capitol Police shall submit a vehicle analysis by April 30, 2009 justifying the overall size of its fleet, including motorcycles, and showing a detailed five year plan to manage the fleet. This plan should include an analysis of Home-To-Work vehicles, including justifications for this use, and an update on the Department's effort to utilize more energy efficient vehicles. The Department shall refrain from purchasing, leasing or acquiring vehicles without notifying the Committees on Appropriations until the Committees have reviewed the detailed five year plan.

ADMINISTRATIVE PROVISION

(INCLUDING TRANSFER OF FUNDS)

Section 1001 authorizes transfers between the Salaries and General Expenses accounts upon the approval of the Committees on Appropriations.

OFFICE OF COMPLIANCE

SALARIES AND EXPENSES

The bill provides \$4,072,000 for salaries and expenses of the Office of Compliance. This amount is \$730,000 above the current level and is \$236,000 below the budget request. It provides for 21 FTEs.

The Office of Compliance (OOC) should operate in a consistent, well-documented manner when dealing with regulated agencies, balancing compliance assistance with enforcement responsibilities. However, the OOC has not established clear documentation of the processes and criteria for issuing findings or citations, or for accepting agencies' proposed abatement plans. Furthermore, OOC has failed to establish a process for dispute resolution mechanisms for citations or technical disagreements. It is expected that the Office will act to establish documented procedures and continue to work to improve its communication with the regulated community. A report to the Committees on Appropriations is due within 60 days of enactment of this Act.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

The bill provides \$44,082,000 for salaries and expenses of the Congressional Budget Office. This amount is \$6,776,000 above the current level and is \$1,342,000 above the budget request. It will fund an additional 15 FTEs required for health care analysis and other congressional priorities as well as fund the Congressional Budget Office's new responsibilities under the Emergency Economic Stabilization Act of 2008.

ARCHITECT OF THE CAPITOL

GENERAL ADMINISTRATION

The bill includes \$90,659,000, of which \$1,505,000 will remain available until September 30, 2013, for General Administration. This amount is \$10,962,000 above the current level and is \$8,452,000 below the budget request.

It is expected that the Architect of the Capitol will be part of the cross-servicing approach being developed within the Legislative Branch. The Architect of the Capitol is directed to suspend efforts to pursue an independent effort.

With respect to operations and projects:

Operating Budget	\$ 89,154,000
Project Budget:	
1. Constant Volume Systems Conv. To VAV, Energy (Study)	350,000
2. Daylight Harvesting Energy (Study)	300,000
3. Domestic Water Process Survey, Energy (Study)	30,000
4. Electrical Sub-Metering, Energy (Study)	100,000
5. Existing Motor Premium, Energy (Study)	100,000
6. Retro-Commission HVAC Systems, Phase II, Energy (Study)	500,000
7. Server/HVAC, GA, Energy (Study)	125,000
Total, General Administration	\$90,659,000

CAPITOL BUILDING

The bill includes \$35,840,000, of which \$10,681,000 will remain available until September 30, 2013, for the operation and maintenance of the Capitol building. This amount is \$11,810,000 above the current level and is \$1,800,000 below the budget request.

With respect to operations and projects:

Operating Budget:	\$25,159,000
Project Budget:	
1. Conservation of Wall Paintings	499,000
2. Smoke Control System, Grand Stairs, House & Senate	7,190,000
3. Minor Construction	2,992,000
Total, Capitol Building	\$35,840,000

CAPITOL GROUNDS

The bill includes \$9,649,000, of which \$340,000 will remain available until September 30, 2013, for the care and improvement of the grounds surrounding the Capitol, the House and Senate office buildings, and the Capitol Power Plant. This amount is \$416,000 less than the current level and is \$340,000 above the budget request.

With respect to operations and projects:

Operating Budget:	\$9,309,000
Project Budget:	
1. Summer House Restoration (Design)	340,000
Total, Capitol Grounds	\$9,649,000

SENATE OFFICE BUILDINGS

The bill includes \$69,359,000, of which \$9,743,000 will remain available until September 30, 2013, for the maintenance, care and operation of the Senate office buildings. This amount is \$748,000 below the current level and is \$4,579,000 above the budget request.

With respect to operations and projects:

Operating Budget	\$59,616,000
Project Budget:	
1. Sprinkler System Installation, SUG	1,530,000
2. Replace Modular Furniture, HSOB	2,993,000
3. Panelboard and Step Down Transformer Replacement, HSOB	160,000
4. Minor Construction	5,060,000
Total, Senate Office Buildings	\$69,359,000

HOUSE OFFICE BUILDINGS

The bill includes \$65,814,000, of which \$19,603,000 will remain available until September 30, 2013, for the maintenance, care and operation of the House office buildings. This amount is \$343,000 above the current level and is \$13,873,000 below the budget request.

With respect to operations and projects:

Operating Budget	\$46,211,000
Project Budget:	
1. CAO Project Support	6,503,000
2. Prescriptive Egress Improvements, LHOB	5,500,000
3. Minor Construction	7,505,000
4. Jacksonville Bandstand	95,000
Total, House Office Buildings	\$65,814,000

CAPITOL POWER PLANT

In addition to the \$8,000,000 made available from receipts credited as reimbursements to this appropriation, the bill includes \$149,042,000 for maintenance, care and operation of the Capitol Power Plant. Of this amount, \$63,570,000 will remain available until September 30, 2013. This amount is \$63,945,000 above the current level and is \$70,250,000 below the budget request.

With respect to operations and projects:

Operating Budget (net)	\$85,472,000
Project Budget:	
1. Chiller Replacement, PPWP (Design)	1,720,000
2. ERP Chiller Relocation, Phase II, PPEP (Design)	1,000,000
3. Tunnel Program	56,400,000
4. Wickes Boiler Modernization and Controls Replacement, CPP (Design)	450,000
5. Minor Construction	4,000,000
Total, Capitol Power Plant (net)	\$149,042,000

LIBRARY BUILDINGS AND GROUNDS

The bill includes \$39,094,000 for structural and mechanical care of Library buildings and grounds. Of this amount, \$13,640,000 will remain available until September 30, 2013. This amount is \$11,610,000 above the current level and is \$14,177,000 below the budget request.

With respect to operations and projects:

Operating Budget	\$25,454,000
Project Budget:	
1. Cellar Egress Exit Stair, JAB	380,000
2. Egress Improvements, LOC (Design)	1,000,000
3. Emergency Generator Replacement, LOC (Design)	660,000
4. Garage Structural Repairs and Entry Improvements, JAB (Design)	1,000,000
5. High Voltage Switchgear Replacement, JMMB	1,890,000

6. High Voltage Switchgear Replacement, TJB	1,660,000
7. North Egress Exit, JAB	880,000
8. Smoke Detector Upgrades, JAB	3,990,000
9. South Egress Exit, JAB	180,000
10. Minor Construction	2,000,000
Total, Library Buildings and Grounds ...	\$39,094,000

CAPITOL POLICE BUILDINGS, GROUNDS AND SECURITY

The bill includes \$18,996,000, of which \$3,497,000 will remain available until September 30, 2013, for Capitol Police buildings, grounds and security. This amount is \$4,067,000 above the current level and is \$5,930,000 below the budget request.

With respect to operations and projects:

Operating Budget	\$15,499,000
Project Budget:	
1. USCP Fiber Connectivity, CPBG&S	1,500,000
2. Vehicle Barrier Vault Upgrades, CPBG&S	1,000,000
3. Minor Construction	997,000
Total, Capitol Police Buildings, Grounds and Security	\$18,996,000

BOTANIC GARDEN

The bill includes \$10,906,000, of which \$2,055,000 shall remain available until September 30, 2013, for the Botanic Garden. This amount is \$2,120,000 above the current level and is \$805,000 above the budget request.

With respect to operations and projects:

Operating Budget	\$8,851,000
Project Budget:	
1. Fountain Vault and Utility Feed Upgrade, Phase III, BGBF 1,050,000	
2. Botanic Garden Administration Building Repairs 1,005,000	
Total, Botanic Garden	\$10,906,000

CAPITOL VISITOR CENTER

The bill includes \$40,227,000 for the Capitol Visitor Center, of which \$31,124,000 will be available until expended for the purpose of completing construction of the Center and \$9,103,000 is available for operations. The total amount is \$11,546,000 above the current level and is \$4,320,000 below the budget request.

In addition, funds included under the Capitol Guide Service account are available to the Architect of the Capitol for the Capitol Visitor Center due to the transfer of the Capitol Guide Service to the Architect of the Capitol as part of the Capitol Visitor Center Act of 2008.

It is expected that any reprogramming of funds from the program, project and activity levels agreed to within this account by the Committees on Appropriations shall be subject to the normal reprogramming requirements.

Staff Tour Training.—Concerns have been raised about the quality and consistency of the training program for staff-led tours, known as the Congressional Historical Interpretive Training Program (CHIP). It is expected that improvements will be made to ensure this program is meeting expectations to enhance staff-led tours. The Chief Executive Officer for Visitor Services is directed to present within 30 days of enactment of this Act proposals for improving the program, without an increase in budgetary resources.

Hispanic and Asian American Exhibits.—There is continuing concern about the lack

of representation of Hispanic and Asian American groups in the CVC, as well as African Americans, women, and Pacific Islanders. The Architect of the Capitol and the Chief Executive Officer for Visitor Services are directed to prepare a report within 90 days after enactment of this Act on the options and costs associated to remedy these omissions.

ADMINISTRATIVE PROVISIONS

Section 1101 provides for proceeds from certain recycling programs being applied to other environmentally friendly efforts. Section 1102 provides for the leasing of space for the Library of Congress by the Architect of the Capitol.

LIBRARY OF CONGRESS

SALARIES AND EXPENSES

The bill includes \$412,680,000 for salaries and expenses of the Library of Congress, plus \$6,350,000 in offsetting receipts. This amount is \$24,219,000 above the current level and is \$932,000 above the budget request. The bill includes specific amounts for designated purposes and provides \$7,511,000 in support of the National Digital Information and Infrastructure Preservation Program (NDIIPP).

The Inspectors General of the Legislative Branch participating in a financial system cross-servicing agreement with the Library's Office of the Chief Financial Officer are directed to select a single independent auditing firm to conduct the annual financial statement audits for the participating agencies. The Inspectors General of these agencies shall form a committee, chaired by the Library's Inspector General or their appointee, to facilitate the effort to select a common auditor.

Asian American and Pacific Islander Collection.—It is encouraging that the Library of Congress has committed to establish an Asian American and Pacific Islander (AAPI) Collection within the Asian Division. The goal of the AAPI collection would not only be to finally collect and catalogue the numerous materials already within the Library, but also to expand to a nationally coordinated effort to catalogue and build upon the resources from other collections. The AAPI Collection will be a valuable national resource to libraries, museums, archives, organizations and studies programs interested in the histories and cultures of the AAPI communities. Since the AAPI Collection is in its infancy, there are concerns about its future growth. The Library of Congress is directed to provide to the Committees on Appropriations of the House and Senate, no later than April 30, 2009, a detailed strategy for the development of the AAPI Collection, including expected timelines and funding proposals.

Child Care Center.—There is interest in ensuring access for low-income families to the Library's child care center. The Library of Congress is requested to work with the Library of Congress Child Care Association to review whether revenues and costs are aligned to provide for the lowest possible tuition operationally feasible. This review and a report should be provided to the Committees on Appropriations of the House and Senate by May 31, 2009.

Franklin Collection.—There continues to be support for the goal of bringing the Library's extensive 3,000 text collection of American books that were translated into Arabic, Persian, Pashtu, and Indonesian online in a digital format. To further the availability and use of this collection, the Library of Congress, Library Services is directed to devote the required resources to obtain copyright

permission and bring this collection online in a digital format.

American Folklife Center.—The work of the American Folklife Center (AFC) of the Library of Congress is to preserve and present the cultural legacy of the nation. Central to this mission is its role in safekeeping major collections such as the Alan Lomax Collection. No less precious are other private collections recently acquired by the AFC that, taking up where Lomax left off, document America's folk, tribal and ethnic musical traditions from the 1960s forward to the present. A half century from now, such collections will be considered as important, and be as cherished by a new generation of Americans, as the Lomax recordings are today. The AFC is currently working to complete the preservation and digital conversion of these newer collections, which are essential to providing the nation with a complete and unbroken record of America's cultural and musical heritage. These efforts will provide American citizens with access to major cornerstones of twentieth century American folk music documentation that collectively define the essence of America's cultural legacy to the world. Once the digital conversions are completed, the AFC will showcase these new collections and their accessibility to the nation through a series of activities including scholarly symposium focused on the new collections and on the history and legacy of the folk arts organizations that created them; musical performances by great folk artists documented in the collections; the creation of a traveling exhibit; and audio/video website enhancements to showcase portions of the new collections and publicize their arrival at the AFC. It is anticipated that the cost of this effort will be \$350,000.

COPYRIGHT OFFICE

SALARIES AND EXPENSES

The bill includes \$18,277,000, and an additional \$33,315,000 made available from receipts, for salaries and expenses of the Copyright Office. This amount is \$12,956,000 above the current level and is the same as the budget request.

Pre-1972 Sound Recordings.—The Register of Copyrights is directed to conduct a study on the desirability of and means for bringing sound recordings fixed before February 15, 1972, under federal jurisdiction. The study is to cover the effect of federal coverage on the preservation of such sound recordings, the effect on public access to those recordings, and the economic impact of federal coverage on rights holders. The study is also to examine the means for accomplishing such coverage. As part of this effort, the Register of Copyrights should publish notice of the study and provide a period during which interested persons may submit comments. The Register of Copyrights is to submit a report on the results of this study to the Committees on Appropriations of the House and Senate no later than two years after the enactment of this Act. The report should include any recommendations that the Register considers appropriate.

CONGRESSIONAL RESEARCH SERVICE

SALARIES AND EXPENSES

The bill includes \$107,323,000 for salaries and expenses of the Congressional Research Service within the Library of Congress. This is \$4,979,000 above the current level and is the same as the budget request.

Public Access to Legislative Data.—There is support for enhancing public access to legislative documents, bill status, summary information, and other legislative data

through more direct methods such as bulk data downloads and other means of no-charge digital access to legislative databases. The Library of Congress, Congressional Research Service, and Government Printing Office and the appropriate entities of the House of Representatives are directed to prepare a report on the feasibility of providing advanced search capabilities. This report is to be provided to the Committees on Appropriations of the House and Senate within 120 days of the release of Legislative Information System 2.0.

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

The bill includes \$68,816,000 for the salaries and expenses of the National Library Service for the Blind and Physically Handicapped. This amount is \$1,893,000 above the current level and is the same as the budget request. It is noted that the contract award for Digital Talking Books came back at a significantly lower cost than anticipated while still allowing the project to move forward on its expected timeline and providing more players and titles than originally planned.

ADMINISTRATIVE PROVISIONS

Section 1201 provides for expenses related to official representation for the incentive awards program. Section 1202 provides obligation authority for various Library programs. Section 1203 provides authority to transfer funds between Library accounts. Section 1204 provides authority for members of the Abraham Lincoln Bicentennial Commission to serve through the life of the Commission.

GOVERNMENT PRINTING OFFICE

CONGRESSIONAL PRINTING AND BINDING

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$96,828,000 for printing and binding of congressional documents at the Government Printing Office. This amount is \$7,053,000 above the current level and is \$1,100,000 below the budget request. It will provide the funding required to pay the FY 2007 and FY 2008 shortfall as well as fund the FY 2009 revised estimate for congressional printing.

OFFICE OF SUPERINTENDENT OF DOCUMENTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill includes \$38,744,000 for the salaries and expenses of the Superintendent of Documents. This amount is \$3,831,000 above the current level and is \$4,682,000 below the budget request.

GOVERNMENT PRINTING OFFICE REVOLVING FUND

The bill provides \$4,995,000 for the Government Printing Office Revolving Fund. This is \$4,995,000 above the current level and is \$28,005,000 below the budget request.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

The bill includes \$531,000,000 in direct appropriations for the Government Accountability Office (GAO), plus \$7,635,000 in offsetting collections derived from reimbursements for conducting financial audits of government corporations and rental of space in the GAO building. This amount is \$31,252,000 above the current level and is \$7,152,000 below the budget request.

Technology Assessment Studies.—Funding continues to be provided for GAO to conduct technology assessment studies that provide early indications of the probable beneficial and adverse impacts of the application of

technology and develop other related information that may assist the Congress during deliberations on pending legislation. GAO is reminded that for the assessments to be of benefit to the Congress, GAO must reach out and work with both bodies of Congress regarding these studies.

Comptroller General Annuity.—The lifetime salary annuity provided to the Comptroller General after completion of a 15-year term is extravagant, particularly in the current economic climate. GAO is directed to contract with the National Academy of Public Administration for the latter to conduct an independent review of the structure and compensation of the position and determine whether the existing lifetime salary annuity is necessary to preserve the Comptroller General’s independence. The review should include a comparison of the Comptroller General annuity to the retirement benefits offered for other federal positions of a similar character where independence is a key concern, and explain whether the Comptroller General’s position truly requires a full-salary annuity benefit to preserve independence if other positions of a similar character do not. The results of this review are to be provided to the Committees on Appropriations no later than July 31, 2009.

ADMINISTRATIVE PROVISIONS

Section 1301 repeals a number of outmoded Congressional mandates for GAO audits.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

The bill includes \$13,900,000 for payment to the Open World Leadership Center Trust Fund. This is \$4,922,000 above the current level and is the same as the budget request.

Open World Funding.—A large portion of the Open World program is devoted to judicial issues, issues of interest to the State Department, and issues related to the legislative process. The strain on Legislative Branch resources from continuing to fund this program is difficult to sustain. Since significant emphasis is being placed on judicial issues and on issues of interest to the State Department, a shared funding for this program would be appropriate. Therefore, the Open World Leadership Center Board of Trustees is directed to work with the Department of State and the Judiciary to assess the feasibility of shared funding for this program. The Board of Trustees is expected to pursue this avenue of potential shared funding and report back to the Committees on Appropriations of the House and Senate no later than May 30, 2009.

JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The bill includes \$430,000 for the John C. Stennis Center for Public Service Training and Development. This amount is \$1,000 more

than the current level and is the same as the budget request.

TITLE II—GENERAL PROVISIONS

The bill includes nine general provisions carried in prior fiscal years. Section 210 prohibits Inspectors General of the Library of Congress and the Architect of the Capitol from using appropriated funds to purchase, maintain, or carry firearms.

DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the bill or this explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

LEGISLATIVE BRANCH

Agency	Account	Project	Amount (in dollars)	Requester(s)
Architect of the Capitol	House Office Buildings	Renovation of the Jacksonville Bandstand	\$95,000	LaHood, Ray
Library of Congress	Salaries & Expenses	Bob Graham Center for Public Service Studies in Participatory Citizenship	\$95,000	Wasserman Schultz, Debbie

AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$5,360,318,000 for Diplomatic and Consular Programs, which is \$819,231,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$3,951,000 below the request. Of these funds, \$4,243,318,000 is for ongoing operations, including public diplomacy activities, and \$1,117,000,000 is for Worldwide Security Protection. The bill separates the functions funded under this heading to provide more transparency. The Department of State may reprogram funds as required, subject to consultation with, and notification of, the Committees on Appropriations. The functions are allocated as follows:

Human resources: \$2,118,598,000 for all American salaries at overseas and domestic United States diplomatic missions.

Overseas programs: \$1,548,617,000 for the operational programs of regional bureaus of the Department of State, which are responsible for managing United States foreign policy through bilateral and multilateral relationships. Funds made available for fiscal year 2009 will support 267 United States embassies, consulates, and other diplomatic posts worldwide.

Diplomatic policy and support: \$585,078,000 for the operational programs of the functional bureaus of the Department of State to provide overall policy direction, coordination and program management among United States missions abroad.

Security programs: \$1,108,025,000 for the operation of security programs, including for Worldwide Security Protection (WSP) and the Bureau of Diplomatic Security, to protect diplomatic personnel, overseas diplomatic missions, residences, domestic facilities and information. In addition to WSP programs, \$134,927,000 is included within the Human Resources function, equal to the request, for salaries to make up the total amount in the bill for security protection worldwide.

In addition, the bill includes authority to collect \$8,110,150 from certain authorized fees and payments. The Department of State also projects that \$2,124,458,000 will become available in fiscal year 2009 from authorized fee revenues for the Border Security Program of the Department of State, including an increase of \$64,396,000 to continue to improve passport processing operations.

The bill includes authority for the Secretary of State to transfer up to \$10,000,000 of the funds available under this heading to funds available under the "Emergencies in the Diplomatic and Consular Service" heading for emergency evacuations and rewards payments, as authorized.

Enhancing Diplomatic Staffing and Readiness

Increasing the Department of State personnel capacity and capabilities is a priority in this bill. Diplomatic staffing increases resulting from the Diplomatic Readiness Initiative undertaken by the Department of State and the Committees on Appropriations between fiscal years 2002 through 2004 were depleted due to the Department's decision to move more positions to Iraq and Afghani-

stan. This has led to vacancies at many posts overseas and has inhibited necessary training of diplomatic personnel in critical languages. The bill provides funding to fill vacant positions, expand critical language training and place more diplomats in countries where there is a growing United States strategic interest. Within the funds made available in this Act, and in Public Law 110-252, the Secretary of State should have sufficient resources to hire the 500 positions proposed in the fiscal year 2009 request. In this process, the Secretary is urged to further reduce domestic positions to bolster areas critical to United States interests around the world, such as public diplomacy and consular services.

There has been a longstanding concern with the disparity in pay between rank and file Foreign Service Officers (FSOs) and senior FSOs, whose pay is tied to the locality paid in the District of Columbia. This disparity has damaged morale, caused attrition in the Foreign Service and made it difficult to attract new hires. The bill provides \$41,000,000, as requested, to eliminate this disparity by paying eligible members of the Foreign Service up to the amount of the locality-based comparability payment that would be payable as if their official duty station were in the District of Columbia. The relevant authorizing committees are urged to pass legislation expeditiously authorizing the use of these funds.

Worldwide Security Protection

The bill provides \$1,117,000,000 for Worldwide Security Protection.

Security training.—The fiscal year 2009 budget request included \$17,551,000 to develop a consolidated training center for the Bureau of Diplomatic Security to provide expanded hard and soft skills security training to foreign affairs community members serving in increasingly dangerous environments overseas. The Secretary of State shall consult with the Committees on Appropriations in advance of funds being made available for this purpose and shall provide the Committees with regular updates on the status of the project.

Visa and passport security plan.—The Department of State's ongoing work to both detect and disrupt terrorist travel continues to be supported in this bill and funds are included to support additional investigative agents and support staff personnel to enhance visa and passport security.

Funding Directives

Cultural heritage.—The Department of State is directed to provide \$6,500,000 to preserve cultural heritage through Department of State programs and activities, of which \$5,500,000 shall be for the Ambassador's Fund for Cultural Preservation including for at least two large projects of approximately \$500,000 each, and \$1,000,000 shall be for the Cultural Antiquities Task Force. The Department of State should consult with the Committees on Appropriations prior to the obligation of funds.

Human rights monitoring.—The Secretary of State is directed to increase the number of human rights officers assigned to Beijing, People's Republic of China, and submit a report to the Committees on Appropriations not later than 90 days after enactment of this Act on these efforts.

Intelligence and research.—The bill includes sufficient funding to support the fiscal year 2009 request for the Bureau of Intelligence and Research. In addition, section 7034(1) makes available \$5,000,000, from funds appropriated under the "Economic Support Fund"

heading to continue the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII).

Iraq diplomatic operations.—The Department of State is strongly urged to regularize the planning and budgeting for diplomatic operations in Iraq, to include rightsizing of personnel, and the fiscal year 2010 budget request should include funding for ongoing functions.

IT security and coordination.—The Department of State is directed to provide sufficient funds for IT security programs, and, through a consultative process, to improve coordination of IT and cybersecurity programs with other United States Government agencies, particularly the United States Agency for International Development (USAID) and the Department of Defense.

Monitoring of military training and equipment.—While considerable effort is made by the Department of State to vet candidates for United States military training, effectiveness varies significantly among embassies and there have been gaps and weaknesses. In addition, little is done to track the uses of equipment, including weapons and ammunition, which is provided to foreign forces. The bill provides \$2,000,000 above the request to the Bureau of Democracy, Human Rights, and Labor for these purposes, which continues an initiative begun in fiscal year 2008. These funds are subject to prior consultation with the Committees on Appropriations.

Public diplomacy.—The bill includes a total of \$394,806,000 for public diplomacy, including \$264,169,000 for programs and \$130,637,000 for salaries under this heading, and an additional \$11,000,000 is available in fee revenue generated by the Border Security Program, equal to the request.

Soft targets.—The Department of State shall provide \$25,500,000 for security enhancements to soft targets such as overseas schools and residential compounds. Additional funds should be used in countries and regions impacted by political instability.

Special representative and policy coordinator for Burma.—The Department of State shall provide necessary administrative expenses, including salary and travel, for the Policy Coordinator for Burma, as authorized by section 7 of the Tom Lantos Block Burmese JADE (Junta's Anti-Democratic Efforts) Act of 2008 (Public Law 110-286).

Tibet.—The Secretary of State should ensure that the Department of State, the USAID, and the Broadcasting Board of Governors (BBG) allocate funds provided in this bill for Tibetan programs in a manner that reflects the commitment of the United States Government to the Tibetan people in the areas of democracy promotion, refugee assistance, scholarships, exchange programs, and radio broadcasts in Tibet.

The Department of State shall provide up to \$1,000,000 to establish a Tibet Section within the United States Embassy in Beijing, People's Republic of China for the purposes of following political, economic, and social developments inside Tibet, including Tibetan areas of Qinghai, Sichuan, Gansu, and Yunnan provinces, until such time as a United States Consulate in Tibet is established. This section shall have the primary responsibility for reporting on human rights issues in Tibet, shall work in close cooperation with the Office of the Special Coordinator for Tibetan Issues, and the Tibet Section Chief should be of senior rank. In addition, \$1,000,000 is recommended to support the Special Coordinator for Tibetan Issues.

Trafficking in persons.—Sufficient funding is provided to increase the number of personnel in the Office to Monitor and Combat Trafficking in Persons to respond to the growing worldwide problem of human trafficking.

Other Issues and Directives

Adoption task force.—The Governments of Vietnam and Guatemala have recently restricted adoptions of orphans by families in the United States until new regulations can be developed, and thousands of adoptions already in process are being required to undergo further investigation or have been halted altogether. The Department of State and the Department of Homeland Security are directed to establish a temporary task force similar to the one employed in Cambodia in 2001 to accommodate the increased workload and assist in the resolution of outstanding issues. The Secretary of State shall report to the Committees on Appropriations not later than June 1, 2009, on actions taken and overall progress in negotiating new bilateral agreements.

Consular affairs reform.—The bill includes a provision, section 7006, requiring that all Inspector General recommendations regarding the Department of State's Passport Information Electronic Records System are implemented. In addition, the Department of State should examine best practices to maintain a high standard of personal privacy for all information shared with other agencies.

Consular services demonstration.—The Department of State should report on the implementation of a demonstration program to expand access to consular services through the use of alternative interview techniques such as videoconferencing or mobile consular units as authorized by section 565 of Public Law 110-161.

Disability coordinator.—In order to ensure the integration of people with disabilities in policies, programs, activities, outreach and staff opportunities, the Department of State should establish a dedicated, full-time Disability Coordinator and consult with the Committees on Appropriations not later than 90 days after enactment of this Act on efforts to address this issue.

Foreign Service Institute.—The Director of the Foreign Service Institute is urged to develop a program that educates United States diplomats and foreign service officers on the major world religions and provides training in techniques of interfaith dialogue and conflict resolution.

Interagency task force.—The bill includes funds to continue the operation of a United States Government Interagency task force to continue the monitoring of the United Nations headquarters renovation project.

Management.—With the consolidation of oversight for Department of State operations and foreign assistance programs under the jurisdiction of one appropriations subcommittee, the lack of coordination within the Department between budget, policy and planning related to assistance programs and operations has come into focus. As additional resources are requested to expand diplomatic staff and training, the Department of State should seek to more effectively synchronize operational and foreign assistance funding and programs.

The Department of State's top priority must be to meet the personnel requirements of its traditional diplomacy functions. The Administration is encouraged to improve existing frameworks, procedures and regulations, including those at the National Security Council, which will bolster the Department of State and USAID's responsibility

and oversight of United States diplomacy and foreign assistance.

Minority recruitment.—The bill includes funds requested to continue the educational partnerships focused on recruiting and preparing students from various institutions with large minority populations for positions in the Foreign Service. These programs assist the ongoing efforts to increase minority hiring and diversity by facilitating the preparation of non-traditional and minority students for careers in the Foreign Service and the Department of State.

Office of Defense Trade Controls Licensing.—The Secretary of State should ensure that the Office of Defense Trade Controls Licensing has the necessary budgetary resources and staff to fulfill its responsibilities in a timely and effective manner.

Saudi Arabia.—The Secretary of State is directed to monitor the implementation of the Government of Saudi Arabia's policies relating to religious practice and tolerance, announced in July 2006, and make these issues a regular part of the United States-Saudi Arabia Strategic Dialogue. The Secretary of State is further directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on the progress and issues raised through this dialogue.

Science programs.—The Department of State is encouraged to sustain support for the variety of science fellowship programs and to increase the science and technology capacity within the Department of State.

Western Hemisphere Travel Initiative (WHTI).—The Secretary of State is directed to continue to monitor implementation of the WHTI according to the statutory deadline of no earlier than June 1, 2009, and, as needed, to increase temporary staffing to quickly respond to increases in demand for passports or passport cards. The Department of Homeland Security and the Department of State are directed to provide quarterly briefings to the Committees on Appropriations on progress being made in meeting these requirements.

CIVILIAN STABILIZATION INITIATIVE

The bill provides \$45,000,000 under this heading for the Civilian Stabilization Initiative (CSI). In addition, \$30,000,000 is provided under title II, for a total of \$75,000,000 in this bill to stand-up, equip and deploy a coordinated civilian response capacity at the Department of State and USAID. These funds are in addition to \$65,000,000 provided in Public Law 110-252.

Funds made available for CSI in fiscal year 2009 are to be allocated only for the active and standby response corps and to support the operations of the Office of the Coordinator for Reconstruction and Stabilization. In total, \$140,000,000 is available for this initiative in fiscal year 2009, which is \$108,631,000 below the request.

Within the funds made available for CSI in fiscal year 2009, including supplemental funds, up to \$23,014,000 may support the administrative expenses for the Office of the Coordinator for Reconstruction and Stabilization.

The bill includes a proviso requiring the Secretary of State and the USAID Administrator to submit a coordinated joint spending plan and integrated implementation strategy for funds made available in fiscal years 2008 and 2009 for the CSI not later than 60 days after enactment of this Act.

The President may exercise existing transfer authority provided in the Foreign Assistance Act of 1961 and this Act only to support an actively deployed civilian response corps

and not for the regular operations of this initiative, after consulting with and notifying the Committees on Appropriations. The President should be judicious in the use of this authority.

The Department of State, in consultation with USAID, is directed to submit in writing to the Committees on Appropriations not later than 180 days after enactment of this Act, a clarification of the relationship between the CSI and: (1) existing international disaster response capabilities of the United States Government and funding sources (including under the "International Disaster Assistance" and "Transition Initiatives" headings), and (2) the Department of Defense disaster response capabilities, assets and authorities.

CAPITAL INVESTMENT FUND

The bill provides \$71,000,000 for the Capital Investment Fund, which is \$11,425,000 above the fiscal year 2008 level and the same as the request.

OFFICE OF INSPECTOR GENERAL

The bill provides \$37,000,000 for the Office of Inspector General, which is \$3,267,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$1,492,000 above the request. The bill includes a proviso, carried in prior years, that waives the statutory requirement that every post be inspected every five years, in order to provide flexibility to the Inspector General to direct the funds provided to the areas of highest need.

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The bill provides \$538,000,000 for Educational and Cultural Exchange Programs, which is \$36,653,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$15,556,000 above the request. Funds are allocated in the following table, subject to the requirements of section 7019 of this Act:

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

(Budget authority in thousands of dollars)

Program/activity	fiscal year 2009 request	Budget authority
Academic Programs		
Fulbright Program	233,841	234,864
Global Academic Exchanges		
Educational Advising and Student Services	11,586	12,043
English Language Programs	22,413	26,250
Subtotal—Global Academic Exchanges	33,999	38,293
Special Academic Exchanges		
Regional Graduate Fellowships	22,020	22,020
American Overseas Research Centers	3,765	4,000
South Pacific Exchanges	496	500
Timor Leste Exchanges	496	500
Mobility (Disability) Exchange Clearinghouse	496	500
Benjamin Gilman International Scholarship Program	5,810	7,200
George Mitchell Fellowship Program	496	500
Hemispheric Program	496	500
Tibet Fund	744	750
Subtotal—Special Academic Exchanges	34,839	36,470
Total—Academic Programs	302,679	309,627
Professional and Cultural Exchanges		
International Visitor Program	77,620	79,211
Citizen Exchange Programs	57,377	54,377
Youth Exchange and Study Program (YES)	19,000	23,000
Special Professional and Cultural Exchanges		
Congress Bundestag Youth Exchange Program	3,230	3,230
Mike Mansfield Fellowship Program	1,862	1,862
Irish Institute	992	1,000
Ngwang Chophel Fellows (Tibet)	645	650
Youth Science Leadership Institute of the Americas	149	150
Institute for Representative Government	496	496
Pakistan Literacy Training Program	372	375
Subtotal—Special Professional and Cultural Exchanges	7,746	7,763
Total—Professional and Cultural Exchanges	161,743	164,351
One-Time Grants Program	0	6,000
Program Evaluation	3,145	3,145
Exchanges Support	54,877	54,877

EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS— Continued

(Budget authority in thousands of dollars)

Program/activity	fiscal year 2009 request	Budget authority
Total—Educational and Cultural Exchange Programs	522,444	538,000

Every program for which funding is enumerated in the previous table is established pursuant to an act of Congress; is a program for which funding is authorized by an act of Congress; or is included in the budget request for fiscal year 2009.

Funding is included above the prior year level in the Fulbright Program, Gilman International Scholarship Program, English Language Programs, and Educational Advising and Student Services to expand opportunities for United States students to study abroad. Additional resources should be used to increase direct grants to students, replicate existing capacity in targeted regions at quality overseas educational institutions, especially in developing countries, and engage United States educational institutions to reduce barriers to study abroad.

Taking into account current programs that support these goals and proposed legislation, the Department of State should develop a coordinated strategy to expand exchange programs to reach a greater number of Americans and foreigners from non-traditional backgrounds, particularly low income and minority populations. This strategy should inform the Administration's planning and budgeting in the near and long-term to expand exchanges and to better focus on interrelated advantages of existing programs which will ultimately benefit United States public diplomacy goals.

The Department of State should continue support for several ongoing international exchange programs with Eurasia and Eastern Europe, and the Muskie Graduate Fellowship program. In addition, the Department of State is expected to continue funding for the Future Leaders Exchange programs; the American-Serbia and Montenegro Youth Leadership Exchange; the Junior Faculty Development Program; the Language, Technology, Math and Science Exchange; citizen exchange activities of Sister Cities International; cultural exchange programs in music and the arts; and increased exchanges with Africa and countries with significant Muslim populations.

Latin America, Central America, and the Caribbean.—Expanded exchange programs in the Western Hemisphere are supported, with an emphasis on indigenous and other minority populations, including an additional \$3,000,000 to continue exchange programs in Central America, to be allocated as follows: \$1,250,000 for English Access Microscholarships, \$1,250,000 to continue the Community College Program, \$250,000 for undergraduate Opportunity Grants, and \$250,000 for summer institutes at United States universities.

The Department of State is directed to continue the development of expanded cultural, educational, and professional exchanges with the Caribbean.

Women and exchanges.—The Department of State is urged to fund professional exchanges for women in areas relating to business development, trade, leadership, and private and public sector management to enhance the economic development of participants and their countries.

Youth Exchange and Study Program.—The bill provides \$23,000,000 to support the goals of this program and encourages its growth in

countries with significant Muslim populations, where the perception of the United States faces the greatest challenges. In commemoration of the fifth anniversary of the program and in recognition of the impact of the program in promoting dialogue, increasing understanding and enhancing cultural diplomacy between the United States and foreign countries, it is recommended that the program be named in honor of its originators, subject to prior consultation with the Committees on Appropriations.

One-time International Exchange Grant Program.—The bill provides \$6,000,000 for one-time competitive grants for international exchanges. Grants shall address issues of mutual interest to the United States and other countries, consistent with the program criteria established in Public Law 110-161. Programs shall support the actual exchange of people and should benefit a population that is not being addressed through existing authorized exchanges. The Department of State shall submit a report of those organizations that are eligible for a grant and, not later than September 1, 2009, submit a report to the Committees on Appropriations describing the grant recipients and intended use of funds.

Programs which received funding under this one-time grant program in fiscal year 2008, or which were listed in the explanatory statement but did not apply, are not listed for consideration in fiscal year 2009. Programs listed in the fiscal year 2008 explanatory statement that applied, but did not receive funding, also are not listed but should be considered eligible for the fiscal year 2009 program. The Department of State is encouraged to consider new proposals for one-time funding from previously funded grantees within discretionary funding if they meet appropriate guidelines. Exchange programs eligible for consideration for this competitive program shall include:

Concordia College, for intensive critical language and cultural immersion exchange programs.

Castleton State College, for international service-learning exchange programs.

KIDmocracy, for student exchange with Egypt on democracy and governance.

Hofstra University, for critical language exchange programs.

Korean American Empowerment Council, for exchanges with the Republic of Korea.

Marquette University, for exchanges between United States and Liberian officials.

New Mexico State University/Youth Works International, for bringing young leaders from developing countries to the Gila Wilderness for land management training.

Pasadena Sister Cities Committee, for student exchanges with China.

The American Foundation for Tibetan Cultural Preservation, for cultural exchanges.

Vermont Law School, for an exchange program with China to address environment, energy, and related governance issues.

REPRESENTATION ALLOWANCES

The bill provides \$8,175,000 for Representation Allowances, which is \$66,000 above the fiscal year 2008 level and the same as the request.

PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The bill provides \$22,814,000 for Protection of Foreign Missions and Officials, the same as the fiscal year 2008 level and \$4,814,000 above the request. The bill includes sufficient funds above the request to begin to reimburse eligible costs of providing security protection of diplomatic delegations to the

United Nations and other international organizations that were incurred in prior years, and up to \$2,400,000 is available to reimburse certifiable costs incurred by municipalities hosting extraordinary events.

The Department of State is directed to prepare and submit a report not later than 60 days after enactment of this Act and every six months thereafter on the amount of claims for extraordinary protective services that have been submitted by eligible jurisdictions and certified as meeting the program requirements and the amount of unobligated funds available to pay such claims.

EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

The bill provides \$1,706,569,000 for Embassy Security, Construction, and Maintenance, which is \$205,994,000 above the comparable level for fiscal year 2008, excluding emergency appropriations, and \$218,390,000 below the comparable request. Of the amount provided, \$801,344,000 is for operations, maintenance and construction, \$770,000,000 is for priority worldwide security upgrades, acquisition, and construction, and \$135,225,000 is for the overseas facilities construction program of USAID. The comparable level for fiscal year 2008 includes \$75,000,000 appropriated under the "Capital Investment Fund of the United States Agency for International Development" heading.

The bill provides funding for USAID's overseas facility construction program under this heading, rather than under USAID's "Capital Investment Fund" heading, as requested and as provided in fiscal year 2009. The Department of State and USAID are directed to work in concert to manage overseas facilities to more effectively and efficiently meet United States foreign affairs objectives. Coordination should include worldwide facilities assessments, planning, requests for funding, and implementation of facilities construction and maintenance activities.

The Secretary of State is directed to submit an annual plan on the joint requirements of the Department of State and USAID, including planned facilities upgrades and new construction for each fiscal year. The Secretary of State also is directed to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on a plan to address maintenance costs.

The Under Secretary for Management shall consult with the Committees on Appropriations on a regular and ongoing basis on the design of any proposed self-financed New Embassy Compound.

Section 7034(i) provides that \$2,000,000 from funds available under this heading shall be for the Capital Security Cost-Sharing contribution of the Library of Congress. The Government Accountability Office (GAO) is requested to examine the utility of overseas facilities for the Library of Congress and report to the Committees on Appropriations not later than August 1, 2009, including recommendations on the space needed and what efficiencies can be made while maintaining the Library's resource acquisition mission.

EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$9,000,000 for Emergencies in the Diplomatic and Consular Service, which is \$73,000 above the fiscal year 2008 level and \$10,000,000 below the request.

The bill provides the funds under the heading for emergency evacuations and for authorized rewards payments.

BUYING POWER MAINTENANCE ACCOUNT

The bill provides \$5,000,000 for the Buying Power Maintenance Account to manage exchange rate losses in the cost of Department of State operations overseas. The amount provided is \$5,000,000 above both the fiscal year 2008 level, excluding supplemental appropriations, and the request. The Secretary of State is urged to include a request for funding in this account in future budget requests.

REPATRIATION LOANS PROGRAM ACCOUNT
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$1,353,000 for the Repatriation Loans Program Account, which is \$78,000 above the fiscal year 2008 level and the same as the request. Of this amount, \$678,000 is for the Direct Loans Subsidy and \$675,000 is for administrative expenses.

The bill includes language allowing funds under the heading for administrative expenses to be transferred to, and merged with, "Diplomatic and Consular Programs".

PAYMENT TO THE AMERICAN INSTITUTE IN
TAIWAN

The bill provides \$16,840,000 for Payment to the American Institute in Taiwan, which is \$621,000 above the fiscal year 2008 level and the same as the request.

PAYMENT TO THE FOREIGN SERVICE
RETIREMENT AND DISABILITY FUND

The bill provides \$157,100,000 for Payment to the Foreign Service Retirement and Disability Fund, which is \$1,800,000 below the fiscal year 2008 level and the same as the comparable request.

INTERNATIONAL ORGANIZATIONS
CONTRIBUTIONS TO INTERNATIONAL
ORGANIZATIONS

The bill provides \$1,529,400,000 for Contributions to International Organizations, which is \$185,971,000 above the fiscal year 2008 level and the same as the request. This is in addition to \$75,000,000 provided in Public Law 110-252.

The Office of Management and Budget is directed to request sufficient funds to pay annual assessed dues and any accumulated arrears to international organizations, and the Department of State is encouraged to evaluate the benefit of United States membership on an annual basis.

The decision to incorporate the United Nations (UN) Procurement Task Force (PTF) into the Office of Internal Oversight Services (OIOS) must not result in a diminished commitment by the UN to continue effective fraud and corruption investigations. Over the past three years, the PTF has been effective by identifying more than 20 significant fraud and corruption schemes in cases with an aggregate contract value in excess of \$630,000,000. The results of the PTF (and the Oil for Food investigations and prosecutions) underscore the need for the UN to be vigilant in protecting the integrity of donor funds.

Eighty-five percent of UN procurement supports peacekeeping operations, and according to GAO, peacekeeping field procurement has not been effectively reformed and remains a high-risk area for fraud and abuse.

The UN should affirm its commitment to a strong oversight body, which is independent and resistant to retaliation by UN employees and their respective governments. The Department of State is directed to make procurement reform a top priority at the UN and to ensure that sufficient resources are made available for vigorous procurement oversight and investigation capabilities.

The Department of State is directed to report to the Committees on Appropriations not later than 120 days after enactment of this Act on the voting practices of UN member states for the current and past three years on matters regarding Iran, Israel, Sudan, and Zimbabwe, as well as on the reform efforts of the UN.

CONTRIBUTIONS FOR INTERNATIONAL
PEACEKEEPING ACTIVITIES

The bill provides \$1,517,000,000 for Contributions for International Peacekeeping Activities, which is \$294,483,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$20,000,000 above the request. This amount is in addition to \$150,500,000 provided in Public Law 110-252. The bill includes language (section 7051), as requested by the President, to adjust the authorized level of United States assessments for peacekeeping activities for calendar year 2009 and prior years from 25 percent to 27.1 percent, consistent with the level set in fiscal year 2008 (Public Law 110-161).

The Department of State is directed to provide full funding for the United States assessed contribution to the UN/African Union Hybrid operation in Darfur (UNAMID). The Department shall work with members of the Security Council and countries contributing troops, police, personnel, and equipment to UNAMID, in addition to interested non-governmental organizations, to ensure full and swift deployment. The Department of State should also ensure that UNAMID personnel receive training on prevention of, and response to, violence against women.

The Department of State is directed to support oversight of peacekeeping missions by the UN's OIOS to identify waste, fraud and abuse, including sexual abuse within every UN peacekeeping mission, and submit to the Committees on Appropriations a performance report on the progress of these efforts.

INTERNATIONAL COMMISSIONS

The bill provides funding to fully meet United States treaty obligations to international commissions in fiscal year 2009 and recognizes that funds are requested under the Department of State as a result of international treaties. However, the Secretary of State is encouraged to examine efficiencies

in operations and equipment that could be achieved with other United States Government agencies.

INTERNATIONAL BOUNDARY AND WATER
COMMISSION, UNITED STATES AND MEXICO

SALARIES AND EXPENSES

The bill includes \$32,256,000 for the Salaries and Expenses account of the Commission, which is \$2,072,000 above the fiscal year 2008 level and the same as the request.

CONSTRUCTION

The bill includes \$43,250,000 for construction, which is \$44,459,000 below the fiscal year 2008 level and \$1,000,000 below the request. Funds made available under this heading shall be allocated in the following manner:

INTERNATIONAL BOUNDARY AND WATER COMMISSION,
UNITED STATES AND MEXICO

(Budget authority in thousands of dollars)

Project/activity	Fiscal year 2009 request	Budget authority
Boundary-wide construction	1,500	1,500
Water Quantity Program Rio Grande Flood Control ..	14,750	19,750
Rehabilitation and Canalization	13,000	16,750
Water Quality Program—(including Tijuana Secondary Treatment)	28,000	22,000
Total—Construction	44,250	43,250

The funding in the table above for the Rio Grande Flood Control Rehabilitation and Canalization is in addition to \$37,500,000 appropriated under this heading in chapter 9 of Division B in the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009. Sufficient funds are provided to complete upgrades to the International Wastewater Treatment Plant to treat secondary wastewater from the Tijuana River.

AMERICAN SECTIONS, INTERNATIONAL
COMMISSIONS

The bill provides \$11,649,000 for American Sections, International Commissions, which is \$798,000 above the fiscal year 2008 level and \$200,000 above the request.

The bill includes the following: \$7,559,000 for the International Joint Commission (IJC); \$1,970,000 for the International Boundary Commission, United States and Canada; and \$2,120,000 for the Border Environment Cooperation Commission. The bill also includes a proviso requiring the IJC to submit a financial report to the Committees on Appropriations.

INTERNATIONAL FISHERIES COMMISSIONS

The bill provides \$29,925,000 for the International Fisheries Commissions, which is \$3,613,000 above the fiscal year 2008 level and \$7,925,000 above the request. This amount reflects the actual treaty-obligated dues for fiscal year 2009. Funds are allocated in the following table, subject to the requirements of section 7019 of this Act:

INTERNATIONAL FISHERIES COMMISSIONS

(Budget authority)

Commission	Fiscal year 2009 request	Budget authority
Great Lakes Fishery Commission	13,140,000	19,200,000
Water Quality Improvements and Lamprey Control		(1,200,000)
Inter-American Tropical Tuna Commission	1,785,000	1,785,420
Pacific Salmon Commission	2,936,000	3,200,000
International Pacific Halibut Commission	2,300,000	3,500,000
Other Marine Conservation Organizations:		
International Whaling Commission	182,000	166,000
North Pacific Anadromous Fish Commission	139,000	180,000
International Commission for the Conservation of Atlantic Tunas	250,000	270,000
Northwest Atlantic Fisheries Organization	200,000	355,000
Commission for the Conservation of Antarctic Marine Living Resources	94,000	123,516
North Atlantic Salmon Conservation Organization	50,000	55,000
International Council for the Exploration of the Sea	218,000	254,970

INTERNATIONAL FISHERIES COMMISSIONS—Continued

(Budget authority)

Commission	Fiscal year 2009 request	Budget au- thority
North Pacific Marine Science Organization	104,000	113,800
International Sea Turtle Conservation	129,000	140,000
Antarctic Treaty	36,000	35,000
Western and Central Pacific Fisheries Commission	317,000	426,294
Expenses of the United States Commissioners	120,000	120,000
Subtotal—Other Marine Conservation Organizations	1,839,000	2,239,580
Total—International Fisheries Commissions	22,000,000	29,925,000

Within the amount provided for the Great Lakes Fishery Commission, \$1,200,000 is for lamprey control and water quality improvements and the Commission should consider a proposal of the Lake Champlain Basin Program.

RELATED AGENCY

BROADCASTING BOARD OF GOVERNORS

INTERNATIONAL BROADCASTING OPERATIONS

The bill provides \$698,187,000 for International Broadcasting Operations, which is \$38,844,000 above the fiscal year 2008 level, excluding emergency appropriations and \$44,386,000 above the request. This amount is in addition to \$7,899,000 provided in Public Law 110-252. Funding made available in fiscal year 2009 under this heading shall be allocated to the following activities in the amounts designated in the table below, subject to the requirements of section 7019 of this Act:

INTERNATIONAL BROADCASTING OPERATIONS—PROGRAM LEVEL

(Budget authority in thousands of dollars)

Program/activity	Fiscal year 2009 request	Budget authority
International Broadcasting Operations		
Voice of America (VOA)	184,686	194,756
¹ Radio and TV Marti	34,392	34,392
Engineering and Technical Services	169,961	172,319
Agency Direction	26,795	29,500
International Broadcasting Bureau Management and Support	25,785	25,785
Program Support	13,789	14,155
Subtotal, International Broadcasting Operations	455,408	470,907
Independent Grantee Organizations		
Radio Free Europe/Radio Liberty (RFE/RL)	87,225	89,954
Radio Free Asia (RFA)	33,166	35,832
Middle East Broadcasting Networks (MBN)	112,394	109,393
Subtotal, Independent Grantee Organizations	232,785	235,179
Total, International Broadcasting Operations Program Level	688,193	706,086
Less FY 2009 Bridge Funds in P.L. 110-252	0	—6,000
Less Supplemental Funds for Tibetan Broadcasting Surge (P.L. 110-252)	0	—1,899
Total, International Broadcasting Operations Appropriation in Bill	688,193	698,187

¹ Budget requested funding as a separate account.

The bill includes sufficient funding, including funds provided in Public Law 110-252, and funds provided in Public Law 110-329, in fiscal year 2009 to maintain broadcasting in languages services at the fiscal year 2008 program levels which the BBG proposed to reduce or eliminate in the fiscal year 2009 request. It is recognized that international broadcasting conditions and costs are variable and that estimates for maintaining language services may escalate over the course of a fiscal year due to exchange rate losses or other circumstances. The BBG is directed to notify the Committees on Appropriations of any such modifications to language service levels recommended in the table above for fiscal year 2009.

Sufficient funds are available in fiscal year 2009 to continue VOA and RFA Tibetan

broadcasts at the fiscal year 2008 surge levels. Section 7071(c)(3) of the bill directs not less than \$8,000,000 for broadcasting into North Korea through RFA Korea Service and VOA Korea Service.

The BBG is encouraged to continue its ongoing efforts to improve audience reach by utilizing the most effective means of transmission. However, going silent in many critical languages and regions is not supported. In addition, there is concern with the dismantling of shortwave capacity. The BBG should re-examine the capabilities of shortwave radio and continue to deploy it where it is determined to be most effective, particularly to countries where there is limited or no access to independent media.

The BBG is encouraged to explore the potential of digital shortwave technology as a means of delivering high-quality transmissions at low cost to millions of listeners. The BBG also is encouraged to consider whether existing English language broadcast programming can be used by VOA, if authorized standards are met.

The bill includes a provision, section 7041, intended to strengthen transparency, integrity and accountability concerning the content of broadcasts to the Middle East. Programs supported under this heading are intended to reach countries where fair and unbiased local media is limited and therefore broadcasting a variety of views is required. The BBG should continue to pursue free and fair broadcasting, and in particular provide many points of view to maintain balanced reporting. The Board is directed, in conjunction with the MBN, VOA, and RFE/RL, to make public English transcripts on a case by case basis if requested by the Committees on Appropriations. Sufficient funds are included to continue the transparency directives begun in fiscal year 2008 regarding Alhurra.

BROADCASTING CAPITAL IMPROVEMENTS

The bill provides \$11,296,000 for Broadcasting Capital Improvements, which is \$635,000 above the fiscal year 2008 level and the same as the request.

RELATED PROGRAMS

THE ASIA FOUNDATION

The bill provides \$16,000,000 for The Asia Foundation, which is \$626,000 above the fiscal year 2008 level and \$6,000,000 above the request.

UNITED STATES INSTITUTE OF PEACE

The bill provides \$31,000,000 for operating expenses for the United States Institute of Peace, which is \$6,203,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$2,000,000 below the request.

CENTER FOR MIDDLE EASTERN-WESTERN
DIALOGUE TRUST FUND

The bill provides \$875,000 for the Center for Middle Eastern-Western Dialogue Trust Fund, which is \$7,000 above the fiscal year 2008 level and the same as the request.

EISENHOWER EXCHANGE FELLOWSHIP PROGRAM

The bill provides \$500,000 for the Eisenhower Exchange Fellowship Program, which

is \$4,000 above the fiscal year 2008 level and the same as the request.

ISRAELI ARAB SCHOLARSHIP PROGRAM

The bill provides \$375,000 for the Israeli Arab Scholarship Program, which is \$3,000 above the fiscal year 2008 level and the same as the request.

EAST-WEST CENTER

The bill provides \$21,000,000 for the East-West Center, which is \$1,658,000 above the fiscal year 2008 level and \$11,000,000 above the request.

NATIONAL ENDOWMENT FOR DEMOCRACY

The bill provides a total of \$115,000,000 for the National Endowment for Democracy (NED), of which \$100,000,000 is to be allocated in the traditional and customary manner among the core institutes. The amount provided is \$15,000,000 above the comparable fiscal year 2008 level and \$35,000,000 above the request. The additional \$15,000,000 in the bill is provided for a small grants program, democracy promotion, human rights and rule of law activities including in China, Burma, Cuba, Russia, Pakistan, Afghanistan, Malaysia, Somalia, Sudan, and Iran, as well as for the Reagan-Fascell Democracy Fellows Program, the Center for International Media Assistance and the World Movement for Democracy. Further, \$250,000 is provided for human rights and democracy programs relating to Tibet.

The President of the NED is required to submit a report to the Committees on Appropriations not later than 45 days after enactment of this Act on the proposed uses of these funds on a regional and country basis. The report should include a description of programmatic goals for each region and country, and how the planned use of funds will meet such goals.

This grant to the Department of State is a pass-through directly to NED. Thus, funds under this heading shall not be subject to prior approval by the Department of State or USAID or administrative or management surcharges, and minimal expenses, if any, should be charged to general Department of State operating expenses. Further, the NED should not be precluded from competitively bidding on democracy, human rights, and rule of law grant solicitations.

OTHER COMMISSIONS

COMMISSION FOR THE PRESERVATION OF
AMERICA'S HERITAGE ABROAD

SALARIES AND EXPENSES

The bill provides \$599,000 for salaries and expenses of the Commission for the Preservation of America's Heritage Abroad, which is \$104,000 above the fiscal year 2008 level and the same as the request.

COMMISSION ON INTERNATIONAL RELIGIOUS
FREEDOM

SALARIES AND EXPENSES

The bill provides \$4,000,000 for salaries and expenses of the Commission on International Religious Freedom, which is \$727,000 above the fiscal year 2008 level and the same as the request.

The bill includes \$250,000, as requested, for the establishment and operation by the Commission of a Joseph R. Crapa Fellows Program.

Within the increase provided, the Commission is encouraged to focus on religious freedom and other human rights concerns in China and the study of global anti-Semitism and publish independent reports on its findings.

COMMISSION ON SECURITY AND COOPERATION IN EUROPE

SALARIES AND EXPENSES

The bill provides \$2,610,000 for salaries and expenses of the Commission on Security and Cooperation in Europe, which is \$259,000 above the fiscal year 2008 level and the same as the request.

CONGRESSIONAL-EXECUTIVE COMMISSION ON THE PEOPLE'S REPUBLIC OF CHINA

SALARIES AND EXPENSES

The bill provides \$2,000,000 for salaries and expenses of the Congressional-Executive Commission on the People's Republic of China, which is \$16,000 above the fiscal year 2008 level and the same as the request.

UNITED STATES-CHINA ECONOMIC AND SECURITY REVIEW COMMISSION

SALARIES AND EXPENSES

The bill provides \$4,000,000 for salaries and expenses of the United States-China Economic and Security Review Commission, which is \$32,000 above the fiscal year 2008 level and the same as the request.

The bill includes a proviso setting a limitation of not more than \$4,000 for official representation expenses, the same level as fiscal year 2008.

The Commission's submission of a spending plan on March 1, 2008 to the Committees on Appropriations pursuant to Public Law 110-161 concluded that the Commission was not at that time able to fully meet all of the recommendations of the GAO's audit of the Commission (GAO-07-1128). In particular, the Commission has not fully implemented the GAO's recommendations with respect to necessary controls and staff training on financial management and budgeting, procurement and contracting, and human resources. During fiscal year 2009, the Commission shall ensure implementation of the remaining reforms recommended by GAO and required by law. Not later than 60 days after enactment of this Act, GAO shall report to the Committees on Appropriations on the extent to which the Commission is in compliance with fully implementing the GAO's recommendations.

The bill includes a proviso making applicable to the Commission the authorities relating to the treatment of employees and printing and binding costs that are in the statute governing the activities of the Congressional-Executive Commission on the People's Republic of China. The bill carries forward the following provisos from the fiscal year 2008 Act; a proviso relating to compensation levels for the Commission's Executive Director; a proviso treating travel by Commission members and staff under the same rules and procedures that apply to travel by Members and staff of the House of Representatives; a proviso related to performance-based cash awards; and a proviso related to regular employee performance appraisals.

UNITED STATES SENATE—CHINA INTERPARLIAMENTARY GROUP

SALARIES AND EXPENSES

The bill provides \$150,000 for salaries and expenses of the United States Senate-China

Interparliamentary Group, which is \$1,000 above the fiscal year 2008 level and \$150,000 above the request.

TITLE II

UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT

FUNDS APPROPRIATED TO THE PRESIDENT

OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$808,584,000 for Operating Expenses, which is \$178,728,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$41,400,000 above the request. USAID shall provide a spending plan to the Committees on Appropriations not later than 120 days after enactment of this Act on the allocation of these funds.

Contracting and procurement.—USAID shall make efforts to ensure that United States small, minority-owned, and disadvantaged business enterprises are able to fully participate in USAID contracts for the provision of goods and services. USAID should consult with the Committees on Appropriations on specific actions taken and the success of these efforts on a bi-annual basis.

Partner vetting.—USAID should continue efforts to improve its vetting system to ensure that funds are not diverted to international terrorist organizations; however, vetting procedures must not dissuade legitimate implementing partners from participating in USAID programs. USAID shall provide the Committees on Appropriations with regular updates on progress made in developing such a system and is directed to provide a report on the efficacy of the partner vetting pilot program in the West Bank and Gaza not later than 180 days after enactment of this Act.

Staffing.—As USAID's ability to attract and retain the highest caliber professionals has been in decline for a decade, the bill provides funding for implementation of the Development Leadership Initiative (DLI), as proposed in the fiscal year 2009 budget request. USAID is directed to prioritize the hiring of employees who have experience and technical expertise in the areas of greatest demand, including acquisitions and contracting, and up to 30 mid-level individuals may be hired to meet staffing needs under the DLI. Efforts should be undertaken to recruit from groups that are underrepresented in the Foreign and Civil Service. USAID should conduct a thorough human resources assessment, including a review of existing capabilities, a delineation of future needs as identified in country-program plans, and an assessment of needs related to near-term and long-term facilities requirements. USAID is directed to consult with the Committees on Appropriations on the rebuilding of professional staff.

CIVILIAN STABILIZATION INITIATIVE

Civilian Stabilization Initiative (CSI).—The bill provides a total of \$75,000,000 to continue to stand up a capacity for the Department of State, USAID, and other relevant civilian agencies to respond to post-conflict stabilization and reconstruction challenges, which is \$75,000,000 above the fiscal year 2008 enacted level and \$173,631,000 below the request. This funding is in addition to \$55,000,000, which was provided for such purposes in Public Law 110-252. Within the amounts provided in this bill, \$30,000,000 is included under this heading and \$45,000,000 is included under the "Civilian Stabilization Initiative" heading under title I for this purpose.

Funds under this heading are made available for the internal surge portion of the ini-

tiative, including hiring and training USAID personnel; prepositioning equipment for the active and standby response corps; and deployment. In addition, up to \$6,000,000 is available for the Office of Surge Administration. No funding is provided to implement the civilian reserve corps portion of the initiative.

The bill includes a proviso requiring the Secretary of State and the USAID Administrator to submit a coordinated joint spending plan and integrated implementation strategy for funds made available in fiscal years 2008 and 2009 for the CSI not later than 60 days after enactment of this Act.

CAPITAL INVESTMENT FUND

The bill provides \$35,775,000 for Capital Investment Fund (CIF), which is \$51,512,000 below the fiscal year 2008 level and \$135,225,000 below the request. USAID shall provide a spending plan to the Committees on Appropriations not later than 120 days after enactment of this Act on the allocation of these funds. Funds are provided under this heading to ensure that USAID continues to invest in information technology, specifically the Global Acquisition System.

Capital security cost-sharing program.—The bill provides \$135,225,000 under the "Embassy Security, Construction and Maintenance" heading to support the USAID overseas facilities construction program costs for fiscal year 2009, which is intended to improve the transparency of functions previously funded by the CIF.

OFFICE OF INSPECTOR GENERAL

The bill provides \$42,000,000 for the Office of Inspector General, which is \$4,308,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$1,400,000 above the request. Programs that are currently funded through emergency appropriations should be regularized into the annual budget process.

TITLE III

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

The bill directs funding for certain sectors in the amounts allocated in the following table and subject to the requirements of section 7019 of this Act. With the exception of agriculture programs, funding in this bill for the sectors identified in the table is the same as the fiscal year 2008 enacted levels and applies to all assistance appropriated in title III of this Act and in prior Acts for fiscal year 2009. With respect to agriculture programs, the amount noted in the chart includes \$375,000,000 for agriculture programs in title III of this Act and an additional \$75,000,000 for global food security programs under the "Development Assistance" heading.

Program (budget authority in thousands of dollars)	Fiscal year 2009 directive
Agriculture	450,000
Basic Education	700,000
Biodiversity	195,000
Clean Energy	100,000
Higher Education	133,000
Microenterprise	245,000
Water	300,000

GLOBAL HEALTH AND CHILD SURVIVAL

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$7,114,000,000 for Global Health and Child Survival, which is \$737,918,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$757,170,000 above the request. Of the total, \$1,955,000,000 is to be apportioned directly to USAID and \$5,159,000,000 is to be apportioned

directly to the Office of the Global AIDS Coordinator (OGAC) at the Department of State. Funds in this account are allocated in the following table, subject to the requirements of section 7019 of this Act:

GLOBAL HEALTH AND CHILD SURVIVAL

Program, by account (budget authority in thousands of dollars)	Fiscal year 2009 request	Budget authority
USAID Child Survival and Maternal Health	369,500	495,000
Polio	20,661	32,000
Micronutrients	n/a	30,000
Vitamin A	n/a	20,000
Iodine Deficiency Disorder	n/a	2,000
GAVI Fund	n/a	75,000
USAID Vulnerable Children	10,000	15,000
Blind Children	n/a	2,000
USAID Family Planning/Reproductive Health	301,700	455,000
USAID Other Infectious Diseases ..	554,600	640,000
Tuberculosis	84,500	162,500
Global TB Drug Facility	n/a	(15,000)
Malaria	385,000	382,500
Avian Influenza	50,000	65,000
Neglected Diseases	25,000	25,000
Unallocated Other Infectious Diseases	10,100	5,000
Subtotal, USAID Child Survival and Health	1,577,830	1,955,000
HIV/AIDS Programs USAID HIV/AIDS	342,030	350,000
Microbicides	35,000	45,000
Department of State HIV/AIDS (OGAC/GHAI)	4,779,000	5,159,000
UNAIDS	35,000	40,000
Global Fund	200,000	600,000
Total—Global Health and Child Survival	6,356,830	7,114,000

Child Survival and Maternal Health

Child survival.—USAID shall continue the targeted child survival program that was started in fiscal year 2008 and is also encouraged to collaborate with UNICEF's accelerated child survival and development program.

Of the funding provided for child survival and maternal health programs, \$2,000,000 is provided for iodine deficiency programs, including through the UNICEF partnership.

USAID should consider the work of the Institute for Global Health at the University of Massachusetts Amherst, the OLG Health Foundation and Autism Centre, Teleton Mexamerica and their rehabilitation centers, and Partners in Health/Zanmi Lasante.

Maternal health.—Maternal health is a key global health intervention and USAID is directed to make publicly available the amount and uses of maternal health funding, by country.

USAID should expand obstetric fistula programs in a manner that addresses both immediate health services and long term training.

Vulnerable children.—The bill provides \$15,000,000 for displaced children, orphans, blind children, and other vulnerable children. Assistance for children affected by HIV/AIDS is addressed elsewhere in the bill. USAID should consider the work of the Fabretto Children's Foundation and CHRISTUS Health System.

Of the funding provided for vulnerable children, \$2,000,000 is provided for child blindness programs. USAID should consider the work of Helen Keller International, Christian Blind Mission, and Operation Smile.

Polio.—The bill provides \$32,000,000 for polio programs.

Family Planning/Reproductive Health

The bill provides a total of \$545,000,000 for voluntary family planning/reproductive health programs, of which \$455,000,000 is provided under this heading. Funds made available for family planning and reproductive health shall include funding for activities in

areas where population growth threatens biodiversity or endangered species.

Health Care Workforce and Infrastructure

USAID is directed to provide a report to the Committees on Appropriations not later than 180 days after enactment of this Act on current efforts to strengthen health systems, including spending by program, and progress made. The report should include a summary of OGAC's plans to implement the World Health Organization (WHO) task shifting guidelines and a summary of the health care infrastructure that will be built with HIV/AIDS funding in this Act. USAID should consider the work of Physicians for Peace, the Dikembe Mutombo Foundation, the Global Institute for Community Health and Development at the University of Miami, Doc to Dock, the John F. Kennedy Memorial Medical Center, the Metro Atlanta Neurosurgery Foundation, Project HOPE, the Healey Family Foundation, Serabu Hospital, and Loma Linda University.

Infectious Diseases

Tuberculosis (TB).—Of the total provided for tuberculosis, \$15,000,000 is provided for the Global Tuberculosis Drug Facility. USAID is encouraged to collaborate with WHO when appropriate.

Malaria.—Malaria funding should be made available in accordance with country strategic plans incorporating best public health practices including insecticide-treated bed nets, artemisinin combination therapies, and indoor residual spraying, and with significant support for purchase of commodities and equipment, working with the WHO when appropriate.

Avian influenza virus.—The bill provides \$65,000,000 for programs to combat avian influenza and to improve surveillance to respond to other emergent zoonotic diseases of significant public health concern, which is in addition to \$75,000,000 provided for avian influenza in Public Law 110-252. USAID should consider the work of the Global Avian Influenza Network for Surveillance.

Neglected diseases.—The bill provides \$25,000,000 to continue USAID's support for an integrated response to neglected tropical diseases.

Noma.—USAID is directed to consult with the Committees on Appropriations regarding possible efforts to prevent noma and treat those afflicted.

GLOBAL HIV/AIDS

AIDS vaccine.—USAID should consider the work of the International AIDS Vaccine Initiative.

Blood safety.—OGAC is directed to consult with the Committees on Appropriations on its efforts to put in place a comprehensive, integrated multi-year strategic approach that will address the blood safety problem. OGAC should consider the work of Safe Blood for Africa.

Cost sharing.—Prior to the initiation of new country programs, or extension of existing programs, OGAC shall report to the Committees on Appropriations that such a program includes cost sharing assurances with governments, and transition strategies to ensure sustainability of such programs under other international donor support, or budget support by respective foreign governments.

Evaluation of global HIV programs.—USAID and OGAC are expected to increase funding for operations research, impact evaluation research, and program monitoring to ensure that interventions and approaches to service delivery are evidence-based and continuously improved over time.

Food security.—OGAC is directed to provide not less than \$100,000,000 for programs that

address short-term and long-term approaches to food security as components of a comprehensive approach to fighting HIV/AIDS, and is encouraged to support programs that address the development and implementation of nutrition support, guidelines, and care services for people living with HIV/AIDS.

Global Fund to Fight AIDS, Tuberculosis and Malaria.—The bill provides not less than \$600,000,000 for a United States contribution to the Global Fund. The Secretary of State shall consult with the Committees on Appropriations on the fiscal year 2009 contribution to the Global Fund, taking into account the projected budget shortfall in 2009.

The Global Fund should continue to make strides in financial and programmatic accountability by continuing implementation of an enhanced financial reporting system that tracks grant recipients (including government, civil society, and faith-based sub-recipients), maintaining an independent Office of Inspector General, and disbursing grants based on performance. Oversight of the Global Fund remains a high priority. The Secretary of State is directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act that contains the most recent Global Fund audit information, commitment and disbursement data, and a summary of the recipient and sub-recipient expenditures as reported to the United States Government.

Human capacity issues.—Programs to train community health care workers, doctors, nurses, and other health professionals should be continued and expanded to include pediatric training, training in prevention education, and in counseling and testing. OGAC should consider the training programs at the Fogarty International Center and the Centers for Disease Control and Prevention.

Media programs.—USAID, in collaboration with OGAC, should continue HIV prevention-related local and national media programs in Africa and Asia.

New Partners Initiative.—OGAC should continue grant-making under this Initiative through a competitive process and priority should be given to proposals that have technical merit, cost-effective budgets, and achievable objectives. OGAC should consider the work of Artists for Charity, Global Renewal, Inc., and Hoops for Africa.

Orphans and vulnerable children.—OGAC is directed to meet the ten percent statutory mandate for programs for orphans and vulnerable children. These funds are intended to build the long-term capacity of local organizations, including faith-based organizations, and communities to support and deliver services in an innovative and multi-faceted manner to families, orphans, and vulnerable children affected by HIV/AIDS. OGAC is urged to support work with local governments and non-governmental organizations, including faith-based organizations, to protect orphans and vulnerable children affected by HIV/AIDS from sexual violence.

Regional programs.—USAID, in coordination with OGAC, is encouraged to expand support for regional programs and should consider the work of TREAT Asia.

TB/HIV co-infection.—OGAC is directed to provide not less than \$150,000,000 for joint TB/HIV programs.

Research and Development

USAID should expand collaboration with other donors and governments to develop new medicines, diagnostics, and vaccines for diseases that affect the developing world. USAID is directed to continue to provide the annual research and development report to

the Committees on Appropriations not later than September 30, 2009.

USAID should consider the work of the International AIDS Vaccine Initiative, the Malaria Vaccine Initiative, Medicines for Malaria Venture, the Aeras Global TB Vaccine Foundation, and PATH's HealthTech partnership.

Microbicides.—Not less than \$45,000,000 should be made available to support the development of microbicides and for product preparedness. USAID should consider the work of the International Partnership for Microbicides. USAID is directed to report not later than 90 days after enactment of this Act on USAID's strategic work plan for microbicides product development, especially with regard to USAID's plans for next generation product development.

DEVELOPMENT ASSISTANCE

The bill provides \$1,800,000,000 for Development Assistance, which is \$176,378,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$160,945,000 above the request. In the fiscal year 2009 budget request, the Administration categorized countries as either falling under the "Development Assistance" or the "Economic Support Fund" headings according to their current development status. The bill follows this designation unless otherwise noted. Funds in this account are allocated in the following table, subject to the requirements of section 7019 of this Act:

DEVELOPMENT ASSISTANCE

Country (Budget authority in thousands of dollars)	Fiscal year 2009 request	Budget authority
Bangladesh	39,060	40,000
Brazil	5,000	15,000
Cambodia	17,226	17,000
Chad	200	5,000
China	0	11,000
Dominican Republic	20,700	25,700
Ecuador	22,585	26,585
Ethiopia	69,765	75,000
Ghana	23,200	25,000
Guatemala	28,795	29,000
India	900	10,000
Indonesia	122,021	71,000
Kenya	42,750	42,750
Laos	250	1,000
Mongolia	6,800	7,500
Namibia	0	5,025
Peru	53,293	63,293
Philippines	56,703	30,000
Sri Lanka	4,000	5,241
Thailand	4,500	4,500
Timor-Leste	8,140	23,000
Uganda	35,150	40,950
Vietnam	10,700	15,000

Agriculture

USAID should support a multi-faceted program strategy that provides immediate relief to vulnerable populations and increases access to food in the short-term as well as developing strategies and programs that support long-term, sustainable agricultural practices in food insecure countries to reduce the dependence on food aid, particularly in Africa and Asia. USAID should prioritize the development of programs for small-holder farmers, cooperatives, and vulnerable populations, including female-headed households, as well as the expansion of agriculture extension, training, research, and education to prepare farmers and communities to adapt to global climate change. USAID is encouraged to coordinate efforts to increase food security and agricultural production around the world with international efforts, including those of the World Bank and UN agencies. USAID is directed, in consultation with the Committees on Appropriations, to develop a plan for increasing the number of agriculture specialists in the field

commensurate with the need. The bill provides \$75,000,000 for global food security, including local purchase, in addition to funds otherwise made available for such purposes.

Agriculture programs

USAID should consider the work of the World Cocoa Foundation/National Confectioners Association, the United Nations University Food and Nutrition Program, and the International Fertilizer Development Center.

Support for dairy development programs, which reach large numbers of rural farmers, is continued. USAID should provide not less than \$30,000,000 to dairy and livestock development with a focus on programs in Afghanistan, Sudan, and Haiti.

The Global Crop Diversity Trust was created to collect, document and store seeds securely in order to preserve genetic diversity and \$7,000,000 is provided for a United States contribution to the Trust's endowment.

Agricultural research

Support is continued for agricultural research through the Consultative Group on International Agricultural Research, which plays a central role in USAID's research program. USAID should consider the work of the International Wheat and Maize Improvement Center.

The bill provides \$29,000,000 for Collaborative Research Support Programs (CRSPs) to support plant and biotechnology research and development programs to improve food security and income generation, particularly in Africa and Asia. Research and development on salt-resistant crops and on ridge tillage land use systems in West and sub-Saharan Africa are supported.

Economic Growth

USAID should prioritize programs that increase economic growth in developing countries as part of a multi-faceted strategy that seeks to expand opportunities for the poorest segments of society. USAID should consider gender differences in the design and implementation of programs to promote economic growth. USAID should consider the work of Georgia State University, New Mexico State University, the Caribbean Institute, and the Students in Free Enterprise Africa Development Program.

Artisans.—USAID should consider the work of Aid to Artisans and Barro Sin Plomo.

Cooperative Development Program.—The bill provides \$10,000,000 for USAID's Cooperative Development Program within the Office of Private and Voluntary Cooperation.

Financial market assistance in transition countries.—USAID should continue programs that provide technical assistance in the building and development of stock exchanges, central banks, financial regulatory institutions, and private financial intermediaries. USAID should consider the work of the Financial Services Volunteer Corps.

Governance.—USAID should consider the work of the Institute for State Effectiveness.

Infrastructure.—Investment in critical infrastructure can sustain economic growth when coupled with a comprehensive development strategy, and USAID is encouraged to continue collaborating with the Millennium Challenge Corporation (MCC) in this area. USAID should expand efforts, similar to those undertaken by UN-Habitat, to improve housing opportunities in urban settings, especially in Kibera in Nairobi, Kenya. USAID should also consider the work of the Niall Mellon Township Trust.

Microfinance.—The bill provides \$245,000,000 for microfinance and microenterprise development programs for the poor, especially

women. USAID should work with private nongovernmental organizations, microfinance networks and private voluntary organizations to maximize assistance to poor clients. Of the total, 50 percent of funds should be for grants to private networks, practitioner institutions, and nongovernmental organizations, and USAID's Office of Microenterprise should provide grants through a central funding mechanism for contracts, cooperative agreements and grants in order to ensure that programs in the field are based on best practices. Further, of the total, \$20,000,000 should be provided for microfinance service providers working with people infected with HIV/AIDS. USAID should consider the work of CHOICE Humanitarian and Esperanza International.

Property rights.—Programs that address property rights, create private real estate markets, and improve the regulation of land tenure in order to provide economic opportunity for the poorest of the poor should be expanded. USAID should consider the work of the International Real Property Foundation.

Rural electrification.—USAID should consider the work of the International Rural Power Access and Cooperative Electrification program.

Small and medium enterprises.—Programs that increase access to capital for small and medium-sized enterprises, including those owned by women in developing countries, should be expanded. USAID is directed to develop a plan to expand its programming in this area and to consult with the Committees on Appropriations.

Telecommunications.—USAID should consider the work of the United States Telecommunications Training Institute.

Trade capacity building.—The bill provides a total of \$20,000,000 for trade capacity building related to the Central American Free Trade Agreement, including \$10,000,000 under this heading; and \$10,000,000 for trade capacity building assistance to meet environmental standards related to the Peru Free Trade Agreement from the amounts provided for Peru under this heading.

USAID is encouraged to support programs that allow countries to benefit from the opportunities provided through the African Growth and Opportunity Act, including programs that regulate intellectual property as a means for social and economic development.

Education

Basic education.—The bill provides a total of \$700,000,000, of which \$400,000,000 is provided under this heading for basic education. Education should be a key component of the United States Government's development strategy in developing countries. Of the amounts provided for basic education, \$240,000,000 should be used to provide assistance in developing countries that have a national education plan.

The bill includes language in section 7064 that establishes a three-country pilot program and USAID should consult with the Committees on Appropriations on potential countries for such programs. Each country should develop a five-year implementation plan that supports the national education plan. This pilot program should develop best practices that can be utilized by other missions and should be staffed by qualified education specialists.

USAID should continue funding for programs to increase access to basic education for children in sub-Saharan Africa, including Ethiopia, through the reduction or elimination of school fees.

USAID is directed to provide the Committees on Appropriations with a report not later than 180 days after enactment of this Act on implementation of the United States Government-wide strategy and all government basic education programs, and information about how such programs support national education plans.

USAID should consider the work of Alfat International, the Issa Foundation, Social Contract Training Foundation, and World ORT.

Higher education and workforce development.—The bill provides \$133,000,000 for vocational, undergraduate, and graduate education, which should be focused on countries emerging from conflict that have an urgent need for professionals skilled in public administration, education, agriculture, engineering, public health and other fields necessary for recovery and development. In addition, USAID should prioritize higher education in countries that have already made significant strides in providing quality basic and secondary education to their populations.

USAID should consider the work of the Asian University for Women, the Center for Educational Excellence, the Center of Entrepreneurship, the Center for Strategic Learning at Hofstra University, and Spelman College.

Continued funding for scholarships at United States colleges and post-secondary institutions for students with high financial need from Latin America and elsewhere is encouraged and USAID should consider the work of the Cooperative Association of States for Scholarships program.

American Schools and Hospitals Abroad program.—The bill provides \$22,500,000 for the American Schools and Hospitals Abroad program, with the expectation that USAID will allocate funds under terms and conditions similar to prior fiscal years. USAID should consider the work of the American University of Beirut; American University in Kosovo; Ashdod Emergency Medical Center; EARTH University in Costa Rica; Edith Wolfson Medical Center; Feinberg Graduate School of the Weizmann Institute of Science; Hadassah Medical Organization; Hebrew University; Johns Hopkins University's Centers in Nanjing, China and Bologna, Italy; Kigali Medical University Foundation; Lebanese American University; Shaare Zedek Medical Center; Tel Aviv University; and the University of Kabul.

Energy and Environment

Clean energy.—The bill provides \$100,000,000 for programs and activities that reduce global warming by promoting the sustainable use of renewable energy technologies and energy efficient end-use technologies, carbon sequestration, and carbon accounting. Given the growing demand for energy in developing countries and concern with climate change, USAID is strongly encouraged to strengthen the capacity of its staff with expertise in these issues.

Biodiversity.—Funding for biodiversity should prioritize programs that protect tropical forests and the habitat of endangered species, as well as wetlands and marine ecosystems. The bill provides \$25,000,000 for these activities in the Amazon Basin, of which \$15,000,000 is for USAID's Initiative for Conservation in the Andean Amazon and \$10,000,000 is for such activities in the Brazilian Amazon. In addition, \$17,500,000 is provided for the Congo Basin Forest Partnership, including \$2,500,000 for the United States Fish and Wildlife Services programs to protect the habitat of great apes in Central Africa.

USAID should consider working with other public and private donors to protect wildlife in eastern Niger and continue work to protect newly discovered wildlife in Southern Sudan.

USAID should also expand its work in marine ecosystems in order to preserve the habitat for coral and tropical fish and consider the work of the Coral Reef Small Grants Program.

Funding for the United States National Park Service for technical and training programs for protected area management in Samlaut, Cambodia, in consultation with USAID, should be considered.

Not less than \$4,000,000 is provided for continued support of the Colombian National Park Service and nongovernmental organizations working in buffer zones to protect Colombia's national parks and indigenous reserves.

USAID should work with the Government of Ecuador to support achieving the goals of the Galapagos Invasive Species Fund.

USAID should continue programs to protect the habitat of orangutans in Borneo and Sumatra.

USAID should consider the work of the Florida Aquarium, the Wildlife Conservation Society, the Center for International Forestry Research, the Peregrine Fund, and the Cheetah Conservation Fund.

Global Programs

Child marriage.—USAID is encouraged to consider the prevalence of child marriage when developing country operating plans and should increase programmatic focus on this issue.

Democracy.—USAID's work in the area of democracy and governance is important and funding for these programs should increase in fiscal year 2009. Democracy programs should be balanced between states in conflict and those working to consolidate and continue their democratic transition. USAID should consider the work of the University of Kentucky School of Law.

Patrick Leahy War Victims Fund.—USAID is directed to provide not less than \$13,000,000 to support this fund which assists persons who are severely disabled as a result of armed conflict.

Reconciliation programs.—The bill provides \$25,000,000 to support programs that bring together and facilitate interaction between individuals of different ethnic, religious and political backgrounds from areas of civil conflict and war. Of this amount, \$9,000,000 is available for such activities in the Middle East. The intent of this program is to maximize the participation of local civil society organizations and to involve antagonists directly in people-to-people activities which promote mutual understanding, trust and problem solving. USAID should consider the work of LibforAll Foundation, In His Shoes Ministries, Cooperation Ireland in conjunction with Syracuse University, Jerusalem International YMCA, the Arava Institute for Environmental Studies, Empower Peace Foundation, Peace Research Institute in the Middle East, and Project Children.

Safe water.—The bill provides not less than \$300,000,000 from all accounts in this Act for water and sanitation supply projects pursuant to the Senator Paul Simon Water for the Poor Act of 2005 (Public Law 109-121). Recognizing that growing populations and the shortage of safe water is a cause of disease and conflict, funding should be used to provide safe water and sanitation in high priority countries that are selected based on the criteria in Public Law 109-121. Increasing access to safe drinking water should con-

tinue to be the highest priority in the programming of these funds. Of this amount, not less than \$125,000,000 should be made available for programs and activities in sub-Saharan Africa. USAID should ensure sufficient staff resources are in place for implementing safe water and sanitation programs. USAID shall consult with the Committees on Appropriations on the uses of these funds.

USAID should consider the work of the International Arid Lands Consortium and the International Rural Water Association.

Of the total, up to \$20,000,000 should be made available to USAID's Global Development Alliance for public-private partnerships, particularly with nongovernmental organizations.

USAID should consider programs to increase access to potable water in the Kapchorwa District of Uganda, and should consider expanding efforts related to reverse osmosis water purification and household water treatment to reduce morbidity and mortality in developing countries.

USAID should consider funding for water resource management through small-scale irrigation in Darfur to counter the effects of flash flooding and frequent droughts.

University programs.—USAID should continue its support of a competitive university grants program under terms and conditions similar to prior years. The Department of State and USAID should consider proposals from the following institutions, among others, through a transparent and competitive funding process: Auburn University; Georgia State University; Gonzaga University; Iowa State University; James Madison University; Morehouse College; South Dakota School of Mines and Technology; Stetson University College of Law; Temple University's School of Law; University of Iowa; University of Kentucky; University of Missouri at Columbia; and Western Kentucky University.

Victims of torture.—The bill provides \$13,000,000 under this heading for programs and activities that address the needs of victims of torture. Programs funded with these funds should be consistent with the goals of Public Law 106-87, the Torture Victims Relief Reauthorization Act of 1999.

In addition, USAID should provide support to foreign torture treatment centers and programs should ensure that culturally appropriate care is provided. USAID should consider the work of the Peter C. Alderman Foundation.

Women's leadership capacity building.—The bill provides \$15,000,000 for programs which enhance leadership and economic opportunities for women in developing countries. Funds should also be used to provide technical assistance and capacity building for women's organizations. USAID should consider the work of Women's Campaign International.

Country Issues

Bangladesh.—USAID and the Department of State are directed to work with the Government of Bangladesh to strengthen human rights and rule of law.

Cambodia.—The bill provides funding for assistance for Cambodia under this heading, of which up to \$2,000,000 is for programs to improve the capacity of Cambodian judicial, law enforcement, and social institutions involved in combating human trafficking.

Chad.—USAID should continue efforts in Chad to assist refugees and internally displaced persons, including facilitating the delivery of assistance and helping coordinate humanitarian aid provided by other donors.

Eastern Africa.—USAID should be moving from emergency response to reconstruction

and long-term development in regions such as southern Sudan, northern Uganda, the Democratic Republic of the Congo, and Chad as much as possible. USAID is directed to consult with the Committees on Appropriations on implementation of these activities. USAID is directed to increase efforts in Africa to provide assistance to victims and potential victims of rape and sexual violence in Darfur, eastern Chad, eastern Democratic Republic of the Congo, and the Central African Republic.

Guatemala.—Funding under this heading should be available to support legal reform initiatives and programs to combat crimes of violence that specifically target Guatemalan women and girls in order to conform Guatemalan law with international standards.

India.—The bill provides \$10,000,000 for assistance for India to continue rule of law, health and energy/environment programs. Efforts to assist the victims of the Bhopal tragedy to obtain support from the Government of India to establish and fund a commission to administer social, economic and medical rehabilitation programs, implement environmental restoration of polluted land, and provide funding for clean drinking water should continue.

Indonesia.—USAID and the Department of State should work with the Government of Indonesia to ensure that religious freedom and diversity is protected and those responsible for attacks on religious minorities and institutions are prosecuted.

Namibia.—The bill provides \$5,025,000 for assistance for Namibia, of which \$2,000,000 is for democracy and governance programs, to be administered by USAID.

Vietnam.—The bill provides \$15,000,000 for assistance for Vietnam, which should focus on judicial and economic reform programs to strengthen the rule of law, protect human rights, and expand economic opportunities. Of this amount, \$3,000,000 is provided to continue environmental remediation of dioxin contamination at the Da Nang Airport and related health activities in nearby communities in Vietnam.

INTERNATIONAL DISASTER ASSISTANCE

The bill provides \$350,000,000 for International Disaster Assistance, which is \$30,261,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$51,950,000 above the request.

The Office of Foreign Disaster Assistance is urged to adopt the Emergency Education principles as defined by the United Nations Educational, Scientific and Cultural Organization and include education as a component of humanitarian interventions to the extent practicable.

TRANSITION INITIATIVES

The bill provides \$50,000,000 for Transition Initiatives, which is \$5,365,000 above the fiscal year 2008 level and \$10,000,000 above the request.

DEVELOPMENT CREDIT AUTHORITY (INCLUDING TRANSFER OF FUNDS)

The bill provides \$8,000,000 for the administrative expenses of the Development Credit Authority (DCA), which is \$94,000 below the fiscal year 2008 level and \$400,000 above the request. In addition, \$25,000,000 is provided by transfer for programs.

DCA is encouraged to expand its programming in the area of safe water and sanitation.

ECONOMIC SUPPORT FUND (INCLUDING TRANSFER OF FUNDS)

The bill provides \$3,007,000,000 for Economic Support Fund (ESF), which is

\$574,609,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$146,743,000 below the request. Funds in this account shall be allocated in the following table, subject to the requirements of section 7019 of this Act:

Country/program (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
Africa:		
Horn of Africa and Pan Sahel Program	0	10,000
Liberia	90,245	90,300

*Funding was requested under the "Development Assistance" heading.

Africa

Democratic Republic of the Congo.—The bill continues assistance for post-conflict stabilization. Violence associated with the exploitation of natural resources, particularly columbite-tantalite, is of concern.

Horn of Africa and Pan Sahel Program.—The bill provides not less than \$10,000,000 for programs and activities to counter extremism in the Horn of Africa and Pan Sahel regions of Africa to be administered by USAID at the mission level.

Liberia.—USAID should support efforts to increase access to electricity, and should expand programs that promote and strengthen the rule of law, consistent with country plans.

USAID and the Department of State should support international efforts to trace and freeze assets allegedly confiscated and controlled by former Liberian President Charles Taylor, and by his family members and associates. Funding is encouraged to support programs that work with the Liberian Solicitor General to identify and recover these funds.

USAID should consider the work of North Carolina State University.

Sierra Leone.—The bill provides funding for assistance for Sierra Leone under this heading, of which \$9,000,000 is for the Special Court for Sierra Leone.

Sudan.—The bill provides \$254,100,000 for assistance for Sudan, of which a portion should be used to support a long-term development program in southern Sudan that includes adequate attention to rule of law, institution building, health, basic education, agriculture, and economic growth. USAID and the Department of State are directed to report to the Committees on Appropriations on an annual basis on progress in southern Sudan.

The Department of State is directed to report to the Committees on Appropriations not later than 120 days after enactment of this Act on actions taken by the Government of China related to Sudan, including any efforts undertaken to impede international sanctions, dilute international condemnation of the Government of Sudan, or otherwise assist the Government of Sudan in avoiding its obligations to comply with existing UN resolutions. The report should also include any efforts undertaken by the Government of China to pressure the Government of Sudan to end the genocide in Darfur, a brief description of the Department of State's efforts since the start of the genocide to engage the Government of China on the issue of Darfur, and specific proposals for obtaining the cooperation of the Government of China in this effort.

Europe and Eurasia

Cyprus.—The bill provides \$11,000,000 for assistance for Cyprus for scholarships, administrative support of the scholarship program, bicomunal projects, and measures aimed at reunification of the island. There are concerns that some projects on Cyprus have been funded without advance consultation with the Government of the Republic of Cyprus. Such consultations should occur whenever practicable in the interest of transparency in the allocation of funds. The requirements of section 7034(k) shall apply with respect to the provision of assistance to nongovernmental organizations.

Tunisia.—The bill provides \$1,500,000 for assistance for Tunisia to support human rights organizations and programs.

Turkey.—The bill provides \$7,500,000 for assistance for Turkey. The Department of State shall consult with the Government of Turkey and the Committees on Appropriations on the uses of these funds.

Near East

Egypt.—Within the amount provided for project assistance, up to \$20,000,000 shall be made available for democracy, governance, and human rights programs and not less than \$35,000,000 shall be for education programs, of which \$10,000,000 is for scholarships for Egyptian students with high financial need. The requirements of section 7034(k) shall apply with respect to the provision of assistance to nongovernmental organizations.

Jordan.—The bill provides \$263,547,000 for assistance for Jordan.

Lebanon.—The bill provides \$67,500,000 for programs in Lebanon, of which not less than \$10,000,000 is for scholarships for students in Lebanon with high financial need, including at American educational institutions. These funds are to be awarded through an open and competitive process. Of the total for Lebanon, \$500,000 is provided for the United States Forest Service's forest management

and wildlife conservation programs in Lebanon.

Middle East Partnership Initiative (MEPI).—The bill provides \$50,000,000 to continue regional programs traditionally managed by MEPI, of which \$8,000,000 should be used to continue a scholarship program to educate students from countries with significant Muslim populations, including at American educational institutions in those countries. These funds are to be awarded through an open and competitive process. The Department is directed to report to the Committees on Appropriations on coordination with other offices responsible for funding similar programs. USAID should consider the work of Street Law.

Middle East Regional Cooperation Program.—The bill provides \$5,000,000 for the Middle East Regional Cooperation Program to promote technical cooperation between Arab and Israeli scientists, students, and communities on topics relevant to development in the Middle East.

Middle East regional programs.—USAID should consider technical assistance to increase the capacity of nongovernmental organizations to meet the humanitarian and psycho-social needs of the affected population in Sderot and Western Negev, including through programs to train emergency response teams.

West Bank and Gaza.—The Department of State and USAID should continue to support reform efforts of the Palestinian Authority.

Up to \$2,000,000 of the funds provided under this heading may be used to augment administrative expenses of USAID to facilitate program administration and not less than \$3,000,000 should be designated for local nongovernmental organizations operating in the West Bank to strengthen civil society and improve social services for the Palestinian people.

USAID should consider the work of the First Regional Cooperative Program for Health to be conducted by the Hebrew University's Kuvim Center, Al Quds University, and St. John Eye Hospital Jerusalem.

South and Central Asia

Afghanistan.—The bill provides a total of \$1,041,950,000 for assistance for Afghanistan. USAID should intensify efforts to address widespread corruption and heavy dependence on illicit crops that continue to erode public confidence in the Afghan government. As in the past, a portion of the funding for Afghanistan is withheld from obligation, until the Secretary of State certifies to the Committees on Appropriations that the Government of Afghanistan at both the national and provincial levels is cooperating fully with United States-funded eradication and interdiction efforts in Afghanistan. A national security waiver is included.

The Secretary of State is directed to report to the Committees on Appropriations not later than 180 days after the date of enactment of this Act on its efforts to increase participation by member states in the North Atlantic Treaty Organization's mission in Afghanistan against the Taliban and Al-Qaeda.

USAID should continue support for the National Solidarity Programme.

Afghan women and girls.—The bill provides \$100,000,000 for programs for women and girls, of which \$15,000,000 is provided for training and equipment to improve the capacity of women-led Afghan nongovernmental organizations, and to support the activities of such organizations. USAID is directed to more aggressively conduct outreach to such organizations, particularly those in remote areas,

to inform them of USAID programs and procedures. USAID should make building the capacity of women's organizations a priority. The Department of State shall submit a report to the Committees on Appropriations not later than September 30, 2009, describing the use of funds provided in fiscal years 2008 and 2009 to address the needs of Afghan women and girls.

Independent Human Rights Commission.—USAID should continue support for the Afghan Independent Human Rights Commission and other Afghan human rights organizations.

Civilian Assistance Program.—The bill provides \$12,000,000 for continued support for USAID's Afghan Civilian Assistance Program, to assist victims of military operations.

Higher education.—Of the funds made available for education programs in Afghanistan, a significant portion is to be made available to support programs in vocational and higher education, including in public administration, engineering, public health, education, and other fields necessary to rebuild the country.

Pakistan.—The bill provides \$425,000,000 for assistance for Pakistan, in addition to sums provided in Public Law 110-252. USAID is urged to prioritize programs that strengthen democratic governance and the rule of law, create educational and economic opportunities for Pakistani youth, and invest in the energy and agriculture sectors. The assistance provided is intended for programs and not direct budget support. Funding is also provided to continue economic development for the Federally Administered Tribal Areas (FATA). The Secretary of State is directed to press the democratically-elected Government of Pakistan on human rights, particularly with respect to women and girls, judicial independence and freedom of the press. The Government of Pakistan is urged to move expeditiously to remedy constitutional breaches of the previous regime by restoring the independent judiciary, freeing political prisoners and ensuring due process.

Western Hemisphere

Central America.—The bill provides \$12,000,000, within Western Hemisphere regional funds, for assistance for countries in Central America to continue the "Economic and Social Development Fund for Central America." These funds should be administered by USAID, in consultation with the Department of State. USAID is directed to consult with the Committees on Appropriations prior to the obligation of these funds.

Colombia.—The bill provides \$200,000,000 for economic assistance programs in Colombia apportioned directly to USAID for continued support of new and ongoing development programs.

Within the total, \$45,000,000 shall be available to support internally displaced persons, refugees and other indigenous vulnerable groups, of which \$3,500,000 is transferred to "Migration and Refugee Assistance" for emergency relief through nongovernmental organizations for Colombian refugees in neighboring countries. Additionally, up to \$15,000,000 of the funds made available for Colombia under this heading is directed to be used for programs which specifically benefit Afro-Colombian and indigenous communities.

Haiti.—The bill provides a total of \$121,250,000 for assistance for Haiti.

USAID should continue funding for watershed reforestation to stabilize Haiti's fragile hillsides and support sustainable agriculture.

Crowding, excessive pre-trial detention, and inhumane conditions in the National

Penitentiary are of concern and USAID should support efforts to address this problem.

USAID should consider the work of the Management Sciences for Health, Pure Water for the World, and Florida Association of Volunteer Action in the Caribbean and Americas.

Mexico.—The bill provides \$15,000,000 for assistance for Mexico for economic assistance and civil society institution building.

Asia

Cambodia.—The bill provides \$10,000,000 for assistance for Cambodia under this heading and an additional \$17,000,000 under the "Development Assistance" heading, including for an endowment.

Indonesia.—The bill provides \$65,000,000 for assistance for Indonesia under this heading, and an additional \$71,000,000 under the "Development Assistance" heading. USAID should continue its programs in Aceh and maintain a presence.

The Department of State should work with the Government of Indonesia to ensure that the United Nations and other humanitarian organizations have free access to people in need in Papua.

Nepal.—The bill provides \$22,151,000 for assistance for Nepal under this heading to support security sector reform, governance and other development activities.

Philippines.—The bill provides \$30,000,000 for assistance for the Philippines under this heading, and an additional \$30,000,000 under the "Development Assistance" heading. USAID should continue support for conflict resolution activities in Mindanao and expand judicial training programs.

Thailand.—The bill provides \$2,500,000 for assistance for Thailand under this heading for development and conflict resolution programs in southern Thailand. An additional \$4,500,000 is also included under the "Development Assistance" heading.

Tibet.—The bill provides \$7,300,000 for assistance for programs that preserve cultural traditions and promote economic development and environmental conservation in Tibetan communities, to be administered by USAID. The Special Coordinator for Tibetan Issues should play an active role in the allocation of funds for programs and activities in Tibet, as authorized by Public Law 107-223.

Organizations involved in China rule of law programs should seek opportunities to conduct programs that can improve the human rights situation and the administration of justice in Tibetan areas, including Tibetan areas outside the Tibetan Autonomous Region.

USAID should consider the work of The Bridge Fund.

Timor-Leste.—The bill provides \$23,000,000 for assistance for Timor-Leste under this heading, of which \$1,500,000 is to be used for higher education scholarships including vocational training, undergraduate, and graduate studies.

Global Programs

Asia-Pacific Partnership Program.—The bill provides no funding for this program.

Civilian Research and Development Foundation.—The bill provides \$5,000,000 for programs that engage scientists in the establishment of new international partnerships through cooperative research and development activities to provide former weapons scientists the opportunity to participate in scientific research with their civilian counterparts to develop skills relevant for sustained civilian employment.

Democracy.—The bill provides the following amounts for democracy and governance programs, in addition to funds otherwise made

available for such purposes: \$2,500,000 for Libya; \$500,000 for Malaysia, to be administered by the Department of State; \$2,500,000 for North Korea; \$2,500,000 for Syria; and \$25,000,000 for Near East Regional Democracy (NERD). The Department of State shall consult with the Committees on Appropriations on the uses of NERD funds, which shall be awarded on a competitive basis.

Disabilities.—The bill provides \$4,000,000 for programs that address the needs and protect the rights of people with disabilities in developing countries. Funding should be used to support the public dissemination of information on independent living, advocacy, education and transportation through accessible technologies, other than the Internet. USAID should consider funding partnerships between United States entities with expertise in these issues and organizations with expertise in communications technology not requiring the Internet, to benefit disability organizations and individuals with disabilities in developing countries.

Environmental protection.—USAID should consider the work of the Foundation for Environmental Security and Sustainability.

Extractive industries.—The bill provides \$3,000,000 for a United States contribution to the Extractive Industries Transparency Initiative Trust Fund.

Health programs.—The bill provides not less than \$122,000,000 for global health activities under this heading. Of the total, \$70,000,000 is for child survival activities; \$51,000,000 is for family planning/reproductive health programs; and \$1,000,000 is for infectious diseases.

Kimberley Process.—The bill provides \$3,000,000 for the Kimberley Process Certification Scheme, with an emphasis on regional efforts to combat cross-border smuggling and to strengthen the role and capacity of civil society groups in the Kimberley Process.

Parliamentary exchanges.—The bill provides \$2,000,000 for the House Democracy Assistance Commission. This program is not included in the fiscal year 2009 justification material and is therefore subject to the notification requirements of section 7015.

Trafficking in persons.—The bill provides \$12,000,000 for programs to prevent trafficking in persons consistent with the Trafficking Victims Protection Act of 2000.

Wheelchairs.—The bill provides \$10,000,000 for wheelchair programs in developing countries to be allocated through a fully open and competitive process. Programs should provide quality, low-cost wheelchairs that utilize appropriate technologies, and are sustainable.

DEMOCRACY FUND

The bill provides \$116,000,000 for the Democracy Fund, which is \$46,672,000 below the fiscal year 2008 level and \$116,000,000 above the request. Of the total, not less than \$74,000,000 is for the Bureau of Democracy, Human Rights and Labor at the Department of State, and not less than \$37,000,000 is for the Office of Democracy and Governance of the Bureau of Democracy, Conflict, and Humanitarian Assistance at USAID.

Expanding access to information.—The bill provides \$5,000,000 for Internet activities to expand access and information in closed societies and these funds are to be awarded on a competitive basis.

Notifications.—In order to increase oversight of democracy programs, notification is required of any contract, grant, or cooperative agreement in excess of \$1,000,000 from funds made available under this heading, and in excess of \$2,500,000 from funds made available under other headings in the bill.

INTERNATIONAL FUND FOR IRELAND

The bill provides \$15,000,000 for the International Fund for Ireland, which is \$122,000 above the fiscal year 2008 level and \$15,000,000 above the request.

ASSISTANCE FOR EUROPE, EURASIA AND CENTRAL ASIA

The bill provides \$650,000,000 for Assistance for Europe, Eurasia and Central Asia, a new account which merges the authorities and appropriations for the budget request for Assistance for Eastern Europe and the Baltic States and Assistance for the Independent States of the Former Soviet Union. This amount is \$40,050,000 below the fiscal year 2008 level and \$28,267,000 above the request for both accounts referenced above.

Country Programs

Armenia.—Funds are provided to continue governance and economic development programs. The Department of State is urged to work with the Government of Armenia to establish an independent and objective commission to investigate fully the events surrounding the 2008 presidential election and the subsequent violence.

Kosovo.—USAID should consider the work of the Kosovo Memory Book.

North Caucasus.—The bill provides \$9,000,000 to continue programs in the North Caucasus, which shall be used for humanitarian, conflict mitigation, human rights, civil society and relief and recovery assistance. USAID should consult with the Committees on Appropriations on the proposed uses of these funds.

Russia.—USAID should consider the work of the Russian Project, including the Moscow-based Moms and Babies Project. The bill continues language in section 7073 restricting assistance for the government of Russia due to its support for the Iranian nuclear program.

South Caucasus.—The Department of State is expected to use existing authority under section 498B of the Foreign Assistance Act of 1961 as necessary to carry out confidence-building measures among the parties to the Nagorno-Karabakh conflict. The bill provides up to \$8,000,000 to address ongoing humanitarian needs in Nagorno-Karabakh.

Ukraine.—The bill provides \$71,500,000 for assistance for Ukraine to continue governance and economic development programs. USAID should consider the work of the Ukrainian Congress Committee of America.

Regional Programs

Civilian science.—Science diplomacy can help address energy, agriculture, non-proliferation, health and other pressing global problems. The Department of State should consider the work of the Science Education for New Civic Engagements and Responsibilities.

Democracy, anti-trafficking and human rights.—USAID should consider the work of the Eurasia Foundation, MiraMed, and the Institute for Sustainable Communities.

Health programs.—The bill provides up to \$36,143,000 for global health and child survival under this account, of which \$8,465,000 is for child survival and maternal health, \$9,000,000 is for family planning/reproductive health programs, and \$18,678,000 is for infectious disease programs. USAID should consider the work of the Eurasian Medical Education Program of the American College of Physicians, Hellenicare, and the Primary Health Care Initiative.

OSCE and OHR accounts.—Within the total provided under this heading, \$52,113,000 is made available for regional programs, of which, \$22,510,000 is available to support the

activities of the Organization for Security and Cooperation in Europe and \$4,200,000 is to support the Office of the High Representative.

Religious/ethnic discrimination.—USAID should support programs that address anti-Semitism and religious persecution in the Russian Federation, Ukraine, and Belarus. The Coordinator of United States Assistance to Europe and Eurasia is directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on assistance provided by the United States to address these concerns and should consider the work of the Union of Councils for Jews in the Former Soviet Union.

United States Forest Service (USFS).—The bill provides \$500,000 for continued support of the work of the USFS in the Russian Far East.

Funds in this account are allocated in the following table, subject to the requirements of section 7019 of this Act:

ASSISTANCE FOR EUROPE, EURASIA AND CENTRAL ASIA

Country/region (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
Central Asia:		
Kazakhstan	13,500	13,500
Kyrgyz Republic	23,400	24,400
Tajikistan	25,233	25,233
Turkmenistan	8,000	7,000
Uzbekistan	7,000	7,000
Regional—Central Asia	6,207	3,000
Subtotal, Central Asia	83,340	80,133
Europe and Eurasia:		
Albania	18,910	18,910
Armenia	24,000	48,000

Total, Europe, Eurasia and Central Asia	621,733	650,000

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

The bill provides \$875,000,000 for International Narcotics Control and Law Enforcement (INCLE), which is \$321,074,000 above the fiscal year 2008 enacted level and \$327,061,000 below the request. The amount provided is in addition to \$199,000,000 provided in Public Law 110-252.

Under certain extraordinary circumstances, the Department of State is required to exercise “notwithstanding” authority. However, this authority has sometimes been used without notification to the Committees on Appropriations. The Secretary of State is directed to notify the Committees on Appropriations in writing each time such authority is used, including providing a justification for such action.

Country Programs

Afghanistan.—The bill continues a limitation on the use of funds for aerial eradication through the spraying of herbicides in Afghanistan, unless the President of Afghanistan requests such assistance.

Central America.—The bill provides \$70,000,000 under the Merida Initiative for the countries of Central America, subject to

similar requirements as those in Public Law 110-252.

Colombia.—The bill provides \$45,000,000 for justice and rule of law activities, as described in the table under section 7046.

Dominican Republic, Haiti and Guatemala.—The bill includes \$2,500,000 for the Dominican Republic and \$2,500,000 for Haiti as part of the Merida Initiative to support counter-narcotics and border security programs, anti-corruption, judicial reform, institution-building, and rule of law programs. Additionally, the bill includes \$3,000,000 for continued support of the International Commission Against Impunity in Guatemala. These funds are in addition to levels requested by the Administration under this heading for Guatemala, Haiti and the Dominican Republic.

Ghana.—USAID should consider the work of the Leitner Center in Ghana.

Mexico.—The bill provides \$246,000,000 under this heading for continued support of activities related to the Merida Initiative, subject to similar requirements as those in Public Law 110-252 including that 15 percent of the funds for law enforcement activities may not be obligated until the Secretary of State reports to the Committees on Appropriations that certain requirements related to human rights have been met. The bill does not provide or permit any funds to be used for the purchase or lease of UH-60 transport helicopters, equipment, training or related assistance; such funding will be considered at a later date.

Global Programs

International Law Enforcement Academies (ILEA).—The Department of State should provide the amount requested for ILEAs.

Intellectual property.—The bill provides \$5,000,000 for programs to combat intellectual property piracy.

International demand reduction programs.—The bill provides \$10,000,000 for drug demand reduction programs.

Missing and exploited children.—The Department of State should consider the overseas work of the National Center for Missing and Exploited Children.

Trafficking in persons.—The bill provides \$10,000,000 under this heading for activities to prevent trafficking in persons.

Transfers.—The Secretary of State shall provide a report not later than 90 days after enactment of this Act that details funds transferred to the Department of State from the Department of Defense for programs and activities in Iraq and Afghanistan, for section 1207 programs, for fiscal years 2005-2008, and planned transfers for fiscal year 2009.

ANDEAN COUNTERDRUG PROGRAMS

The bill provides \$315,000,000 for Andean Counterdrug Programs, which is \$9,808,000 below the fiscal year 2008 level and \$91,757,000 below the request. Funds in this account are allocated in the following table, subject to the requirements of section 7019 of this Act:

ANDEAN COUNTERDRUG PROGRAMS

Country (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
Bolivia	31,000	26,000
Brazil	1,000	1,000
Colombia	329,557	242,500
Ecuador	7,200	7,500
Panama	1,000	1,000
Peru	37,000	37,000
Total—ACP	406,757	315,000

Colombia.—The bill provides \$242,500,000 for interdiction and eradication activities and \$45,000,000 of funding requested under this

heading for rule of law activities is shifted to the INCLE account.

Twenty percent of funds for aerial spraying may not be made available unless the Secretary of State certifies that complaints of harm to human health and licit crops are thoroughly evaluated and fair compensation is paid in a timely manner. The Secretary of State is directed to submit a report to the Committees on Appropriations, not later than 120 days after enactment of this Act, detailing all claims, evaluation, and compensation paid during the 12 month period prior to the date of enactment.

House Report 110-197 required the Secretary of State, in consultation with the Secretary of Defense, to report on a multi-year strategy for the United States assistance program in Colombia. The Secretary of State is directed to provide a report to the Committees on Appropriations not later than 45 days after enactment of this Act on the status of this multi-year strategy.

The bill provides not more than \$16,730,000 for administrative expenses for programs funded under this heading for the Department of State and not more than \$8,000,000 may be used for USAID administrative expenses for alternative development/institution building programs funded under the "Economic Support Fund" heading.

Peru.—The bill provides \$37,000,000 for assistance for Peru to continue interdiction and eradication activities. USAID should consider the work of the Field Museum of Chicago.

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

The bill provides \$525,000,000 for Non-proliferation, Anti-terrorism, Demining and Related Programs (NADR), which is \$41,945,000 above the fiscal year 2008 level and \$26,000,000 above the request. Funds in this account are allocated in the following table, subject to the requirements of section 7019 of this Act:

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

Programs (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
Nonproliferation Programs		
Nonproliferation and Disarmament Fund	40,000	41,000
Export Control and Related Border Security Assistance	41,300	44,000
Global Threat Reduction (formerly NWMD)	64,000	61,000
Biosecurity Engagement Program		(27,000)
IAEA Voluntary Contribution	50,000	61,000
CTBT International Monitoring System	9,900	25,000
Weapons of Mass Destruction Terrorism	5,000	2,000
Subtotal, Nonproliferation Programs	210,200	234,000

Anti-terrorism Assistance	141,475	141,300
Terrorist Interdiction Program	8,900	10,000
CT Engagement with Allies	1,200	1,200
Counterterrorism Financing	8,425	8,500
Subtotal, Anti-terrorism Programs	160,000	161,000
Regional Stability & Humanitarian Assistance		
Humanitarian Demining Program	0	65,500
International Trust Fund	0	12,500
Small Arms/Light Weapons Destruction	0	52,000
Conventional Weapons Destruction	128,800	0
Subtotal, Regional Stability & Humanitarian Assistance	128,800	130,000
Total—NADR	499,000	525,000

MIGRATION AND REFUGEE ASSISTANCE

The bill provides \$931,000,000 for Migration and Refugee Assistance, which is \$107,822,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$167,000,000 above the request. The amount provided is in addition to \$350,000,000 appropriated in Public Law 110-252.

Administrative expenses.—The bill discontinues the limitation on administrative ex-

penses carried under this heading in prior years. The Department of State should continue to hold administrative expenses to a minimum, in order to provide the maximum funding possible for overseas refugee processing and services. The fiscal year 2009 spending plan shall detail the projected administrative expenses and justify any increase above the request.

Colombia.—The bill provides \$3,500,000 for assistance for Colombian refugees in neighboring countries by transfer from the ESF account.

Iraqi refugees.—The Department of State and USAID should aggressively support refugee relief and resettlement programs for displaced Iraqis inside and outside of Iraq, including those displaced in Syria, and for religious minorities.

The Department of State should ensure that the Iraqi resettlement program remains a priority and that the previous backlog is addressed.

Migration to Israel.—The bill provides not less than \$30,000,000 for assistance for refugees resettling in Israel.

North Korea.—Assistance should be made available for North Korean refugees, as authorized by Public Law 108-333.

Tibetan refugees.—The Department of State should work with the Government of Nepal to ensure the safe transit of Tibetan refugees and to respect the rights of, and provide legal protections to, Tibetans residing in Nepal.

Thai-Burma border.—There is continued concern with the plight of refugees and internally displaced persons along the Thai-Burma border, and the Department of State shall provide sufficient resources to address these needs.

United Nations Relief and Works Agency (UNRWA).—The Department of State is directed to work closely with UNRWA and host governments to develop a strategy for identifying individuals known to have engaged in terrorist activities.

UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE FUND

The bill provides \$40,000,000 for the United States Emergency Refugee and Migration Assistance Fund, which is \$4,635,000 below the fiscal year 2008 level, excluding emergency appropriations, and \$5,000,000 below the request.

INDEPENDENT AGENCIES

PEACE CORPS

(INCLUDING TRANSFERS OF FUNDS)

The bill provides \$340,000,000 for the Peace Corps, which is \$9,201,000 above the fiscal year 2008 level and \$3,500,000 below the request.

The Peace Corps' strategy guiding its geographic distribution of volunteers should be examined in light of shifting strategic interests, increasing costs of programs, and limited resources. The Peace Corps did not respond adequately to the report required in the explanatory statement accompanying the Consolidated Appropriations Act, 2008 (Public Law 110-161). In addition to the annual budget justification, the Peace Corps shall submit the required report, not later than 90 days after enactment of this Act, which shall include a detailed description of the criteria used to assign volunteers on a country-by-country basis.

The bill includes a new provision requiring the Peace Corps to follow the regular notification procedures of the Committees on Appropriations when deciding to open, close, or significantly reduce the number of personnel of any domestic office.

MILLENNIUM CHALLENGE CORPORATION
(INCLUDING TRANSFER OF FUNDS)

The bill provides \$875,000,000 for the MCC, which is \$669,388,000 below the fiscal year 2008 level and \$1,350,000,000 below the request.

Allocation of funding.—The bill includes \$875,000,000 for the MCC in support of its goals to reduce poverty and promote sustainable economic growth and democracy through country compacts. There is concern with the trend of significantly larger country compacts since the MCC's inception. The average size of compacts signed in 2005 was \$181,000,000. By 2008, the average had almost tripled to \$494,666,667.

Between fiscal years 2004–2008, Congress appropriated \$7,500,000,000 for the MCC for 18 country compacts. Of this amount, only \$353,602,831 had been disbursed by the end of fiscal year 2008. In an effort to ensure that the MCC does not become overextended, that existing compacts are meeting their goals, and future compacts are of a manageable size, the MCC is urged to limit compact size to not more than \$350,000,000 in fiscal year 2009. There is also a concern that threshold programs are not meeting their targets, and that a review of the efficacy of these programs is needed before additional threshold programs are begun. The MCC shall consult with the Committees on Appropriations prior to implementing new threshold programs.

Compact implementation.—Several compacts are scheduled to be completed in 2010. Due to delays in implementation, several of them may not complete their programs within the five-year compact time limit. The MCC shall consult with the Committees on Appropriations on the status of the compacts on a regular basis. The MCC shall notify the Committees on Appropriations immediately if the compact program will not be completed, in order to allow for consideration by Congress of an extension of the five-year time limit.

Contracting and procurement.—The MCC is directed to provide a report to the Committees on Appropriations not later than 120 days after enactment of this Act on actions taken to ensure that United States small, minority-owned, and disadvantaged business enterprises are able to fully participate in the provision of goods and services that are financed with funds made available to the MCC.

Indicators.—The MCC Board of Directors is urged to consider the establishment of an indicator to take into consideration the votes and positions of countries in international and multilateral institutions with respect to internationally recognized human rights, including religious freedom.

Report.—The MCC is directed to submit a report to the Committees on Appropriations not later than 180 days after enactment of this Act describing the MCC's post-compact country transition plan, including how the investment in each compact will be utilized, continued and/or maintained by each country in the future.

INTER-AMERICAN FOUNDATION

The bill provides \$22,500,000 for the Inter-American Foundation, which is \$1,670,000 above the fiscal year 2008 level and \$2,500,000 above the request.

AFRICAN DEVELOPMENT FOUNDATION

The bill provides \$32,500,000 for the African Development Foundation (ADF), which is \$2,743,000 above the fiscal year 2008 level and \$2,500,000 above the request.

The ADF is directed to provide a report to the Committees on Appropriations not later

than 90 days after enactment of this Act that outlines a timeline for implementation of the recommendations in the June 2008 USAID Inspector General audit and information about actions taken to ensure that the shortfalls in the Senegal program are not replicated in other ADF country programs.

DEPARTMENT OF THE TREASURY
INTERNATIONAL AFFAIRS TECHNICAL
ASSISTANCE

The bill provides \$25,000,000 for International Affairs Technical Assistance, which is \$4,765,000 above the fiscal year 2008 level and \$4,000,000 below the request.

DEBT RESTRUCTURING

The bill provides \$60,000,000 for Debt Restructuring, which is \$29,945,000 above the fiscal year 2008 level and \$81,000,000 below the request.

The bill provides \$20,000,000 to support implementation of the Tropical Forest Conservation Act.

TITLE IV

INTERNATIONAL SECURITY ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

PEACEKEEPING OPERATIONS

The bill provides \$250,200,000 for Peacekeeping Operations, which is \$23,819,000 below the fiscal year 2008 level and \$3,000,000 above the request, to support multilateral peacekeeping operations and training.

Trans-Sahara Counterterrorism Partnership.—The bill provides \$15,000,000 for this initiative.

Multinational Force and Observers (MFO).—The bill provides \$25,000,000 for a United States contribution to the MFO mission in the Sinai. Additional funds for security requirements should be matched by sources other than the United States.

Darfur.—The Department of State may provide up to \$16,000,000 from the Global Peace Operations Initiative to support peacekeeping efforts in Darfur for training the UNAMID operation, following consultation with the Committees on Appropriations.

INTERNATIONAL MILITARY EDUCATION AND
TRAINING

The bill provides \$91,000,000 for International Military Education and Training, which is \$5,819,000 above the fiscal year 2008 level and \$500,000 above the request.

Guatemala.—The bill continues certification requirements similar to prior years regarding the Guatemalan Air Force, Navy, and Army Corps of Engineers and cooperation with the International Commission Against Impunity.

Western Hemisphere Institute for Security and Cooperation (WHINSEC).—The Department of State is directed to provide a report not later than 60 days after enactment of this Act on all students and instructors at the WHINSEC for fiscal years 2005, 2006 and 2007. This report shall include names; rank; country of origin; and years of attendance, and may be provided in classified form.

FOREIGN MILITARY FINANCING PROGRAM

The bill provides \$4,635,000,000 for Foreign Military Financing Program (FMF), which is \$183,030,000 above the fiscal year 2008 level, excluding emergency appropriations, and \$177,000,000 below the request. The amount provided is in addition to \$440,000,000 that was provided in Public Law 110-252.

Country Programs

Colombia.—The bill provides \$53,000,000 for assistance for Colombia, of which \$12,500,000 is to support maritime interdiction, riverine operations, and to enhance communications

capabilities. The Secretary of State is directed to provide a report not later than 45 days after enactment of this Act on the status of the nationalization strategy.

Ethiopia.—The Secretary of State is directed to submit a report to the Committees on Appropriations detailing actions taken by the Ethiopian Government to address reports of abuses of civilians by Ethiopian security forces, particularly in the Ogaden region, and the continued harassment of members of opposition political parties and civil society organizations, including investigating and prosecuting Ethiopian military and police personnel alleged to have committed abuses.

Guatemala.—The bill provides \$500,000 for assistance for Guatemala, subject to conditions.

Haiti.—The bill provides \$2,800,000 for maritime interdiction efforts, subject to consultation with the Committees on Appropriations.

Indonesia.—The bill provides \$15,700,000 for Indonesia, of which \$2,000,000 is withheld from obligation until the Secretary of State submits a report to the Committees on Appropriations pursuant to section 7071(c) that contains the following information: (1) steps taken by the Government of Indonesia to revise the Code of Military Justice, Uniform Criminal Code and other relevant statutes, to permit trying members of the military alleged to have committed human rights abuses in Timor-Leste and elsewhere in civilian courts and to deny promotion, suspend from active service, and/or pursue prosecution of military officers indicted for serious crimes and to modernize and professionalize the management of the Government of Indonesia's defense forces, improve transparency and accountability in defense spending and operations respectively, refine further the mission of the Armed Forces and develop an appropriate national defense budget to execute that mission; (2) progress made by the National Team for the Transformation of Indonesian Armed Forces (TNI) Businesses to complete the transfer of legal businesses; and (3) whether the Government of Indonesia has written plans to effectively provide accountability for past violations of human rights by members of the Armed Forces, is allowing public access to Papua, including for foreign diplomats, nongovernmental organizations, and journalists, and has completed the investigation of the murder of Munir Said Thalib.

Israel.—The bill provides not less than \$2,380,000,000 in grants for Israel which shall be made available within 30 days of enactment of this Act. In addition, the Supplemental Appropriations Act, 2008 (Public Law 110-252) included \$170,000,000 for military assistance for Israel for a combined total of \$2,550,000,000 in fiscal year 2009, as requested and pursuant to a Memorandum of Understanding between the United States and Israel signed on August 16, 2007. Of the amounts provided, \$670,650,000 is for offshore procurement of military equipment.

Jordan.—The bill provides \$235,000,000 for assistance for Jordan.

Mexico.—The bill includes funding for assistance for Mexico, as part of the second phase of the Merida Initiative in order to fund the remaining three Bell-412 helicopters. The funds are not intended to purchase or lease UH-60 transport helicopters.

Morocco.—The Secretary of State is directed to report in writing not later than 90 days after enactment of this Act, on steps taken by the Government of Morocco to protect human rights, and whether it is allowing all persons to: (1) freely advocate their

views regarding the status and future of the Western Sahara through the exercise of their rights to peaceful expression and association; and (2) document violations of human rights in the territory without harassment.

Pakistan.—The bill includes \$300,000,000 for assistance for Pakistan only for strengthening border security along the border with Afghanistan, to combat terrorism, and to bolster law enforcement activities directed against Al Qaeda, the Taliban, and associated terrorist groups. Of this amount, up to \$50,000,000 is to be used to provide assistance to the Frontier Corps to strengthen and build its capacity to secure the border, combat terrorism, and prevent the use of the FATA as a safe haven for terrorist groups.

Tunisia.—The bill provides \$12,000,000 for assistance for Tunisia to transform its military, update equipment, and increase counterterrorism and international peacekeeping capabilities. Restrictions on political freedoms, the use of torture, imprisonment of political dissidents, and persecution of journalists and human rights defenders are of concern and progress on these issues is necessary for the partnership between the United States and Tunisia to further strengthen.

Maritime Security Assistance in Central America.—The bill provides \$15,000,000 to continue the naval cooperation program in the Caribbean and the countries of Central America and maintain the ongoing maritime security assistance program in support of the second phase of the Merida Initiative.

Funds in this account are allocated in the following table, subject to the requirements of section 7019 of this Act:

FOREIGN MILITARY FINANCING PROGRAM

Country/program (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
Armenia	3,000	3,000
Azerbaijan	3,000	3,000
Cambodia	750	1,000
Colombia	66,390	53,000
Egypt	1,300,000	1,300,000
Ethiopia	4,000	843
Guatemala	500	500
Haiti	1,600	2,800
Indonesia	15,700	15,700
Israel	2,550,000	2,380,000
Jordan	235,000	235,000
Lebanon	62,200	58,200
Mexico	2,000	39,000
Pakistan	300,000	300,000
Philippines	15,000	30,000
Poland	27,000	27,000
Thailand	800	1,600

Western Hemisphere Maritime Cooperation	7,886	15,000
FMF, Administrative Expenses	51,421	51,420
Unallocated FMF	163,491	105,937
Total, Foreign Military Financing Program	4,812,000	4,635,000

TITLE V

MULTILATERAL ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

INTERNATIONAL ORGANIZATIONS AND PROGRAMS

The bill provides \$352,500,000 for International Organizations and Programs, which is \$35,603,000 above the fiscal year 2008 level and \$75,600,000 above the request. Funds are allocated in the following table, subject to the requirements of section 7019 of this Act:

INTERNATIONAL ORGANIZATION AND PROGRAMS

Organization (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
Center for Human Settlements (UN-Habitat) ...	1,000	2,000
IMO Maritime Security Programs	400	400
International Civil Aviation Organization	950	950
International Conservation Programs	5,900	7,000
International Contributions for Scientific, Educational, & Cultural Activities	1,000	1,000

INTERNATIONAL ORGANIZATION AND PROGRAMS— Continued

Organization (Budget authority in thousands of dollars)	Fiscal year 2009 re- quest	Budget au- thority
International Development Law Organization ...	300	300
International Panel on Climate Change/UN Framework on Climate Change	5,320	8,000
Montreal Protocol Multilateral Fund	19,000	21,000
OAS Development Assistance Programs	5,000	5,500
OAS Fund for Strengthening Democracy	2,500	3,500
UN Children's Fund	124,500	130,000
UN Democracy Fund	14,000	3,000
UN Development Fund for Women	950	4,500
UN Development Program	75,300	100,000
UN Environment Program	9,524	10,500
UN Office for the Coordination of Humanitarian Affairs	2,000	3,000
UN High Commissioner for Human Rights	0	8,000
UN Voluntary Fund for Technical Cooperation in the Field of Human Rights	1,400	1,400
UN Voluntary Fund for Victims of Torture	5,006	7,100
UNIFEM Trust Fund	0	2,500
World Meteorological Organization	1,900	1,900
World Trade Organization	950	950
UN Population Fund	0	30,000
Total, International Organizations and Programs	276,900	352,500

United Nations Children's Fund (UNICEF).—The funding for UNICEF under this heading does not preclude USAID from providing additional funding for specific UNICEF projects as appropriate.

INTERNATIONAL FINANCIAL INSTITUTIONS

GLOBAL ENVIRONMENT FACILITY

The bill provides \$80,000,000 for the Global Environment Facility, which is \$1,101,000 below the fiscal year 2008 level and the same as the request.

CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

The bill provides \$1,115,000,000 for the contribution to the International Development Association, which is \$172,695,000 above the fiscal year 2008 level and \$162,000,000 below the request.

The Department of the Treasury is directed to consult with the Committees on Appropriations on the steps necessary for the United States to participate in the World Bank's fund for the Advanced Market Commitments for pneumococcal vaccines.

CONTRIBUTION TO THE ENTERPRISE FOR THE AMERICAS MULTILATERAL INVESTMENT FUND

The bill provides \$25,000,000 for the contribution to the Enterprise for the Americas Multilateral Investment Fund, which is \$203,000 above the fiscal year 2008 level and the same as the request.

CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND

The bill provides \$105,000,000 for the contribution to the Asian Development Fund, which is \$30,456,000 above the fiscal year 2008 level and \$10,250,000 below the request.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

The bill provides \$150,000,000 for the contribution to the African Development Fund, which is \$15,415,000 above the fiscal year 2008 level and \$6,055,000 below the request.

CONTRIBUTION TO THE INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

The bill provides \$18,000,000 for the contribution to the International Fund for Agricultural Development, which is \$74,000 above the fiscal year 2008 level and the same as the request.

TITLE VI

EXPORT AND INVESTMENT ASSISTANCE

EXPORT-IMPORT BANK OF THE UNITED STATES

INSPECTOR GENERAL

The bill provides \$2,500,000 for Inspector General, which is \$1,508,000 above the fiscal year 2008 level and the same as the request.

SUBSIDY APPROPRIATION

The bill provides \$41,000,000 for Subsidy Appropriation, which is \$26,449,000 below the fiscal year 2008 level and the same as the request.

ADMINISTRATIVE EXPENSES

The bill provides \$81,500,000 for Administrative Expenses, which is \$4,132,000 above the fiscal year 2008 level and the same as the request.

Renewable energy.—The Export-Import Bank is uniquely positioned to enable United States environmental exporters to take advantage of a surge in renewable energy projects in Canada, Western Europe, and Asia and therefore, of the aggregate loan, guarantee and insurance authority available to the Export-Import Bank in this Act not less than 10 percent should be for renewable energy technologies or energy efficient end-use technologies. The Export-Import Bank shall submit a report to the Committees on Appropriations not later than 90 days after enactment of this Act detailing all financing carried out in fiscal year 2009 for these purposes. Additionally, adequate staff should be assigned to the Office of Renewable Energy and Environmental Exports.

In fiscal year 2008, the Export-Import Bank was required to provide a strategy for increasing exports in renewable energy and environmentally beneficial products. The quality and scope of the strategy to increase exports in this area that was submitted to the Committees on Appropriations was inadequate. Therefore, GAO is directed to conduct an assessment of the Export-Import Bank's efforts to realize Congressional directives regarding the export of renewable energy and environmentally beneficial products and services, and provide this report to the Committees on Appropriations not later than 180 days after enactment of this Act. The assessment should include recommendations to improve the program.

Credit Export Facility for the Palestinian Authority.—The Export-Import Bank is directed to explore the potential for establishing a credit export facility for the Palestinian Authority by consulting with the Palestinian Authority, the Government of Israel, and others. Such a facility would ultimately be subject to a peace agreement and would have the goal of providing a funding facility for the private sector in the Palestinian Territory to purchase goods and services from the United States. The Export-Import Bank should report to the Committees on Appropriations on this proposal not later than 180 days after enactment of this Act.

OVERSEAS PRIVATE INVESTMENT CORPORATION

NONCREDIT ACCOUNT

The bill provides \$50,600,000 for administrative expenses, which is \$3,485,000 above the fiscal year 2008 level and the same as the request.

PROGRAM ACCOUNT

The bill provides \$29,000,000 for Program Account, which is \$5,690,000 above the fiscal year 2008 level and the same as the request. The Overseas Private Investment Corporation (OPIC) is directed to provide written reports on a semi-annual basis, as in prior years.

Renewable energy.—OPIC should play a role in helping to increase investment in renewable energy technologies and energy efficient end-use technologies. Not later than 90 days following the end of fiscal year 2009, OPIC shall submit a report to the Committees on Appropriations detailing all financing, guarantees, and insurance carried out in fiscal year 2009 for these purposes.

FUNDS APPROPRIATED TO THE PRESIDENT
TRADE AND DEVELOPMENT AGENCY

The bill provides \$50,800,000 for the Trade and Development Agency (TDA), which is \$808,000 above the fiscal year 2008 level and the same as the request.

Liberia.—TDA should consult with the Committees on Appropriations on the next phase of work related to the Mount Coffee Hydro Power Station and the construction of a proposed fiber optic ring around Monrovia.

TITLE VII

GENERAL PROVISIONS

The following general provisions carry language identical to the fiscal year 2008 Act except for a different section number or minor technical differences:

- Sec. 7001. "Allowances and Differentials."
- Sec. 7002. "Unobligated Balances Report."
- Sec. 7003. "Consulting Services."
- Sec. 7004. "Embassy Construction."
- Sec. 7005. "Personnel Actions."
- Sec. 7007. "Prohibition Against Direct Funding for Certain Countries."
- Sec. 7008. "Military Coups."
- Sec. 7009. "Transfer Authority."
- Sec. 7010. "Reporting Requirement."
- Sec. 7011. "Availability of Funds."
- Sec. 7012. "Limitation on Assistance to Countries in Default."
- Sec. 7013. "Prohibition on Taxation of United States Assistance."
- Sec. 7014. "Reservations of Funds."
- Sec. 7016. "Notification on Excess Defense Equipment."
- Sec. 7017. "Limitation on Availability of Funds for International Organizations and Programs."
- Sec. 7018. "Prohibition on Funding for Abortions and Involuntary Sterilization."
- Sec. 7020. "Prohibition of Payment of Certain Expenses."
- Sec. 7021. "Prohibition on Assistance to Foreign Governments that Export Lethal Military Equipment to Countries Supporting International Terrorism."
- Sec. 7022. "Prohibition on Bilateral Assistance to Terrorist Countries."
- Sec. 7024. "Definition of Program, Project, and Activity."
- Sec. 7025. "Authorities for the Peace Corps, Inter-American Foundation and African Development Foundation."
- Sec. 7027. "Separate Accounts."
- Sec. 7028. "Eligibility for Assistance."
- Sec. 7029. "Impact on Jobs in the United States."
- Sec. 7031. "Debt for Development."
- Sec. 7032. "Authority to Engage in Debt Buybacks or Sales."
- Sec. 7033. "Special Debt Relief for the Poorest."
- Sec. 7035. "Arab League Boycott of Israel."
- Sec. 7036. "Palestinian Statehood."
- Sec. 7037. "Restrictions Concerning the Palestinian Authority."
- Sec. 7038. "Prohibition on Assistance to the Palestinian Broadcasting Corporation."
- Sec. 7047. "Community-Based Police Assistance."
- Sec. 7048. "Prohibition of Payments to United Nations Members."
- Sec. 7049. "War Crimes Tribunals Drawdown."
- Sec. 7050. "Peacekeeping Missions."
- Sec. 7052. "United Nations Human Rights Council."
- Sec. 7053. "Attendance at International Conferences."
- Sec. 7054. "Restrictions on United Nations Delegations."
- Sec. 7055. "Parking Fines and Real Property Taxes Owed by Foreign Governments."

- Sec. 7056. "Landmines and Cluster Munitions."
- Sec. 7058. "Limitation on Residence Expenses."
- Sec. 7065. "Reconciliation Programs."
- Sec. 7066. "Comprehensive Expenditures Report."
- Sec. 7067. "Requests for Documents."
- Sec. 7068. "Senior Policy Operating Group."
- Sec. 7069. "Prohibition on Use of Torture."
- Sec. 7074. "Repression in the Russian Federation."
- Sec. 7075. "Central Asia."
- Sec. 7076. "Uzbekistan."
- Sec. 7080. "Prohibition on Publicity or Propaganda."
- Sec. 7082. "Extradition."
- Sec. 7084. "Prohibition on Promotion of Tobacco."
- Sec. 7085. "Commercial Leasing of Defense Articles."
- Sec. 7086. "Anti-Kleptocracy."
- Sec. 7090. "Orphans, Displaced and Abandoned Children."
- Sec. 7091. "Sri Lanka."

The following provisions are new or modified from the fiscal year 2008 Act.

Sec. 7006. Consular Affairs Reform

A new provision that requires a certification that recommendations contained in the Inspector General's audit of the Department of State's Passport Information Electronic Records System are implemented.

Sec. 7015. Reprogramming Notification Requirements

The provision is modified to include a new notification requirement related to funds transferred or made available to the Department of State by the Department of Defense and incorporates the countries previously contained in the general provision regarding funding allocation requirements.

Sec. 7019. Allocations

The provision is modified by striking charts for "American Sections, International Commissions", "Democracy Fund", "Assistance for East Europe and the Baltic States", "International Narcotics Control and Law Enforcement", "Peacekeeping Operations", and "Assistance for the Independent States of the Former Soviet Union" and adds charts for "International Fisheries Commissions", "Development Assistance", and "Assistance for Europe, Eurasia and Central Asia".

Sec. 7023. Authorization Requirements

The provision is modified by merging sections 110 and 653 of the fiscal year 2008 Act, and by striking the heading "Overseas Private Investment Corporation".

Sec. 7026. Commerce, Trade and Surplus Commodities

The provision is modified by combining sections 613 and 614 of the fiscal year 2008 Act.

Sec. 7030. International Financial Institutions

The provision is modified by combining sections 601 and 659 of the fiscal year 2008 Act and directing the United States Executive Director to the International Monetary Fund (IMF) to oppose programs that do not exempt increased government spending on health care or education from limits imposed by the IMF in certain countries.

Sec. 7034. Special Authorities

The provision modifies the fiscal year 2008 Act by moving subsections (b), (c) and (h) to sections 7084, 7059 and 7071 of this Act, respectively; deleting subsections (j), (r), (s) and (t); including new subsections (m) and (o); and modifying subsection (d), (g) and (p).

The provision includes a revised subsection (f) that authorizes assistance to address inhumane conditions in prisons and other detention facilities administered by foreign governments that the Secretary of State determines are making efforts to provide adequate space, sanitary disposal of human waste, sufficient food, clean water, medical care and other requirements for safe and humane detention. In addition to any assistance made available, the Secretary of State should encourage governments to vigorously monitor the conditions of prisons and other detention facilities under their authority, cooperate with international experts, and consider appointing ombudsmen for prisoners, reducing sentences for nonviolent offenders to alleviate overcrowding, moving juveniles out of inhumane facilities, and improving pretrial detention, bail and record-keeping procedures to reduce pretrial detention periods and ensure that prisoners do not serve beyond the maximum sentence for the charged offense. The Secretary of State is directed to designate a Deputy Assistant Secretary of State in the Bureau of Democracy, Human Rights and Labor to have primary responsibility for diplomatic efforts related to international prison conditions.

Sec. 7039. Assistance for the West Bank and Gaza

The provision is modified by requiring that funds are subject to the regular notification procedures.

Sec. 7040. Limitation on Assistance for the Palestinian Authority

The provision includes section 650 and selected provisions from section 644 from the fiscal year 2008 Act, and certification requirements for the use of a Presidential waiver regarding compliance with section 620K(b)(1)(A) and (B) of the Foreign Assistance Act of 1961.

Sec. 7041. Broadcasting Transparency

The provision modifies section 114 of the fiscal year 2008 Act and is related to transparency of broadcasts in the Middle East.

Sec. 7042. Iraq

The provision continues the prohibitions on funding contained in the fiscal year 2008 Act; exempts funds provided under the "Non-proliferation, Anti-terrorism, Demining and Related Programs" heading; modifies the matching contribution requirements contained in section 1402 of Public Law 110-252; and requires a transition plan for post-conflict reconstruction and stabilization assistance not later than 180 days after enactment of this Act.

Sec. 7043. Report on Iran Sanctions

A new provision which requires the Department of State to provide a report on the status of United States Government efforts to enforce and expand bilateral and multilateral sanctions against Iran.

Sec. 7044. Lebanon

A new provision which requires a spending plan and strategy prior to obligation of funds under the "Foreign Military Financing Program" heading, which are available only to professionalize the Lebanese Armed Forces, strengthen border security, interdict arms shipments and combat terrorism; and requires a report 180 days after enactment of this Act on the progress in implementing the strategy.

Sec. 7045. Western Hemisphere

The provision is modified from the fiscal year 2008 Act by deleting allocation requirements under "Global Health and Child Survival" and "Development Assistance"; continuing funding allocations and legislative

requirements for Haiti, Dominican Republic, Guatemala and Free Trade Agreements; incorporating Mexico and Central America funding allocations and similar legislative requirements as contained in Public Law 110-252; and providing that aircraft operations and maintenance costs should be borne by the recipient country to the maximum extent practicable.

Sec. 7046. Colombia

The provision provides that not more than \$545,050,000 of the funds appropriated by titles III and IV shall be made available for assistance for Colombia. The provision is similar to section 649 of the fiscal year 2008 Act except that the provision provides that any changes shall be subject to the regular notification procedures; withholds 30 percent of the assistance for the Colombian military due to human rights concerns; and applies the conditions not only to individuals who have aided or abetted paramilitaries or successor armed groups, but also to those who have benefitted financially, politically, or otherwise, from such links. Similar language is included regarding the denial of visas. The bill moves the language conditioning aerial spraying from the "Andean Counterdrug Programs" heading to this provision.

COLOMBIA

Programs/Accounts (Budget authority, dollars in thousands)	Fiscal year 2009 request	Budget authority
Foreign Military Financing (FMF)	66,390	53,000

Sec. 7051. Peacekeeping Assessment

The provision is modified by changing calendar year 2008 to calendar years 2005, 2006, 2007, and 2008.

Sec. 7057. Millennium Challenge Corporation

The provision is modified by dropping subsection (a) of section 699I of the fiscal year 2008 Act and modifying the reporting requirements.

Sec. 7059. United States Agency for International Development Management

The provision is modified by combining section 676, section 634(c), and the first two provisos of section 622 of the fiscal year 2008 Act; requiring the development of a recruitment strategy not later than December 31, 2009; and addressing two personnel issues.

Sec. 7060. Global Health Activities

The provision is modified by combining the third and fourth provisos of section 622 with section 625(a) and (a)(1) of the fiscal year 2008 Act; modifying the funding level for family planning; and modifying the withholding language related to the Global Fund.

Sec. 7061. Development Grants Program

The provision is modified by changing the funding level and removing the reporting requirement that was included in the fiscal year 2008 Act.

Sec. 7062. Women in Development

A new provision which requires USAID to integrate gender issues into its programming. USAID is directed to report 180 days after enactment of this Act on the steps taken to better integrate gender considerations into its economic development portfolio, and describe current and future planned programming that promote women's economic opportunities, including the outcomes associated with these programs disaggregated by gender.

Sec. 7063. Gender-Based Violence

The provision is modified by revising the programming requirement. USAID and the Department of State are directed to report to the Committees on Appropriations not later than 120 days after enactment of this Act on programs addressing sexual and gender-based violence and how these issues are being integrated into foreign police, judicial and military training programs.

Sec. 7064. Education

The provision is modified by establishing a new pilot program and removing the reporting requirement in subsection (a) that was in the fiscal year 2008 Act and adding a new subsection (b) related to higher education.

Sec. 7070. Africa

A new provision which incorporates sections 666 and 687, two funding limitations related to international military education and training that were included under the "International Military Education and Training" heading, and the funding limitation in section 673 of the fiscal year 2008 Act; includes a reporting and certification requirement for Zimbabwe; and adds a new program on the Horn of Africa and Pan Sahel. A prior year requirement on staffing in Chad was not carried forward.

Sec. 7071. Asia

The provision modifies section 638 of the fiscal year 2008 Act. In addition to the prior year language concerning assistance for Burma and Tibet, the provision includes funding directives and limitations on assistance for Indonesia, the Philippines, Cambodia, North Korea, the People's Republic of China, and Vietnam. The provision also contains restrictions related to processing of licenses for the export of satellites which was previously carried under the heading "Diplomatic and Consular Programs".

Sec. 7072. Serbia

The provision modifies section 699D of the fiscal year 2008 Act to reflect current developments in the region.

Sec. 7073. Independent States of the Former Soviet Union

The provision modifies section 617 of the fiscal year 2008 Act by dropping subsections (b) and (d) and making corresponding technical changes to reflect the new appropriations account.

Sec. 7077. Afghanistan

The provision is modified to include an overall funding level and provides a minimum funding requirement for programs that address the needs of women and girls.

Sec. 7078. Enterprise Funds

The provision is modified by adding a notification requirement.

Sec. 7079. United Nations Population Fund

The provision is modified by changing the dollar amount, changing the notification date related to UNFPA funding in China, modifying the subsection on availability of funds by describing the purposes for which UNFPA funds may be spent, making technical changes to the subsection on conditions on availability of funds, and eliminating the transfer authority.

Sec. 7081. OPIC

The provision is amended to extend the authorization for OPIC to September 30, 2009.

Sec. 7083. Energy and Environment

The provision is modified by including section 684(a), (b)(1) and (c) of the fiscal year 2008 Act; by including a modified 634(b); by revising the funding level for clean energy programs; and providing new authorities to make contributions to the Galapagos Invasive Species Fund and the Least Developed Countries Fund, subject to limitations.

Sec. 7087. Training and Equipment Reports

The provision is modified by requiring a report not later than 90 days after enactment of this Act detailing equipment purchased with funds provided under the "Andean Counterdrug Programs", "International Narcotics Control and Law Enforcement", and "Foreign Military Financing Program" headings.

Sec. 7088. Transparency and Accountability

The provision modifies subsections (a), (b) and (c) of the fiscal year 2008 Act.

Sec. 7089. Disability Programs

The provision is modified to continue a requirement related to Disability Programs.

Sec. 7092. Export-Import Bank Rescission

The provision rescinds a total of \$44,000,000 appropriated in prior Acts under the heading "Subsidy Appropriation" for the Export-Import Bank of the United States.

The following general provisions enacted in the fiscal year 2008 Act are not carried forward.

- Sec. 105. "Denial of Visas."
- Sec. 107. "United States Citizens Born in Jerusalem."
- Sec. 109. "Compliance with Section 609."
- Sec. 115. "Department of State Inspector General."
- Sec. 116. "Consular Operations."
- Sec. 117. "International Boundary and Water Commission."
- Sec. 118. "Commission Financial Management."
- Sec. 602. "Restrictions on Contributions to the United Nations."
- Sec. 605. "Limitation on Representation Allowances."

- Sec. 630. "Financial Market Assistance."
Sec. 654. "Libya."
Sec. 651. "Limitation on Assistance to Security Forces."
Sec. 658. "War Criminals."
Sec. 667. "Trade Capacity Building."
Sec. 669. "Excess Defense Articles for Central and South European Countries and Certain Other Countries."
Sec. 671. "Limitation on Economic Support Fund Assistance for Certain Foreign Governments that are Parties to the International Criminal Court."
Sec. 675. "Disaster Assistance and Recovery."
Sec. 682. "Report on Indonesia."
Sec. 689. "Neglected Tropical Diseases."
Sec. 690. "Egypt."
Sec. 691. "Relief for Iraqi, Montagnards, Hmong and other Refugees who do not Pose a Threat to the United States."
Sec. 692. "Report on Anti-Corruption Activities."
Sec. 693. "Democracy, Rule of Law and Governance in Iran."
Sec. 694. "Denial of Visas Related to Removal of Aliens."
Sec. 697. "Saudi Arabia."
Sec. 699B. "Advisor for Activities Relating to Indigenous Peoples Internationally."
Sec. 699C. "Child Soldiers."
Sec. 699F. "Pakistan."
Sec. 699H. "Multilateral Development Banks."
Sec. 699J. "Carry Forward of Unused Special Immigrant Visas."
Sec. 699M. "Comprehensive Nuclear Threat Reduction and Security Plan."
Sec. 699O. "Unobligated Funds Rescission."
Sec. 699P. "Across-the-Board Rescission."
- DISCLOSURE OF EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS
- Pursuant to clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, neither this division nor the explanatory statement accompanying this division contain any congressional earmarks or congressionally directed spending items, limited tax benefits or limited tariff benefits as defined in the applicable House and Senate rules.

**DIVISION I—TRANSPORTATION, HOUSING
AND URBAN DEVELOPMENT, AND RE-
LATED AGENCIES APPROPRIATIONS
ACT, 2009**

Following is an explanation of the effects of this division (hereafter referred to as “the bill”). Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

**TITLE I—DEPARTMENT OF
TRANSPORTATION**

**OFFICE OF THE SECRETARY
SALARIES AND EXPENSES**

The bill provides \$98,248,000 for the salaries and expenses of the Office of the Secretary of Transportation and includes funding specified by office. The bill provides as follows:

Immediate Office of the Secretary	\$2,400,000
Immediate Office of the Deputy Secretary	759,000
Office of the General Counsel ...	19,838,000
Office of the Under Secretary for Transportation Policy	10,107,000
Office of the Assistant Secretary for Budget and Programs	10,200,000
Office of the Assistant Secretary for Governmental Affairs	2,400,000
Office of the Assistant Secretary for Administration	26,000,000
Office of Public Affairs	2,020,000
Office of the Executive Secretariat	1,595,000
Office of Small and Disadvantaged Business Utilization	1,369,000
Office of Intelligence, Security, and Emergency Response	8,675,000
Office of the Chief Information Officer	12,885,000

Budget Justifications.—The Department is directed to include the same level of detail that was provided in the congressional justifications presented in fiscal year 2009, including funding levels for the prior year, current year, and budget year for all programs, activities, initiatives, and program elements as well as a detailed justification for the incremental funding increases and additional FTEs being requested above the enacted level, by program, activity, or program element. The Department is also directed to include detailed information in tabular format which identifies specific changes in funding from the current year to the budget year for each office, including each office within the office of the Secretary.

General Provisions.—The Department is directed to justify each general provision proposed either in its relevant modal congressional justification or in the congressional justification for the office of the Secretary of Transportation.

Operating Plan.—The Department shall submit an operating plan for fiscal year 2009 to the Committees on Appropriations within 60 days of the bill’s enactment. The operating plan should include funding levels for the various offices, programs and initiatives detailed down to the object class or program element covered in the budget justifications.

Prohibitions.—The bill prohibits any funds from being used for the position of Assistant Secretary for Public Affairs. The request for two additional FTEs in the Office of Intelligence, Security, and Emergency Response is denied.

Protection of Air Passengers.—Within the amounts provided to the Office of the General Counsel, an additional \$2,500,000 is provided. The Office of the General Counsel is directed to use these funds exclusively for activities that most effectively improve the enforcement of rules and the protection of air travel consumers. The office is further directed to use none of the funds for organizing public forums to discuss general consumer issues.

Reception and Representation Expenses.—Within the funds provided, the bill allows the Department to spend up to \$60,000 for official reception and representation expenses.

Transfer Limitation.—The bill provides a limitation on transfers between offices within the Office of the Secretary to no more than 5 percent and requires that any transfer greater than 5 percent must be submitted for approval to the Committees on Appropriations.

User Fees.—The bill provides that up to \$2,500,000 in user fees may be credited to salaries and expenses.

Working Capital Fund Audit.—The Office of the Secretary is instructed to reimburse up to \$100,000 to the Office of the Inspector General to audit the Working Capital Fund.

FINANCIAL MANAGEMENT CAPITAL

The bill provides \$5,000,000 for the financial management capital program.

Budget Request.—The Department shall also provide more detailed justifications for this program in its fiscal year 2010 budget request. These justifications should clearly display the amount requested for OST as well as the amount included in the budget request from each modal administration.

Expenditure Plan.—The Department is directed to provide the Committees on Appropriations with an expenditure plan 30 days after the enactment of this Act that outlines the amount of funding for this initiative, including the amount contributed by each modal administration, as well as the benefits that will result from these investments.

OFFICE OF CIVIL RIGHTS

The bill provides \$9,384,000 for the office of civil rights.

**TRANSPORTATION PLANNING, RESEARCH AND
DEVELOPMENT**

The bill provides \$18,300,000 for transportation planning, research and development. Adjustments to the budget request are as follows:

Ballast water research, UW-Superior, WI	\$950,000
Great Lakes maritime research institute, WI	\$950,000
Fire and Oil Spill Response Communications Project, WA	\$1,520,000
Commercial Vehicle Rollover Prevention Technology Demonstration, MI	\$950,000
Inland Pacific Hub Analysis Project, WA	\$237,500
Advanced Freight Locomotive Safety and Monitoring Systems Implementation, MA	\$950,000
Wildlife Crossing Project, FL	\$950,000
University Transportation Center, MS	\$475,000
Freight transportation policy institute, WA	\$475,000
Assessment of Critical Transportation Infrastructure, MS	\$712,500
Decision Support Tools for Transportation Resilience and Security, MS	\$712,500
National Institute for Aviation Research (NIAR) at Wichita State University, KS	\$950,000

WORKING CAPITAL FUND

The bill includes a limitation of \$128,094,000 for working capital fund activities, and specifies that services shall be provided on a competitive basis to entities within the Department of Transportation. Services should be provided on a competitive basis to the maximum extent possible. The bill also provides that the limitation does not apply to non-DOT entities, and that no funds appropriated in this act to an agency of the Department of Transportation shall be transferred to the Working Capital Fund without the approval of the agency modal administrator. The bill directs that no assessments may be levied against any program, budget activity, subactivity or project funded by this Act unless notice of such assessment and the basis are presented to and approved by the Committees on Appropriations.

Budget Justification.—For each modal administration’s fiscal year 2010 congressional budget justification, the Department is directed to account for increases or decreases in working capital fund billings based on planned usage requested or anticipated by the modes rather than anticipated by working capital managers. The Department is also directed to update the transparency paper included in the justification for fiscal year 2009 and include it in the budget justifications for fiscal year 2010.

**MINORITY BUSINESS RESOURCE CENTER
PROGRAM**

The bill provides a total appropriation of \$912,000 for the minority business center program; \$353,000 of which is provided for the costs of guaranteed loans for short-term working capital and \$559,000 for administrative expenses. The bill limits loans made under this program to \$18,367,000.

MINORITY BUSINESS OUTREACH

The bill provides \$3,056,000 for minority business outreach and allows funds to be used for business opportunities related to any mode of transportation.

**PAYMENTS TO AIR CARRIERS
(AIRPORT AND AIRWAY TRUST FUND)
(INCLUDING TRANSFER OF FUNDS)**

The bill provides \$73,013,000 for payments to air carriers. In addition to these funds, the program will receive \$50,000,000 in mandatory spending pursuant to the Federal Aviation Authorization Act of 1996. It is anticipated that approximately \$10,000,000 still remains available pursuant to the Deficit Reduction Act of 2005, resulting in a total program budget for fiscal year 2009 of \$133,013,000. The bill allows the Secretary to consider the relative subsidy requirements of the carriers in determining between or among competing carriers. The bill also directs the Secretary to transfer to the essential air service program such sums as may be necessary to continue service to all eligible essential air service communities. If required, the Secretary shall transfer the funds from the Office of the Secretary.

The Administration’s proposal to restructure the essential air service program is rejected.

**COMPENSATION FOR AIR CARRIERS
(RESCISSION)**

The bill rescinds remaining balances from unobligated funds from the compensation for air carriers.

**ADMINISTRATIVE PROVISIONS—OFFICE OF THE
SECRETARY OF TRANSPORTATION**

Section 101 allows the Secretary to transfer unexpended sums available for the bonding assistance program from “Office of the

Secretary, salaries and expenses" to "minority business outreach".

Section 102 prohibits the Office of the Secretary of Transportation from approving assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 103 prohibits the use of funds to implement an essential air service local cost share participation program.

Section 104 allows the Secretary to engage in activities with states or state legislatures to consider proposals related to the reduction of motorcycle fatalities.

FEDERAL AVIATION ADMINISTRATION
OPERATIONS
(AIRPORT AND AIRWAY TRUST FUND)

The bill includes \$9,042,467,000 for operations of the Federal Aviation Administra-

tion which is \$44,005,000 above the budget request and \$302,467,000 above the fiscal year 2008 enacted level. Of the total amount provided, \$5,238,005,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity.

The following table compares the President's budget request with the levels provided in the bill by budget activity:

	FY 09 budget request	Recommendation
Air Traffic Organization Adjustments:	\$7,078,793,000	\$7,078,793,000
Controller Training Activities		15,000,000
Contract Tower base program		921,000
Contract Tower Cost-Share		305,000
RNAV/RNP Procedures		4,000,000
Total, Air Traffic Organization	7,078,793,000	7,099,019,000
Aviation Safety Adjustments:	1,130,927,000	1,130,927,000
Annualize on-board AIR and AFS staff:		16,900,000
Additional AFS Staff		8,000,000
Additional AIR Staff		2,000,000
Alternative Compliance		320,000
Repair, Alteration & Fabrication		1,000,000
Airworthiness & Safety		450,000
Whistleblower Activities		200,000
Element Performance Inspections		2,250,000
Medallion Program, Alaska		2,375,000
National Agricultural Aviation Research & Education Foundation		47,500
Total, Aviation Safety	1,130,927,000	1,164,597,000
Commercial Space Transportation	14,094,000	14,094,000
Financial Services	112,004,000	111,004,000
Human Resource Management	96,091,000	96,091,000
Region and Center Operations	336,894,000	331,000,000
Staff Offices	181,321,000	180,859,000
Information Services	48,338,000	46,500,000
Account-wide Adjustments:		
Unfilled executive positions		- 697,000
Amount recommended		- 697,000
Total	\$8,998,462,000	\$9,042,467,000

Controller Staffing and Training.—The bill requires FAA to transmit an annual update to the controller workforce plan by March 31, 2009, and reduces the appropriation by \$100,000 per day each day the report is late. The FAA is directed to include facility-by-facility data as well as a new benchmark for each facility for evaluating the proportion of certified controllers to controllers-in-training and developmental controllers. The agency is also expected to promptly implement strategies from the 2004 controller workforce plan and directs that the 2009 workforce plan include an update on the agency's progress. Funding under this heading also includes \$15,000,000 for controller training activities including additional contract trainers; for expenses needed to retain experienced controllers and to attract controllers at needed locations; and to accelerate the hiring pace of new controllers. The FAA is directed to provide a report to the House and Senate Committees on Appropriations within 30 days of enactment that describes the agency's use of the controller training funds.

Contract tower program.—The bill includes \$110,000,000 for the contract tower base program and \$9,000,000 for the contract tower cost-sharing program. In addition, the FAA is permitted to use unsubscribed funds from the contract tower base line program to avoid elimination of communities from the cost share towers program, but only after all base line tower obligations have been fulfilled.

Technical staffing requirements.—The FAA is directed to carefully monitor the size and capability of its technical workforce and to maintain agreed upon staffing levels. The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations as to the agency's technical staffing levels.

RNAV/RNP procedures.—Within the amounts provided for the air traffic organization, \$39,200,000 is included for RNAV/RNP procedures. FAA is directed to include a dedicated section for the FAA's performance based navigation program in future budget submissions and to provide semi-annual reports to the House and Senate Committees on Appropriations on the number of procedures developed, average cost and steps taken to streamline the procedure approval process.

TRACON security staffing.—The FAA is directed to evaluate the security staffing needs at the TRACON in Seattle, Washington and then allocate the appropriate level of staff to address any shortfall.

Aviation safety (AVS).—The bill provides \$1,164,597,000 for aviation safety, which is an increase of \$33,670,000 over the budget request and \$82,995,000 over the fiscal year 2008 enacted level. This amount includes \$16,900,000 to annualize safety personnel in AFS and AIR that are currently on-board. The bill includes no less than \$10,000,000 to increase aviation safety staff of which \$8,000,000 is directed for additional flight standards inspectors and \$2,000,000 is directed for aircraft certification inspectors and related staff.

The Secretary is directed to continue to provide an annual report on aviation safety employment data which delineates inspector losses and gains from the beginning of fiscal year 2009 until March 31, 2009. The report is due to the House and Senate Appropriations Committees by April 10, 2009. In addition, the FAA is expected to include the fully annualized cost of the additional inspectors in the fiscal year 2010 budget. If the FAA chooses not to fund these inspectors, the agency is directed to display changes to the

aviation safety base program and how many inspector positions would be affected.

Additionally, the FAA is directed to establish a working group, including safety inspectors, to develop a benchmark to measure how much time inspectors spend in the field and to include that benchmark in the next inspector workforce plan. FAA is directed to provide semi-annual reports to the House and Senate Appropriations Committees on all overdue safety attribute inspections and element performance inspections including a target completion date.

Air transportation oversight system (ATOS).—The Department of Transportation Office of Inspector General (OIG) is directed to submit a report to the House and Senate Committees on Appropriations within six months of enactment which verifies the ATOS field data that is sent to FAA headquarters; describes the agency's analysis of that data; and, evaluates the effectiveness of FAA's use of the data.

Inspector staffing model.—The FAA is directed to notify the House and Senate Committees on Appropriations if the agency is 30 days delinquent on any of the milestones related to the safety inspector staffing model.

Medallion program.—Within the funds provided for aviation safety, \$2,375,000 is included to continue the Medallion program, a cooperative program to improve rural air safety in Alaska.

Professional aerial application support system.—The recommendation includes \$47,500 for the National Agricultural Aviation Research and Education Foundation's Professional Aerial Application Support System. This program is designed to assist with agricultural pilot safety, operational security and the safe and accurate delivery of crop protection products.

Commercial space transportation.—The FAA is directed to provide semi-annual updates to the House and Senate Committees on Appropriations on commercial airspace test flight activities.

Workforce diversity plans for controllers and safety staff.—The FAA is directed to provide a further update to the workforce diversity plan required in fiscal year 2008 in order to measure the progress and specific efforts that the agency has made to eliminate barriers for underrepresented populations in the

FAA's controller and safety workforce. The submittal date for the plan is April 1, 2009.

FACILITIES AND EQUIPMENT
(AIRPORT AND AIRWAY TRUST FUND)

The bill includes \$2,742,095,000 for FAA facilities and equipment which is \$18,585,000 above the budget request and \$228,484,000 above the fiscal year 2008 enacted level. Of the total amount available, \$460,500,000 is available until September 30, 2009, and \$2,281,595,000 is available until September 30, 2010. The bill includes language directing

FAA to transmit a detailed five-year capital investment plan to Congress with its fiscal year 2010 budget submission. Additionally, the bill requires FAA to conduct an analysis of the current air traffic control system compared to the planned NextGen system and to transmit with the fiscal year 2010 budget a list of capabilities to be achieved by 2017 and their estimated costs.

The following table provides a breakdown of the fiscal year 2009 budget estimate and the fiscal year 2009 funding levels by program:

	FY 2009 estimate	Recommendation
Activity 1, Engineering, Development, Test and Evaluation:		
Advanced Technology Development and Prototyping	41,400,000	44,900,000
Traffic Management Advisor (TMA)	3,700,000	3,700,000
NAS Improvement of System Support Laboratory	1,000,000	1,000,000
William J. Hughes Technical Center Facilities	12,000,000	12,000,000
William J. Hughes Technical Center Infrastructure Sustainment	5,400,000	5,400,000
Next Generation Network Enabled Weather	20,000,000	20,000,000
Data Communications for Trajectory Based Operations (NGATS)	28,800,000	28,800,000
Next Generation Transportation System Technology Demonstration	28,000,000	28,000,000
Next Generation Transportation System—System Development	41,400,000	41,400,000
Next Generation Transportation System—Trajectory Based Operations	39,500,000	39,500,000
Next Generation Transportation System—Weather Reduction Impact	14,400,000	14,400,000
Next Generation Transportation System—High Density Arrivals/Departures	18,200,000	18,200,000
Next Generation Transportation System—Collaborative ATM	27,700,000	27,700,000
Next Generation Transportation System—Flexible Terminals and Airports	37,100,000	37,100,000
Next Generation Transportation System—Safety Security and Environment	8,000,000	8,000,000
Next Generation Transportation System—Networked Facilities	17,000,000	15,000,000
ADS-B Three Nautical Mile Separation		6,765,000
Total, Activity 1	343,600,000	351,865,000
Activity 2, Air Traffic Control Facilities and Equipment:		
En Route Programs		
En Route Automation Modernization (ERAM)	203,050,000	203,050,000
En Route Communications Gateway (ECG)	7,400,000	7,400,000
Next Generation Weather Radar (NEXRAD)—Provide	3,000,000	3,000,000
Air Traffic Control System Command Center (ATCSCC)—Relocation	28,600,000	28,600,000
ARTCC Building Improvements/Plant Improvements	56,500,000	56,500,000
Air Traffic Management (ATM)	90,200,000	90,200,000
Air/Ground Communications Infrastructure	7,500,000	7,500,000
ATC Beacon Interrogator (ATCBI)—Replacement	13,000,000	13,000,000
Air Traffic Control En Route Radar Facilities Improvements	5,300,000	5,300,000
Voice Switching and Control System (VSCS)	23,300,000	23,300,000
Oceanic Automation System	20,700,000	20,700,000
Corridor Weather Integrated System (CWIS)	5,900,000	5,900,000
San Juan Radar Approach Control (CERAP)	6,000,000	6,000,000
Next Generation Very High Frequency Air/Ground Communications System (NEXCOM)	46,400,000	46,400,000
System-Wide Information Management	41,000,000	43,042,500
ADS-B NAS Wide Implementation	300,000,000	300,000,000
Wind Hazard Detection Equipment		807,500
Subtotal En Route Programs	857,850,000	860,700,000
Terminal Programs		
Airport Surface Detection Equipment—Model X (ASDE-X)	32,700,000	33,700,000
Terminal Doppler Weather Radar (TDWR)—Provide	6,100,000	6,100,000
Standard Terminal Automation Replacement System (STARS) (TAMR Phase 1)	28,200,000	28,200,000
Terminal Automation Modernization/Replacement Program (TAMR Phase 3)	3,000,000	3,000,000
Terminal Automation Program	4,300,000	4,300,000
Terminal Air Traffic Control Facilities—Replace	134,295,476	136,545,476
ATCT/Terminal Radar Approach Control (TRACON) Facilities Improve	37,900,000	37,900,000
Terminal Voice Switch Replacement (TVSR)	8,400,000	8,400,000
